Station-to-Station Calls

A Station-to-Station call is one on which you are willing to talk with anyone available at the called telephone and do not request a specific individual, a department, or an extension telephone reached through a private switchboard. Charges begin when the called number answers. Station-to-Station calls cost less than Person-to-Person calls.

Person-to-Person Calls

A Person-to-Person call is one on which you

wish to talk with a certain person, department, or extension telephone of a private switchboard. Charges begin when the calling person receives a response from the called person, department or extension telephone.

Collect Calls

You may "reverse" charges, i. e., have them billed to the called telephone. Just tell the operator you want to place the call "collect." If the called person agrees to pay the cost, charges will be billed to his telephone.

International Telephone Service

Information on the availability of telephone service to overseas points and the rates applicable thereto may be obtained from the Long Distance Operator.

Some typical week-day rates for a three-minute call are: To Argentina, Australia,

Denmark, Italy, United Kingdom and the U.S.S.R., \$12.00; to Hawaii and Jamaica, \$9.00; to Bahamas, Puerto Rico and Bermuda, \$7.50. Reduced rates apply on calls to many countries during certain night hours and on Sunday.

PINE CITY

GENERAL INFORMATION ABOUT TELEPHONE SERVICE

Business Transactions with the Company—The Telephone Business Office is open from 8 A. M. to 5 P. M. except Sundays and holidays.

Requests for new telephone service, changes in or additions to existing service or equipment may be made by telephone, mail, or in person at the Business Office. Advance notice will help to have the necessary work done by the date desired.

Bills for Service—Bills are issued monthly and are due upon presentation. They cover local service charges for one month in advance from the date of the bill and long distance charges for one month preceding the date of the bill. Payment for service may be made by mail or in person at the Business Office.

Telegrams by Telephone—You may telephone telegrams, cablegrams and radiograms to the Western Union Telegraph Company and have the charges placed on your telephone bill.

Telephone Directory—Every precaution is taken to avoid errors and omissions in the telephone directory, but if they occur, the Company's liability for them, as provided in its tariffs, is limited to one-half of the charges for the service affected until a new directory is published.

Regulations and Tariffs—Regulations and tariffs governing the furnishing of services by the telephone company are on file in the Business Office. A representative will gladly assist you in obtaining information from them.

OUR POLICY

The policy of this organization, as a part of the Bell System, is to provide the best possible telephone service at the least cost to the public consistent with fair treatment of employees and the financial safety of the business.

NORTHWESTERN BELL TELEPHONE COMPANY

LOCAL TELEPHONE SERVICE

Obtain Correct Number from Directory

—Before making a call please look in the directory to be certain you have the correct telephone number. If the number you want is not listed, you may obtain it from "Information."

Please answer calls promptly. Failure to do so may result in the loss of a message. Giving your name or the name of the firm when answering identifies you and saves time.

Signalling the Operator—In order to signal the operator, move the receiver hook up and down slowly at the rate of about one flash a second. If this signalling is done too rapidly the operator will not receive the signal.

Calls from Rural Telephones—To call the operator, turn the crank briskly with the receiver on the hook. Then remove the receiver and when the operator answers, give her your order. When through talking, hang up the receiver and give the crank a turn. This gives the operator the disconnect signal.

Party Line Service—If you have a party line, listen to make sure the line is not in use before you call a number. If you hear someone talking, please hang up and make the call a little later.

Calling Another Party on Your Line—To call another party on your line, give the

operator the number you want and tell her you are calling the other party on your line. She will ask you to hang up while the other telephone is being rung. When you feel that the person you are calling has had sufficient time to reach the telephone, remove your receiver and inquire if the other party is at the telephone.

Telephone Recording Signal—A short high "beep" tone heard on the telephone line about every 15 seconds means that the person with whom you are talking is recording your conversation by means of his recording machine connected to the telephone line.

This signal is provided by the telephone company for your protection. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects his recorder the signal is no longer heard.

The "beep" is produced automatically by the device used to connect the recorder to the telephone line. It stops when the recorder is disconnected. Use of a recorder without this signal is unlawful.

Service Difficulties—If you have difficulty in reaching a number, you may ask the operator for her service assistant and state your difficulty to her.

LONG DISTANCE SERVICE

To Make a Long Distance Call—Ask for "Long Distance." Give the operator the name of the town you are calling, the telephone number, if known, or the name and address of the residence or firm being called, and your own telephone number. If you wish to talk to a specified person, also give the name of that person.

Station-to-Station Calls—A Station-to-Station call is one on which you are willing to talk with anyone at the called telephone and do not request a specific individual, a department or an extension telephone reached through a private switchboard.

Charges begin when the called number answers. Station-to-Station calls cost less than Person-to-Person calls.

Person-to-Person Calls—A Person-to-Person call is one on which you wish to talk with a certain person, or with a department or extension telephone reached through a private switchboard.

Charges begin when the calling person speaks to and receives a response from the called person, department or extension telephone.

Telephone Recording Signal—See explanation of this signal under "Local Telephone Service" above.

Reduced Night and Sunday Rates—Every night from 6 P. M. to 4:30 A. M. and all day every Sunday, there are reduced rates for both Station-to-Station and Person-to-Person calls. These rates are lower than corresponding week-day rates on calls from distances of about 50 miles or more.

"Collect" Calls—If you wish the person you are calling to pay the charges, please notify the operator when you place the call. This may be done on both Person-to-Person and Station-to-Station calls without extra cost, except on Station-to-Station calls of 20 cents or less for the initial period. These take a higher rate when placed collect.

Overseas Telephone Service—Information on availability of telephone service to points in other countries and the rates applicable thereto may be obtained by calling "Long Distance." Some typical week-day rates for a three-minute call are: To Argentina, Australia, Denmark, Italy, United Kingdom, and the U. S. S. R., \$12.00; to Hawaii and Jamaica, \$9.00; to Bahamas, Puerto Rico and Bermuda, \$7.50. Reduced rates apply on calls to many countries during certain night hours and on Sunday.

DO YOU SPEAK
PLEASANTLY?

Remember, it may be your best friend, or your best customer, who is telephoning. Answer him as pleasantly as you would if you were face to face.

DEPENDABLE

At all hours, in all kinds of weather, she's at her post. You count on her and she's proud of it.

With switchboards busier than ever because of many more telephones, hers is still "The Spirit of Service." More telephones are being added right along.

Our constant aim is to provide more and better service . . . always at the lowest possible cost . . . to give greater value to every telephone user.

"JUST HOW SLOW IS SLOW"

— we were asked recently. The questioner was referring to our advice about being quick to answer — and *slow* to hang up in placing a call. We've two answers. They're both good — so take your choice. (1) Wait about a minute before you hang up. (2) Allow the person's phone you're calling to ring about 10 times . . . Naturally, if it's your phone that's ringing, it's always best to answer as quickly as you can!

NORTHWESTERN BELL TELEPHONE CO.

YOUR Telephone Service is "Made to Order"

Your call may be to your next door neighbor, or to someone thousands of miles away. Every call is made to order to meet your need of the moment.

It takes a lot of people and a lot of equipment to handle your telephone calls. Your telephone instrument is only about six per cent of the equipment needed to give you service. The other 94% is buildings, switchboards, wires, cables and other apparatus — ready 24 hours a day, every day — to serve you.

Helpful tips on long distance calls

1. Give the operator the name of the town you are calling and the telephone number, if you know it . . . otherwise, the name and address.
2. If it's a station-to-station call, say "I'll talk to anyone who answers."
3. Wait for the operator to ask for your number . . . and remain at the telephone unless the operator says she will call you.

NORTHWESTERN BELL TELEPHONE COMPANY

SANDSTONE

EMERGENCY AND TELEPHONE SERVICE CALLS

FIRE Dial 401

POLICE Dial 0

If No Answer—Dial "O" and Ask Operator for Assistance

FEDERAL BUREAU OF INVESTIGATION—

For address and telephone number of nearest office call "INFORMATION"

TELEPHONE SERVICE CALLS

	Dial
LONG DISTANCE—To Make Out of Town Calls	"O"
INFORMATION—For Numbers Not Listed in This Directory	"O"
REPAIR SERVICE—To Report Telephone Out of Order	"O"
ASSISTANCE—Assistance in Calling	"O"
BUSINESS OFFICE—For Business Transactions With Company	"O"

Bills are payable at the Kroning Drug Store or can be mailed to Northwestern Bell Telephone Company, Sandstone, Minnesota.

How to Dial

After obtaining the number from the directory, listen for the dial tone which is a steady humming sound. Then dial each figure of the number in order.

Take, for example, number 8841. After hearing the dial tone, place the finger in the dial opening where "8" is seen. Turn the dial around until the finger strikes the stop. Release the dial and let it run back freely to its starting place. The other figures, "8," "4," and "1" should be dialed in the same way.

If you make a mistake while dialing, or if your finger slips from the dial before reaching the finger stop, hang up the receiver for a few seconds. Then remove it and, after hearing the dial tone, dial each figure of the number again.

Service Signals

Ringin Signal—This is a "burring" sound that will be heard at regular intervals which indicates that the bell of the called telephone is being rung.

Busy Signal—This is a "buzz-buzz-buzz" sound that will be heard when the line of the called telephone is in use.

If after several attempts to reach the number you do not hear a signal, dial "C" and report the condition to the operator.

Telephone Recording Signal—A short high "beep" tone heard on the telephone line about every 15 seconds means that the person with whom you are talking is recording your conversation by means of his recording machine connected to the telephone line.

This signal is provided by the telephone company for your protection. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects his recorder the signal is no longer heard.

The "beep" is produced automatically by the device used to connect the recorder to the telephone line. It stops when the recorder is disconnected. Use of a recorder without this signal is unlawful.

Hang Up the Receiver When Through Talking

Keep the receiver on the hook when the tele-

phone is not in use. If you fail to do so your telephone, and if you are on a party line, all telephones on the line will be out of order.

Do not move the receiver hook or hang up the receiver before you finish talking. Also, do not move the dial while talking.

Use of Party Lines

If you do not hear the dial tone, inquire whether the line is in use. You may hear someone speak or dial. Replace the receiver and unless someone is using the line you should hear the dial tone when you next listen.

To Call Another Party on Your Line

Dial the special number and hang up the receiver. Your bell and the called bell will ring. When your bell stops ringing the person called is on the line and you may start the conversation. If your bell does not stop ringing after a reasonable period it indicates there is no one to answer at the called telephone. To stop your bell from ringing remove your receiver for a few seconds and then replace it.

If you do not know the special number, dial "Operator" and she will assist you.

Long Distance Service

To Make a Long Distance Call—Please dial "O" and give the information to the operator who answers.

A **Station-to-Station Call** is one on which you are willing to talk with anyone at the called telephone and do not request a specific individual. Charges begin when the called number answers. **Station-to-Station Calls** cost less than **Person-to-Person Calls**.

A **Person-to-Person Call** is one on which you wish to talk with a certain person, department, or extension telephone of a private switchboard. Charges begin when the calling person receives a response from the called person, department, or extension telephone.

Reduced Night and Sunday Rates—Every night from 6 P. M. to 4:30 A. M. and all day every Sunday there are reduced rates in effect on calls for distances of about 50 miles or more.

SANDSTONE

COURTESY

We want your telephone service to be quick and good and cheap, but there is more to it than that. We want it to be courteous, too.

No matter what the occasion, there is always time for a cheery "please" and a pleasant word of thanks. That is the Bell System way. It is one of the fine traditions of the telephone business.

HINCKLEY

EMERGENCY AND TELEPHONE SERVICE CALLS

FIRE Dial 289
POLICE Dial 280

If No Answer—Dial "O" and Ask Operator for Assistance

FEDERAL BUREAU OF INVESTIGATION—

For address and telephone number of nearest office call "INFORMATION"

TELEPHONE SERVICE CALLS

LONG DISTANCE—To Make Out of Town Calls	Dial "O"
INFORMATION—For Numbers Not Listed in This Directory	"O"
REPAIR SERVICE—To Report Telephone Out of Order	"O"
ASSISTANCE—Assistance in Calling	"O"
BUSINESS OFFICE—For Business Transactions With Company	"O"

Bills are payable at the Hinckley Drug Co. or can be mailed to Northwestern Bell Telephone Company, Pine City, Minnesota.

How to Dial

After obtaining the number from the directory, listen for the dial tone which is a steady humming sound. Then dial each figure of the number in order.

Take, for example, number 8841. After hearing the dial tone, place the finger in the dial opening where "8" is seen. Turn the dial around until the finger strikes the stop. Release the dial and let it run back freely to its starting place. The other figures, "8," "4," and "1" should be dialed in the same way.

If you make a mistake while dialing, or if your finger slips from the dial before reaching the finger stop, hang up the receiver for a few seconds. Then remove it and, after hearing the dial tone, dial each figure of the number again.

Service Signals

Ringing Signal—This is a "burring" sound that will be heard at regular intervals which indicates that the bell of the called telephone is being rung.

Busy Signal—This is a "buzz-buzz-buzz" sound that will be heard when the line of the called telephone is in use.

If after several attempts to reach the number you do not hear a signal, dial "C" and report the condition to the operator.

Telephone Recording Signal—A short high "beep" tone heard on the telephone line about every 15 seconds means that the person with whom you are talking is recording your conversation by means of his recording machine connected to the telephone line.

This signal is provided by the telephone company for your protection. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects his recorder the signal is no longer heard.

The "beep" is produced automatically by the device used to connect the recorder to the telephone line. It stops when the recorder is disconnected. Use of a recorder without this signal is unlawful.

Hang Up the Receiver When Through Talking

Keep the receiver on the hook when the tele-

phone is not in use. If you fail to do so your telephone, and if you are on a party line, all telephones on the line will be out of order.

Do not move the receiver hook or hang up the receiver before you finish talking. Also, do not move the dial while talking.

Use of Party Lines

If you do not hear the dial tone, inquire whether the line is in use. You may hear someone speak or dial. Replace the receiver and unless someone is using the line you should hear the dial tone when you next listen.

To Call Another Party on Your Line

Dial the special number and hang up the receiver. Your bell and the called bell will ring. When your bell stops ringing the person called is on the line and you may start the conversation. If your bell does not stop ringing after a reasonable period it indicates there is no one to answer at the called telephone. To stop your bell from ringing remove your receiver for a few seconds and then replace it.

If you do not know the special number, dial "Operator" and she will assist you.

Long Distance Service

To Make a Long Distance Call—Please dial "O" and give the information to the operator who answers.

A Station-to-Station Call is one on which you are willing to talk with anyone at the called telephone and do not request a specific individual. Charges begin when the called number answers. Station-to-Station Calls cost less than Person-to-Person Calls.

A Person-to-Person Call is one on which you wish to talk with a certain person, department, or extension telephone of a private switchboard. Charges begin when the calling person receives a response from the called person, department, or extension telephone.

Reduced Night and Sunday Rates—Every night from 6 P. M. to 4:30 A. M. and all day every Sunday there are reduced rates in effect on calls for distances of about 50 miles or more.

HINCKLEY

Good telephone service for party liners...

Party-line service is *good* service when those on the line co-operate to make it so. Here are some of the things you can do to get the greatest value from your party line:

- 1—When you have several calls to make, allow a little time between them. That gives others on the line an opportunity to make or receive calls.
- 2—If the line is in use when you try to call, hang up quietly. Wait awhile before trying again.
- 3—If you have children, teach them party-line courtesy, too.

Your courtesy and consideration will encourage others on the line to follow your good example. When everyone is trying to co-operate, everyone has better service.

HINCKLEY EXCHANGE

Correct Telephone Habits
bring
Good Telephone Service

Be quick to answer
when your telephone
rings.

Be slow to hang up
after you've placed a
call . . . give them
time to answer.

Be sure you replace the
receiver when you're
through talking.

Your co-operation will help everyone
get good telephone service.
