Aug 27 - 1936. Work Started on Dam - Federal government started work on construction of dam for Cross Lake + Pokegama Lakes water project on Monday. The Dam will be located at the site of the original Changuatana Dam - about $\frac{1}{4}$ mile west of the bridge. 14 men will start to work + the crew will increased to 50 men so the dam can be completed as soon as possible.

A. Alvin Munch, owner of Changuatana Dam + Mr Lang, the contractor who is putting in the same, spend Tuesday at the Dam looking over the work there. The Dam is about completed, but there is no bridge. Dam is completed and no prospects of one either unless the town of Changuatana comes to Mr Munch's terms
Dec 2 - 1898 - Pine C. Prosser

Frist Road Sunrise to Rush Lake
+ Russell's farm on Pokyoun Lake
Greely farm in Royatton Township
See Vack Plat Map + notes.

1912 built the Eastern Minn Power
Co. hydroelectric Dam which was used
until 1942 when a large ice flow
ruined it.

^{Washed}
Dam. Big flood - June 6 1898.
farmer got a taste + land.
+ dam was constructed that fall + then in 1912
~~Pokyoun~~ ^{kego} fish
a court order forced the dam to be dismantled
so another could be built further downstream

Emil Munch came to Chisago Falls 1857.
engaged in lumbering + land agent. Served
as register of deeds in Pine Co. also represented
Washington, Chisago Pine + Kandake Counties in
the House of the Third Legislature in 1861.

^{Present}
First dam where water stabilization dam

Indian Outbreak ^{of} in 1862

U.S. Command Post in Cheyewatona
~~Command~~ Colonel Francis Roach Delano
taken Command of 5 Companies during
the Indian outbreak. The Command
was stationed at Cheyewatona.

Question: What would become of the summer
resorts? What would call the thousands of people
that come to Pine City every season? Whom would
~~it~~ benefit? Those who have purchased cheap
lands - want something for nothing. More on Dam

1881 -

May Queen - was doing good business
on the Snake River & Kate R. Tapedo.
Lock in Sentinal.

Logs run till late in July

Dam

Dam was repaired many times + had many owners.

Served the committee for 50 yrs with out any trouble, outside of being repaired many times.

After Farming began on larger scale, so more land was needed.

Dam washed out by flood June 6 - 1898
Farmers got a taste of many land
It was repaired that fall for following spring drive

Court order forced the dam to be dismantled + new dam could be built farther down stream

1881 - was doing good business on Snake

Sentinel -

Navigation was frequently obstructed by the accumulation of logs.

Present

Water stabilization Dam was built on the
where the first log dam was located
