Saw the Tank at Hinckley

Pine Co. Folks Saw a "Whippet" Tank Operate at Gathering at Hinckley, April 9

The gathering at Hinckley, yesterday afternoon and evening, to see the "whippet" tank sent by the government and to consider the forthcoming Victory Loan was quite largely attended and proved well worth while to everyone.

The tank and its escapades was the chief general center of interest during the afternoon—especially to the large troop of small boys who followed it, like true soldiers, through the mud as it sped up and down the streets or showed its manœvering ability by turning circles and the like. It was taken into town and out on a flat car and unloaded and loaded itself on its own power, with hardly a grunt.

In the afternoon a meeting of many of the district chairmen of the county was held to consider the forthcoming Victory Loan and the unanimous feeling was that Pine county would do its share, whatever that may be, to "finish the job." It is not yet known how many bonds the people will be asked to take. Messrs. Meekins of Pine City, Ed Olson of Sturgeon Lake and Dean of Sandstone were named a committee to apportion the county's share, when it

THE WHIPPET TANK WHICH APPEARED AT RUSH CITY MONDAY AND AT HINCKLEY WEDNESDAY, TO ADVERTISE THE VICTORY LOAN

is known, among the thirteen war activity districts in the county.

In the evening, there was a patriotic mass meeting in Patrick's hall, with speeches and music, which was followed by a dance at which the Crescent orchestra of Pine City played.

There was a good attendance from the districts north of Hinckley and the immediately surrounding region and the villagers would have been far more numerous had the roads been in better condition.

There was a similar day's program for Chicago county at Rush City on Monday.

Will Help Disabled Soldiers

Judge Thurston of Pine City has been appointed county chairman to supervise the work to be done by the national government for the soldiers injured in the course of their recent or present service in the army or navy, and wishes to be advised of the names and addresses of all men who were so injured during their service that they will be unable to undertake their old duties or may be considered as "disabled."

The government wants all these men to be made independent and proposes to educate them in whatever course they choose—either with four years of schooling or several months of shop experience, or as much of these as may be necessary—paying them \$30 per month during that time to pay all necessary personal expenses.

So far as known the list of men in the county who would come in this class includes: Lloyd L. Bell, Brook Park; Geo. B. Bunsley, Nickerson, B. F. Kaune, Rutledge, Wm. H. Lammerts, Hinckley; Stanford B. Nelson, Sandstone; Chas. H. O'Malley, Hinckley.

Storm Damaged All Wire Lines

The heavy fall of rain and sleet, Monday, froze all in a thick coating on

power and phone wires in all directions, but particularly about the southern part of Pine county, from Hinckley to Rush City and west to Grandon and Henriette.

The telephone lines were hardest hit, suffering by broken wires and poles down by the score, the same being true though in a lesser degree on the telegraph lines, the p- men in both instances being more or less weakened by age.

The old Tri-State favorite, alone, had 170 poles down between Hinckley and Rush City and services in town was impaired while outside connection by either telegraph or phone was absolutely cut off for two or three days, though large forces of men have restored service to the south and are working hard in the mud to the north.

The Power company, with newer poles, suffered less severely in that line, though they had wires down at several points during the storm, which were quickly repaired and Pine City was "out" for only a short time while towns south and west were kept "connected up" in the main.

Another cut-off East of Sandstone

The people of Sandstone were again shocked yesterday morning when the news appeared rapidly about town that Joseph Carlson had committed suicide by hanging. It is quite certain that his rash act was done while temporarily insane, as it is known that he complained of severe pain in his head and that he was unable to sleep at night. No other person can be given as he was planning his work for the summer and had everything in readiness to be building a fire and by standing on a grindstone he was able to reach the rafters

where he hid his discovered. His lifeless body hanging about an hour later.—Sandstone Courier (April 3)

Put Trout Fry in School Creek

Mr. Surlbut of the state game and fish commission, was here last Thursday and emptied 30,000 trout fry—20 into Little Sand creek, east of Akov. Mr. Avery, head of the commission, is laboring hard to make good fishing in all the lakes and streams of Minnesota—large or small. The trout fry put in this season will of course not develop large enough to be caught this season but will make good fishing next year.—Akov American.

If one could suggest to Mr. O. N. Furman that he was growing old he would no doubt resent it; however, old age creeps on apace, and with it savings of rheumatism. On this account he has decided to give up work in the Nordell-Furman store for the summer and will devote his time to working in the garden and to fishing at Rush lake.—Iraham Journal.

Cooper Will Prove Ideas

His Remarkable Medicine Accomplishing Wonderful Results in Leading Cities.

Referring to the visit to Minneapolis and other Western cities of Dr. L. T. Cooper the millionaire philanthropist and lecturer, who has commanded such widespread interest in the East with his health "cure" is no uncommon thing for Tanlac, E. C. Harris, his representative recently said in Minneapolis.

"Thousands of the most prominent people in Cincinnati, San Francisco, Cleveland, Denver, Seattle, Portland, Salt Lake City, Detroit, Louisville, Dallas, Atlanta, Memphis and other cities, where his celebrated medicine has been accomplishing such remarkable results, are even more enthusiastic over Tanlac than Mr. Cooper himself."

"As previously stated Mr. Cooper contends that nine-tenths of the disease and ill-health of the average person is due to a catarrhal condition which produces faulty digestion and improper assimilation of food."

"In a recent interview Mr. Cooper was asked if Tanlac would relieve kidney trouble, liver complaint, rheumatism and a dozen other ailments, and in this connection said:

"As I have repeatedly said, my medicine acts directly on the mucous membrane, stomach and blood, extracting from them the impurities and toxic poisons, and rendering to them a strong healthy condition. I am convinced that the stomach regulates the condition of the blood and the fountain head of health or disease, as the case may be. My medicine is intended primarily for the regulation of the stomach and correction of catarrhal inflammation, it is no uncommon thing for persons who have used it to come to me and explain that it has relieved them of rheumatism, and many other ailments, not generally recognized as having their origin in stomach trouble."

"The ingredients or medicinal elements come from many remote sections of the earth, the Alps, the Pyrenees, Russian Asia, West Indies, mountain states near the Rocky Mountains, Mexico and Peru are among the principal parts from which the principal parts of the preparation are obtained. In the principal laboratory of the Tanlac Company, under the efficient direction of a chemist of note those medicinal herbs, roots and barks are assembled in the rough and painstakingly developed so as to attain that high standard of efficiency shown by the uniform preparation—Tanlac."

"Tanlac is sold in Pine City by E. J. Prochaska.

SILO

this year, now is the time to order. More silos are going to be built in 1919 than ever before. The demand is unprecedented.

Crops ruined by drouth, floods, hail, frosts and insect pests are extensive and severe. This waste, according to Dean H. M. Cottrell, formerly of Kansas Agricultural Experiment Station, is close to a BILLION DOLLARS. He cites it as the greatest waste of the Nation, as it is made from a crop already grown and ready to harvest. All through the great corn producing states millions of acres of stalks are now blown by the winds or covered with snow, while hay is selling at from \$20.00 to \$25.00 per ton.

Gala Day When the "Procession of the Holy Carpet" Leaves Cairo for City of Mecca.

Always picturesque, Cairo is never more fascinating than during the procession of the Holy Carpet. In the squares we watch the barefooted pilgrims, embroiling, holding the cloth in their toes, which appear to the rest of us to be the Holy Carpet.

Howling dervishes are dancing in the mosque near the Square of Saitou Hasan, while devout Muslims are engaged in evasive prayer of the hosannas. Water carriers are on the way to the yellow Nile for water, or are bearing wine in their gourdlike vessels in the mosques are approached exactly as in Mecca.

The khedive and his dignitaries are all present to formally start the caravan and its military escort, toward Mecca. Here it will accompany the people to the sanctuary in the mosque at Mecca, and will return later with the same caravan to Cairo, bearing the carpet of the previous year.

Pine City Development Association

All together, All the Time, For a Greater Pine City

WEEKLY BULLETIN

Last Week, the Clean-Up Campaign was touched upon, and a few timely suggestions offered, which, when put into effect, will make a vast improvement in the appearance of our Village. These suggestions are given again this week.

LET'S

- Haul the Ash Piles Away.
- Clean up the rubbish piles.
- Tear Down Old Fences and Buildings.
- Repair Sidewalks.
- Prepare Flower Beds and Boxes.
- Trim Up Bushes and Trees.
- Make Lawns Shine.
- Clean up Streets and Alleys.
- Order your Shrubs and Seeds Now.

If the best results are to be attained in Lawn Decorations, someone who knows something about such things should be consulted. Prof. Ayers, of the Pine City High School, has given this matter a great deal of study and is prepared to offer any assistance along this line.

The Development Association has a "Good Roads" committee that is glad to cooperate in the bettering of the roads leading into Pine City. While the possibilities of this committee are limited, they will be glad to do everything possible to assist the work of putting the roads in condition. F. M. Stack is Chairman of this committee and will be glad to be advised of your requirements in this line.

Next Regular Monthly Market Day, April 29th.
(Last Tuesday of each month)

DON'T FORGET THE SLOGAN CONTEST

One Box of Cigars or a Three Pound Box of Choice Candy for the best Slogan given for the Pine City Development Association. Mail your suggestions to the Secretary. Contest closes April 15th.

Why Telephone Bills Are Paid in Advance

Suppose we charged your account next month with 10 cents more than your regular telephone rent.

Then, when you asked about it we told you it was part of the telephone bill Jones or Smith or Brown did not pay.

That might seem unfair, but it is practically what we would have to do if we did not require prompt payment of telephone rent.

If we did not collect telephone rent in advance some people never would pay. Thus we would lose the rental and the cost of installing and removing the telephones.

And, in addition to losing money on those who did not pay at all, if we did not require advance payment, we would have the expense of carrying "slow" accounts on our books.

Doing a credit business adds to the cost of service for the reason that the cost of bad debts and carrying slow accounts is considerable.

In order that one subscriber will not have to pay indirectly a part of the telephone bill of another, we long ago adopted the policy of requiring payment in advance for telephone rent.

What a World of Service can be had from a Wire!

Just think of the many kinds of help you can get from a lamp socket, baseboard or wall outlet.

You can replace—supplant—almost any physical effort of the human body!

Housework in the planning—the directing—is a joy, a pleasure to any woman. The hard, discouraging part is the physical effort—the work—the drudgery!

What woman would continue to wear out her mind and body on menial drudgery and monotonous routine if she was thoroughly convinced that Electricity would relieve her of all this hard part!

But many women still think that electrical helps are expensive luxuries—only for those of liberal means. That idea is as false as false can be. Electricity is so flexible—so capable of being divided into small parts, so dependable that it can be supplied to the smallest house needs—even to those of the individual. And in every instance a saving is accomplished—a saving that is far beyond any many times repays the cost.

Once you fully appreciate this you will not do a thing in physical labor that you can turn over to Electricity.

Let us help work out your problem—apply Electrical Help to your individual needs.

The state senate, last Friday, passed a bill which would, if it became a law, allow the county commissioners of Pine County, for instance, to issue bonds against the property of our taxpayers in any amount up to about \$1,100,000 for road purposes without submitting the matter to a vote of the people. It looks to us like extremely bad law. We have no fear as to the action of the commissioners of Pine county but we are opposed to the policy of putting the power to bond an entire county in the hands of any few men, no matter who they are.

Presbyterian Church Notes

The sale and supper conducted in the church by the ladies aid, last Thursday afternoon and evening, was an entire success in every way and netted the society treasury about \$130 besides giving everybody a good time. The next meeting of the Aid will be held at the home of Mrs. Henry Stephens on the north side, next Thursday afternoon, April 17, when a public lunch will be served, and everybody is invited.

The annual meeting of the congregation was held in the church on last Friday evening and the treasurer presented a most encouraging report of "all bills paid and a balance in the treasury"—the first time in the history of the church there was a fair attendance. Rev. W. S. Ward of Minneapolis, assistant synodical superintendent of home missions, delivered an excellent address and the ladies served refreshments. All reports showed progress for the year in spite of many adverse circumstances.

The annual financial canvass was almost entirely completed last Sunday afternoon, the canvassers going out in teams of two. We hope to be able to report the work all completed by next Sunday.

The pastor was called to Hinckley, Monday afternoon, to perform a marriage and was at Duluth on Tuesday and Wednesday to attend the meeting of Presbytery which was held in Lakeville church.

All regular services will be held on Sunday next, the evening service being in the nature of a praise service with a short gospel talk, the hour being changed to 8 o'clock. The C. E. will consequently meet at 7:16 p. m. Call others' attention to the change in time. All are welcome at all services.

Lutheran Church Notes

Next Sunday, services in German at 11 a. m. and in English at 2 p. m., with confirmation at both services. The German class includes George Teich, Arnold Hinze, Lydia Teich, and Gertrude Brung. The English class includes George Pine, Clarence Axman, Carl Heyn, Ella Hemple, Muriel Hoeller, Lena Teich, Clara Leubker and Florence Baker. The collection at the morning service will be for Lutheran orphan asylums, and the afternoon service for the benefit of the Sunday school.

Services will be held next Friday—Good Friday—April 18, in the church in town at 10 a. m. and in the Pokesama school house at 2 p. m.

Methodist Church Notes

On Sunday, preaching services at 11 a. m. and 8 p. m. and Sunday school at 9:15 a. m. At the morning service the pastor will preach a Palm Sunday sermon and the subject for the evening discourse will be "Mountain Top Visions." There will be evening service with services, the special music at both services, a special song service. There will also be a minute man's talk at each service. These talks are proving very interesting and valuable and should be heard by everyone.

The prize being offered by the Sunday school for the best paper on the Centenary movement is creating much interest.

During Passion week we expect to have services in the church on Wednesday, Thursday and Friday evenings and, on Friday afternoon at 2:30 there will be a special Home Mission prayer service.

Services at Rock Creek at 2:30 next Sunday afternoon, as usual.

PINE CITY, MINN.

My reputation for fair dealing and reliable goods, coupled with the De Laval record of service and durability, has made the De Laval Cream Separator the leader in this community.

WITH a single tool—the combination wrench and screw driver shown below, which is included with every De Laval—you can take it apart and set it up again in a few minutes.

Could anything be easier or simpler?

There are no complicated parts—no chain drives, no cog wheel puzzles, no ball bearings to get flattened or broken. Every adjustment can be made quickly by the man on the farm without special tools of any kind.

Such simple construction makes the De Laval not only the longest lasting but also the easiest separator to clean and care for.

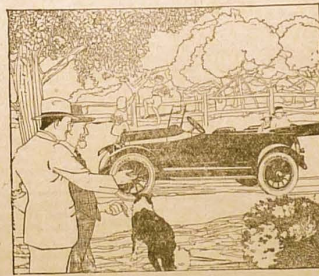

THE ONLY TOOL REQUIRED WITH A NEW DE LAVAL

DAYS OF DIZZINESS

Come to Hundreds of Pine City People

There are days of dizziness; Spells or headache, languor, back-ache; Sometimes rheumatic pains; Often urinary disorders. Doan's Kidney Pills are especially for kidney ills.

Entered in Pine City by grateful friends and neighbors. Mrs. Jos. Volmer, Pine City, says: "My kidneys were disordered and my back hurt me. My head ached,

too, and I was often dizzy. The least work made me feel weak and tired for a long time, and I was unable to do much of anything. I got Doan's Kidney Pills at Prochaska's pharmacy, and they soon brought me relief. When I had used a few boxes I was perfectly well again. I had had very little such trouble since, for when I have felt the trouble coming on, I have used Doan's Kidney Pills, and they have rid me of it right away."

The Dairy Outlook Is Encouraging

Owing to

The lifting of the Government regulations on exporting of dairy products. Within the last month large quantities of high class butter, condensed and powdered milk have been exported. The fact that the Government has disposed of all its commandeered storage butter. There are the small stocks in storage for this season of the year, hence fresh goods are being drawn on heavily for domestic consumption. Increasing appreciation by the general public of the real food value of dairy products of high quality, and the consequent decreasing use of substitutes.

Who Owns The Standard Oil Company? (Indiana)

THE Standard Oil Company of Indiana is a corporation owned by the people at large, doing for the people, to the best of its ability, a big job in a highly specialized branch of industry.

The ownership is spread over 4623 stockholders—2084 of them women—not one owning as much as ten per cent of the total.

The 30 million dollars of capital stock represents a cash investment of \$117,509,465.00.

Contrary to popular opinion, the Standard Oil Company of Indiana is not a close corporation, owned and controlled by one or two rich men.

You may become a stockholder—go to any broker and he will buy for you as much stock as you want at the market price.

His Ice Cream Bucket.
They were on the back platform of an outboard Irvington street car. It was carrying a small paper bucket, which was labeled all over with the words, "Ice Cream."

From the way the other passengers eyed the bucket, it was evident they either thought the ice cream season was just at hand or wished the carrier hadn't bought it in Irvington. Instead of carrying it out a distance.

"I guess people think I'm dippy carrying a bucket of ice cream from downtown when it can be had out here," said the man with the bucket. "That it's not ice cream. It's chili."

"Well, they say for chili, you have to see should worry," said the other. —Indianapolis News.

AS YOUNG AS YOUR KIDNEYS

The secret of youth is ELIMINATION OF POISONS from your body. This does you can live to be old and enjoy the good things of life with as much "zip" as you had in your springtime of youth. Keep your body in good condition. It is the kidneys that filter out all of which blood passes through them. They filter and purify the blood. They are the filters of the body. They are the filters of the body. They are the filters of the body.

Keep them clean and in proper working condition and you have nothing to fear. Drive the poisons out and your body will be young. Take **WIGLEY'S DOUBLEMENT** for your kidneys. It is the best. It is the best. It is the best.

They are a reliable remedy which has been used for over 20 years and has helped them to develop into one of the best and most successful of the world. Get them from your druggist. Do not take a substitute. In sealed packages—three sizes—Adv.

Impetuous Guest Meets Great Mistake in Engaging in Controversy With Hefty Waitress.

"A guest came boiling out of the dining room yesterday with rivulets and hills of ketchup coursing down his face," related the landlady of the Petunia tavern, "and yelling that he had been assaulted or misconducted or something. Fanned off the crowd he hit onto a tack in his frizzers, and when he chided, Sybillic, the hefty waitress, she heaved a look at him and told him. Also he wanted to know what I was going to do about it."

"Well, Mr. Hollies," says I, "when you found a tack in your frizzers it was an accident, but when you talked, so that she smudged the ketchup on your face, to a young lady who served her apprenticeship as a waitress on a hearing car for a railroad construction gang, that was contributory negligence, and I can't do anything for you except to hand your bill to you and wish you and your journey."

Some Job.
Sponsors of a great "Theodore Roosevelt International highway," launched last month at a meeting in Omaha, Minn., announced that it is their intention "to secure the blazing and signboarding of this entire highway from Portland, Me. to Portland, Ore., before the 1916 touring season begins." It will be some achievement if they do it.

"There's a Reason"

The First Easter

S FALL across the Resurrection from the historical fact and by the absurd. There is no resurrection. There is no resurrection. There is no resurrection.

And, looking on those bright, grave faces, the women knew that they beheld two angels. Then they came into the city and told the disciples, and Peter and John returned with them, and John outran Peter and came first to the sepulcher, and stooping down, he saw in very truth that the tomb was empty, and Peter went into the sepulcher and saw the linen clothes lying there, and the other disciples went in also, and they marvelled, not yet being aware what these things meant. For they were simple men.

And they went away again into the city. But Mary Magdalene stood without at the sepulcher and wept. And as she was going away, bearing the gifts she had not been able to leave him, she saw a man, whom she supposed to be the gardener.

He said: "Woman, why weepest thou?" Mary said to him: "Sir, if thou have borne him hence, tell me where thou hast laid him, and I will take him away."

He made answer: "Mary."

And at that word she looked into his face, and it was Christ the Lord. "Master!" she cried. "Jesus, with a smile of infinite compassion, said to her: "Touch me not, for I am not yet ascended to my Father; but go to my brethren and say to them I have ascended into my Father, and your Father; and to my God, and your God."

Then Mary Magdalene returned into the city, and her sorrow was turned into gladness, and she told the disciples how she had seen the risen Lord.

"Why seek ye the living among the dead? He is not here, but is risen, as he said."

ALL LOVE EASTER

World a Unit in That, But Writer Asserts There Are Various Reasons for It.

THE world loves Easter because it answers the cry of every one in its name, but much by no means always religious, as some suppose. It springs from various motives. To some it is merely the reason of returning spring. To others it answers the call of fashion. Most people value their money, and always see the beauty in the consent of their own pocket. To some it is the inner religious life. No doubt Easter-day furnishes the occasion for all that good and noble, but much of the Easter performance has a much heathenism as Christianity in it. Of course you'll halloo and protest that it isn't so. But your old uncle is willing to let the facts speak in the matter. The reason we find it so hard to see the truth is that custom has made the whole Easter show respectable.

Your Uncle Ben finds no fault with the desire of the fair sex to look at fair as the lily and be twice as attractive. But the trouble is he can't always see the beauty in many of the creations that are thought to be so. People forget that features differ. Not every one can wear the same shaped hat. They don't want a hat like anybody else. But it must conform to Dame Fashion's order no matter how hideous it makes the wearer. The colors may scream and the feathers may flare, but if that's the mode there is no room for argument. So when the fair creature has donned the armor of latest creation she smiles forth to bewilder and fascinate the thrills of admiring (3) glances. That's one reason why the world enjoys Easter.

But your keen knows deeper calls than dress. The world has much of sadness in it. Few homes have not felt the touch of the grim messenger. It is no respecter of persons. All ages and conditions of men answer the call. There is the first of the grim messenger. The colors may scream and the feathers may flare, but if that's the mode there is no room for argument. So when the fair creature has donned the armor of latest creation she smiles forth to bewilder and fascinate the thrills of admiring (3) glances. That's one reason why the world enjoys Easter.

NOTHING NEW IN WARFARE
Methods Employed During Great Conflict Merely Copies of Those in Use Long Ago.

By the use of trenches in the great war the opposing forces adopted means of offense and defense that long antedate the invention of firearms. The steel helmet reappeared after more than 200 years of disuse, and many a soldier owes his life to the fact that the curved surface of his head-covering deflected a bullet. The trench periscope is an adaptation of a device that was invented nearly three centuries ago. The barbed wire entanglement is only another form of the ancient abatis, and the fact that it is now often painted green to make it less easy to see is a link that joins it even more intimately to its prototype. The pits with sharp spikes at the bottom and the catwalks—four pointed iron instruments that always stand with one point upward however they may fall—are survivals of medieval warfare. The German flame projector goes back to the days when armies deluged each other with burning oil and burning pitch. The use of poisonous gas was anticipated by the Chinese, who for centuries used "cinnabars."

THE MIRACLE
Not in the Easter lily's heart Or assuming gold and snow, Not in the cards and dice, Nor in the stately monarch's throne, The glistering crown and the small Arises from the clay, And has'nt sweet marks on joyful wings On Easter day.

GOOD OLD ENGLISH CUSTOM.
The practice of "lifting" eggs great by men and still to be found here and there in England is one of the most curious of the Easter customs. It was observed on Easter Monday and Easter Tuesday, and was prevented by this prohibition from being given to the children, and to make them more attractive, were colored and sometimes adorned. This was probably his first step in the evolution of the Easter egg.

MONEY ALREADY SPENT. To
pay its bills, fulfill its contracts, bring
home our boys and otherwise finish
the job, the United States Government
MUST have billions of dollars more
than can be realized from taxation.
By April 1st it will have spent prac-
tically \$6,000,000,000, borrowed on
short-time certificates of indebtedness
in anticipation of the Victory Loan.

POPULAR LOAN THE ONLY WAY.
There is just one way in which the
treasury department can get the great
sum of money. That is by borrowing
it from the people of this country. Un-
derstanding of the situation is the key.
Thinking of the people as a whole, un-
derstanding of the situation is the key.
Thinking of the people as a whole, un-
derstanding of the situation is the key.

A GOOD INVESTMENT. The Victory
Liberty Loan will furnish another
fine investment opportunity to the peo-
ple. Uncle Sam isn't asking us to give
him anything. He is only asking us to
invest in the world's safest securities,
and for the use of the money he is
preparing to pay us the most liberal
interest, consistent with good busi-
ness. The non-investing classes have
never before had so remarkable a
chance to profitably and safely invest
their money.

**PATRIOTISM DEMANDS VICTORY
LIBERTY LOAN SUBSCRIPTIONS.**
Loyalty to America demands that
every man, woman or child who is able
to buy Victory Liberty Loan securities
DO THE LIMIT.

The "Victorious Fifth" will test the
peace-time patriotism of America.
Is the patriotism, which so largely
entered into the remarkable over-sub-
scriptions of the four previous loans,
a garment our people put on for eight-
teen months and then cast aside?
We have an unshakable faith that pa-
triotism is an abiding force in every
American heart. We predict that it
will triumph the same generous, self-
sacrificing efforts that gave our people
pre-eminence during the days of fighting
the war was a job "waited on us by
the foe, but it was our job. Our
honored dead and our victorious re-
turning troops are evidence of the
thoroughness with which that part
of the job was done.

Now, in order that our heroes "may
not have died in vain," we MUST FIN-
ISH THE JOB, PAY OUR DEBTS,
and leave the Government free to
carry on its financial program through
ordinary means.

DON'T SACRIFICE BONDS
Liberty Bonds and savings
stamps are the promise to pay
of the world's richest Govern-
ment. If you are selling them
below par you are wasting
money.

TRICK IN INTEREST—SAVE—
Put by at rate as 14 cents a day,
and in 20 years at 4 per cent it will
roll up more than \$1,500 for ripe enter-
prise or as a guardian of old age. One
thrift stamp a week gives you in five
years \$65. One War Savings Stamp
a week in five years gives you \$1,300
at maturity.

TRICK IN INTEREST—SAVE—
If a single ounce of edible food is
allowed to be spoiled or thrown away
in each of our 200,000,000 homes, over
1,500,000 pounds of material would be
wasted each day.

TRICK IN INTEREST—SAVE—
The Woolworth Building in New
York was built with five and ten-cent
pieces.

General Prizes Y. M. C. A.
Paris—There are some folks in the
Y. M. C. A. according to a dispatch from
P. O'Neil of the Ninetieth division.
"Our Y. M. C. A. is everything to be
desired," said the general. "Among the
employees are some folks. One of them
was such a fool that he would not
stay away from the front lines and he
got so tied up with Boche shells and
other projectiles that they were forced
to recommend him a Discharge from
Service Corps. That is a sample of the
men you have sent to us. Please keep
this work up and what I am recom-
mending this division or not, the things
that you have done will make a lasting
impression upon us."

SEEDS

For the Field and Garden—Seeds that are
Clean and Tested

I am a cash buyer of what you have to offer
in grains and clover seeds, etc., so that I
am doubly interested in offering you the
best I know of at seeding time.

All of my seed grains, red clover and seed
corn for early planting are grown locally
and there none better. At this season the
fancy colored catalogues are always in evi-
dence, but why send your cash out for seeds
that you can buy just as well here, and you
will find we are never asking any higher
prices than any honorable seed men are for
goods equal to ours.

Want American Tables.
An American pool table is a grateful
gift to the American soldiers im-
patiently awaiting orders to leave for
home, for somewhere or other they do not
take kindly to the model of pool or bill-
iard table which is extant in Merrie
England. Hence there never is any
rest to the billiard tables in the Y. M.
C. A. hut in the British Isles.
