MANY LIKE THIS IN PINE CITY

Similar Cases Being Published in Each Issue.

The following case is but one of the many reported in Pine City. It is an easy matter to verify it. You cannot see the bottle proof. A Missions' Farm implement dealer, aged 40, has had several attacks of kidney trouble and has suffered a great deal from backache and has been unable with it. I have to bend over at my work, and I have to vomit when I have been, and I have lately been unable to get to sleep. At such times the kidneys have acted so frequently and the affliction has been so bad, that I have felt that death was near. I have had a very good opinion of the Pils' bottle and I have used them. The bottle and syrup are through my hands and I have used them for a year in the city, and the symptoms have been cured. I have a letter from a woman who has used them for a year.

HE TURNED THINGS OVER

How One Girl Rejoiced and Humanized an Old Fashioned Town. Enid Bennett, who recently created a furore in Ipar-Parliament in "The Keys of the Righteous," will appear on Sunday at the Family theatre in "Naughty, Naughty." This is not, as the name would indicate, a travesty on light opera, but a whimsically funny, true-to-life story of a girl in a small mid-western town who struggles to bring to the narrow minded natives a realization of their loss in refusing to admit the newer forms of amusement. Incidentally her old time sweetheart, the editor of the local paper, is one of the narrowest of all, and it is to his regeneration that she turns her special attention—with what success will be seen at the Family theatre, matinee and night.

Other numbers on the especially attractive program will be "Summer Girls," a Semetist comedy, featuring Ford Sterling and Louise Fazenda.

Horse and Cattle Sale at Willow

The Willow River Horse and Cattle Co. will conduct a big auction at Willow River, on Saturday, March 1st, when 50 head of horses, mares and mules, 25 ewes, 50 Angora goats, 50 milking goats, 25 sets working harness, 10 sets single harness, farm wagons, buggies and other farm implements will be offered for sale—Willow River Horse and Cattle Co.

The Chenoqueans farmers club will hold an all day session in the town hall on Saturday of this week, Feb. 22. Dinner will be served at noon, to which the Beroun club has made program in the afternoon. Everyone is invited to this meeting.

Such feeling against removal of the walls is expressed in the form of a protest by some of the members of the Merchants' guild to the city government, according to the Times.

SEIZURE OF HOUSEWIVES' FOOD STOCKS IMPOSSIBLE

The government has never considered any plan of seizing food stocks owned by housewives. Nor is there any policy of this kind suggested for the future.

TOY TO TRIBLE IT POPULATION.

If plans adopted by a special committee are carried out, Tokyo will become a city with an area of 220 square miles—a startling contrast to its present area of 30 square miles. The Tokyo area is the result of the absorption of the severe suburban cities, which the editor says possess larger populations than other principal cities.

WAS THERE WITH THE RAZOR

Colored United States Soldier Made Short Work of Hun and His Trench Knife. How a negro soldier met a stray German prowling about a piece of woods was told by one of the colored troops from New York, on his return to that city. The German had his gun and revolver and carried only with a trench knife. The negro, a resident of South avenue, took of him over, dropped his own gun and bayonet and revolver, and took a long, wicked razor from his boot.

GERMANY MUST REDUCE FORCES

New Armistice Terms Are Essentially Those of Preliminary Peace Treaty.

WAR MATERIAL HELD

Peace Conference Marking Time Until Wilson's Return, Though Work on Various Problems Continues During Absence.

Paris, Feb. 19.—A Havas report says the special commission of the supreme council charged with drafting the terms of a definite armistice, which will not be signed until the preliminary armistice is signed, has almost completed its task and it is possible that Marshal Foch will be able to return to the Germans in two or three days of the military and naval terms, which will be essentially those of the preliminary peace treaty.

It is understood that the terms will include clauses by which Germany will be allowed to maintain 20,000 men under arms to keep order.

All war material beyond what is necessary to equip the army will be sold according to report, to be placed under control of the Allies, who will also hold Germany's munition factories.

Equal representation for government and labor on the other hand was decided upon by the commission in international labor legislation in adopting plans for the meetings of the proposed annual international labor conference. The plan adopted was that provided by British delegates, which was amended proposed by the Belgian delegation. Samuel Gompers, head of the American Federation of Labor, presided over the meeting.

The peace conference is expected to open on the 20th. President Wilson returns from his brief foray in the United States. Work on the details of the armistice will continue during the president's absence, but it is understood that no momentous decisions will be made until he again takes his seat at the peace table, probably the middle of next month.

In Military Treaty. London, Feb. 19.—The terms of the new military treaty imposed on Germany in line of the preliminary armistice and as a part of the final peace conditions, according to the Daily Mail's correspondent, include the complete destruction of the fortifications at Heligoland and the Kiel canal and the signing of the canal to traffic, the complete transfer of certain warships which have not yet been given up as required, and the conversion of the status of the German fleet in the Skagerrak from that of internment to surrender.

The correspondent adds these surrendered ships eventually will be destroyed, the idea of dividing them among the Allies having been abandoned.

NEW MONTENEGRIN CABINET. Former Foreign Minister Plamenatz Becomes Premier.

Cetinje, Montenegro, Feb. 19.—King Nicholas having accepted the resignation of the cabinet headed by the Duke Papanich, a new cabinet has been named under the leadership of St. Plamenatz, former foreign minister, and a former president of the Montenegrin chamber of deputies.

In addition to being premier, he also holds the portfolio of foreign affairs and internal affairs.

FAVORS SHORT TERM NOTES. House Committee Is Opposed to Further Rise in Rates.

Washington, Feb. 19.—The House committee on the currency today reported to the committee on the currency that it is opposed to any further increase in the rate of interest.

The committee also reported that it is in favor of a 10 percent increase in the rate of interest on short term notes.

JOY AT WASHINGTON. Announcement Brings Expressions of Approval From Several Lawmakers.

Washington, Feb. 19.—American and Allied troops operating in North Russia will be withdrawn "at the earliest possible moment that weather conditions in the spring will permit."

To facilitate this movement and to improve lines of communications for the supplying of the forces that have penetrated into the country, President Wilson has approved the sending of two additional companies of American railway troops to Archangel.

This information, called to the war department by General Tasker H. Bliss at Paris by direction of the president, was transmitted to Chairman Chamberlain and Dent of the senate and house military committees by Secretary Baker.

The announcement brought expressions of approval from several senators, including Senator Johnson of California, a Republican, who has been pressing his resolution providing for a declaration by the senate in favor of withdrawal of the American forces.

General Bliss also informed Secretary Baker that Great Britain had decided to send 2,400 additional soldiers to Archangel to reinforce the army in North Russia. In this connection General Bliss said the British military authorities felt no apprehension over the military situation in North Russia.

PROBLEM TO NEXT CONGRESS. Committee Passes Railroad Question in New York.

Washington, Feb. 18.—All plans for considering railroad legislation at this session of congress have been abandoned by the house interstate commerce committee. It has been regarded as a foregone conclusion that the present congress would not attempt to solve the railroad problem, but extensive hearings have been conducted by the committee and the house committee expected to begin an inquiry soon. A bill by Representative Kingsland, which would provide for government control for five years and other measures are pending.

PRESIDENT WILL EXPLAIN DRAFT

Cables Request to Congress to Defer Debate on League of Nations Charter.

WILSON ON WAY HOME

Chief Executive Summons Members of Senate and House Foreign Relations Committees to Conference at White House.

Washington, Feb. 18.—A request to the foreign relations committees of congress to defer debate on the constitution of the proposed league of nations will be an opportunity to go over it "article by article" with the members has been called by President Wilson.

There is a good and sufficient reason for the phraseology and substance of "each article," declares the president in his message, transmitted through Secretary Tumulty.

The same view is said to be held by the senate and house committee will dine at the White House on Feb. 26, the day after the president is expected to land at Boston. This "article by article" interpretation is evidence of the president's determination to get the details before congress as quickly as possible.

The president's message, dated Feb. 18, follows: "The senate and house committee will dine at the White House on Feb. 26, the day after the president is expected to land at Boston. This 'article by article' interpretation is evidence of the president's determination to get the details before congress as quickly as possible.

REVENUE. The debate in the house on the war-time prohibition amendment to the war-time appropriation bill, Congressmen Francis of Illinois made a spirited speech in the course of the measure. He said:

"As a member of the ways and means committee for the government, I have voted for the highest possible tax upon alcoholic liquors. I have supported it because I believe in the principle of the movement for the increase of the taxes on alcoholic liquors of all kinds. But as a member of the committee, assigned for six years and even for a longer period than that, in solving the problem of the revenue of this republic without continuing further this alliance with saloons, I have seen whole communities emerge into prosperity when saloons were banished from within their boundaries. I expect to see the same result in the United States when the saloons disappear, properly even greater than they have enjoyed in the past."

URGES PERMANENT THRIFT. Glass Would Make War Savings Bonds More Popular.

New York, Feb. 18.—Secretary of the Treasury Glass recommended that the sale of war savings bonds and stamps be made a permanent feature of the work of the treasury department in an address here.

Secretary Glass expressed the opinion France would pay off her war debt quicker than America, because the United States has not made such a habit of long has been a habit with them, whereas thrift among Americans long has been neglected.

NEW YORK LED ALL STATES. Northwest Furnished Many Men During Recent War.

Washington, Feb. 18.—A table showing the number of men furnished by the army by each state during the war was made public at the War department, New York, Feb. 18. The following numbers of soldiers:

Illinois, 25,574; Michigan, 15,487; Minnesota, 14,147; Iowa, 9,831; Wisconsin, 9,821; South Dakota, 29,656; North Dakota, 25,894.

THE BIBLE AND WINE. Ferrar Fenton, an eminent Oriental scholar of England, says that errors made by the English translators of the Bible have much to do with the addition to alcoholic drinks of the English speaking people. He says a correct translation of the word given frequently in the Bible as "wine" should be "fruit". For example, the Israelites were promised a land of "corn and fruit". Again in Deuteronomy 12:17, the people are told not to let the Bible of the corn and the "wine". The sense intended, in Numbers 28: the authorized version says: "Let the holy place shall then cause the strong wine to be poured into the Lord for a drink offering." Mr. Ferrar says there is no word in the original denoting the wine; it is simply "a liquid, a fluid," and might be of milk, or oil, or water, so far as the original text signifies.

DRY ICELAND. There is a law in Iceland, according to the Central Christian Advocate, which forbids the manufacture of intoxicating liquors, and not only forbidding the sale, the Icelanders do not allow a barrel of liquor to enter the island. The result is that there is no public houses, and only one policeman. There is not a person on the island who is not a teetotaler, who cannot read or write. There are public schools, seminaries, colleges, newspapers, books, a classic literature, and churches.

TORONTO PROSPEROUS. New York, Feb. 18.—A statement of the policy of Toronto, says chairman of that city has decreased 40 per cent. Prohibition has not had any success and a benefit in any other way. Storekeepers report more business and a better trade.

GERMANY MAY BE BARRED. New York, Feb. 18.—The suggestion that the federal council of Evangelical Free churches, including the Protestant Episcopal church, be opposed in a report of a special committee of the federal council of churches, was rejected by the general assembly of the Protestant Episcopal church in New York.

Dardanellen Open to Commerce. Washington, Feb. 18.—For the first time since the outbreak of the war the Dardanellen has been opened to commerce and trading between America and the Turkish Empire and Bulgaria permitted. Announcement was made by the war department that the supreme economic council in Paris had authorized permission for the Dardanellen to be opened to American trade all ports on the Black Sea.

Weekly Health Talks

GOING BACK TO NATURE BY DR. W. LUCAS.

People get sick because they go away from Nature, and the only way to get well is to go back. Something grows out of the ground in the form of vegetation to cure almost every ill. Some of these vegetable growths are understood by man, and some are not. Animals, if it would occur, know what to do when they are sick better than man and women. Observers have noted that a sick horse, dog or cat will stop eating food and seek out some vegetable growth in the field or yard, which, when found and eaten, often restores appetite and health. Haven't you seen how animals know this very thing naturally?

Dr. Pierce, of Buffalo, N. Y., long ago found the herbs and roots provided by Nature to overcome constipation, and he had these vegetables collected and made into a medicine. It is called Dr. Pierce's "Vegetable Compound." It is a great medicine that when your bowels are stopped up, poisons and decayed matter are imprisoned in your system, and it will remove them from your system, you get tired and dependent. As a matter of fact, you may get your bowels, you get tired and dependent. As a matter of fact, you may get your bowels, you get tired and dependent. We note that a member of the staff of the state adjutant general has been found guilty of embezzlement. This sort of thing happens at St. Paul with painful regularity and it strikes us that some responsibility for these misdeeds might be placed on the shoulders of the politicians who are responsible for placing these unreliable in positions of public service.

Elsewhere in this paper is printed a communication from a member of the Chagawana farmers club relative to the establishment of a regular market in Pine City, through the agency of the weighmaster at the farm scale as a starter. The plan looks, on the surface, like a feasible and worthy one and offers an excellent subject for the newly formed development association to take up at its meeting, next Monday evening. The matter seems to be of great importance to village and country.

**Presbyterian Church Notes**  
Next Sunday, the 23rd, is a date that we feel can not be let pass without endeavoring to do honor to our great Americans born under the rigorous influences of the month of February. The lives of Lincoln and Washington are a constant stimulus to all present-day Americans toward the better things. We are not unmindful of the honor due to our brave patriots of today who have fought for us and a greater liberty. Let us all gather at 11 a. m. and show we are ready to work for "A Greater America," the subject that will then be considered. Soldiers and sailors are especially invited.

The evening subject at 7:30 will be "Eternal Life," the second of the series on "The Glories of Our Manhood." Young people invited.

We hope to have something very definite to announce next Sunday to the Sunday school regarding the new books. Be sure to be on hand to help the good thing along—9:45 a. m. is the hour.

The C. E. meets at 6:45 p. m. each Sunday evening. Let all the young people come and help to make all meetings interesting. We are considering some new plans.

Ladies' aid serves a public lunch at Mrs. Hart's this Thursday afternoon.

**Methodist Church Notes**  
Services at the M. E. church next Sunday as follows: Sunday school at 9:45; morning service at 11, with communion services and address. The evening service at 7:30. Mr. A. W. Piper who attended the Centenary conference at Minneapolis last week will give a report of that great gathering, at 7:30. You ought to hear this special music.

The ladies aid will be entertained next Wednesday afternoon by the Cross lake division, at the home of Mrs. S. B. Wells.

**Lutheran Church Notes**  
Services in the church, next Sunday at 10 a. m. with sermon in German, and in the Pokegama lake school house at 2 p. m.  
The meeting of the ladies aid in the school house, last Friday afternoon, was not very largely attended, owing to the storm, but everyone had a fine time. The next meeting will be announced next week.

**Catholic Church Notes**  
Services at 10 a. m. next Sunday, as usual. Father Nolan will be down from Duluth again.  
Word from Father Leo says that he, last week, changed from West Baden to Kramer, Ind., where he is taking the mud baths. He is getting along fine and recuperating in fish and vigor, and expects to be back home some time next week, in time for services on March 2.

**From East of Town**  
Mrs. T. E. Ryan returned to today from a few days visit with friends at St. Paul.

Mrs. M. C. Bahnehan was at St. Paul, last Saturday, to attend the wedding of Mr. and Mrs. Arthur Bahnehan who returned with her on Sunday for a few days' visit.

Miss Anna Parent returned to her home at Minneapolis, yesterday, after spending a week at the home of her sister, Mrs. John A. Sherman.

Allan Lindquist arrived home, Feb. 6, from England and France, where he was with the naval aviation service, with his release.

Richard Lidquist recently came home from the Cloverson region, where he was hauling pulpwood and ties with his team. He reports 2 1/2 feet of snow there and the swamps not frozen, so that team work is dangerous.

Miss Goodwin and the members of her normal class in the Pine City schools spent last Thursday evening at the John Lindquist home, sleigh riding out from town for a good time.

Miss Lindstrom, who teaches in the teachers school, spent the week-end at her home at Bush City.

Were at Citrus on Various Missions Many from the town and surrounding country are attending the meeting of the various lodges and business sessions at St. Paul, this week, and also

taking in the auto show.  
R. E. Carlson, A. M. Challen and Frank Rybak are down to attend the state grocers' convention.  
Geo. W. Staacke was down to the State Jewellers' convention, returning this morning.  
W. A. Sausser was down to the state hardwaremen's convention.  
Jos. F. Petschel, Paul Perkins, E. C. Dudley and Henry Hofer were down particularly for the auto show—to get pointers.  
John Jelinek returned, this morning, from the state convention of the A. O. U. W. which he was attending.  
The Pine City publishers expect to attend the state editorial convention at St. Paul on Friday and Saturday.  
Many others, whom we are unable to mention, were down among them being: Wm. Hanlon, Jas. Stuck,

**Wants Central Produce Market**  
The Chagawana Farmers club is endeavoring to establish a local market place in Pine City where the seller and buyer can get in touch with each other without so much waste of time running about. All those who wish to purchase wood, hay, fenceposts, etc. are requested to leave their orders with the weighmaster at the farm scales, and all farmers who are hauling the above products into Pine City are asked to call upon the weighmaster for the name of a buyer for their load. The above may be extended to include nearly all farm products that people wish to purchase in quantities. Let us get together on this marketing question. Let us know what you want through our weighmaster and we will try our best to supply your needs. The local dealers are asked to have standing orders at the weighmaster's, representing their line. It is not our aim to boycott any one. You need our produce and we need you as purchasers of that produce. Let us all work together to the benefit of all. Let strict honesty and fairness be our motto, and let us build a marketing system in Pine City that will be a credit and benefit to the town as well as the farming community around about it.—Contributed.

My reputation for fair dealing and reliable goods, coupled with the De Laval record of service and durability, has made the De Laval Cream Separator the leader in this community.

NO matter what anyone may tell you, there is only one speed at which you can turn a separator crank and get all the cream and cream of uniform thickness.

That's the speed plainly indicated on the crank of every separator, of whatever make.

BELL SPEED-INDICATOR  
The "warning signal" that increases operation at the proper speed.

Full speed is the only assurance of full capacity and full efficiency.

Every De Laval now has a Bell Speed-Indicator. The bell warns you if the handle is going round too slowly. You can't be mistaken about it.

The Bell Speed-Indicator adds nothing to the price but much to the value of the De Laval Separator.

Ancient Rock Engravings.  
The prehistoric art museum lately revealed in Montpelier, Vermont, southern France, contains rock engravings estimated to be 30,000 years old. Continuing the exploration is interrupted by the war, Count Bagones and his three sons discovered on the inner walls of the cavern a vast belief of a real lion, with sinuous figures of reindeer, bison, horses, bears, deer, plants, rhinoceroses and such birds as ducks and swans. Strangest of all is a silhouette of a powerful man, with thick neck, flattened human limbs, feet and hands, and a tail, and represented walking on all fours.

LAND OF WEALTH  
Western Canada Has Unbounded Possibilities.

Opportunities for the Stock Raiser, the Wheat Grower and the Mixed Farmer—the Fields to Feed the World.

Before there were any cattle in Alberta, it was known that it was possible to feed them outside all the year round, the famous butchers could always find the buffalo during the winter months pasturing in the foothills. In the summer the herds were herded on the plains and fed the prairie grasses. The plains have also become grain fields, but the foothill district extending north from the international boundary for a thousand miles will always be a natural feeding ground for live stock. In the north part of Alberta the altitude is greater than in the more northern districts, but while the herds in the north have wider tracts of treeless pastures, in the north from Red Deer on into the Peace river country there are aspen trees, a richer vegetation and more natural shelter.

Those who have been advocating stock raising and mixed farming for the past few years point to the number of hogs marketed as an evidence of increased production of the Western Provinces. They may also take credit for the increase in cattle and sheep, which is very great, but perhaps more marked as has been accomplished in hog raising. For the first six months alone last year about a million hogs were shipped from Manitoba, Saskatchewan and Alberta, a very conservative estimate. It is these animals to the farmer would be \$25.00 a head.

The Canadian West is fast forging to the front of the wheat-producing countries of the world, and "No. 1 hard" is without doubt the best wheat in the market today. When it is considered that the three hundred and forty-three million four hundred and seventy-three thousand bushel crop of the year 1914-15 only eleven million acres of her hundreds of millions of acres, it gives one an idea of her future possibilities.

It is felt, however, that on account of the great money there will undoubtedly be in growing wheat during the next few years there is a possibility that farmers may be tempted to drop the growing of other grains, which might result in less stock being raised. Every effort is being made by the Agricultural Departments and the various Provinces to induce the farmers that forage crops and coarse feed in abundance mean production of stock and milk, and that the more the great future of the Western Provinces lies in mixed farming which will build her prosperity on a more enduring basis.

Mixed farming has always been the rule in the Eastern Provinces, and the formation of the land invites variety of crop, but it has not been as common in the Western Provinces. The practice has grown in recent years. Hibernia the man mining wealth from the rich soil has purchased most of his household food and necessities. His energies being devoted to getting every possible bushel of grain out of every foot of his land, and that he grows for his supplies that have made a big deal in his profits. It has now dawned on him that he can raise his own meat and poultry, and supply his own table; that with very little effort he can raise a lot of garden produce and other domestic necessities such as poultry, eggs, butter, milk and cheese, which command very high prices, and that there are other crops to grow which besides that through the wheat field.

In 1916 Canada imported 100,000 pounds of butter, most of it from as far away as New Zealand, and for the first time in 60 years failed to ship butter to England. The butter to the home consumption, which is estimated to be increasing at the rate of \$2,000,000 worth annually, is supplied by the increased supply. This condition has brought about a change in farming methods, and the result is that the farmer is producing more and more, and will result in greatly increased production all round of the securities demanded by the householder.

Natural Resources. One of the most important considerations to the farmer is the soil. In Manitoba, Saskatchewan and Alberta, where portions of the country are well wooded, the soil is rich and difficult in getting at, the farmer requires and thousands of men find employment in the winter cutting wood, which is shipped all over the prairie portions of the provinces. There is an abundance of coal throughout the country. It is estimated that the coal deposits in Alberta cover 51,000 square miles and represent an available tonnage of 100,000,000,000 tons. In Saskatchewan there are over a hundred thousand million tons, while those in Saskatchewan cover an area of 15,000 miles and contain 10,000,000,000 tons. In Manitoba the coal reserves is not as large, but even there 100,000,000 tons is considered a conservative estimate. At present only a few of these deposits are only worked to a small extent, but there is no doubt that they will be a great factor in developing the country and will exercise a powerful influence on its commerce.

It is a common mistake to restrict the farmers to get their coal supply of their own farm. Now Edmonton, for example, the farmers not only supply the thousands of tons of coal to the city market and find it a considerable source of revenue in the winter time. The Edmonton fields under and around the city have an estimated content of sixty thousand million tons. Farmers who own the coal at \$4 a ton for domestic use.

The plowman of Western Canada has little of the enjoyments of life.

### Accidental Death at Mission Creek

A most deplorable accident occurred, Tuesday evening, Feb. 11th, at the home of Alex Anderson, who resides in the town of Mission Creek about four miles northwest of Beroun, where Albert, the 16-year old son of Mr. and Mrs. Anderson lost his life from a gunshot wound.

The young man had been on a hunting trip and returned about 6 o'clock in the evening. There was no one in the house at the time except a small sister, his parents being outside attending to the chores. It was evident that the young man in overhauling his gun accidentally discharged it, and the charge entered his body just above the heart and lodged in the shoulder, making a jagged wound. From the nature of the injury death must have been instantaneous.

Albert Anderson was born on the farm where he had resided with his parents all his life. His sudden death was a sad shock to his many friends who held him in high esteem, and he will be greatly missed.

Besides his parents he leaves several sisters and brothers (one brother in France) to mourn his loss.

Funeral services were held at Hinckley, conducted by Rev. Wilson.

**Mrs. Jos. Navy Passes Away**  
Mrs. Jos. Navy passed away at the family home east of here, last Thursday, after a long illness from diabetes. The remains were interred in the Catholic cemetery here, Sunday, with high mass by Father Nolan of Duluth. The pall bearers were Frank Paakka, Frank Shallicky, John Pavek, John Ostradnik, Jas. Kryzer and Frank Kryzer.

Deceased was born in Bohemia on Nov. 16, 1865, but we are unable to obtain other information as to her life owing to poor telephone service.

**Card of Thanks.**  
We wish to extend our sincerest thanks and gratitude to our friends and neighbors for the kindly assistance and beautiful floral offerings given us after the sudden demise of our beloved son and brother, Albert—Mr. and Mrs. Alex Anderson family.

**Annual Creamery Meeting**  
The annual meeting of the Rock Creek co-operative creamery, held Tuesday afternoon, was well attended and excellent interest was shown. Fred Almond was elected member of the board of directors in the place of John Glazier and Chas. Carlson was re-elected to the board for the term of two years. The secretary's report showed that the creamery had made progress this year. This report will be published in The Poker probably next week.

A welcome party was given at the Charles Johnson home, Tuesday evening, in honor of their son, Edging, who returned last week from Vancouver, Wn., with his discharge from army service. Those present included members of the Friendly Volunteers a West Rock and other friends. Supper was served and the evening spent in playing games. Four other returned soldiers were present as follows: Andrew Johnson, Gus Erickson, and Carl Peterson who arrived from Camp Grant last Sunday, and William Behrendt who returned Tuesday from Texas.

Arthur Vandye and Louis Carlson left, Monday, for Kansas City—the former after a two weeks visit at home—where they will study in an automobile school. Both Harmon accompanied them as far as the city where he stopped for a short visit, later going on to Dodge Center, Ia., for a short time, expecting to be gone about two weeks.

Everybody will be at the masquerade in the armory, Saturday evening of this week, from George and Martha Washington to Sambo Jones from "N. Yawless". The negro 1425 repast from St. Paul will play and there will be lots of fun. D. J. is to let 24 spectators 25c. Petelch will serve supper.

There was a fine big crowd at the firemen's ball in Johnson's hall, last Saturday evening and everybody had an excellent time. The new clothes for the firemen was much enjoyed for a change. The dance was a high standard for the firemen to attend to in their annual parties, hereafter.

The new fire engine was tested out, Monday afternoon, and found on record, to be up to the requirements. What will be done with it we are not advised but it will probably be returned and one that will be in the work again in its place.

Ms. Clara Hawkins left, a week ago for the home of her father in Oregon, where she expects to take

a general good bond time enjoyed. Remember the big sale of cows, goats, horses, mares, mules, harness, buggies and wagons and farm implements at Willow River on Saturday of next week, March 1st, by the Willow River Horse and Cattle Co.

### HOW BOOKS ARE STERILIZED

Simple Apparatus Used by French Scientists in Conducting Their Deadly Gas Attack.

Almost the first thing to meet the eyes of French hygienists in their wartime campaign for protecting the younger generation was their old enemy, the circulating book, well known as a carrier of disease. The many obvious solutions to the problem offered one disadvantage while killing the germs they destroyed the book also.

For the method perfected by Doctor Marsolan, and now patented in the Institute for Wounded and Infirm Workmen at Montreal, it is claimed that for one-fourth of a cent for each book, and with safety to operators, books can be sterilized without the slightest injury. Two pieces of very simple apparatus are used, a heater and a distributor.

The heater is a long box open at one end and communicating at the other with an ordinary stove. Inside of the heater are wooden rods so arranged that the turning of a handle will cause them to strike on the books placed on a sliding frame. As the rods beat the books, the heavier particles of dust fall out into a tray of disinfectant below, and the lighter are carried by an exhaust fan to a stove, where they are burned.

The books are hung open, by spring clips from a skeleton framework, and scooped into the disinfecting chamber which is equipped with a tank containing a solution of formaldehyde. The temperature is raised to 120 degrees Fahrenheit, the formaldehyde kills the germs, and the fumes are carried off by a funnel—Popular Mechanics Mag. size.
