*Many neighborhoods are 100% "party line"*

Why so much sharing of telephone lines? Because, in many residence communities, a party line has offered the only means of providing service for a family needing it. Shortage of materials have made it impossible to add lines and equipment as rapidly as service needs have grown.

Through party lines, many more of your neighbors are now reachable by telephone—and many more are getting telephones sooner.

Most families are party liners by choice. But some would prefer an individual line. And we're doing our best to meet their needs.

Meanwhile, keeping calls brief, allowing intervals between calls, and releasing the line for emergency calls are courtesies that work wonders in giving you and the "other party" ample use of the line. Neighbors appreciate such thoughtfulness . . . and return it in kind.

## LONG DISTANCE SERVICE

### To Make a Long Distance Call

To make a long distance call, ask for "Long Distance." Give the operator the name of the town you are calling, the telephone number if known, or the name and address of the residence or business firm being called, followed by your own telephone number.

### A Station-to-Station Call

A Station-to-Station Call is one on which you ask to talk with anyone available at the telephone called and do not request a specific individual, a department or an extension telephone reached through a private switchboard. Charges begin when the number called has been answered and are based on an initial period of three minutes, except to points for which the rate is 25 cents or less, where the initial period is five minutes. Station-to-Station calls cost less than Person-to-Person calls, described below.

### A Person-to-Person Call

A Person-to-Person Call is one on which you ask for a certain person, a department or extension telephone reached through a private switchboard. Charges begin when the calling person speaks to and receives a response from the called person and are based on an initial period of three minutes. If the person cannot be reached directly by telephone the operator, at your request, will send a messenger to summon the called person to a telephone. This will involve a small additional charge for messenger service. Also, at your request, the operator at no additional charge will make an appointment

with the called party so you can talk at a specified time.

### Special Rates

Special rates for both Station-to-Station and Person-to-Person calls are in effect every night from 6 P. M. to 4:30 A. M. and all day Sunday. These rates are lower than corresponding week day rates on calls for distances of about 50 miles or more. The minimum reduced rate is 35 cents for Station-to-Station calls and 50 cents for Person-to-Person calls.

### Reversal of Charges

Reversal of Charges is permitted on both Person-to-Person and Station-to-Station calls without extra cost except on Station-to-Station calls of 20 cents or less for the initial period, which take a slightly higher rate when sent collect.

### To Obtain Rate Information

To obtain specific rate information on any of the foregoing services, call "Long Distance." To obtain charges on a call at the close of a conversation, notify the Long Distance operator when you place the call.

### Regulations and Tariffs

The Telephone Company furnishes all of its various services and adjuncts thereto, subject to its published regulations and tariffs, a public file of which is located in the local Business Office. A representative of the Company will gladly lend assistance in securing information from such regulations and tariffs.

## OUR POLICY

The policy of this organization, as a part of the Bell System, is to provide at all times the best possible telephone service at the lowest rates consistent with reasonable earnings and fair treatment of employees.

| BUSINESS OFFICE—For Business Transactions With Company . . . . . | "O"  |

Bills are payable at the Kroning Drug Store or can be mailed to Northwestern Bell Telephone Company, Sandstone, Minnesota.

SANDSTONE

## HOW TO USE THE TELEPHONE

### How to Dial

After obtaining the number from the directory, remove the receiver and listen for the dial tone, a steady humming sound. Then dial each figure of the number in order as read.

Take, for example, number 8841: After hearing the dial tone, place the finger in the dial opening where "8" is seen. Turn the dial around until the finger strikes the stop. Release the dial and let it return to its normal position without forcing or retarding its movement. The other figures "8," "4," and "1" should be dialed in a similar manner.

If you make a mistake while dialing, or if your finger slips from the dial before reaching the finger stop, hang up the receiver for a few seconds. Then remove it and after hearing the dial tone, dial each figure of the number again.

### Service Signals

After dialing you should receive one of the following service signals:

**Ringling Signal**—This is a "burring" sound that will be heard at regular intervals which indicates that the bell of the called telephone is being rung.

**Busy Signal**—This is a "buzz-buzz-buzz" that will be heard when the line of the called telephone is in use.

If you do not hear a signal or receive an answer after dialing a number several times, dial "0" and ask for assistance.

### Hang Up the Receiver After You Have Finished

By hanging up you make the line available for outgoing and incoming calls.

Do not move the receiver hook or hang up the receiver before you finish talking, in order not to break the connection. Also, do

not move the dial while talking as it will interrupt the conversation.

### Before Making Another Call

Keep the receiver on the hook for a few seconds, in order to disconnect the equipment used on the previous call.

### Use of Party Lines

If you do not hear the dial tone inquire whether the line is in use. You may hear some one speak or dial. Replace the receiver and unless some one is using the line you should hear the dial tone when you next listen.

When you hear ringing for another party on your line, do not lift your receiver as by doing so you stop the ringing and deprive the called party of receiving his call.

If when you answer your ring you find no one on the line, do not hang up immediately; instead, wait for an answer for about a half-minute. The call may be from another party on your line and in order to know that you answered, this party must wait until the ringing stops before taking up his receiver.

### To Call Another Party on Your Line

Dial the special number and hang up the receiver. Your bell and the called bell will ring. When your bell stops ringing the person called is on the line and you may start the conversation. If your bell does not stop ringing after a reasonable period it indicates there is no one to answer at the called telephone. To stop your bell from ringing remove your receiver for a few seconds and then replace it.

If you do not know the special number, dial "Operator" and she will assist you.

## EMERGENCY AND TELEPHONE SERVICE CALLS

- FIRE . . . . . Dial 289  
 POLICE . . . . . Dial 280

If No Answer—Dial "O" and Ask Operator for Assistance

### FEDERAL BUREAU OF INVESTIGATION—

For address and telephone number of nearest office call "INFORMATION"

## TELEPHONE SERVICE CALLS

- |  | Dial |
|--|------|
| INFORMATION—For Numbers Not Listed in This Directory . . . . .   | "O"  |
| ASSISTANCE—Assistance in Calling . . . . .                       | "O"  |
| LONG DISTANCE—To Make Out of Town Calls . . . . .                | "O"  |
| REPAIR SERVICE—To Report Telephone Out of Order . . . . .        | "O"  |
| BUSINESS OFFICE—For Business Transactions With Company . . . . . | "O"  |

Bills are payable at the Hinckley Drug Co. or can be mailed to Northwestern Bell Telephone Company, Pine City, Minnesota.

## HOW TO USE THE TELEPHONE

### How to Dial

After obtaining the number from the directory, remove the receiver and listen for the dial tone, a steady humming sound. Then dial each figure of the number in order as read.

Take, for example, number 8841: After hearing the dial tone, place the finger in the dial opening where "8" is seen. Turn the dial around until the finger strikes the stop. Release the dial and let it return to its normal position without forcing or retarding its movement. The other figures "8," "4," and "1" should be dialed in a similar manner.

If you make a mistake while dialing, or if your finger slips from the dial before reaching the finger stop, hang up the receiver for a few seconds. Then remove it and after hearing the dial tone, dial each figure of the number again.

### Service Signals

After dialing you should receive one of the following service signals:

**Ringing Signal**—This is a "burring" sound that will be heard at regular intervals which indicates that the bell of the called telephone is being rung. Allow the called party sufficient time to answer the call before hanging up.

**Busy Signal**—This is a "buzz-buzz-buzz" that will be heard when the line of the called telephone is in use.

If you do not hear a signal or receive an answer after dialing a number several times, dial "0" and ask for assistance.

### Hang Up the Receiver After You Have Finished

By hanging up you make the line available for outgoing and incoming calls.

Do not move the receiver hook or hang up

the receiver before you finish talking, in order not to break the connection. Also, do not move the dial while talking as it will interrupt the conversation.

### Before Making Another Call

Keep the receiver on the hook for a few seconds, in order to disconnect the equipment used on the previous call.

### Use of Party Lines

If you do not hear the dial tone inquire whether the line is in use. You may hear some one speak or dial. Replace the receiver and unless some one is using the line you should hear the dial tone when you next listen.

When you hear ringing for another party on your line, do not lift your receiver as by doing so you stop the ringing and deprive the called party of receiving his call.

If when you answer your ring you find no one on the line, do not hang up immediately; instead, wait for an answer for about a half-minute. The call may be from another party on your line and in order to know that you answered, this party must wait until the ringing stops before taking up his receiver.

### To Call Another Party on Your Line

Dial the special number and hang up the receiver. Your bell and the called bell will ring. When your bell stops ringing the person called is on the line and you may start the conversation. If your bell does not stop ringing after a reasonable period it indicates there is no one to answer at the called telephone. To stop your bell from ringing remove your receiver for a few seconds and then replace it.

If you do not know the special number, dial "Operator" and she will assist you.
