## Station-to-Station Calls

A Station-to-Station call is one on which you are willing to talk with anyone available at the called telephone and do not request a specific individual, a department, or an extension telephone reached through a private switchboard. Charges begin when the called number answers. Station-to-Station calls cost less than Person-to-Person calls.

## Person-to-Person Calls

A Person-to-Person call is one on which you

wish to talk with a certain person, department, or extension telephone of a private switchboard. Charges begin when the calling person receives a response from the called person, department or extension telephone.

## Collect Calls

You may "reverse" charges, i. e., have them billed to the called telephone. Just tell the operator you want to place the call "collect." If the called person agrees to pay the cost, charges will be billed to his telephone.

## International Telephone Service

Information on the availability of telephone service to overseas points and the rates applicable thereto may be obtained from the Long Distance Operator.

Some typical week-day rates for a three-minute call are: To Argentina, Australia,

Denmark, Italy, United Kingdom and the U.S.S.R., \$12.00; to Hawaii and Venezuela, \$9.00; to Bahamas, Puerto Rico and Bermuda, \$7.50. Reduced rates apply on calls to many countries during certain night hours and on Sunday.

(Rates shown apply in Minnesota as of September 1, 1949)

## GENERAL INFORMATION ABOUT TELEPHONE SERVICE

**Business Transactions with the Company**—The Telephone Business Office is open from 8 A. M. to 5 P. M. except Sundays and holidays.

Requests for new telephone service, changes in or additions to existing service or equipment may be made by telephone, mail, or in person at the Business Office. Advance notice will help to have the necessary work done by the date desired.

**Bills for Service**—Bills are issued monthly and are due upon presentation. They cover local service charges for one month in advance from the date of the bill and long distance charges for one month preceding the date of the bill. Payment for service may be made by mail or in person at the Business Office.

**Telegrams by Telephone**—You may telephone telegrams, cablegrams and radiograms to the Western Union Telegraph Company and have the charges placed on your telephone bill.

**Telephone Directory**—Every precaution is taken to avoid errors and omissions in the telephone directory, but if they occur, the Company's liability for them, as provided in its tariffs, is limited to one-half of the charges for the service affected until a new directory is published.

**Regulations and Tariffs**—Regulations and tariffs governing the furnishing of services by the telephone company are on file in the Business Office. A representative will gladly assist you in obtaining information from them.

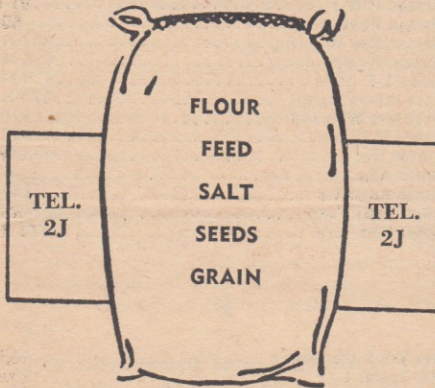

---

## OUR POLICY

The policy of this organization, as a part of the Bell System, is to provide the best possible telephone service at the least cost to the public consistent with fair treatment of employees and the financial safety of the business.

**YOU LIKE IT  
IT LIKES YOU**

Telephone  
**109**

**You'll hear,  
and SEE, over  
cable like this**

Coaxial Cable — a development of the Bell Telephone Laboratories, successfully transmits the wide range of frequencies used in TELEVISION.

Installations of this cable now in use helped greatly in handling war-time Long Distance loads, as each pair of "coaxial" tubes carry hundreds of simultaneous conversations.

Soon a network of "coaxial" cable will greatly increase Long Distance circuits, and may also carry television broadcasts, much as telephone wires now distribute chain radio broadcasts.

**EVER TALK  
OVER  
THE RADIO?**

If you have, you know you must stay close to the microphone and talk directly into it. A telephone is a "mike" too, and to be heard best you must talk straight into it, with your lips one-half inch from the transmitter.

**THE  
TELEPHONE  
GOLDEN  
RULE**

★

Answer your telephone as promptly as you would like others to answer you, and wait as long for an answer as you would have others wait for you.

**ANSWER PROMPTLY**

Delay in answering may mean that you miss an important call. The person calling may decide that no one is there and hang up.

**NEIGHBORLINESS  
 PAYS**

Few are the places where courtesy and willingness to co-operate pay off so richly as on party-line telephones. If you have this service, you've probably found it out for yourself. The more neighborly those who share a telephone line, the better all hands fare.

• The Welcome Mat is out. We'd enjoy having you visit the central office and see how calls are handled. Mention it to our folks in the office and it'll be arranged.

## EMERGENCY AND TELEPHONE SERVICE CALLS

FIRE . . . . . Dial 401  
POLICE . . . . . Dial 0  
If No Answer—Dial "O" and Ask Operator for Assistance

FEDERAL BUREAU OF INVESTIGATION—  
For address and telephone number of nearest office call "INFORMATION"

## TELEPHONE SERVICE CALLS Dial

LONG DISTANCE—To Make Out of Town Calls . . . . .	"O"
INFORMATION—For Numbers Not Listed in This Directory . . . . .	"O"
REPAIR SERVICE—To Report Telephone Out of Order . . . . .	"O"
ASSISTANCE—Assistance in Calling . . . . .	"O"
BUSINESS OFFICE—For Business Transactions With Company . . . . .	"O"

Bills are payable at the Kroning Drug Store or can be mailed to Northwestern Bell Telephone Company, Sandstone, Minnesota.

### How to Dial

After obtaining the number from the directory, listen for the dial tone which is a steady humming sound. Then dial each figure of the number in order.

Take, for example, number 8841. After hearing the dial tone, place the finger in the dial opening where "8" is seen. Turn the dial around until the finger strikes the stop. Release the dial and let it run back freely to its starting place. The other figures, "8," "4," and "1" should be dialed in the same way.

If you make a mistake while dialing, or if your finger slips from the dial before reaching the finger stop, hang up the receiver for a few seconds. Then remove it and, after hearing the dial tone, dial each figure of the number again.

### Service Signals

**Ringling Signal**—This is a "burring" sound that will be heard at regular intervals which indicates that the bell of the called telephone is being rung.

**Busy Signal**—This is a "buzz-buzz-buzz" sound that will be heard when the line of the called telephone is in use.

If after several attempts to reach the number you do not hear a signal, dial "C" and report the condition to the operator.

**Telephone Recording Signal**—A short high "beep" tone heard on the telephone line about every 15 seconds means that the person with whom you are talking is recording your conversation by means of his recording machine connected to the telephone line.

This signal is provided by the telephone company for your protection. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects his recorder the signal is no longer heard.

The "beep" is produced automatically by the device used to connect the recorder to the telephone line. It stops when the recorder is disconnected. Use of a recorder without this signal is unlawful.

### Hang Up the Receiver When Through Talking

Keep the receiver on the hook when the tele-

phone is not in use. If you fail to do so your telephone, and if you are on a party line, all telephones on the line will be out of order.

Do not move the receiver hook or hang up the receiver before you finish talking. Also, do not move the dial while talking.

### Use of Party Lines

If you do not hear the dial tone, inquire whether the line is in use. You may hear someone speak or dial. Replace the receiver and unless someone is using the line you should hear the dial tone when you next listen.

### To Call Another Party on Your Line

Dial the special number and hang up the receiver. Your bell and the called bell will ring. When your bell stops ringing the person called is on the line and you may start the conversation. If your bell does not stop ringing after a reasonable period it indicates there is no one to answer at the called telephone. To stop your bell from ringing remove your receiver for a few seconds and then replace it.

If you do not know the special number, dial "Operator" and she will assist you.

### Long Distance Service

**To Make a Long Distance Call**—Please dial "O" and give the information to the operator who answers.

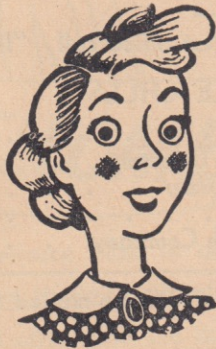

A **Station-to-Station Call** is one on which you are willing to talk with anyone at the called telephone and do not request a specific individual. Charges begin when the called number answers. **Station-to-Station Calls** cost less than **Person-to-Person Calls**.

A **Person-to-Person Call** is one on which you wish to talk with a certain person, department, or extension telephone of a private switchboard. Charges begin when the calling person receives a response from the called person, department, or extension telephone.

**Reduced Night and Sunday Rates**—Every night from 6 P. M. to 4:30 A. M. and all day every Sunday there are reduced rates in effect on calls for distances of about 50 miles or more.

SANDSTONE

# "I took the Cure!"

"It was last Thursday afternoon that I started being a good girl—I mean about using the party line telephone.

"Four of us were playing cards . . . and talking. It was Mrs. Malone who said,

"Helen, you've got an awful gabber on your party line. I tried to call you five times yesterday and the line was always busy. I'd raise the dickens if I were you."

"I gulped. The folks on our party line live just back of us and they had been away for more than a week. The "awful gabber" was me.

"Right then I decided to use my share of the party line a lot differently. Now I limit my calls to five minutes and never make a steady string of them. I hope my party line neighbor has noticed the difference. I'm really trying."

*It's a good thing  
 for party-line  
 telephone users to do*

When party-line users put themselves in "the other fellow's shoes" it reminds them to be thoughtful of others—such as making sure the line is not in use before placing a call and if it is, hanging up quietly and promptly.

## EMERGENCY AND TELEPHONE SERVICE CALLS

FIRE . . . . . Dial 289

POLICE . . . . . Dial 280

If No Answer—Dial "O" and Ask Operator for Assistance

### FEDERAL BUREAU OF INVESTIGATION—

For address and telephone number of nearest office call "INFORMATION"

## TELEPHONE SERVICE CALLS

LONG DISTANCE—To Make Out of Town Calls . . . . .	Dial
INFORMATION—For Numbers Not Listed in This Directory . . . . .	"O"
REPAIR SERVICE—To Report Telephone Out of Order . . . . .	"O"
ASSISTANCE—Assistance in Calling . . . . .	"O"
BUSINESS OFFICE—For Business Transactions With Company . . . . .	"O"

Bills are payable at the Hinckley Drug Co. or can be mailed to Northwestern Bell Telephone Company, Pine City, Minnesota.

### How to Dial

After obtaining the number from the directory, listen for the dial tone which is a steady humming sound. Then dial each figure of the number in order.

Take, for example, number 8841. After hearing the dial tone, place the finger in the dial opening where "8" is seen. Turn the dial around until the finger strikes the stop. Release the dial and let it run back freely to its starting place. The other figures, "8," "4," and "1" should be dialed in the same way.

If you make a mistake while dialing, or if your finger slips from the dial before reaching the finger stop, hang up the receiver for a few seconds. Then remove it and, after hearing the dial tone, dial each figure of the number again.

### Service Signals

**Ringling Signal**—This is a "burring" sound that will be heard at regular intervals which indicates that the bell of the called telephone is being rung.

**Busy Signal**—This is a "buzz-buzz-buzz" sound that will be heard when the line of the called telephone is in use.

If after several attempts to reach the number you do not hear a signal, dial "C" and report the condition to the operator.

**Telephone Recording Signal**—A short high "beep" tone heard on the telephone line about every 15 seconds means that the person with whom you are talking is recording your conversation by means of his recording machine connected to the telephone line.

This signal is provided by the telephone company for your protection. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects his recorder the signal is no longer heard.

The "beep" is produced automatically by the device used to connect the recorder to the telephone line. It stops when the recorder is disconnected. Use of a recorder without this signal is unlawful.

### Hang Up the Receiver When Through Talking

Keep the receiver on the hook when the tele-

phone is not in use. If you fail to do so your telephone, and if you are on a party line, all telephones on the line will be out of order.

Do not move the receiver hook or hang up the receiver before you finish talking. Also, do not move the dial while talking.

### Use of Party Lines

If you do not hear the dial tone, inquire whether the line is in use. You may hear someone speak or dial. Replace the receiver and unless someone is using the line you should hear the dial tone when you next listen.

### To Call Another Party on Your Line

Dial the special number and hang up the receiver. Your bell and the called bell will ring. When your bell stops ringing the person called is on the line and you may start the conversation. If your bell does not stop ringing after a reasonable period it indicates there is no one to answer at the called telephone. To stop your bell from ringing remove your receiver for a few seconds and then replace it.

If you do not know the special number, dial "Operator" and she will assist you.

### Long Distance Service

**To Make a Long Distance Call**—Please dial "O" and give the information to the operator who answers.

A Station-to-Station Call is one on which you are willing to talk with anyone at the called telephone and do not request a specific individual. Charges begin when the called number answers. Station-to-Station Calls cost less than Person-to-Person Calls.

A Person-to-Person Call is one on which you wish to talk with a certain person, department, or extension telephone of a private switchboard. Charges begin when the calling person receives a response from the called person, department, or extension telephone.

**Reduced Night and Sunday Rates**—Every night from 6 P. M. to 4:30 A. M. and all day every Sunday there are reduced rates in effect on calls for distances of about 50 miles or more.

HINCKLEY

**"You bet I try to be a good  
'party-line neighbor.' *It pays!*"**

**"Sharing a party line is like sharing anything else. Courtesy can do wonders! That's why I try to space my calls well apart. The others on the line give me a break too . . . so everybody on our line gets a chance to use the telephone as much as needed."**

Party-line telephone service is most satisfactory when users share the line with others as they would like others to share it with them.

**DEPENDABLE**

At all hours, in all kinds of weather, she's at her post. You count on her and she's proud of it.

With switchboards busier than ever because of the many more telephones, hers is still "The Spirit of Service." More telephones are being added right along. Our constant aim is to provide more and better service . . . always at the lowest possible cost . . . to give greater value to every telephone user.

**NORTHWESTERN BELL TELEPHONE COMPANY**

## The **BIG** little thing

*Your telephone* is so small you can hold it in your hand; so big it can carry your voice across the world.

*To furnish you* with the kind of telephone service you desire, we obtain the best in telephone equipment from the Western Electric Company. Our association with the American Telephone & Telegraph Company provides nation-wide and world-wide long distance facilities and use of the famous Bell Laboratories for research purposes.

*These advantages*, plus service connections with other Telephone Companies throughout the country, make it possible for us to serve you—any time, any place, for business or pleasure, or emergencies.

*Yes, your telephone* is a big little thing—big enough to dissolve barriers of time and distance—little enough to be a friend and neighbor in your community.
