SERVICE CALLS

Long Distance
 See Direct Distance Dialing Instructions on Page 3 for Station-to-Station calls. On other calls dial Operator.
 Information 411
 Repair Service 410-2234
 For Location of Buried Cable
 Please call for exact location before you dig or trench. 410-2234
 Assistance Operator
 Business Office Operator
 Office hours 8:30 A.M. to 5:00 P.M. except Saturdays, Sundays & holidays

TO CALL ANOTHER PARTY ON YOUR LINE

Dial the special number for the party you are calling. (It may be found on the card which lists the other parties on your line.) If you do not have the special number, call the Repair Service to obtain it.

After dialing the number in the usual manner, hang up your receiver, and the bell of your telephone and the bell of the called telephone will ring. When the person called has answered, your bell will stop ringing and you may remove the receiver and start your conversation. If your bell does not stop ringing after a reasonable period, it indicates that there is no one to answer at the called telephone. You then should remove your receiver for a few seconds and replace it. This will stop your bell from ringing and disconnect you from the called telephone.

TO CALL ANOTHER PARTY ON YOUR LINE

Dial the special number for the party you are calling. (It may be found on the card which lists the other parties on your line.) If you do not have the special number, dial "Operator" and she will assist you in completing the call.

After dialing the number in the usual manner, hang up your receiver, and the bell of your telephone and the bell of the called telephone will ring. When the person called has answered, your bell will stop ringing and you may remove the receiver and start your conversation. If your bell does not stop ringing after a reasonable period, it indicates that there is no one to answer at the called telephone. You then should remove your receiver for a few seconds and replace it. This will stop your bell from ringing and disconnect you from the called telephone.
