## VICTORY PROGRAM

The tension of war is over. Relaxation has set in. The anxious hours have passed and the boys are coming home to us on every boat. Let us rejoice that so many of them have come back to us stronger in body and heart and soul.

During the war the chautauqua stimulated patriotic thought and action by bringing before the people big men with big messages. There was a victory program. This year the chautauqua presents a victory program. Lots of good music and entertainment. Strong and eloquent speakers on topics of vital interest. Get ready now for the

## Chautauqua Next Week

Sale of Tickets Progressing Satisfactorily and Guarantee Will Be Met

Chautauqua will open at Pine City next Monday afternoon, July 21st and continue each afternoon and evening until Friday evening, July 25th. The program is given below, also the price for each number if you pay at the door. Look them both over and give the matter a little thought.

The Redpath-Vawter system, which makes Pine City the "Chautauqua town" of this region, where people from this part of the state could gather for a week to get well acquainted, to enjoy themselves and to profit from a really-worth-while series of programs.

The advantages of Pine City—for this purpose are in its river and lake—advantages for camping with boating, bathing and fishing that no other town in this region possesses. Families can come here and mingle with the people without great expense—and they will do it in time, at least they do in other places.

Some of the men of town and the surrounding country who felt that such an institution is and will be a good thing for Pine City have each year guaranteed the sale of \$500 worth of tickets before the chautauqua opens. Sometimes they have had to go into their pockets to make up a loss and on a couple of years there has been a slight profit for the fund which runs on from year to year. The men who have done this have done it without any pay or any hope of personal benefit that this paper knows of. They are the men who have done it for Pine City and this entire region.

Any tickets sold after the chautauqua opens go to the chautauqua company and the promoters do not get credit for it. They are still folks right here in town have been known to refuse to buy a ticket before the opening on the grounds that they "didn't believe in a guarantee" and then go right in and give a purely outside concern (the chautauqua company) \$2 to \$3 for individual tickets bought at the gate.

Neither does the Pine Piker believe in "guarantees"—if we can get what we want without them. We were opposed to contracting for this year's chautauqua, last year when we were in the midst of war, but we knew the men who signed up were doing it for a public purpose—to better our town and our region. This year we are in favor of continuing the guarantee for the chautauqua unless we can show that they "won't come anyway." We don't know of any town of this size in the state where they do "come anyway" and we'll admit being from Missouri, on that claim.

A Little Base Ball Dope  
The Pokegama lake Jack-rabbits were badly defeated on the Pine City diamond by the local club in a 4-strike contest, last Sunday, by the score of 10 to 4. Kowalski and Babcock did the battery work for the local team, and Kowalski got away nicely.

Brookpark autoed over to Rock Creek and defeated the Creek aggregation by the score of 4 to 5. McNett and was on the mound for the Creek, and they cut over the curves for Brookpark. Rock Creek plays the first Stanchfield club on the Stanchfield grounds here last Sunday.

Ogville autoed over to Hinckley last Sunday, and were defeated by the first Brennan's colts, by the score of 6 to 7. Keen was sent to the mound for the Ogville, and delivered a really nice arm and was relieved by Ravenscroft. Johnson was sent to the mound by the Ogville, and delivered a really nice arm and was relieved by Yost, who got away nicely the balance of the game.

Brennan's colts will play Ogville at Hinckley next Sunday. Kalb of this village will be in the lineup with the colts next Sunday.

Cunningham is going nicely doing most of the Tiger's pinch hitting, and he sure is doing a good job of it.

Beckenridge, who is now with the Tonico club, in the eastern league, is leading that league in base-stealing. Believe me, that man "Breck" sure can go some on those paths.

Mgr. Fox, of the Ely club, is trying to land Kalb and Yost of this village for his first range ball club. Yost refused. Mgr. Fox will make no mistake if he lands Kalb. Kalb is a little fellow on bases and can hit the pill with the best of them.

The local manager received "Red" Hoefler's and Bernard Lambert's batting records for seven games from Manager Fox, of the Ely club. Lambert is cracking the pill at the rate of 307 and Hoefler is cracking the pill at the rate of 211. Furthermore he states that Hoefler has only one single to his credit, and the balance of the hits are for extra bases, and furthermore he states that he has the eye witness of "Red" striking-out once in three seasons. I guess you are hitting them right in the nose "Red." Ely vs. Glass Block, on July 14th. According to Ely's manager, after the local team being beaten by the score of 10 to 0 up to the last half of the ninth, Lambert went to the plate with his teeth supposed to be rather and a deadly grip on his wagon-tongue, and the first ball pitched, Lambert cracked it right in the nose and after a solid half hour running found himself perched on the 3rd stadium, and scored 2 men ahead of him, and won the game by the score of 2 to 1.

The local manager was an eye witness at Hinckley last Sunday in seeing the first one John drop a fly ball—the first one in ten years. There's always the first time, June.

The local manager is ready to book games with the Ogville and Mora clubs. Adolph Gross, the keen left fielder of Rock Creek, got two 5-base hits and a double at Rock Creek last Sunday.

Mgr. Carlson, of the Rock Creek ball club, is proving himself a real base ball manager.

Lyon, who last returned from the army, is cutting them over the plate for the first Finlayson club. Lyons score developed fast for a young chap. Alex Bisset, the speedy shortstop of Sandstone, has again thrown his hat into the base ball ring, and believe me this man, Bisset sure can go some in the field.

Edin, is back from Proctor, and played his first game with the local club last Sunday. This man, Edin, has the making of a real pitcher.

Frank Patrick, of Hinckley, who has been in France and Germany, for the past 18 months, returned to his home Monday. Frank is a real left-fielder.

Ed Brennan, of Hinckley, is stepping mightily lively in the right-garden for the fast Virginia club.

Move "Poor Lo" from Mille Lacs  
Petitions are being circulated asking the government to remove the remainder of the Mille Lacs band of Chippewa Indians from their old stamping grounds around the lake and compel them to remain away from here. The petitions request a number of good reasons for their removal, and they are being freely signed by those who are interested in the development of the Mille Lacs district. These Indians have never attempted to comply with the provisions of the treaty by which the old Mille Lacs reservation was ceded to the government.

Within the past few years several hundred acres have been purchased by the government and held in trust for these Indians to live upon. There are about a thousand acres of this land in the town of Katho. Such land so held in trust pays no taxes and in consequence the privately-owned lands must bear an additional tax-burden because of such withdrawal from the tax rolls. The government certainly should grant the prayer of the petitioners—Wahloo Enterprises

## Commissioners In Session

Act on Many Matters of Importance to the Voters of the County

The Board of County Commissioners convened last Monday at 1 p. m., and were in session until Wednesday afternoon adjourning to meet next Monday at a Board of Equalization. The following business was transacted during the session:

The following tax levy for 1919 was passed. For ordinary county expenses \$38,000, general road and bridge fund \$40,000, for support of the poor \$3,500 and a sinking fund to take care of the \$100,000 bond issue \$3,000.

The following bids were received for painting and replanking the Chongwanan bridge, crossing the Snake river, east of Pine City. Low Bidder: Company \$2,189 Albert and Melvin Cherrier 1,240 Axel Orstad 1,984

The contract was awarded to Albert and Melvin Cherrier at the contract price of \$1,240.

A resolution was passed requesting the State Highway Commission to lay out immediately—the west portion of the proposed state road through Rock Creek and Royton from the Federal highway to the Kanabec county line.

A resolution was passed asking for 50 per cent of the cost in constructing and improving of road No. 1 from the Federal aid funds of the state. Upon aid being granted by the Commissioner of Highways, the County Board agrees to complete the road as a gravel-surfaced road according to the requirements of the commissioner. The estimated cost of this improvement is \$209,354.61.

A petition by E. T. Horon and others asking that the road running from Sandstone east to the Wis. line through Danforth, Wilma and Arna be designated as a state road was unanimously adopted.

The petition of Chas. Youngbauer and others for the formation of a new common school district out of the present district number 26 taking in the south half of sec. 4, all of sections 5-6-7-8-9-16-17 and 18 all in township 44, range 21, was granted.

The petition of Greer B. Anderson to be set off with his lands from school district 113 to 44 was granted.

A resolution was passed recommending to the State Highway Commission that the road running west from Rock Creek to the Kanabec county line be designated as a state road.

Further proceedings of this session will be given next week.

District Court Renews The Grand Court met, Tuesday afternoon, for the trial of the remaining jury cases. Only one of these cases of us we go to press and indications are that the jury will be called back next week.

In the case of Fred Glaeser of Willow River a divorce was granted from Martha Glaeser.

The case of Jacob Zeulka against James Novobny, coming from Birch Creek town, resulted in a verdict for \$213.50 for the plaintiff. Zeulka sued for \$700 because of the loss of a couple of tons of hay and about 45 cords of wood, on Oct. 12 last, from a fire which he claimed was set by defendant and so carelessly managed that it got beyond his control.

The Rock Creek school case, in which the board of district number 13 is being sued by a Minneapolis hotel contractor, has occupied the attention of the court all day today—Thursday—and will probably occupy most of Friday. Another case relating to the same matter will go on to next term.

The remain two criminal cases—the river, charged with a statutory crime, and the one against Herman for illicit intercourse—and it is doubtful whether they will be disposed of this week. They may however.

The Coming Salvation Army Drive  
A state wide drive to raise \$600,000 for the Salvation Army, as part of a national drive, will be conducted from August 1 to 20. Ben C. Boe of Pine City will have charge of the work in Pine County, of which Hon. Julius A. Schmal of St. Paul is state chairman and Elvers McMillan of Princeton is chairman of this district, including Pine, Chisago, Anoka, Mille Lacs, Isanti, absence of funds, baby clinic work over the state will be discontinued until further notice. A few of these successful and valuable clinics have been held over the county and more were to be held.

No More Baby Clinics at Present  
Mrs. E. H. Long, county chairman of the public health association, is in receipt of word that, owing to absence of funds, baby clinic work over the state will be discontinued until further notice. A few of these successful and valuable clinics have been held over the county and more were to be held.

New County Road Engineer  
County Highway Engineer W. J. Buckley has been replaced in charge of Pine county roads by the state highway commissioner, F. E. Stutz, recently stationed at Moorhead, being named to succeed him. The change occurred the first of the week and Mr. Buckley goes to Cass Lake, where he will be in charge of a federal road job. "Bill" is an excellent road builder and his many friends are glad to note his progress. He does not expect to attend at Prochaska's pharmacy, Price right. 487-4

First Passports for Pine County  
Application has been made through County Auditor Edlin's office for passports for Jos. Jahnke of Sturgeon Lake to enter the English state of matrimony, Joseph finding it necessary for him to cross the water to England for the purpose and passports being necessary for the trip. This is the first request of the kind from Pine County.

# BEN LILLY MOST FAMOUS HUNTER

## At Sixty-Five He Leads All Uncle Sam's Professional Trappers.

### SAVES STOCKMEN HUGE SUM

In the last six years "Old Ben" has killed 167 Mountain Lions and 65 Bears, including several Grizzlies.

Washington, D. C.—Uncle Sam employs approximately three hundred professional hunters and trappers to exterminate predatory animals in the range country. Among these, the obscure Ben Lilly is "Old Man Lilly," who at sixty-five years of age still leads all the rest. He remains active, as during and as certain in "driving a herd" as any of his associates, some of whom are young enough to be his grandchildren. Lilly is a giant for work. He has exterminated two or three sets of dogs in rounding up some range "varrants."

According to the Bureau of biological survey, under which this extermination work is done, Old Man Lilly in the last six years has killed 167 mountain lions and 65 bears, including one grizzly bear. The official account, just issued, concludes: "Mr. Lilly is unsurpassed and distinguished for his experience, and on that account a complete record is available concerning his total number of scalp, but it is very large."

Leads Temperate Life. Mr. Lilly attributes his physical prowess and activity to his outdoor life and to the fact that he never uses tobacco or intoxicants of any kind. He furthermore has followed a fixed rule of never hunting on a full stomach. This rule has given many wild animals being pursued a new lease of life through being able to make their "get-away" on the Sabbath. On one occasion, however, he tracked a huge mountain lion for weeks through three states and finally cornered him. The animal was beaten off and the beast attacked Lilly. His rifle was knocked from his hand. Armed only with a six-inch pocket knife, he battled for some time, and one desperate plunge of his weapon at the animal's head reached it just as the hunter became so exhausted that he fell beside the dead lion.

The records assert that Mr. Lilly knows the range country so well that he is so familiar with the routes, habits and haunts of the lions that occasionally he kills three within half an hour. He knows just where to set traps in the canyons and caves, while he is able to pick out the most advantageous spots to lie in ambush awaiting the approach of prowling beasts. Born of a good family and enjoying prosperity, Lilly to his teens responded to the call of the wild and became a freelance hunter. Loaded with a 60-pound pack, he broke his way through the Louisiana swamps in search of game, from bears to wildcats. As a rule, every time his rifle cracked, some animal dropped, and his fame as a sportsman spread throughout Louisiana, Texas, Arizona, New Mexico and northern Mexico. He was one of the guides selected to accompany the late Colonel Roosevelt in his hunt in Louisiana which made the "Teddy Bear" famous. His circle of friends among western ranchers is extensive and appreciative.

Saves Stockmen Huge Sum. On the accepted basis that a wolf kills \$1,000 worth of stock a year, a bear and mountain lion \$500 each, and that a coyote and bobcat each do \$50 worth of damage, Lilly has saved the western stockmen a substantial amount. Altogether he has exterminated animal hunters have killed 70,718 sheep, goats and calves in the last three years. The direct saving there is estimated at nearly \$5,000,000 a year to the stockmen of the Rocky Mountain section. The total kill consists of 60,478 coyotes, 6,094 bobcats, 150 wolves, 201 mountain lions and 137 bears. The pelts of these animals sold for approximately \$100,000, which was used by

the government to carry on the work. In addition to animal killers, trappers, plug and shooting, millions of rodents, prairie dogs, rabbits, foxes and woodchucks have been exterminated by the carefully organized poisoning campaign conducted by the biological survey.

### Lost Three Husbands In War; Gets \$172 a Month

A negro woman is drawing three \$7.50 checks, or \$22.50 a month, from the government, for the loss of three husbands during the war, and will draw that amount for 20 years.

Mrs. Amanda Jones, who died of spinal meningitis soon after entering the service and taking out a \$10,000 insurance policy.

The widow Jones married a man named Smith. He took out a maximum life insurance policy in her favor, and was killed in action.

Then Mrs. Amanda Jones-Smith married Private Jackson, a returned soldier, who also was killed in action.

She then married a third time, and was killed in action.

She then married a fourth time, and was killed in action.

### HAIR TONIC BOOMS AS DRINK

Porto Rico Discovers Scalp Remedy Contains a 60 Per Cent "Kick."

San Juan, Porto Rico.—Hair tonic has leaped in favor as a drink here. In one week more than 4,350 bottles of a kind manufactured by a local firm under a formula registered with the local government was sold in that city. The tonic, said to contain more than 60 per cent alcohol, is reported to have been selling at 15 cents a drink, despite the fact that it contained drugs which, although reported to be of benefit to the hair, are potentially applied, are said to be somewhat harmful to the system when inhaled.

### FLYING UPSIDE DOWN THRILLS

Becomes Dangerous Only When Caught in Bank Close to Earth.

Planned, "when you are 15,000 or 18,000 feet up, you will run into a great cloud of fleecy clouds that turn the whole world into a fairytale. It lies before you, a great ball of downy, sparkling light. It looks almost real enough for you to step right out of your machine and walk around. Some of these clouds backs stretch for miles, like a great white river. There are mountains, chasms, rivers, lakes and canyons running all through them.

"Just as you come to the great cloud you suddenly pick back the old joy stick and zoom down to the right and left of you for hundreds of feet, with the pure blue sky over you and more white, glistening clouds under you. For miles after mile you will follow around in these high walls, just as clearly defined as the walls of the Grand canyon. Sometimes the canyon will come in front of you and you dive straight into the clouds or you may be going around them until you lose all sense of direction or balance. You think you will dive down toward earth and see where you are. You push over the joy stick, but the old bus does not answer—just keep on going and becoming more crazily every moment. Then you know you are flying upside down or perhaps with your body almost horizontal. There is just one thing to do—let go of the joy stick and the old bus will tumble out of the clouds. You may come out finding your head straight down toward the earth, or horizontal with it. Then it is an easy matter to flatten out and travel on.

Traveling Upside Down. "You do not realize you are upside down because you are still in the machine and the motor is roaring tremendously and pulling hard right under you. There is no danger when you are flying out of the clouds—after you get into trouble, it is the first that always comes. When you are upside down, you are in the clear he realizes what with the result that he prepared for the situation again at any time.

"All danger in this situation has been practically eliminated now, for they are making machines stronger and stronger every day, and they seem to be able to stand almost any shock or twist to which you can subject them."

Build Eleven-Acre Oil Tank. London, Oct. 17.—The giant That's the capacity of the new oil tank built at Blyth for storage of fuel for British warships. It will cover eleven acres and a roof area of seven acres.

Borrow Wrang Chatham's Bath. New York.—Gabe Chatham's bath was sold and he borrowed his own. The article about the sale was "Disorderly conduct," said the magazine to Gabe. "No, and costs."

The heraldic letter of these days is heavy in the autumn evening gown. One of these is made of waxed silk with a pattern of light and dark shades. The dress is made of light and dark shades. The dress is made of light and dark shades.

Young girls are wearing evening dresses of white, untroubled by any color. Not the fluff, frilly type of the dress such as the girl's costume, but the simple, straight, and untroubled by any color.

With these dresses are worn large black hats of millins, hennrich or lace trimmed with jet. The jet being used to outline the pattern of the lace. The dress is made of light and dark shades. The dress is made of light and dark shades.

Vellie Add Daintiness. The woman who is trim from top to toe never forgets that a veil is the last touch in daintiness for any outdoor costume. This year she is wearing one of the highest veils that seem to be the fad; but just because veil means a no fashion has been slightly introduced they modeled patterns that are scattered over the veil in an effect of contrast.

Right Way to Stiffen Lace. How Decoration May Be Finished At. It Leaves the Needle or Loops.

Now that lace is so popular, you once more, the non-professional maker of lace must know something about giving finish to her work after it leaves the needle or the loom. To impart that most imperceptible degree of stiffness, the lace must be treated in a very special way.

After removing the lace from its foundation, notes a correspondent, place a few drops of some fine white fluid. Now dip piece of brand-new organdy, the usually stiff material that is very obnoxious "stiffness" into a little water. When it has soaked for a few minutes, remove the piece and wring it out. Then dip it into any super-duper soap, and dab all over the wrong side. Finally, press it between two pieces of organdy, and give it a hot iron over it, being sure that the movement is slow so that the moisture will be evaporated gradually. Do not remove

During the recent war the world came into a full and complete understanding of the value of efficient and comprehensive organization on the part of big business.

One phase of the aid that the Standard Oil Company (Indiana) was able to render is interesting.

The U. S. Government called on the Company for candles, and in an incredibly short space of time the initial shipment was made.

In all 285,000,000 candles were shipped from Whiting, Indiana, to France—about 85 candles for every man in the United States uniform.

The Standard Oil Company makes candles from the by-products of crude oil.

Besides serving a most useful and necessary purpose in themselves, the manufacture of candles enables the Company to keep down the manufacturing cost of gasoline, so that you may run your car without great expense for fuel.

This is only a single and minor phase of the part played by the Company in helping to win the war, but it serves to illustrate the usefulness of the Company as a public servant, and the benefits accruing to the world at large from Standard Oil Company (Indiana) operations.

William S. Hart is the man who, more than any other, has brought on the fading West back to the memory of those who are now old and given it a realistic presentation on the screen for the new generation which knows it only through books or by word of mouth in the form of reminiscence. The West lives again in "The Border Wireless" at the Family theatre, Thursday, July 24, 10 o'clock.

The Pine City State Bank deposits jumped \$100,194.40, today when the county deposited a check for the road bonds recently sold, and accrued interest. It was probably the largest individual deposit ever made in the county and was an excellent illustration of the value and convenience of road business and banking methods. There was no bother in counting the cash nor any danger in having lost it in transportation, but it's representative of a "johnny-on-the-spot" and easily passed as the "real stuff."

Lila Lee's a darling in this Paramount picture—"The Cruise of the Make-Believe." She's supposed to be a little alum girl who is simply yearning for romance and foreign lands. So what does she do? Builds a ship in her back yard. Lowest! It's a ship, at that. Lila gets the finest young skipper aboard to help her sail.

Golly, the times they do have! Come and see them having them. Come and sail with them to the Cape of Adventure and the Land of Love. It will do your heart good to see it at the Family theatre Sunday.

The ladies social to be given at the Wm. ## A Wholesome Butter

The Product of Pine County Farms

Too few of the people in the towns and cities of our dairy districts realize or appreciate the fact that their own business and prosperity depends upon the business success of the men who are producing the raw material that goes into butter and cheese and ice cream. They give aid and comfort to the dairyman's great enemy—the oleomargarine interests—and how about the shortsightedness of the farmer who spends some of his money with the mail-order houses instead of supporting his home industry. They talk of the injustice of spending the money where no portion of it will be returned to the community in the form of taxes—and then they have the nerve to use in their own homes and push in their stores the sale of the article that is taking money out of the pockets of dairymen every day in the year. The patriotic part of it is that such a large proportion of their sales are made to the dairymen themselves.

We should like to see a store-keeper with the courage to announce to his trade that he stands for the men back of the greatest industry in his community, and that, therefore, none of the so-called butter substitutes would be sold from his place of business. Backed up by the right sort of publicity in the local papers and with the right sort of management we believe that merchant would secure a large share of the trade of the dairymen in his district. Recognition of mutual interests is almost always profitable for all concerned, and here is no exception to the general rule—Holstein Freeman World.

## A "Peace" Kolpat Canning Outfit Costing Less Than One Dollar

Most housewives know that the jars nearest the bottom of any hot water container cook most evenly and quickly. The PEARCE NO. 7 "KOLPAT" cooks all jars on the bottom of container. Consequently it uses less fuel than any other cooker, and is the most satisfactory in home used for the following reasons:

One half as high as a two-tier cooker. When placed on the average waist-high stove, it is easy to remove the full jars from the "KOLPAT"; whereas, in the two-tier cooker you must lift your hand well above the head.

Any jar is instantly removable with the "LOOKTITE" lifter. Just pick up the jar you want, and set it down. No hot wires to handle, and you do not afterward have to unlock your jars from any wires.

Holds both pints and quarts of any style. By means of a novel construction, the rack is reversible one side spaced for seven quart cans and the other side for eight pint cans. A floating bottom is provided with automatically adjusting itself whichever side of the rack is up.

It is durable, and is made of heavy, tinned wire, electric welded, rigid and rust-proof, and will wear indefinitely. Container is of heavy material, heavily seamed, with a durable cover. The feet of the rack keep jars safely off the fire bottom.

Buy a Dort and Use It  
The Dort is the sort of a car that is used—one that more pays for itself. Light, easily handled, costing little for upkeep, there is no hesitancy about using it "early and often."

You can do more with a Dort to get you about quickly, you can do better by putting "on the ground" instead of telephoning. In any way you look at it, the Dort will increase your efficiency. Buy a Dort and use it.

**Pine Grove News**  
The Young Peoples Society at Pine Grove is to have an ice cream social to be held at Herman Johnson's, Friday evening, July 18. Everybody welcome.

**Read the Creamery Advertisement**  
Read all the ads in this Pine City Piker—it will pay you—but especially read the advertisement of the Pine City Cooperative Creamery on the matter of buying for good pure dairy produce. It is a worth-while "ad" and says what has to say in good, plain language. Read it—then read them all.

**Many Farms Still Afloat Herein**  
Wm. Teich has sold his 60-acre farm, about 2 1/2 miles southwest of town to his brother Emil who will take possession this week. His farm turned around and bought the Chas. Pitka farm of 30 acres and takes possession of that place at once. Mr. Pitka expects to go into the northern part of the state.

**Adolph Pavok has sold his 40-acre place, 3 mi. northeast of Beroun, to Louis E. Patotski, brother of Otto, who will take possession on Nov. 1.** Adolph has bought his father's farm and Anton figures on moving to town.

**M. J. Bosley has purchased an additional 80 acres adjoining his farm, northeast of town.** Thos. Kopacek sold his 40, adjoining Rudolph Plasek's place northeast of town, to Rudolph, giving him 160 acres.

**John Plasek is busy shipping raspberries.** He has shipped about 150 crates at this writing and expects to make it 500 or 600 during the season. He is now getting \$3.50 per crate and will not get a handsome return from his berry patch.

**The fill at the new Mission creek bridge, northwest of town, is not yet complete but traffic is going over it.** There remains some additional work to do in broadening the new creek channel however.

**Among the Beroun boys back from France since our last report were Frank Cabak who was in Europe over a year and Claude Anderson and Wm. Zhytovsky who were there nearly a year.**

**Rudolph L. Plisek purchased a pure bred Red Polled bull and heifer of the same breed at the Bennett auction to add to his excellent and growing herd of Red Polls.**

**Stule brothers are putting up Frank Baumchen's 26x28 bungalow, north of town, and already have only begun operations last week.** The dance last Saturday evening was liberally attended and greatly enjoyed and another is to be given this week Saturday. There will be a good crowd.

**From House to House**  
Mrs. Harrington Feels Like Crying and Telling Everybody About Tanlac

"I would just like to go from house to house and tell the people about Tanlac," said Mrs. Mollie Harrington of 111 third street, Peoria, Ill., in a recent statement which she requested published for the benefit of others.

"My health gave way years ago," Mrs. Harrington continued, "and I had long since despaired of ever getting any better. I was very weak and pale—hardly had a color of blood in my face—suffered terribly from stomach trouble and was extremely nervous. I was really in a breakdown condition and being past fifty-eight years of age, which I thought was against me. I had no hope of getting well and nothing to look forward to but the end, which I often felt was drawing near."

"Then I got to reading about the wonderful results others were getting from Tanlac and yet, I could not make up my mind at first to try it, as I had little idea it could help a person of my age, especially one in such a low state of health. But somehow I was influenced to buy a bottle and that was about the luckiest day of my life. After I finished taking it there was a wonderful improvement in my condition."

"When I had something to look forward to—hope of complete recovery—so I bought a few more bottles of Tanlac and now I don't have to tell my friends I am well again for they can see that from my looks and open speech. I am now very thankful to Tanlac that I can express, for now I am enjoying life and good health, which I never expected to enjoy any more, and I want this testimonial published in all the papers in Illinois that everybody may know what Tanlac will do, for I feel that I ought to tell all suffering people about this wonderful medicine."

Tanlac is sold in Pine City by E. J. Prochaska.

**Large Class Confirmed by Bishop**  
Bishop McNicholas, as confirmed in the Pine Piker last week, estimated large classes in the Catholic churches at Pine City and Beroun on Tuesday of last week.

In Immaculate Conception church at Pine City the celebration of the event began promptly at 10 a. m. with the procession of the candidates, led by eight little girls carrying flowers, from St. Mary's hall to the front of the parish house, where they met the bishop and visiting priests whom they conducted to the church.

On entering, they were greeted by an organ march played by Miss Agnes Hurley which continued until the bishop entered the vestibule where he was received by the pastor and after a short ceremony, continued to the sanctuary, accompanied by the choir and with the pastor at his side. During this latter ceremony, the choir, with Miss Agnes Hurley at the organ, sang "Ecce Sacerdos Magnus" meaning "behold a high priest," after which the bishop ascended the throne and prepared for the celebration of the occasion.

The Pine City confirmation class of boys included: Anthony Baum, Frank Sakovitz, Paul Stuebel, Frank Kosik, James Pofel, Herbert Cherrier, Edward Ehrhart, Walter Sauner, Rudolph Sauner, George Hudak, John Galik, Nick Kerner, John Kester, Bernard Kester, George Hudak, William Weimner, Bernard Meyer, Peter Black, Galon Weinberger, Raphael Weinberger, John Stuebel, Joseph Stofel, Edmund Tschy, James Hawley, Henry Wosmek, Eugene Wilcox, Francis Stoffel, Edward Youngbauer, George Bros, Rudolph Youngbauer, Peter Sandon, George Panzerl, Fred Panzerl, Ernest Panzerl, Edward Daley, James Wilcox, Edward Vojta, Alois Baum, Werner Vojta, Rudolph Vojta and Alois Vojta and Leo Galik.

Father Stofel celebrated solemn high mass with Father Roy as deacon and Father Placht as master of ceremonies. Father Senger and Father Leo assisted the bishop at the throne and the choir, with Miss Catherine Hawley at the organ and Miss Agnes Hurley as director, rendered a mass of St. Albans.

After mass, the examination of candidates was conducted by Bishop and Bishop McNicholas thereupon addressed the children and congregation at the end of which he advised them to value the sacrament that has been here long and to go on, not hesitating at sacrifices. First of all, to put up a suitable parsonage or home for the pastor, to show their appreciation of the work which he has accomplished during his stay here. Speaking on education, he urged the parents not to deprive their children of the privilege of attaining the higher standard of education and called attention to the fact that a small college is to be started at Dutch
