

YOUR EYEWEAR REPLACEMENT POLICY

WE GUARANTEE

that your new prescription eyewear has been manufactured with the highest quality materials, to provide strength and durability and is free of defects. All materials when tested met or exceeded Federal Drug Administration ANSI standards. If a lens or any part of your frame breaks under normal use, within one year from this date, return all parts and we will repair or replace it at no charge. This warranty does not include theft, loss, scratching of lenses or frame, or breakage with screw-mounted rimless frames. This warranty is void in cases of misuse or negligence.

Name Anna Vach

Date 1/2/89

This warranty protects you against any unnecessary expense, however, there's no better protection for your eyewear than proper handling and care. Follow these guidelines:

1. Remember your lenses are impact resistant not unbreakable. Chips, scratches or marred lens are usually less impact resistant, as a result they may be more easily broken causing possible injury.
2. Don't allow anyone to try on your eyewear. Your glasses are adjusted to your specific requirements.
3. Use both hands to put on and take off eyewear. Avoid touching the lens surfaces, and never lay the glasses down so that the lenses touch another surface. They may become scratched.
4. Proper cleaning is important. Rinse lenses with plain water or special cleaners and dry with a soft cloth or facial tissue. Don't wipe lenses when dry or use treated tissue.
5. Always put your eyewear in its case when you're not wearing it. If it's loose in your pocket or purse, it's likely to break or be scratched.
6. If adjustment is needed please contact these offices.

The Eye Clinics

Cambridge Eye Clinic, P.A.
120 East First Avenue
Cambridge, MN 55008
