## Station-to-Station Calls

A Station-to-Station call is one on which you are willing to talk with anyone available at the called telephone and do not request a specific individual, a department, or an extension telephone reached through a private switchboard. Charges begin when the called number answers. Station-to-Station calls cost less than Person-to-Person calls.

## Person-to-Person Calls

A Person-to-Person call is one on which you

wish to talk with a certain person, department, or extension telephone of a private switchboard. Charges begin when the calling person receives a response from the called person, department or extension telephone.

## Collect Calls

You may "reverse" charges, i. e., have them billed to the called telephone. Just tell the operator you want to place the call "collect." If the called person agrees to pay the cost, charges will be billed to his telephone.

## International Telephone Service

Information on the availability of telephone service to overseas points and the rates applicable thereto may be obtained from the Long Distance Operator.

Some typical week-day rates for a three-minute call are: To Argentina, Australia,

Denmark, Italy, United Kingdom and the U.S.S.R., \$12.00; to Hawaii and Jamaica, \$9.00; to Bahamas, Puerto Rico and Bermuda, \$7.50. Reduced rates apply on calls to many countries during certain night hours and on Sunday.

## GENERAL INFORMATION ABOUT TELEPHONE SERVICE

### *Business Transactions with the Company*

—The telephone business office is open from 8:00 A.M. to 5:00 P.M., Monday through Friday. Closed all day Saturday. After business hours, and on Sundays and holidays, calls will be answered by a representative who will handle business requiring immediate attention and who will arrange for the handling of other business on the following business day. Requests for new telephone service, changes in or additions to existing service or equipment may be made by telephone, by mail or in person at the business office. Advance notice will help to have the work done by the date desired.

*Bills for Service*—Bills are issued monthly and are due upon presentation. They cover local service charges for one month in advance from the date of the bill and long distance charges for one month preceding the date of the bill. Payment for service may be made by mail or in person at the Business Office.

*Suspension of Service*—When you are to be away from your residence for an extended period, you may arrange to have your telephone service temporarily suspended at a reduced rate.

If you wish, the operator will inform those calling where you can be reached. You may retain your telephone number, and there will be no charge for resumption of service upon your return.

*Telegrams by Telephone*—You may telephone telegrams, cablegrams and radiograms to the Western Union Telegraph Company and have the charges placed on your telephone bill.

*Telephone Directory*—Every reasonable precaution is taken to avoid errors in and omissions from the telephone directory, but the telephone company does not guarantee listings therein and shall not be liable for damages arising out of errors in or omissions from the directory except as provided for in its filed regulations and tariffs.

*Regulations and Rates*—Regulations and tariffs governing the furnishing of services by the telephone company are on file in the Business Office. A representative will gladly assist you in obtaining information from them.

---

## LOCAL TELEPHONE SERVICE

### *Obtain Correct Number from Directory*

—Before making a call please look in the directory to be certain you have the correct telephone number. If the number you want is not listed, you may obtain it from "Information."

Please answer calls promptly. Failure to do so may result in the loss of a message. Giving your name or the name of the firm when answering identifies you and saves time.

*Signalling the Operator*—In order to signal the operator, move the receiver hook up and down slowly at the rate of about one flash a second. If this signalling is done too rapidly the operator will not receive the signal.

*Calls from Rural Telephones*—To call the operator, turn the crank briskly with the receiver on the hook. Then remove the receiver and when the operator answers, give

her your order. When through talking, hang up the receiver and give the crank a turn. This gives the operator the disconnect signal.

*Party Line Service*—If you have a party line, listen to make sure the line is not in use before you call a number. If you hear someone talking, please hang up and make the call a little later.

### *Calling Another Party on Your Line*

To call another party on your line, give the operator the number you want and tell her you are calling the other party on your line. She will ask you to hang up while the other telephone is being rung. When you feel that the person you are calling has had sufficient time to reach the telephone, remove your receiver and inquire if the other party is at the telephone.

## LOCAL TELEPHONE SERVICE—Cont'd.

**Telephone Recording Signal**—A short high "beep" tone heard over your telephone at 15-second intervals indicates your conversation is being recorded. The signal is provided by the Telephone Company for your protection. If you do not want your conversation recorded ask the person with whom you are talking to disconnect the recording machine.

Use of a recorder without a signal is unlawful.

**Telephone Attachments**—In the interest of good service, do not attach extra apparatus or advertising devices to telephone instruments. The Telephone Company reserves the right to remove apparatus or devices which it does not furnish.

## LONG DISTANCE SERVICE

**To Make a Long Distance Call**—Ask for "Long Distance." Give the operator the name of the town you are calling, the telephone number if known, or the name and address of the residence or firm being called. If you wish to talk to a specified person, also give the name of that person.

**Call by Number**—Usually, giving "Long Distance" the number of the out-of-town person you want will result in completing the call twice as fast as when the operator must reach a distant operator to get the number. Giving the operator the number is important on both station-to-station and person-to-person calls. If you wish to talk to a certain person be sure to tell the operator.

**Free Personal Directories**—To assist you in keeping out-of-town numbers handy when you want to place long distance calls, we shall be glad to supply you with personal number books. Just call or write our business office if you would like a copy.

If you do not know the telephone numbers of out-of-town friends, your telephone business office will be glad to provide them. Just

send us a list of the names and addresses and it will be returned to you with the telephone numbers filled in.

**Station-to-Station Calls**—See explanation on inside front cover.

**Person-to-Person Calls**—See explanation on inside front cover.

**Collect Calls**—See explanation on inside front cover.

**Reduced Night and Sunday Rates**—Every night from 6 P. M. to 4:30 A. M. and all day on Sunday, there are reduced rates for both station-to-station and person-to-person calls. These rates are lower than corresponding week-day rates on calls from distances of about 50 miles or more.

**Telephone Recording Signal**—See explanation of this signal under "Local Telephone Service" above.

**Let Operator Know Where You Can Be Reached**—If your call is not completed on the first attempt and you expect to be at another telephone when the call is completed be sure to let "Long Distance" know where you can be reached.

**International Telephone Service**—See explanation on inside front cover.

### OUR POLICY

*The policy of this organization, as a part of the Bell System, is to provide the best possible telephone service at the least cost to the public consistent with fair treatment of employees and the financial safety of the business.*

NORTHWESTERN BELL TELEPHONE COMPANY

## Good telephone service for party liners...

Party-line service is *good* service when those on the line co-operate to make it so. Here are some of the things you can do to get the greatest value from your party line:

- 1—When you have several calls to make, allow a little time between them. That gives others on the line an opportunity to make or receive calls.
- 2—If the line is in use when you try to call, hang up quietly. Wait awhile before trying again.
- 3—If you have children, teach them party-line courtesy, too.

Your courtesy and consideration will encourage others on the line to follow your good example. When everyone is trying to co-operate, everyone has better service.

## **ALWAYS LOOK FOR THE NUMBER ...before calling Information**

The quickest way to find a telephone number is to look it up in this directory. If you call "Information" for numbers already listed, you lose time.

When the number you want isn't in the directory, the thing to do is to call "Information" and write down the number on your telephone call list. That way you'll have it next time you want to call.

SOMEONE'S

birthday?

- anniversary?

ONE OF THE NICEST GIFTS OF ALL  
IS A LONG DISTANCE CALL

CALL BY NUMBER...

IT'S FASTER!

# PINE CITY CIVIC INFORMATION

Pine City's current estimated population is 2,000.

## HISTORY

Pine City's beginnings date back to about 1836, when the village of Chengwatana sprang up on the banks of the Snake River on the government road east of Cross Lake. The village started as a trading post to supply the Indians and to serve as a stagecoach stop between St. Paul and Superior.

Pine City became the first county seat of Pine County, and remained so until the St. Paul and Superior Railroad was built in 1870. Then the village was moved bodily to the west side of Cross Lake. It was incorporated in 1881 and its name was changed to Pine City, the English translation of Chengwatana.

## ECONOMIC IMPORTANCE

Pine City is the center of a prosperous dairy-farming region. Industries of the community include a large co-operative creamery and a large Land O'Lakes drying plant. Deposits in the bank total almost \$4,000,000.

## GOVERNMENT

Pine City has a municipal water system and sewage disposal plant. A municipal liquor store was built in 1953.

## RELIGION

Seven churches meet the religious needs of various denominations.

## EDUCATION

Pine City has an excellent public school system.

## RECREATION

Pine City is an active baseball town, sponsoring both junior and senior teams. The American Legion Drum and Bugle Corps and the Pine City band provide opportunities to those with musical talents. Pokegama and Cross lakes are favorite spots for fishing, swimming and boating.

## TRANSPORTATION

The community is served by the Northern Pacific Railroad and the Greyhound Bus Lines.

## THE YELLOW PAGES are on the job!

They give you — quickly and  
easily:

- ... the address and tele-  
phone number of the  
nearest store.
- ... the name of the dealer  
who sells your favorite  
brand.
- ... a list of products—from  
"A" to "Z".

For Help  
look in these  
YELLOW PAGES

Keeping telephone service to  
your liking calls for millions of dol-  
lars worth of equipment and mil-  
lions of dollars in wages for the  
thousands of telephone workers  
needed to make it function.

And Ask For "Business Office"	

Bills are payable at HINCKLEY DRUG CO. or can be mailed to the  
NORTHWESTERN BELL TELEPHONE CO., Pine City, Minnesota

## HOW TO USE THE DIAL TELEPHONE

**How to Dial**—After obtaining the number from the directory, remove the receiver and listen for the dial tone which is a steady humming sound. Then dial each figure of the number in their proper order.

Take, for example, number 8841. After hearing the dial tone, place the finger in the dial opening where "8" is seen. Turn the dial around until the finger strikes the stop. Release the dial and let it return to its normal position without forcing or retarding its movement. The other figures "8," "4" and "1" should be dialed in a similar manner.

If you make a mistake while dialing, or if you wish to immediately make another call, replace the receiver for a few seconds. Then remove the receiver and after hearing the dial tone, dial each figure of the number again.

**Service Signals**—After dialing you should receive one the following service signals:

**Ringling Signal:** This is a "burring" sound that will be heard at regular intervals, which indicates that the bell of the called telephone is being rung. Allow the called person sufficient time to answer before hanging up.

**Busy Signal:** This is a "buzz-buzz-buzz" sound that will be heard when the line of the called telephone is in use.

If after several attempts to reach the number you do not hear a signal, dial "Operator" and report the condition to her.

**Telephone Recording Signal:** A short high "beep" tone heard on the telephone line about every 15 seconds means that the person with whom you are talking is recording your conversation by means of his recording machine connected to the telephone line.

This signal is provided by the telephone com-

pany for your protection. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects his recorder the signal is no longer heard.

The "beep" is produced automatically by the device used to connect the recorder to the telephone line. It stops when the recorder is disconnected. Use of a recorder without this signal is unlawful.

**Hang Up the Receiver When Through Talking**—Keep the receiver on the hook when the telephone is not in use. If you fail to do so, your telephone, and if you are on a party line all telephones on the line will be out of order.

Do not move the receiver hook or hang up the receiver before you finish talking. Also, do not move the dial while talking.

**Use of Party Lines**—Always listen for the dial tone before starting to dial. If you should hear successive clicks in your receiver, it indicates that another party on the line is dialing. Replace your receiver and make your call a little later. In case you do not hear the dial tone and no one seems to be using the line, inquire whether the line is in use. If there seems to be no one on the line, replace your receiver for a few seconds. Then remove it and the dial tone should be heard.

When you hear ringing for another party on your line, do not lift your receiver, as by doing so you will stop the ringing and may deprive the called party of receiving his call.

If when you answer your ring you find no one on the line, do not hang up immediately. Wait for an answer for about a half minute. The call may be from another party on your line, and in

## HOW TO USE THE DIAL TELEPHONE—Cont'd

order to know that you answered, this party must wait until the ringing stops before taking up his receiver.

**To Call Another Party on Your Line—**dial the special number (not the number listed in the directory) for that party. If you do not have the special number, dial the operator and she will assist you in completing the call.

After dialing the number in the usual manner,

hang up your receiver, and the bell of your telephone and the bell of the called telephone will ring. When the person called has answered, your bell will stop ringing and you may remove the receiver and start your conversation. If your bell does not stop ringing after a reasonable period, it indicates that there is no one to answer at the called telephone. You then should remove your receiver for a few seconds and replace it. This will stop your bell from ringing and connect you from the called telephone.

## LONG DISTANCE SERVICE

**To Make a Long Distance Call—**Dial "Operator" and give her the name of the town you are calling, the telephone number if known, or the name and address of the residence or business firm being called. If you wish to talk to a specified person, also give the name of that person.

**Station-to-Station Calls—**See inside front cover.

**Person-to-Person Calls—**See inside front cover.

**Reduced Night and Sunday Rates—**Every

night from 6 P. M. to 4:30 A. M. and all day every Sunday, there are reduced rates for both Station-to-Station and Person-to-Person calls. These rates are lower than corresponding weekday rates on calls for distances of about 50 miles or more.

**"Collect" Calls—**See inside front cover.

**Long Distance Rates—**If you wish information about long distance rates, call "Long Distance." If you wish to know the cost of a call at the close of the conversation, notify the long distance operator at the time you place the call.

## GENERAL INFORMATION ABOUT TELEPHONE SERVICE

**Requests for Service—**Requests for new telephone service, changes in or additions to existing service or equipment may be made by telephone, by mail or in person at the business office. Advance notice will help to have the work done by the date desired.

**Payment for Service—**Bills are issued monthly and are due upon presentation. They cover local service charges for one month in advance from the date of the bill and long distance charges for one month preceding the date of the bill. Payment of bills may be made by mail or in person at the business office. Information regarding bills may be obtained by calling the business office.

**Suspension of Service—**When you are to be away for an extended period, you may arrange to have your telephone service temporarily suspended at a reduced rate and your telephone number retained. There is no charge for resumption of service upon your return.

**Telephone Directory—**Every reasonable precaution is taken to avoid errors in and omissions from the telephone directory, but the telephone

company does not guarantee listings therein and shall not be liable for damages arising out of errors in or omissions from the directory except as provided for in its filed regulations and tariffs.

**Telephone Attachments—**In the interest of good service, please do not attach auxiliary apparatus or advertising devices to telephone instruments or other equipment. Attachments generally interfere with telephone service and the Company reserves the right to remove apparatus or devices which it does not furnish.

**Planning for Telephone Service—**If you want assistance in planning telephone needs for new or remodeled homes or buildings, please call our business office.

Arrangements can be made to have built-in wiring provide for anticipated future telephone requirements so that the wiring can be concealed without marring walls or woodwork.

**Regulations and Tariffs—**Regulations and tariffs governing the furnishing of services by the telephone company are on file in the business office. A representative will gladly assist you in obtaining information from them.

ONE OF THE NICEST GIFTS OF ALL  
IS A LONG DISTANCE CALL

CALL BY NUMBER...

IT'S FASTER!

# YOUR TELEPHONE SERVICE is "Made to Order"

- Your call may be to your next door neighbor, or to someone thousands of miles away. Every call is made to order to meet your need of the moment.

It takes a lot of people and a lot of equipment to handle your telephone calls. Your telephone instrument is only about six per cent of the equipment needed to give you service. The other 94% is buildings, switchboards, wires, cables and other apparatus — ready 24 hours a day, every day — to serve you.

NORTHWESTERN BELL  
TELEPHONE COMPANY

# Short Cut to Long Distance: Call by NUMBER—

When you give the number to "Long Distance," she can put through your call without losing time by calling "Information" at the distant point to get the number.

*For The Fastest Long Distance Service Give  
The Operator 1-2-3 Information Like This*

1. City and state you want.
2. Number you're calling.
3. Hold the line and give the operator your number when she asks for it.

**TO MAKE IT EASY** for you to keep a list of out-of-town telephone numbers, we've prepared a handy personal directory. To get your copy — free — just call, write or stop in at your nearest telephone office. There's no charge, of course. We'll supply the numbers for you, too, if you give us the names of people you frequently call.

**NORTHWESTERN BELL TELEPHONE COMPANY**

# SANDSTONE TELEPHONE DIRECTORY

W. L. Norman, Manager, Sandstone, Minn.

J. L. Doyle, District Manager, Duluth, Minn.

## OUT-OF-TOWN AND SERVICE CALLS

Long Distance—To Make a Long Distance Call.....	"Operator"
Information—For Numbers Not Listed in This Directory.....	"Operator"
Repair Service—To Report a Telephone Out of Order.....	448
If No Answer Dial.....	"Operator"
Assistance—For Assistance in Making a Call.....	"Operator"
Business Office—For Telephone Business Transactions.....	448
If No Answer Dial.....	"Operator"

## HOW TO USE THE DIAL TELEPHONE

**How to Dial**—After obtaining the number from the directory, remove the receiver and listen for the dial tone which is a steady humming sound. Then dial each figure of the number in their proper order.

Take, for example, number 8841. After hearing the dial tone, place the finger in the dial opening where "8" is seen. Turn the dial around until the finger strikes the stop. Release the dial and let it return to its normal position without forcing or retarding its movement. The other figures "8," "4" and "1" should be dialed in a similar manner.

If you make a mistake while dialing, or if you wish to immediately make another call, replace the receiver for a few seconds. Then remove the receiver and after hearing the dial tone, dial each figure of the number again.

**Service Signals**—After dialing you should receive one the following service signals:

**Ringing Signal:** This is a "burring" sound that will be heard at regular intervals, which indicates that the bell of the called telephone is being rung. Allow the called person sufficient time to answer before hanging up.

**Busy Signal:** This is a "buzz-buzz-buzz" sound that will be heard when the line of the called telephone is in use.

If after several attempts to reach the number you do not hear a signal, dial "Operator" and report the condition to her.

**Telephone Recording Signal:** A short high "beep" tone heard on the telephone line about every 15 seconds means that the person with whom you are talking is recording your conversation by means of his recording machine connected to the telephone line.

This signal is provided by the telephone company for your protection. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects his recorder the signal is no longer heard.

The "beep" is produced automatically by the device used to connect the recorder to the telephone line. It stops when the recorder is disconnected. Use of a recorder without this signal is unlawful.

**Hang Up the Receiver When Through Talking**—Keep the receiver on the hook when the telephone is not in use. If you fail to do so, your telephone, and if you are on a party line all telephones on the line will be out of order.

Do not move the receiver hook or hang up the receiver before you finish talking. Also, do not move the dial while talking.

**Use of Party Lines**—Always listen for the dial tone before starting to dial. If you should hear successive clicks in your receiver, it indicates that another party on the line is dialing. Replace your receiver and make your call a little later. In case you do not hear the dial tone and no one seems to be using the line, inquire whether the line is in use. If there seems to be no one on the line, replace your receiver for a few seconds. Then remove it and the dial tone should be heard.

When you hear ringing for another party on your line, do not lift your receiver, as by doing so you will stop the ringing and may deprive the called party of receiving his call.

If when you answer your ring you find no one on the line, do not hang up immediately. Wait

## HOW TO USE THE DIAL TELEPHONE—Cont'd

for an answer for about a half minute. The call may be from another party on your line, and in order to know that you answered, this party must wait until the ringing stops before taking up his receiver.

**To Call Another Party on Your Line,** dial the special number (not the number listed in the directory) for that party. If you do not have the special number, dial the operator and she will assist you in completing the call.

After dialing the number in the usual manner hang up your receiver, and the bell of your telephone and the bell of the called telephone will ring. When the person called has answered your bell will stop ringing and you may remove the receiver and start your conversation. If your bell does not stop ringing after a reasonable period, it indicates that there is no one to answer at the called telephone. You then should remove your receiver for a few seconds and replace it. This will stop your bell from ringing and disconnect you from the called telephone.

## LONG DISTANCE SERVICE

**To Make a Long Distance Call—**Dial "Operator" and give her the name of the town you are calling, the telephone number if known, or the name and address of the residence or business firm being called. If you wish to talk to a specified person, also give the name of that person.

**Station-to-Station Calls—**See inside front cover.

**Person-to-Person Calls—**See inside front cover.

**Reduced Night and Sunday Rates—**Every

night from 6 P. M. to 4:30 A. M. and all day every Sunday, there are reduced rates for both Station-to-Station and Person-to-Person calls. These rates are lower than corresponding weekday rates on calls for distances of about 50 miles or more.

**"Collect" Calls—**See inside front cover.

**Long Distance Rates—**If you wish information about long distance rates, call "Long Distance." If you wish to know the cost of a call at the close of the conversation, notify the long distance operator at the time you place the call.

## GENERAL INFORMATION ABOUT TELEPHONE SERVICE

**Requests for Service—**Requests for new telephone service, changes in or additions to existing service or equipment may be made by telephone, by mail or in person at the business office. Advance notice will help to have the work done by the date desired.

**Payment for Service—**Bills are issued monthly and are due upon presentation. They cover local service charges for one month in advance from the date of the bill and long distance charges for one month preceding the date of the bill. Payment of bills may be made by mail or in person at the business office. Information regarding bills may be obtained by calling the business office.

**Suspension of Service—**When you are to be away for an extended period, you may arrange to have your telephone service temporarily suspended at a reduced rate and your telephone number retained. There is no charge for resumption of service upon your return.

**Telephone Directory—**Every reasonable precaution is taken to avoid errors in and omissions from the telephone directory, but the telephone company does not guarantee listings therein and

shall not be liable for damages arising out of errors in or omissions from the directory except as provided for in its filed regulations and tariffs.

**Telephone Attachments—**In the interest of good service, please do not attach auxiliary apparatus or advertising devices to telephone instruments or other equipment. Attachments generally interfere with telephone service and the Company reserves the right to remove apparatus or devices which it does not furnish.

**Planning for Telephone Service—**If you want assistance in planning telephone needs for new or remodeled homes or buildings, please call our business office.

Arrangements can be made to have built-in wiring provide for anticipated future telephone requirements so that the wiring can be concealed without marring walls or woodwork.

**Regulations and Tariffs—**Regulations and tariffs governing the furnishing of services by the telephone company are on file in the business office. A representative will gladly assist you in obtaining information from them.

GET A  
**Cheerful**  
**Earful!**  
**Call LONG**  
**DISTANCE**

## You save time when you call by number

You'll save yourself time these busy days by keeping a list of the telephone numbers of out-of-town friends, relatives and business associates you may wish to call.

When you give the number to "Long Distance," she can put through your call without the lost time required to call "Information" at the distant place to get the number.

To make it easy for you to keep a list of out-of-town telephone numbers, we've prepared a handy personal directory. To get your copy — free — just call, write or stop in at your nearest telephone office. There's no charge, of course. We'll supply the numbers for you, too, if you give us the names of people you frequently call.

**NORTHWESTERN BELL TELEPHONE COMPANY**

*Here's a telephone shortcut*

## **ALWAYS LOOK FOR THE NUMBER ...before calling Information**

The quickest way to find a telephone number is to look it up in this directory. If you call "Information" for numbers already listed, you lose time.

When the number you want isn't in the directory, the thing to do is to call "Information" and write down the number on your telephone call list. That way you'll have it next time you want to call.

# Short Cut to Long Distance: Call by NUMBER—

When you give the number to "Long Distance," she can put through your call without losing time by calling "Information" at the distant point to get the number.

*For The Fastest Long Distance Service Give  
The Operator 1-2-3 Information Like This*

1. City and state you want.
2. Number you're calling.
3. Hold the line and give the operator your number when she asks for it.

**TO MAKE IT EASY** for you to keep a list of out-of-town telephone numbers, we've prepared a handy personal directory. To get your copy — free — just call, write or stop in at your nearest telephone office. There's no charge, of course. We'll supply the numbers for you, too, if you give us the names of people you frequently call.

**NORTHWESTERN BELL TELEPHONE COMPANY**

[illegible]

If you'll make out a list of out-of-town friends, relatives and business associates you have occasion to call we shall be glad to obtain their telephone numbers and send them to you.

To assist you in keeping out-of-town numbers available when you wish to place long distance calls, we shall be glad to supply you with a personal telephone number book. Just call or write the Telephone Business Office for a copy.
