LONG DISTANCE TELEPHONE SERVICE

To Make a Long Distance Call

From a dial telephone, dial "Operator." From a manual telephone, ask the operator for "long distance." Give her the name of the town you are calling, the telephone number if known, or the name and address of the residence or firm being called. If you wish to talk to a specified person, also give the name of that person. When giving YOUR number to an operator or to anyone else, always give the complete number.

Call by Number

For faster long distance service give the operator the telephone number of the person you are calling. To help you keep a record of frequently called out-of-town numbers, you may obtain a handy booklet by calling the business office.

If you do not know the telephone numbers of out-of-town relatives, friends or business associates, we will be glad to provide them. Just send us a list of names and addresses and it will be returned to you with the telephone numbers filled in.

Station-to-Station Calls

A Station-to-Station call is one on which you ask to talk with anyone available at the telephone called and do not request a specific individual, a department or an extension telephone reached thru a private switchboard.

Person-to-Person Calls

A Person-to-Person call is one on which you ask for a certain person, a department or extension telephone reached thru a private switchboard.

Reduced Long Distance Rates

Reduced rates are in effect every night starting at 6 P.M. and ending at 4:30 A.M. and at all hours of the day on Sunday and on the holidays of Christmas, New Year's Day and Thanksgiving as well. These rates are lower than corresponding weekday rates on both Station-to-Station and Person-to-Person calls for distances of 56 miles or more.

Collect Calls

Collect calls may be made either Person-to-Person or Station-to-Station. An additional charge of 15 cents is made for Station-to-

Station collect calls within the state of Minnesota.

Long Distance Rates

For information about long distance rates, just dial "Operator." Also, if you wish to know the cost of a call following a conversation, notify the operator at the time you place the call or at the time you accept a "collect" call.

International Telephone Service

Information on service and rates to overseas points may be obtained from the operator. Some typical weekday rates for a 3 minute call are: Argentina, Australia, Denmark, Italy, United Kingdom and USSR, \$12.00. To Costa Rica and Jamaica, \$9.00. To Bahamas, Puerto Rico, Bermuda and Hawaii, \$7.50. Reduced rates apply on calls to many countries during certain night hours and on Sunday.

Conference Service

Long distance conference service permits connection to your telephone of persons in different cities or locations so that each can talk and hear the others. Just dial "Operator" and tell her you wish to place a conference call.

IMPORTANT NOTICE About Giving Up Party Lines In An Emergency

During 1955 the Minnesota Legislature passed a law requiring party line users to give up the line in the event they were requested to do so for an emergency call. The provisions of this law are as follows:

"Section 1. Subdivision 1. For purposes of this act the following terms have the meanings ascribed to them.

Subd. 2. "Party line" means a subscribers line telephone circuit, consisting of two or more main telephone stations connected therewith, each station with a distinctive ring or telephone number.

Subd. 3. "Emergency" means a situation in which property or human life is in jeopardy and the prompt summoning of aid is essential.

Sec. 2. Any person who shall willfully refuse to immediately relinquish a party line when informed that such line is needed for an emergency call, actually existing as defined in subdivision 3 of section 1, to a fire department or police department or for medical aid or ambulance service, shall be guilty of a gross misdemeanor.

Sec. 3. Any person who shall secure the use of a party line by falsely stating that such line is needed for an emergency call, shall be guilty of a misdemeanor."

GENERAL TELEPHONE INFORMATION

Transactions with the Company

Pine City business office serving customers in Pine City and Pine City is open from 8:00 A.M. to 5:00 P.M. Monday thru Friday except holidays. The Sandstone business office serving customers in Sandstone is open from 8:00 A.M. to 5:00 P.M. Monday thru Friday except holidays. To request additional service, changes of address, extension or suspension of service, directory information, extension telephones, telephones in color, branch exchange service, adjustments or changes in any other business transaction with the company just call the business office.

For Service

Charges that cover local service charges for one month in advance from the date of the bill are received—long distance charges are for the month preceding date of bill. Payment of bills may be made by mail or in person at the business office serving your exchange or at the appropriate telephone agency listed on page 1.

Regulations and Rates

Regulations and tariffs governing the furnishing of services by the telephone company are on file in our business office. If you wish, a representative will be glad to assist you in obtaining information from them.

Telephone Attachments

Equipment needed to provide telephone service is owned and furnished by the telephone company. In the interest of safety and good service, attachment to the telephone company's apparatus is permitted which may

involve damage, require change in or alteration of wiring, involve direct electrical connection to the telephone system or other facilities of the telephone company.

Interference with the proper functioning of telephone equipment or facilities, or impair the operation of the telephone system.

Injure the public in its use of the telephone company's services or endanger the safety of the company's employees.

Messages by Telephone

Messages may be sent by telephone telegrams, cablegrams and radiograms to the Western Union Telegraph Company and have the charges placed on your telephone bill.

Telephone Recording Signal

A short high "beep" tone heard over your telephone at 15-second intervals indicates your conversation is being recorded. The signal is provided by the telephone company for your protection. If you do not want your conversation recorded, you may request a person with whom you are talking to disconnect the recording machine. Use of a recorder without a signal is unlawful.

Temporary Suspension of Service

If you are to be away from your residence during an extended period, you may arrange to have your telephone service temporarily suspended at a special rate. If you wish, the operator will in-

form those calling where you can be reached. You may retain your telephone number and there is no charge for resumption of service upon your return.

Telephone Directory

Every reasonable precaution is taken to avoid errors in and omissions from the telephone directory, but the telephone company does not guarantee listings therein and shall not be liable for damages arising out of errors in or omissions from the directory except as provided in its filed regulations and tariffs.

Directories are the property of the telephone company and are to be returned to the telephone company on request. No binder, holder or auxiliary cover shall be attached to, or used in connection with, the directories owned by the telephone company, except such as may be provided by the telephone company, and such other binders, holders or auxiliary covers which contain no advertising, and do not impede reference to essential service information or otherwise interfere with service.

If your directory is no longer serviceable, please call your business office and we shall be glad to replace it. Directories for other cities can also be ordered thru the business office at a nominal cost.

How to Make Emergency Calls

The quickest way for customers with dial telephones to report a fire or other emergency is to dial the number as shown under Emergency Calls for your exchange. However, you may dial the operator, and she will assist you. If the dial cannot be seen, place your finger in the first dial opening below the finger stop and pull dial around until your finger strikes the stop. Then release dial and let it return to rest. An operator will answer. Explain the situation to her and she will help you.

Please Give Up Line in Emergency

When using a party line and someone on the line asks to use it to make an emergency call, please release it immediately, just as you would wish others to do if you had urgent need to telephone. By cooperating in this manner, you will help to make it possible to summon aid promptly and you could be instrumental in saving life and property.

Telephone Motion Pictures and Programs

Entertaining and informative motion pictures and talks are available at no cost for audiences such as: School, Fraternal, Church, Business, PTA, Trade, Professional, Rural, Women's Clubs and Civic and Service groups. A descriptive catalog may be obtained by calling the business office.

Visitors Welcome

You are cordially invited to come in at any time during business hours to see how your telephone service is provided.

LOCAL DIAL TELEPHONE

How to Dial—After obtaining the number from the directory, remove the receiver and listen for the dial tone which is a steady humming sound. Then dial each figure of the number in its proper order.

Take, for example, number 8841. After hearing the dial tone, place the finger in the dial opening where "8" is seen. Turn the dial around until the finger strikes the stop. Release the dial and let it return to its normal position without forcing or retarding its movement. The other figures "8," "4" and "1" should be dialed in a similar manner.

If you make a mistake while dialing, or if you wish to immediately make another call, replace the receiver for a few seconds. Then remove the receiver and after hearing the dial tone, dial each figure of the number again.

Service Signals—After dialing you should receive one of the following service signals:

Ringing Signal: This is a "burring" sound that will be heard at regular intervals, which indicates that the bell of the called telephone is being rung. Allow the called person sufficient time to answer before hanging up.

Busy Signal: This is a "buzz-buzz-buzz" sound that will be heard when the line of the called telephone is in use.

LOCAL MANUAL TELEPHONE

Obtain Correct Number from Directory—

Before making a call please look in the directory to be certain you have the correct telephone number. If the number you want is not listed, you may obtain it from "Information."

Please answer calls promptly. Failure to do so may result in the loss of a message. Giving your name or the name of the firm when answering identifies you and saves time.

Signalling the Operator—In order to signal the operator, move the receiver hook up and down slowly at the rate of about one flash a second. If this signalling is done too rapidly the operator will not receive the signal.

Calls from Rural Telephones—To call the operator, turn the crank briskly with the receiver on the hook. Then remove the receiver and when

NORTHWESTERN BELL TELEPHONE

LOCAL DIAL TELEPHONE SERVICE

How to Dial—After obtaining the number from the directory, remove the receiver and listen for the dial tone which is a steady humming sound. Then dial each figure of the number in its proper order.

Take, for example, number 8841. After hearing the dial tone, place the finger in the dial opening where "8" is seen. Turn the dial around until the finger strikes the stop. Release the dial and let it return to its normal position without forcing or retarding its movement. The other figures "8," "4" and "1" should be dialed in a similar manner.

If you make a mistake while dialing, or if you wish to immediately make another call, replace the receiver for a few seconds. Then remove the receiver and after hearing the dial tone, dial each figure of the number again.

Service Signals—After dialing you should receive one of the following service signals:

Ringling Signal: This is a "burring" sound that will be heard at regular intervals, which indicates that the bell of the called telephone is being rung. Allow the called person sufficient time to answer before hanging up.

Busy Signal: This is a "buzz-buzz-buzz" sound that will be heard when the line of the called telephone is in use.

If after several attempts to reach the number you do not hear a signal, dial "Operator" and report the condition to her.

Party Line Service—1. Listen to make sure the line is not in use before dialing your number.

2. If you hear successive clicks, it means someone else is dialing and you have interrupted a call. Please tell the other party so he will know he must dial again. Courtesy in using the party line means better service for everyone.

To Call Another Party On Your Line—Dial The Special Number (not the number listed in the directory) for that party. If you do not have the special number, dial "Operator" and she will assist you in completing the call.

After dialing the number in the usual manner, hang up your receiver, and the bell of your telephone and the bell of the called telephone will ring. When the person called has answered, your bell will stop ringing and you may remove the receiver and start your conversation. If your bell does not stop ringing after a reasonable period, it indicates that there is no one to answer at the called telephone. You then should remove your receiver for a few seconds and replace it. This will stop your bell from ringing and disconnect you from the called telephone.

LOCAL MANUAL TELEPHONE SERVICE

Obtain Correct Number from Directory—Before making a call please look in the directory to be certain you have the correct telephone number. If the number you want is not listed, you may obtain it from "Information."

Please answer calls promptly. Failure to do so may result in the loss of a message. Giving your name or the name of the firm when answering identifies you and saves time.

Signalling the Operator—In order to signal the operator, move the receiver hook up and down slowly at the rate of about one flash a second. If this signalling is done too rapidly the operator will not receive the signal.

Calls from Rural Telephones—To call the operator, turn the crank briskly with the receiver on the hook. Then remove the receiver and when

the operator answers, give her your order. When through talking, hang up the receiver and give the crank a turn. This gives the operator the disconnect signal.

Party Line Service—If you have a party line, listen to make sure the line is not in use before you call a number. If you hear someone talking, please hang up and make the call a little later.

Calling Another Party on Your Line—To call another party on your line, give the operator the number you want and tell her you are calling the other party on your line. She will ask you to hang up while the other telephone is being rung. When you feel that the person you are calling has had sufficient time to reach the telephone, remove your receiver and inquire if the other party is at the telephone.

OUR POLICY

The policy of this organization, as a part of the Bell System, is to provide the best possible telephone service at the least cost to the public consistent with fair treatment of employees and the financial safety of the business.

EMERGENCY CALLS MUST GO THROUGH

When you're talking on a party line and someone wants it for an emergency call, please give up the line immediately.

By doing so, aid can be summoned promptly and you may save suffering, property or someone's life.

Phones you need

where you need them

For the teen-ager's room, a colorful telephone and a telephone line of her own... welcome peacemakers for the entire family.

For your kitchen, an extension as colorful as it is convenient... as welcome as a coffee-break when friends come visiting by phone.

For your workshop, laundry or utility room, an extension phone that brings your calls to you... saves stair climbing.

For your bedroom, an extension phone in a new pastel shade... combining decorative charm with convenience and protection.

For your living room, a telephone in fashionable color... as handy as it is handsome and satisfying evidence of your good taste.

Gracious living through modern telephone service is within the reach of everyone. There are special telephones for special needs: Phones for the hard-of-hearing, Night Light telephones which "light up" so you can dial in the dark and push-button telephones for signaling and talking between rooms in your home. Separate telephone directory listings for anyone in your household also are available. Like to know more? Just call our Business Office. We'll be happy to help you with your ideas.
