# CLASS HISTORY

At 9 o'clock one September morning in 1939, thirty-two, wide-eyed, innocent little youngsters sneaked into Miss Collette's first grade room clinging to the arms of their mothers. Who was the shy little girl with the long curls and long white stockings?—No, it couldn't be, but it was—Elly Schwartzwald! Remember that darling four-way reversible dress of Jackie's that someone cut a perfect triangular hole in? And remember when Patsy was yelled at twice and still went home with the apple tree, for **supposedly** being the best behaved? Greta wanted to know what happened to her two front teeth—she lost them. Lewis was generous with the candy, but, ohhh—try to get a color crayon.

In our second year Miss Larson taught us the art of making butter. In the middle of the year a darling little blond boy named David, dressed in jodphurs and cowboy boots, arrived to set all our hearts a-flutter.

Miss Welna, our third grade teacher, gave us a taste of dramatics when we presented our first play. Remember that cute little pickled appendix that Lewis brought and passed around the room?

Patsy and Dave edited our first magazine under the direction of Miss West (later Mrs. Kersting) in the fourth grade. This year socialite Greta Lindquist left for a trip to South Dakota to spend the winter.

A newcomer in the fifth grade was a cute little girl with long black braids tied with big plaid ribbons (which Elly dunked in the ink because she didn't like them). Ask Mary Hady why she wore those ribbons.

Another heartbreaker, this time from Chicago, joined us in the sixth grade. Need we mention any names, Ronnie? He gave nice Christmas presents, didn't he Betty—still got your mittens? That was the year Greta was so crazy about "sports". After we were through with "Jonesy", she gave up her teaching career and settled down to a nice, quiet marriage.

Now we were in the seventh grade and were really getting places, because we had a different teacher for every class. I wonder why we always passed our history tests—could it be that Miss Just gave us all the answers? The beginning of a long, but broken romance started in the seventh grade between Elly and Dave. And how about when Ronnie and Dave broke the record by going out for cheerleading? (And did a good job of it, too.)

The "Rock Crickets" added excitement to our eighth year. Kubie got writers' cramp from writing thousand word themes every time he opened his mouth in English class. (Knowing Kubie, imagine how many he wrote!) Remember all the **serious** love affairs? Ronnie and Sally, Danny and Mary, Dave and Jackie, Jerry and Pat. "Rumplestiltskin" sorta came in handy when we were all learning to dance.

And then our class grew up—in more ways than one. One hundred and seven Freshmen started their high school days. The float meetings started a lot of close friendships. We'll never forget the wonderful times we had at "The Liner". Friday nights became quite a habit. That was the year we followed our basketball team to the Regional at Hibbing.

The year of 1948-49 brought us all back full of plans and a greater feeling of importance. We had a few more newcomers this year. Ella Mae Russell from St. Paul, Jim Bosson from Sweden, Charles Rike from Rush City, and Charles Roegge from Hinckley. Typing, biology and geometry added to the newness of real high school life. The mothers got together and gave us our first formal party at "The Liner" in the spring of the year.

Soon after we began our Junior year we presented a smash-hit, our Junior class play, "Little Women". "Just to be different", the girls chased the boys at a Sadie Hawkins' Day party, which broke the ice for other

school parties to follow. When Prom time came around, we were determined to exceed the efforts of our predecessors. Afterward we felt it had been a huge success and received our compliments with a great deal of satisfaction.

And then, after years of longing and hoping, the time had come—we were at last Seniors. Betty Lou, our Senior Homecoming Queen, reigned over our undefeated football team of 1950. For the first time in our history, our float won first prize in the parade. We all celebrated our team's victory over North Branch at our first real Homecoming Dance at Pine Camp. The opening of the Dragon's Den provided an ideal place to hold parties and a hang-out for the crowd.

Other events such as the Class Play and the Prom gave all that was needed to make our year complete. And with the coming of Spring and Commencement, strains of "Pomp and Circumstance" were drifting through the evening air. The time had come. The boys had stopped playing cowboys and Indians, and the girls had put their dolls away. The boys had switched from marbles to more expensive gifts to give the girls as tokens of affection. No more rowdy Christmas parties, no more yellow conduct slips, no more high school crushes. Other Dragons will wear the green and gray. Other voices will cheer them on. And we, the Seniors of nineteen hundred and fifty-one, bid farewell to the halls of Pine City High School.

# TEN YEARS FROM NOW

Yesterday, much to my surprise, I received an announcement to Nancy Fleming's wedding. This took me back ten years to the days when Nance and I were school chums in good old PCHS. I often wondered what became of the class of '51.

The Alaskan winters were becoming a bit tedious, so I contacted the Turgeon Bay Fur Company and procured Lauren Larsen and his husky Huskies as my guide to civilization. We stopped at Martinson's Reindeer Farm to thaw out and discovered that Russell was chief milk producer for Bible's Dairy.

Arriving at Nome, I bought a Buick at the Vettling and Vettling Garage and drove to Louie O's Restaurant for a snack and saw that their specialty for the day was pickled appendixes. I was waited on by Clara B. and we had a good time reminiscing about the days in dear old PCHS. She told me that Janice C. was in the vicinity converting the Eskimos to Christianity. Before I left, I had Clara pack a lunch for me, consisting of Delphine's Saumer Sausage Sandwiches. The trip passed uneventfully except that halfway down the Alcan Highway I developed engine trouble and was forced to stop at a roadside filling station where Kubie removed the ten dead kats from my carburetor. He asked about the wedding and mentioned that Donald Purdy had just gone through and was engaged in running a jet-propelled dog sled transportation system for retired millionaires.

At Seattle, I left my Buick at Rosa Teich's junkyard and set off from there by boat. I entered by stateroom and relaxed with Hancock's Handy Handbook for Decrepit Idiots. The feature article in the current section was "Notables in Tibet", the first ten of which were as follows:

- Donna Mae Basta - Champion Bubble Blower for Besser's Bursty Bubble Gum.
- Larry Shumway - Author of best seller, **Tardiness - Cause and Cure.**

Shirley Weis - Mother of the year, twenty-one children but still has time to run a coffin factory.

Raymond Schloesser - Patentee of Schloesser's Rubbers for Slushy Gutters.

Greta Lindquist - Inventor of that handy little household gadget, Greta's Disposer for Greasy Garbage.

Charles Rike - Famed orator speaking on "The Importance of the Mongolian Idiot to the American War Effort."

Marjorie Johnson - Aqua Star in Lehet's Pool Room.

Gerald Minar - First person to work his way through Alcatraz.

Geraldine Stransky - Owner of world's largest collection of diamonds (watches).

Connie Anderson - Argentine Livestock Magnate.

I was aroused from this pleasant interlude of reading by a rap on the door whereupon entered Gene Anderson, now a portly porter with Eleanor Stoffel's luggage. "Get out!" I screamed. Very apologetically he told me that there was a large influx of our former classmates on the boat and that their names had confused him. He told me that the stateroom next to mine was occupied by Stanley (Wheeler) and his wife Livingston (Shirley) whom he found in the depths of darkest Africa. Across the hall was Hans Seltzer, President of Berlin University.

This turned out to be very enjoyable voyage. That night we all met in the lounge where we were entertained by Pat Kay and her portable Grand Piano and Sophisticated Sally Smith singing "I wish That I Could Shimmy Like My Sister Kate". Also there that evening, I chanced upon Barbareli Neilsenelli, the famous Parisian dress designer who quietly told me about the scandal of Paris—Conrad Maher's attempt to smuggle the Eiffel Tower to his farm to be used as a TV antenna.

Finally we docked at San Francisco where Mary Hady was busy polishing the Golden Gate. I left the boat and entered Broz's Booze Hall where, with Kay Ohnesorge, the bartender, I tied one on by drinking Baker's Better Buttermilk. We spent the ensuing evening by touring the city. Everywhere I looked I saw signs advertising "Murderous Mary, the Terrible Terror of the Derby now Appearing at the Rollicking Roller Rink" and "Attention School Boys! Are you tired of wearing shoes to school? Do your feet ache at the end of the day? If so, try Patterson's Paddies for your Piggies. Only 79c". I wandered toward the train depot and happened to see Dr. Ronald Blanchard who specializes on angleworms with stomach ulcers. He joined me and we caught Brazen Benny's taxi and speedily sped on to the depot.

I bought my ticket, boarded the train, and sauntered into the club car. Who should I see but Dale Browman, recently voted King of the Comedians, expertly amusing my fellow passengers. I sat down at a table, and across from me I sighted a familiar face—Alyce Mae Johnson, new President of International Spinsters, Inc. Up at the bar with his head buried in an Isaac-Walton League magazine was Arlen Ward. I leaned over Arlen's shoulder and gazed into the smiling face of Bob Kozisek, now pitcher for Prairie's Pirates. Beneath his picture was a small article on new TV programs. Ilene Vacinek's new program "Just Plain Charley" which topped the Hooper rating, was followed by Ardis King and her program "Advice to the Lovelorn".

Suddenly the train stopped with a jolt and knocked me off my feet into Arlene Ruby's lap. She told me she was enroute to a Conference of Historians. I pulled myself to my feet and left the train, oblivious to the fact that this was not my destination. When I realized I was in Las Vegas rather than Reno, I entered the nearest cafe and found it was owned by my old classmates Helen Josewsky and Marcella Gross. As I was refreshing myself with Kupcsh's Kickapoo Joy Juice, who should appear but "Black Jack Doran", professional card shark. She told me that Betty C had recently opened an agency for professional queens. After I had all but lost the shirt off my back playing Old Maid, I started on my way to the airport.

I was temporarily blinded by the glare

of neon lights proclaiming the praises of Electrifying Elly in her new show "You'll Get A Charge Out Of Me". I knew I had to get to the airport so I walked into Edith Man's Clothing Store where Marilyn Norman was selling gloves as a cover-up for her secret diamond-selling racket. She told me I could catch a bus on the next corner if I hurried. In my haste I tripped over Ann Marie Pavelka's shoe shine box and noticed she was making artistic designs on Dona Pechacek's shoes. They told me that Stevens and Stumne, the Singing Sirens, are now featured with Skluzacek's Sweet Swing Band at Zalaznik's Stork Club. I caught the bus and much to my surprise, found that Marlin Olson was the driver.

Arriving at the airport I heard a disturbance and going to investigate, who should I find but Charles Roegge and LaVern Salonek arguing about how to toss the contents of a pie crust. I boarded the plane and to my astonishment I found Barbara Thorson, the first woman to accomplish the feat of being pilot, co-pilot, stewardess, tail-gunner and chief windshield wiper all at the same time. Taking my seat I happened to glance out of the window and saw Helen Purdy rushing down the runway, screaming at the top of her lungs, "Wait for me!" I never found out whether she made it or not because my attention was diverted by the sound of a pen scratching on paper. I looked around to see Garland Vacinek, President of the Popular Poultry and Produce People, dictating to Marcella Stoffel who holds the world's shorthand record at the rate of 400 words per minute.

A short while later, the plane landed in Reno and I had reached my destination at last. I tried to get a cab, but they were all so busy taking guests to Nancy's wedding that all they could send was Eugene Smetana's pick-up to pick me up. I had to share my ride with Donald Tracy and his Singing Sax, who were on the way to play the wedding march.

We pulled up to Nancy's sixty million dollar home simultaneously with a yellow cab, out of which stepped Erna Rentz, who is now the sign language interpreter for the U.N. We walked up the steps together, our hearts light at the prospect of seeing more of our old classmates and re-hashing the good old days back at PCHS.

### CO-CAPTAINS BLANCHARD AND KUBESH

Our Dragons had another undefeated year on the gridiron. While getting off to a somewhat unimpressive start, the Nellmen finished the season in grand style. The only flaw in the season's record was an unfortunate tie with Mora. Lacking the experience of former teams, they impressed the local fans who expected little or nothing. Led by its Co-Captains Ronnie Blanchard and Ronnie Kubesh, the team won its eighth consecutive conference championship and built up their winning streak to eighteen straight games without defeat.

At an annual banquet given by the mothers, trophies were given to eighteen of the team members. Lauren Larsen received the most valuable blocker award.

James Harapat and Arnold Bowers were elected next year's captains.

## BASKETBALL TEAM

FIRST ROW: Jerry Nelson, Ronnie Blanchard, Lauren Larsen, Ronnie Spickler, Ed Gillespie, Mgr. Francis Carlson.

SECOND ROW: Coach Nell, Dick Thiry, Arnie Bowers, Ken Moriarity, Jim Harapat, Assistant Coach Saunders.

This year, the Dragon hoopsters dribbled along the bumpy road of defeat, managing to crawl over the high, thorny fence to victory only twice.

The green and gray quintet was out-sized and out-shot, but they were not out-fought. With only two returning lettermen from last year's Conference Champions, the Dragons set to work in November. They lacked height and experience, but by March and the end of the season the fans learned to appreciate them for their undying pluck. They lost many of their games by only a point or two and could well have been victorious but for Lady Luck's failure to smile upon the cagemen.

## BASEBALL TEAM

FIRST ROW: Stanley Wheeler, Ronnie Blanchard, Dale Browman, Bob Kozisek, Ronnie Kubesh, Lauren Larsen.

SECOND ROW: Lowell Nielsen, Dan Wheeler, Russell Martinson, Ronnie Spickler, John Skluzacek, Fred Becvar, Dick Prairie.

The most impressive record ever made by a Pine City High School baseball team was made in 1950 under the leadership of Captain Bob Kozisek. The Diamond Dragons romped to five victories in their eight season games, but lost the first game of the Subdistrict after leading for seven innings.

During season play the Dragons tied with Hinckley for second place in the league standings. The play-off game was cancelled and the Dragons won second place on the flip of a coin after a heavy rain made it impossible to play.

Lauren Larsen achieved what most pitchers try to do all their lives but are usually not successful. He pitched a no-hit ball game against Moose Lake, winning 17-3.

## Track Season, 1950

The Track Team began an impressive season by travelling to North Branch for a triangular meet, where they were victorious. Six of them were entered by Coach Saunders in the Annual Track Meet held at St. Thomas, where they made a good showing against the larger schools. At the District Track Meet held at North Branch, the half-mile relay team broke the record, but the team lost the District Crown by half a point to North Branch. In the Regional, the relay team came in second, while Peter Boo distinguished himself by taking second place in both Regional and State 440 run.

## Judging Team

### FUTURE FARMERS OF AMERICA

The Pine City F.F.A. Chapter consists of 86 members which, according to the last report, makes it the second largest in the state.

Club officers are Richard Prairie, President, Russell Martinson, Vice President; William Turgeon, Secretary; Robert Kozisek, Treasurer; and Marlin Olson, Reporter.

In addition to their required classwork, the members have profited from testing milk, keeping dairy herd records, soil testing and individual farm projects.

Of great concern to the F.F.A. boys are the judging contests. The local chapter qualified for state contests in poultry, crops, wild life, dairy products, horticulture, farm management, farm beautification, farm mechanics and meats. This was their best year in the state contests. Out of the nine contests entered, Pine City captured six first places — poultry, crops, dairy products, horticulture, farm beautification, and farm mechanics; one second place — wild life; and two fourth places — farm management and meats.

Early in October the dairy products team traveled to Waterloo, Iowa, for the National Dairy Products Judging Contests where they won second place. Russell Martinson received the Gold Emblem Award and Fred Becvar received the Silver Emblem Award.

A little later in the month the poultry team went to Kansas City, Kansas, for the National Poultry Judging Contest where they received honorable mention. Delbert Lange won the Silver Emblem Award. Robert Kozisek and Garland Vacinek achieved individual honorable mention.

## HANS ERICH SELTZER

I came from Mannheim, a large city in Southwestern Germany. My educational background includes courses in languages, agriculture, and fine arts. I attended the high school in Mannheim and also a special agriculture school.

In the spring of 1950 I was fortunate enough to be chosen to participate in an Exchange Program for agricultural student trainees. This program is a co-operative project between the U. S. High Commission for Germany, the U. S. War Department, the farm organizations of the U. S., and the International Federation of Agricultural Producers. The purpose of the project is to give a group of selected German students an opportunity to observe and study American ways of farming and American Democracy through working on farms and attending high schools and universities. The duration of the project is one year.

My most important impressions of the U. S. are its high standard of living; its mechanization, especially in agriculture; the extreme freedom of the individual; and freedom of entrance into high school. Our schools are more difficult and the students are trained in logical thinking. I admire the extra-curricular activities, but I believe that they sometimes interfere with studies. Student opportunities which impressed me are the clean, modern building, the auditorium, the public address system, the drivers' training, the lunchroom and the Dragon's Den.

Good luck to all!

## KONRAD BUMES

On June 15, 1950, I left my home in Petzkofen, near the Danube River in Southern Germany, to join 170 other boys and girls in Bremerhaven, from which we were to sail on the American Troop Transport "General Callan." This was the beginning of our year in America.

After the wonderful nine days at sea, we landed in Brooklyn, New York. We immediately left for Washington, D. C., where we spent three days as guests of the National Grange. While we were there, we received our new addresses and I traveled on to Brook Park, Minnesota, where I made my home on the Elmer Cummings farm, joined the Brook Park Grange, and became acquainted with Americans living in and around Brook Park.

When fall came I enrolled at PCHS and have enjoyed attending this school very much. I have learned many things that I didn't know before. Among the things I like about the American school are the choice of the subjects you desire and the ability of all children to attend High School if they wish. The Students of America are very fortunate; the United States is the only country that does so much for its children. I also like the sports and sportmindedness of the American people. During the summer I was at a few baseball games, which I liked, but thought rough at times. This fall I saw the high school football games. I had heard about football and thought it to be similar to the type of football (soccer) we play in Germany, but it is extremely different. It was suggested I try to play, but I felt I would rather go home without any broken legs. A few weeks ago, I saw my first basketball game. It is a very fast game and looked as though it must be played with great skill.

I liked the school, sports, and people and would like very much to stay here, but unfortunately my visa cannot be extended. If I should ever have an opportunity to return to America, I shall; and then, I shall see you all again.

## JUNIOR - SENIOR PROM . . . 1950

The 1950 Junior-Senior Prom was held in the Armory on Friday evening, May 5. The theme of "Dreamland" was carried through with feathery clouds, shimmering stars, and gleaming golden castles. In the midst of clouds and castles, we danced to the strains of "Meet Me Tonight in Dreamland".

The refreshments consisted of punch, ice cream and angel food cake. The atmosphere of Dreamland was emphasized with the servers running around in nighties and pajamas. The fellows were as dashing in their handsome suits as the girls were lovely in their flowing formals. It was a night long to be remembered!

## JUNIOR - SENIOR PROM . . . 1951

As we go to press, we are unable to give an accurate account of our 1951 Prom. The plans, as yet, are too indefinite to provide sufficient information. We do know that the theme, as of now, is Hansel and Gretel.

The Juniors are working very hard to raise the funds for a Banquet, and needless to say, we very sincerely hope they will succeed. The Banquet will probably be held at 8:00 P.M., Friday, May 11th, with the Prom following immediately after.

We are all looking forward to an unforgettable evening.
