Divorce Bill in Legislature

Pine and Chisago Will Agree To "Going It Alone" With Best Wishes of Everyone

The legislature is getting into the harness unusually early, though the senate has been greatly hampered by the death, last week, of two of its most experienced and valuable members—Senators Harry Weiss and Leasure and Carl L. Wallace of Minneapolis. Senator Wallace was chairman of the important rules committee of the senate, and Governor Frankson sprung a surprise in announcing the composition of committees, Monday evening, by naming Senator Adolph S. Larson of Sandstone to fill the vacancy. Taking a new member for this important place is very unusual, at least, and is regarded as a great compliment to Mr. Larson from the presiding officer of the senate. Senator Larson also landed in the important committee on education, corporations, insurance, towns and counties and elections, and same with one of the best general assignments in the senate.

We understand that the legislature is going to be asked to appropriate state funds running into seven figures to re-establish sufferers in the districts north of us which were swept by the October forest fires in their homes and in some instances for carrying on their work. Mr. C. P. Mahke, of the fire commission of Moose Lake, estimates that the loss in the fire zone would total about \$25,000,000, and we understand that one member of the lower branch of the legislature, at least, favors paying for all of this. Anyway, the amount asked for will be big one.

Representative Nordren introduced a bill, the first of the week, to require sleds to be made of the standard width of wagons. Time is given for remodeling old sleds—three cents are believed to conform to the proposed law, but all sleds manufactured after the passage of the act must be made to standard width. Wisconsin already has such a law, and this one may be adopted by the legislature this winter.

The Pine-Chisago legislative divorce bill is being prepared and will probably be introduced at the same time in both house and senate, this week or next. The house will hear the names of Representatives Nordren and Bederson and the senate bill the name of Senator Larson. It will separate Pine and Chisago counties in the election of members of the legislature and will allow each to choose its own representatives. The bill will undoubtedly pass easily, and will probably be the cause of some wild mirth in both houses if members get the facts. They're off again and on again and gone again—ah, Minnigan?

Examination for Hinkley P. M. An examination will be conducted by the United States civil service commission at St. Paul on February 19, to select a postmaster for Hinkley, to succeed J. J. Polson, who has resigned to devote his attention to his private business. The position nominally pays \$1,500, but the government allows a very inconsiderable amount for clerk hire, and much or most of this amount will probably be turned over to other employees in the office.

Pine Co. Poultry Show Next Month. The Pine county poultry show, which will be held in the armory at Hinkley in this county, will prove to be one of the largest and best poultry shows ever held in this county and should entitle the industry and attendance of every farmer or visitor in this county who raises or might raise poultry.

The Hillwater Gazette publishes the following, which shows the interest in our show being taken by Washington county poultry fanciers:

"J. W. O'Brien and G. F. Barstow, two well-known local fanciers, are now preparing exhibits that will be shown at the Pine City Poultry Show to be held in that town during January 12. From these they will take their exhibits to St. Paul, where they will be entered at the show there that will be held later in the month."

"It is expected that from 50 to 100 birds from Washington county will be shown at the Pine City show."

Judge Cook of Center City, Minn., writes to the Pine City Poultry Show committee:

"I am glad to hear that you are so actively engaged in preparing for the show. It is a very important one for this county and I hope it will be a success."

Paul during the winter and will settle at Center City in the spring, when they will be "at home." Judge Stark is well known throughout the part of the state. He represented the old Pine-Chisago-Kanabec legislative district in the state legislature for several terms in the 20s and has been judge of probate of Chisago county for about a score of years, and is a member of the Republican state central committee and very active in state politics.

Mrs. Mack Back at Willow River. Mrs. E. Mack returned the first of the week from Maynard, where she had been in charge of the N. P. station for the past few weeks. Another son Walter is on his way home from the U. S. naval station at Manila, she decided to give up telegraphy for the present and await him here. She has rented the old Akle place, and says she will mobilize Walter for the summer on the farm—Willow River Farmer.

BRACE OF ACCIDENTS

Kanabec Counties Lose Their Hands in Working About Mill and Wood Saw. James L. Jamieson narrowly escaped sudden death last Saturday afternoon about 4 o'clock while assisting in operating a saw rig at his home in the town of Ford. In sawing wood, Mr. Jamieson, in some manner slipped and fell over the saw frame, his clothing catching, pulling the unfortunate young man against the saw, leaving it to be leg above the knee and cutting it to the bone. Mr. Jamieson says that he endeavored to catch the frame, but missed it, and the saw caught his right arm and severed it near the elbow. Dr. Rhein of Mora was summoned and the young man taken to the Brahan hospital, where the wounds received the proper treatment. At the present time the patient is doing nicely, considering the seriousness of the accident—Mora Times.

C. H. Reynolds, who lives near Mora and commenced sawing lumber at his mill last week, unfortunately had his right hand cut off while working at the mill. The edger was running and Mr. Reynolds was working about the machine, when the glove on his right hand was caught and jerked under the saw. The hand was severed from the arm with the exception of a part of the thumb. He was taken to Mora by C. E. Zimmer, and Dr. Rhein accompanied him to the Brahan hospital, where he and Dr. Svenson found it necessary to re-sever the thumb.—Granston Advertiser.

Old Sandstone Ry. Agent Honored

W. T. Tyler, who was in charge of the railway yards and depot at Sandstone during the very busy days of 1916, there has been named by President Wilson to succeed Carl R. Gray as director of operation, according to authoritative word received here today from Washington. Mr. Tyler, who has been in the employ of St. Paul, having been granted leave of absence from the Northern Pacific during the period of the war emergency, Mr. Gray, former president of the Great Northern and the Western & Maryland, has resigned.

Mr. Tyler's many friends of the old days at Sandstone are glad to see him honored in this way.

Attended Meeting of State Agri. Soc.

President F. M. Stuck and Secretary F. P. Gottry, of Pine City, and Vice President G. C. Schmidt, of Rock Creek, are representing the county fair society at the meeting of the state society at Minneapolis this week. The re-election of Frank Murphy, of Wheaton, to the state fair board and his elevation to the presidency, this year, is generally conceded, and several other places are to be filled. The term of Curtis Johnson, of Rush City, on the board will not expire until next January.

Nessel Mutual Elects

Annual Meeting at Rush City, Tuesday, Next One Will Be Held in Pine City

The annual meeting of the Nessel Mutual fire insurance company was held at Rush City in Tuesday of this week, there being only about 50 members in attendance. The old officers were re-elected without any opposition—a great compliment to them—as follows: Geo. Dorr of Royalton, president; B. F. Swanson of Danewick vice president; Hans Hoff of Nessel secretary; Henry Dose of Rush City treasurer, and J. E. Swanson, Fred Sturmer and John Oscar Lindstrom, while Frank O. Serdine, of Rush Point was put on in the place of Louis Lerin of Stanchfield, one of the old liners in the company and as fine a man as ever lived, who refused re-election, and Frank Stank of Pine town was added to the board to complete it. We know most every one of those men personally and regard every one of them as high-class men.

The reports showed that the company has a membership of 2,050 at this time and has a total of \$5,447,500 of insurance in force. It was voted to levy an assessment of 75 cents per \$100 on all insurance which the company has in force to aid mutual companies which suffered from losses through the recent forest fires in Carlton and St. Louis counties. This will raise a fund of about \$1,136, or an average of about \$2 per member.

Dinner was served at the hotel and restaurant, where members of the company were guests of the hosts of Rush City. There was a close fight to determine the location of the next annual meeting and the vote, on the first ballot, stood at between Pine City and Hinkley, though the former won by a hair when another vote was taken.

Catholic Church Makes Fine Showing

Father Lee of the Catholic church passed the tenth anniversary of his charge of the local parish on Sunday last and, although any special celebration of the event was not undertaken, the church trustees met with him, and a most satisfying train of accomplishments during that period was reviewed.

When Father Leo came to Pine City, on the second Sunday of January, in 1909, he found a parish with 35 active families, the old church building, the parish house only partly completed, and the property in general far from the state of excellent condition it is in today, and yet nothing of the prospects for farther growth in future. Today here are about 125 families active and regularly interested in the church work, the old church building has been replaced by a beautiful modern brick structure at a cost of about \$30,000, the parish house has been put in good repair, the cemetery beautifully improved by an ornamental iron fence along the front and a large Calvary group in the center, and all of these things have been paid for in full and the treasury enjoys a balance of \$21,122 at this time as against a deficit when Father Leo came to Pine City 10 years ago.

Plans for the future include a large, brick, modern parish house, on which work will probably begin in a year or so, to occupy the ground on which the present building stands, to cost about \$6,000 to \$8,000, and other material improve-

ments on the property. In connection with this very satisfactory condition, Father Leo wishes to express his thanks to everyone who has contributed in any way to make it possible—both his own parishioners and to friends outside.

Chicago County Fair Comes Early

The Chicago county fair at Rush City will be held this year on Aug. 25-27, instead of about the middle of September, as has been their policy for many years. The change is doubtless made with the hope of drawing better weather, for the past two or three years they have happened to have rain on 2 or all 3 of the days of their fair. Another reason given is that farmers are kept away from the fair by the kept away from the fair by the killing frosts which invariably hit just before the fair and keep farmers at home cutting corn just at fair time.

ARRISTED FOR SEDITION

Former Cambridge Resident is Arrested for Favoritism of a Foreign Nation

A former resident of Cambridge has just been taken in tow by the long arm of the law Martin Kuhar, a former baker at the Klondike bakery, left here when things began to look serious for pro-Germans, and his many sympathetic remarks may have brought him into trouble. He was lost for a time and a short time ago was known to run a bakery at Lambert. It appears that he continued his un-American remarks until the government decided that he was not worthy of his liberties in his adopted country, being an Austrian subject. The Sleepy Eye Herald-Dispatch says in last week's issue:

"Martin Kuhar of Lambert was taken in tow by a government official last week and taken to St. Paul and lodged in jail waiting the order of the government to take him to a detention camp, where dangerous aliens are kept, previous to being sent back to Germany and Austria. This man ran a bakeryshop, and his place is Lambert was a rendezvous for all the pros in the neighborhood. He was adopted country, being an Austrian giving expression to an American idea, criticizing the war and giving vent to his pro-German sympathies by running down anything connected with England. Kuhar was a socialist of the radical sort, and he will have a chance to go back to the land he loves"—Cambridge North Star.

Mr. McAdoe Writes For Pine Pokes

The Pine Pokes has secured for publication in next week's issue a most interesting and important article by Wm. G. McAdoe, director general of railroads and former secretary of the treasury. In this article Mr. McAdoe will outline the reasons for his recent action in asking congress to extend its "big" years the period of government operation and control of railroads. He will clear up some doubts that have existed as to his attitude on the question of government control. There is no after-war problem of greater interest to all he people than this question of what shall be done with the railroads now that the war emergency has passed. Whether you agree with Mr. McAdoe or not, you will find his article of the greatest interest, coming as it does from the directing head of all the railroads in the United States.

Look out for this article in the next issue of The Pine Pokes. It will be worth reading.

Dist. Court Is In Session

Rock Creek Ditch Case Occurs About Four Days Time—Criminal Cases Up

District court convened Tuesday afternoon for the term adjourned from last September. Court Reporter Maussell is back at his desk for the first time in more than a year, during which he was in the national army service. The petit jury is present.

The Rock Creek ditch case was taken up Tuesday afternoon and will occupy the attention of the court until tomorrow. Our understanding is that the case will probably be given to the jury about noon tomorrow—Friday. It is an appeal from the action of the county commissioners, taken last summer in laying out a ditch, starting in Roylton town and running in general course of Rock Creek to the bridge just east of Rock Creek station, where the fall in the creek is sufficient to carry off the water. Some of the appellants claim that the benefits assessed against their lands are all out of proportion with the real benefits, while others claim they are assessed but not benefited. The jury was taken over the route of the ditch, Wednesday, to give them a view of the topography of the country, Judge Searies and the attorneys in the case accompanying them.

Atty. Roberts represents the appellants and County Atty. Ervin and Attorney Lamson of Minneapolis the county board.

The case of the state against A. Lovren resident for pigging will probably be taken up the last of the week, and other criminal cases may be acted on.

Court will probably adjourn the last of this week, other cases on the calendar going over to the spring term.

Bridgeman-Russell Creamery to Close

A contract for the period of one year has been entered into between the Farmers' Co-operative creamery and the Bridgeman-Russell plant at this place, whereby the latter plant closes for that term, the Co-operative company getting the use of the B.-R. ice house and furnishing them with sweet cream and milk. The Co-operative company has an excellent plant and is owned and managed by local people, who get every cent of its profits and will responsibly reinvest them in other local enterprises. It is greatly to be hoped that the new plan may work out to the satisfaction and benefit of everyone, for it should put the Co-operative company on a most secure basis, and relieves expense to the Bridgeman-Russell people, while filling their needs in supplying the public at the head of the lakes with dairy products.

Manager Elmer Carlson of the B.-R. plant expects to leave Feb. 1 for Crookston, where he will have charge of another creamery for the Bridgeman-Russell people.

We feel that Manager Lohnbach and the other officers and stockholders of the Co-operative company are entitled to congratulations on being able to bring this deal about.

Opening Up for Prosperity

A meeting was held at Hinkley, Saturday, being attended by a few from different parts of the county, for the purpose of discussing some kind of a land clearing proposition, which is later to be presented to the state legislature.

Geo. W. Empey, of Hinkley, expressed his interest in the proposition by outlining a good plan. Mr. Empey's idea is to have a state law enacted whereby townships could issue bonds for the clearing of land. The bonds would be placed on a market on the property—extending over a long period of time. The kind of the matter can be worked later. Mr. Empey is of the opinion that it would be the means of opening up much land—which we all know there is plenty of in Pine county—and for that matter all over northern Minnesota. It would be an inducement to new settlers and the returning soldiers as well as settlers already here. If the money can be borrowed from the state and the work of clearing be done up on a time basis, undoubtedly many large land clearing companies would be organized, and that create an abundance of work—which would be just the kind that many returning soldiers would like and need the most for, especially those who have engineering experience.

It would be a fine thing if a law along this line was enacted by the present legislature. We want more settlers, and let us boost for it.

Mr. Empey went to St. Paul yes-

Gradually the really great men of Russia are being murdered, and every time one of these happenings which is liable to attract international attention occurs, the Bolshevik government denies responsibility. No government can be held responsible for all acts of vandalism and lawlessness that occur under it, but a government which allows them habitually and apparently never punishes the guilty can hardly be called, "of, by and for the people." The Russia of today is proving that the Russia of the Czar was a mere milk-and-water affair in comparison and has brought out the thought that Czarism may be organized hell, but Bolshevism is hell turned loose.

The board of county commissioners set the usual salaries of the county officers at their meeting Tuesday, and each commissioner always takes all the law allows for his own services, but it is different when it comes to letting the county printing. They awarded the contract to the Askov American, notwithstanding the fact that there were three lower bids, one of which would have cost the county only \$1 for all of its legal printing. Why the commissioners are spending several hundred dollars of the county's money to accept the highest individual bid is hard to understand, and undoubtedly the taxpayers—as well as the editors who were turned down—would like to know—Sandstone Courier.

Presbyterian Church Notes

Pine Defeats Rush at Basket Ball
Last Friday night the Pine City high school basket ball team defeated the Rush City team on their home floor, 30-10. In the first half neither side developed much speed or skill. Rush City obtained the first field goal and added only one free throw during the first twenty minute period. In the meantime Pine City made four baskets and two free throws, so that the ball closed 10-3. The second period started with much more pep, and several times some real basket ball was evident. The visitors had more team work than their opponents, and for a while they kept the score against Pine City. Pine City's method of defense proved to be a puzzle and the game closed with the score 30-10 in our favor. About 100 fans here were with the team.

The last game of the season will be tomorrow (Friday) night, when residents play here, so neither team has been defeated.

Chicago County Shows Pine City Clerk
The county clerk at Oak Dale, Chicago County, Tuesday and Wednesday last, was here to see the clerk of Pine City. He was very much interested in the work of the clerk of Pine City, and he was very much interested in the work of the clerk of Pine City.

There was a total of 836 birds exhibited. There were several exhibitors from this region.

Mrs. R. G. Jones of Pine City received first prize for having the largest exhibit of 44 birds. Other prizes awarded her were 9 firsts, 4 seconds, and 17 third, fourth and fifth prizes.

J. W. Tausley of Cross Lake had 3 birds exhibited and was awarded 1 fourth prize.

M. C. Bahnmann, from east of town, had 11 birds on exhibition and won several prizes, as also Wm. Anderson, from southeast of Rock Creek.

'One More American' Citizen Turns Post
When George Beban, as Luigi Riccardo, becomes "One More American" citizen, he writes at once to a soldier friend in Italy, quoting the following advice:
"Our Uncle Sam he made no noise, but spent the mun' and train the boys—
I hear you lose in big, bad push, but Uncle Sam make contr' rush. You hold the line and do your best, Our Uncle Sam come do the rest!"—Family theatre, Saturday, matinee and night.

Red Cross Membership Grows

How Good We Feel...

Ever since DR. MILES' LAXATIVE TABLETS have been on the market, thousands of people both young and old have been trying to the merits of this popular and time tried remedy for constipation and stomach disorders.

Mr. and Mrs. Guy Simmons of East Columbia, Ohio, are typical examples. Mr. Simmons says:

"I have given DR. MILES' LAXATIVE TABLETS through out my life and they are the best I have ever used. They are pleasant to take and pleasant in action and do the work without weakening the digestive tract. My wife has been bothered with constipation more or less all her life. When she begins using DR. MILES' LAXATIVE TABLETS she gets better results than she had ever been able to get with other remedies."

DR. MILES' LAXATIVE TABLETS are prepared especially for sufferers of constipation—the ingredients are such that they act surely, but gently on the bowels and assist in restoring healthful regularity. A box of these tablets costs only a few cents at any drug store. They faint like candy. Ask your druggist about them. He knows why they are the ideal laxative for old and young.

Why Meat Prices Vary in Different Stores

These newspaper quotations represent live cattle prices in Chicago on December 30th, 1918.

The list shows price ranges on nine general classified groups with a spread of \$13.85 per cwt.—the lowest at \$6.50 and the highest at \$20.35.

Why this variation in price? Because the meat from different animals varies greatly in quality and weight.

Although the quotations shown are in nine divisions, Swift & Company grades cattle into 34 general classes, and each class into a variety of weights and qualities.

As a result of these differences in cattle prices, (due to differences in weights and meat qualities), there is a range of 15 cents in Swift & Company's selling prices of beef carcasses.

These facts explain:

- 1—Why retail prices vary in different stores. 2—Why it would be difficult to regulate prices of cattle or beef. 3—Why it requires experts to judge cattle and to sell meat, so as to yield the profit of only a fraction of a cent a pound—a profit too small to affect prices.
