The following case is but one of the many occurring daily in Pine City. It is an easy matter to verify it. You cannot ask for better proof.

A. Blandstrom, former implement dealer, says: "I have had several attacks of kidney trouble and have suffered a great deal from backache and have been miserable with it. I have to bend over at my work, and I tell you sometimes when I have bent over I have hardly been able to get up again. At such times my kidneys have ached like fire and the sensations haven't been normal. I have felt run down and my teeth have ached and felt numb. Double kidney pills soon had me well again, and I have used them every time I have had an attack of kidney trouble." 60c at all dealers.

**MANY TO BUY NEW 'SAVINGS BONDS' IN OCTOBER 6 SALE**

Reports from Ninth District Reveal Interest in \$100 and \$1,000 Certificates.

**OBJECTS OF CAMPAIGN GIVEN**

"Big Brother Day" in Thrift Movement—Final Plans Completed.

October 6 will see many thousands of dollars spent all over the Ninth Federal Reserve district for the purchase of government savings bonds, which might otherwise be spent in needless extravagance. Plans for the campaign have been completed and according to announcements by Mr. E. Harrison, War Savings Campaign Director, there has been a splendid response from the public and in many localities the present campaign is being carried on by the old Liberty Loan organizations and where this has been impossible the War Savings Workers are rallying once more to the good of the cause.

The object of the campaign is to again impress upon the country the paramount importance of practicing economy and wise investment.

To Salvage War Thrift.

October 6 sales will be limited to the recently authorized \$100 and \$1,000 certificates. It is the desire of the Treasury Department of the Federal government to lay before everybody the OPPORTUNITY to buy one or more of these saving certificates.

"It is an opportunity to salvage the war taught habit of buying government securities," commented R. A. Young, governor of the Ninth Federal Reserve district, and it is a chance to encourage the steady workers in the smaller war saving stamp work by a "big brother day's" help from those who are financially able to buy the \$100 and \$1,000 certificates. It is a chance for the busy businessman to strike a body blow at the high cost of living and it is an opportunity to put in a big day with our characteristic American spirit to better economic conditions."

No Specified Allotments.

There are to be no state, county, district or township allotments by the district organization in this campaign. Each county will strive to secure a large distribution and sale of these certificates as possible. It is not intended to allot a specific amount for any individual or to attempt to sell to any one individual a greater amount of certificates than he can afford to buy and hold.

These certificates are a guaranteed investment. The following brief and sale of the \$100 and \$1,000 will prove interesting:

**New Certificates Analyzed.**  
**Issue**—United States Government Security.  
**Denomination**—Issued in denominations of \$100 and \$1,000 (maturity value).  
**Rate of Interest**—Bear 4% interest, compounded quarterly (yield 4% 3/4 interest).  
**Maturity**—Maturity January 1, 1924.  
**Method of Purchase**—\$100 Certificates may be purchased at any post office of first or second class, or at any bank or trust company. \$1,000 Certificates may be purchased at any bank or trust company.  
**Tax Exemption**—Exempt both as to principal and interest from all Federal, State, and Local taxes, except estate or inheritance taxes, surtaxes, and excess-profits and war profits taxes.  
**Safety**—Issued in registered form only. Not transferable and payable only to owner named thereon, except in case of death or disability. Registered in Washington and protected from loss by fire, theft or in any other way.  
**Holdings**—Total holdings of War Savings Certificates by any one person, series of 1919, and Treasury Savings Certificates not to exceed \$1,000, maturity value.  
**Redemption**—Principal and accrued interest will be paid at any time following second calendar month after month of purchase upon ten days' notice. Table showing redemption value at any time prior to maturity appears on each Certificate.  
**Exchange Your War Certificates.**  
 "It is well," said Director M. E. Harrison, "for the public to bear in mind that any individual having a war saving certificate party filled with stamps of the 1919 issue may complete such certificates and exchange same for a \$100, maturity value, Treasury savings certificate. This applies only to the 1919 issue of stamps."  
**Federal organizations, school boards, churches and other organizations are particularly interested in the sale of these certificates because of the fact that the certificates are exceptionally attractive security for such organizations. By investing in a \$1,000, maturity value, certificate or several \$100 smaller denominations, these bodies will find that they have a bond which is attracting a good rate of interest and which will, in case of emergency, be convertible into cash on ten days' notice.**

**THE SPEED LAW**

The mania for speeding has taken on such proportions of late that it is high time the law is enforced to stop this dangerous pastime. The only effective way to stop it is for every town officer to do his duty without fear or favor and to arrest every violator of the law that comes to his notice, says the North Branch Review.

For the benefit of those who profess ignorance of the law we send the following definition given by Attorney Stolberg in answer to an inquiry by Ben J. Peterson, town clerk of the town of Harris, Chicago county:

"By the letter of the 11th inst. at hand in reference to auto speeding in your village and in reply to the same I wish to state that any police officer can make arrests for the violation of the law on any street or highway which prohibit speeding and your marshal can make arrests for the violation of this law. As a matter of fact if you were to have an ordinance relative to speeding it would be the same thing as the state law. The only difference is this, a prosecution under the state law is conducted by the State of Minnesota and handled by the county attorney. A prosecution under an ordinance is a prosecution by the village attorney. I think this fully explains the matter to you. In the event that you do not have a copy of the latest law in reference to this I am enclosing a copy of your reference."

(Copy of Law)

"No person shall drive a motor-vehicle upon any public highway of this state at a speed greater than is reasonable and proper, having regard to the traffic and the character of the highway, or so as to endanger the life or limb or injure the property of any person. It shall be the duty of any motor-vehicle, operated on any public highway in this state, where the same passes through the village portions, and the residence portions of any incorporated city, town or village, exceeds fifteen (15) miles per hour for a distance of one-tenth of a mile, or if the rate of speed of any motor-vehicle operated on any public highway in this state, outside of the closely built up business portions, and the residence portions of any incorporated city, town or village, exceeds fifteen (15) miles per hour for a distance of one-tenth of a mile, or if the rate of speed of any motor-vehicle operated on any public highway in this state, outside of the closely built up business portions, and the residence portions of any incorporated city, town or village, exceeds twenty-five (25) miles per hour for a distance of one-quarter of a mile, such rate of speed shall be prima facie evidence that the person operating such motor-vehicle is running at a rate of speed greater than is reasonable and proper, having regard to the traffic and the use of the way, or so as to endanger the life or limb or injure the property of any person."

"The rate of speed of a motor-vehicle, operated on any public highway in this state or in going around a corner or curve in a highway, where the operator's view of the traffic is obstructed, exceeds six (6) miles per hour, such rate of speed shall be prima facie evidence that the person operating such motor-vehicle is running at a rate of speed greater than is reasonable and proper, having regard to the traffic and the use of the way, or so as to endanger the life or limb or injure the property of any person."

Under the caption "Loss gambling pay," Editor Colby of the Sandstone Courier says: "The majority of the people in the county will undoubtedly endorse the following sentiment expressed in The Pine Poker of last week," following which he quotes our article published on Sept. 16 regarding gambling for money at the county fair here.

# What Bulk Storage Means to YOU

ONE of the major services which the Standard Oil Company (Indiana) renders you, is to maintain at all times, at convenient points throughout the territory it serves, large storage tanks filled with gasoline, kerosene and lubricating oils for quick delivery to you when you need them.

Assume for a moment what would happen if severe weather or unforeseen transportation conditions should cut off deliveries from the refinery for a week, and that no appreciable surplus was available.

You would walk for your groceries. Your physician would be slow in arriving in case of sickness. Business generally would suffer through inability to make deliveries.

In a word, unless the Standard Oil Company (Indiana) maintains a tremendous surplus in the field at all times your domestic and commercial welfare would be jeopardized.

This vast storage of 156,528,950 gallons is but a single cog in the giant wheel of usefulness which the Standard Oil Company (Indiana) operates in discharging its obligations as a public servant in a manner satisfactory and beneficial to all.

What are love's false faces? If you are married to a pretty girl and if you have a friend who likes her you will find out the answer. You will greet her with an angelic smile and shake your hand with a Syrian friendship—you can be pretty sure that he wears a false face—that is his real attitude toward you is one of animosity and that he would give his right eye to be able to push you off a pier into the ocean or drop a bomb somewhere in your vicinity.

### OMAHA MAYOR NEARLY RAGED

Twice Drawn From Ground by Angry Mob but Is Rescued by Police.

### CITY HELD IN TERROR

Factors Set Fire to Courthouse, Take Negro From Sheriff Attacking Siege and Lynch Him—Troops Are Called.

Omaha, Neb., Sept. 30.—Omaha is quiet with 600 troops from Camp Dodge, Ia., on riot duty, augmented by several hundred special officers organized by the American Legion to help preserve order. Officials here are convinced there would be no further outbreak of the race rioting. The recovery of Mayor Ed P. Smith is assured.

Omaha, Sept. 29.—A fringing which developed many characteristics of a race riot held this city terrorized for nine hours.

Mayor Edward J. Smith was saved from lynching by a mob which reported, cut the rope from about the mayor's neck while his comrades clung to the mob.

The riot centered about the magnificent courthouse building, which was set on fire by a mob which included William Brown, a negro charged with criminal assault on Agnes Lock, a white girl, a few days ago.

Sheff's Battles for Hours—With the flames mounting steadily from floor to floor, Sheriff Mike Clark and his deputies fought a grim battle of hours to save Brown, those who clamored for his life, but with the cries of the 100 or more prisoners on the top floor—fall down—his ears in his ears, he was compelled to surrender the prisoner.

The nerve was tested to an electric light pole and hanged. Mayor Smith is in a critical condition at a local hospital. His physician declines to say just how seriously he is injured. A rope was thrown around his neck and he was pulled off the ground twice before he got up and succeeded in cutting the rope and setting him in an automobile and away from the mob.

Plends for Law and Order—The mayor had gone to the courthouse and held a consultation with Sheriff Clark. Earlier in the day the courthouse he met the mob and began to make an appeal for law and order. "Nobody shooting any more," he called, and a member of the mob threw a rope around his neck.

Half a dozen men dragged the mayor half a block and threw the loose end of the rope over a trolley pole. "Take the rope," the mayor called. "You have to get it away from the police officers out there. Following the second attempt, these men stepped up to a police motor car and rushed him to a surgeon's office nearby. The mayor was hospitalized with his arm and one and after a brief examination by physicians, was taken to a hospital. At the hospital he was visited by the physician that he had succeeded.

Negroes Not Charged.  
The trouble began with the discovery of an alleged negro plot to rise against the white residents of the southern part of Phillips county, when Deputy Pratt and Adkins and a negro trusty were ambushed opposite a negro church at Hoop State, two miles north of Elaine, while on their way to arrest members of the Clem family, who were said to be involved in a row among themselves.

Change Clocks on October 26  
General uncertainty as to when the clocks of the nation may be turned back and daylight saving abolished seems to have resulted from the recent action of Congress in repealing the daylight saving act. In answer to numerous inquiries officials have pointed out that clocks may not be turned back until the last Sunday of October, or October 26, at 1 a. m.

Bonus Board Appoints Co. Rep.  
Acting in conjunction with the Minnesota War Records Commission, the Soldiers' Bonus Board of Minnesota has appointed Glenn Turner of Pine City, supervisor for Pine county, who's duty it will be to get the war record of every service man in this county so that they will be able to receive their war bonus, which is provided for in a bill passed at the last session of the state legislature.

The bill provides that every man in the service from Aug. 6, 1914, to April 6, 1917, shall receive a bonus of \$15 per month for each month that he was in the service, and no one shall receive less than \$50. In connection with this work Mr. Turner will also compile a record for the Minnesota War Records Commission, of every soldier, sailor and marine which will be used for the State and county records and for the use of the American Legion.

The American has asked Mr. Turner to act as organizer for Pine county. Any towns not yet organized and not being affiliated with any posts and wishing to organize should write to Glenn Turner, Pine City, for the necessary information and assistance in organizing.

A gentle little lass with a sea-captain grandfather who spins wild yarns of buccanier days—that is Lila Lee at the opening of "Stick a Little Pirate." But, say, before it's over, she's become a regular old-fashioned pirate, hunting hidden treasure at the head of a gang who would freeze the heart in your mouth! Talk about excitement—this drama is some dynamite! At the Family theatre, Monday, Oct. 6. Prices 10c and 20c.

She wanted to be cloped with, simply longing for it—so when the stars were out and the moon was as big as a hat-box, Bryant Washburn grabbed the lovely bundle and—"wig don't you see the picture, anyway? "The Gypsy Trail" at the Family theatre, Sunday.

Mrs. Mary Pangerl, wife of David Pangerl living about 6 miles west of Pine City on the Brunswick road, took her life yesterday morning, about 2 o'clock, by hanging herself to a tree in the yard.

She had been dependent for the past two or three weeks and about two weeks ago tried to kill herself by taking poison. Since that time there has been some talk with her continually, as her family feared she would do herself bodily harm as she was worrying over family affairs, but yesterday morning she slipped away unnoticed and before they could find her she had

choked herself to death with a small cord which she had looped around her neck and fastened to a tree.

Mrs. Pangerl was 49 years old and leaves, besides her husband, four children, all grown up, we understand. The incident was a regrettable one and the family have the sympathy of all their friends and acquaintances.

To Our Readers  
The Pine Piker begs the indulgence of its readers this week on account of the dearth of news in this issue. After the paper was laid out, considerable advertising came in that we were not expecting until next week, making it necessary to crowd our news space.

Any newspaper owes it to their readers, as well as to the advertiser, to take care of all advertising, even though it crowds the news, however, we will try and see that it does not happen again, soon. The Pine Piker prints the advertising as well as the news—both together make a successful newspaper.
