Fire at Hinkley This a.m.

Three Small Business Buildings Destroyed by Fire at 2 a. m.

Fire at Hinkley this morning destroyed all the buildings between the new theatre building at that place and the corner opposite the old village hall, including the Dixie repair shop, the Harsh harness store and the Engleman land company office—the old Swan place.

The fire started at about 2 o'clock this morning and, fanned by the south wind, swept rapidly to the corner and would doubtless have gone beyond but for the light rain.

O. J. Osered to Stop—Did Not—Was Shot Injured. Osered to stop as he followed as a witness in a northwesterly direction. Osered was placed at several of the bridges in the southern part of the county in the hope of intercepting the run men.

Martin Valdemar Johnson, who lives near Spectacle Lake, was returning home Monday evening about 9 o'clock in his Ford. As he crossed the West Point bridge over the Run River he was ordered to halt by the eight guards posted there. Johnson failed to obey and the guards fired, a bullet entering his back under the right shoulder blade and passing through the body.

The car ran a few rods and stopped. When the guard rushed to Johnson was found leaning back in the seat, mortally wounded. He was taken at once to the Brahmin Hospital but passed away from loss of blood before he could be placed on the operating table. The bullet had punctured the lung and broken three ribs.

Albert Pratt was delegated by Co. Atty Goodwin to take such evidence as he could, and accompanied by Coroner Wilfred Olson of Isanti arrived in Brahmin at about ten o'clock on Monday. E. Callender summoned a coroner's jury, and all possible evidence was gathered here. The jury reassembled at Cambridge at 2 o'clock where the eight guards were questioned. The verdict reached was that "deceased came to his death from a bullet fired by one of the guards posted at the West Point bridge."

Those serving on the jury were Severus Mattson and Axel J. A. Monson, J. M. Nordell, F. C. Falk and Ed O. Johnson.

The remains of the unfortunate young man were prepared for burial at the Anderson undertaking rooms and sent to Cambridge Tuesday afternoon. Deceased was 27 years old and about 23 years of age. He operated a rental farm and had resided in Spring Vale town about two years.—Beroun Journal.

The Old Story of Kerouane and Fire Prof. H. O. Williams, principal of Selma Consolidated School, was "er'ly" buried Wednesday morning by the explosion of a gallon-can of kerosene while kindling a fire in the kitchen stove. The explosion was heard by neighbors a block away. He made his escape by the blazing furnace, but was so badly burned that his recovery is scarcely possible. His wife learned from the window in an adjoining room and escaped with minor injuries. The house which belonged to Tom McGrath and contents were entirely consumed, the loss being about a thousand dollars. The young man recently returned from France with a fine record of eighteen months' service with the army. Dr. Ehmske of this place attended the injured man and sent him to the hospital at Duluth. Later word was received that Mr. Williams was on the train before the bridge bridge—Farmer, Willow River.

Banks Gaore is Talk Here

Movements Started for New National and State Banks

The banking situation in Pine City seems to be an "open question" just now. Everybody is talking about it and it seems to grow just where it is at.

Some two months ago an application was sent to Washington for the right to secure a charter to organize a \$50,000 national bank at this place. Careful investigation of the men who made the application and of the local banking situation was made by the national bank department and the application was finally granted. The sponsors of this movement have been at work for a week or more securing the names of men in and out of town who would take stock in this concern.

They say that their plan has been to spread the stock as much as possible among all classes, leaving the control in no particular hands. The last week a movement has sprung up to organize a new state bank if one of those already in operation cannot be purchased. Strictly Farmers' bank in which the stock should all be owned by men owning farms. Several of our most substantial farmers are pushing this movement and the stock is rapidly being subscribed for in small blocks so that it will be well spread out among the people.

There are various reports about banks being organized and being sold but the above is as far as the Pine Piker has been able to trace any of them at this time. Another couple of weeks or so will likely clear the atmosphere all around.

Whatever is done, the sole hope of everyone not vitally interested in any of the propositions is one of fairness to others and the best interests of the community—out of town and in.

Banks—good banks—may be a tremendous advantage to develop here if they are wisely used. A bank's first obligation is to its depositors, but it also owes something to the public—that is, in the reasons for state licensing of banks.

Co. Teachers' Patin for Higher Sal. The country school teachers, who were in attendance at the county teachers' institute at Hinkley last week, have a grievance, but they did not form a union and go on strike for bigger wages—but they did get out a signed petition asking that larger figures be put on their pay checks. Nearly every county in the state is short of rural school teachers at the present time and how to get enough instructors for the schools is a big problem.

Teaching is undoubtedly one of the poorest paid professions in the present time, and the schools all over the country are confronted with the problem of either paying higher wages or going without a teacher. At the wage the average country teacher is now receiving, he cannot save up as much during the year as she could by working in the city as a domestic servant.

The question for the two jobs are much different, and the wages should vary accordingly. A general meeting of all school boards and teachers is expected to be arranged soon, with the actual wages will be thoroughly discussed and perhaps some action taken.—Sandstone Courier.

Mrs. Malinda R. Webster Mrs. Malinda R. Webster, maiden name Estey, whose death was noted in The Pine Piker last week, was born April 4, 1846, at Leaf River, Ill., and was married, April 2, 1864, to Watson F. Webster then a member of the Illinois infantry in the Civil war. Of this marriage two children were born, one passing away in 1885 at Clarinda, Ia., where the family home had been located for many years and where Mr. Webster died in 1882, being at that time a member of the state legislature and president of the local bank. In 1885 Mrs. Webster came to Pine City and since then made her home with her daughter, Mrs. Fred A. Hodge here. About a year ago she went to Battle Creek, Mich., and later to Rochester for an operation, shortly following which she was confined to her room and her condition was gradually grown worse, to the end Mrs. Webster was a kindly, liberal, thoughtful and upright woman and will be long remembered by those who knew her with deep affection which she was characterized by.

Want the Bridge Over Creek at North-end of Pokegama Lake Repaired

A well attended meeting of farmers from the north and west sides of Pokegama lake as far as Henriette was held at the P. W. McAllen farm on the west side of the lake last evening to enter a protest against the condition of the bridge over Pokegama creek at the north end of the lake and to urge the county commissioners to improve their crisis for piers this winter and do the concrete work after frost goes out in the spring.

The request of the farmers, as we understand it, is to have railings put on the bridge, the floor repaired so as to be safe and the approaches filled in a little so that it can be gotten onto without a jump.

After a week's visit at the home of his parents, Mr. and Mrs. Gilbert Errede left, last Saturday, county commissioners to improve their future home, he having purchased a cafe there.

Bonus Payments Will Begin Soon

Paying of state bonuses at \$15 a month for military service may begin as early as October 20, according to an official statement made after the bonus board yesterday voted to offer an immediate loan of \$50,000 of bonds for that purpose.

Mrs. Thos. Hamilton left, last Saturday, for the McGrath camp where he is attending to the duties of Bush City and Harris, expecting to be gone until spring. He is leaving a large number of his wife.

Paul Perkins began work this morning on the excavating for his fire proof garage which will run from 4th street to the Federal road—back 90 feet and connect with the two buildings fronting on 5th street, giving him a 50 foot frontage on both. He will cut off some 20 feet from the rear of the old buildings and hope to have the basement completely done so by Jan. 1 and completed by May 1 according to Mr. Robinson's hopes.

The office and main show room will be on the 6th street front of the building. This will be one of the good buildings of the town and a great addition every way.

The J. M. Gray place at the south end of Cross lake—the old John D. Wilcox place—has been sold to Ed Hildebrand and who has already begun moving in and will take full possession on Nov. 1 when they will move into the old place. They have purchased the old Cole property which they will occupy about Nov. 1. This latter deal forced Fred Jordan to face the alternative of buying a home or moving his family back to Stillwater and he purchased Mrs. Dunning's home for a \$2,850 consideration. And now Manager Roehon of the Telephone exchange, who has occupied the Dunning house, is wondering where he will move when the ist comes round. He is unable to find a place for a home and unless some housing arrangements can be made Pine City may lose some families in every way.

Fern W. C. McEachern arrived, Monday, to spend a week at the home of his sister and brother, Mrs. Howard Polson and his S. McEachern, coming direct from Washington, D. C., where he has been in the Walter Reed hospital for operations and treatment of a foot injured while the first American troops were hurrying to the front on French soil. Besides these wounds received in France the young man carries scars received while serving with the Illinois volunteers on the Mexican border when he was in his teens and a freshman in the Idaho state university. He is now on his way back home to Cour D'Alene, Ida., where he will take up and finish his college work taken into when the McEachern family began about four years ago.

Mrs. Thos. Hamilton left, last Saturday, for the McGrath camp where he is attending to the duties of Bush City and Harris, expecting to be gone until spring. He is leaving a large number of his wife.

bridge put in as soon as possible. A committee consisting of Herman Teich, Henry Hemple, Paul Dorow and P. W. McAllen was appointed to handle the matter and to have the Pokegama town board meet with the commissioners when they meet on Oct. 28. County Agent Starry informs The Pine Piker that when the contract was let it was to have been completed by Nov. 1 of this year and that the contractors have been promising right along to get it at it until it has now gotten so late that it cannot be completed before freezing. Now they say they will sink their crisis for piers this winter and do the concrete work after frost goes out in the spring. The request of the farmers, as we understand it, is to have railings put on the bridge, the floor repaired so as to be safe and the approaches filled in a little so that it can be gotten onto without a jump.

PINE COUNTY FARM NEWS

Including Matter Furnished by Pine County Farm Bureau, This Department of The Pine County Farmer is Directed to the Farmers of Pine County. Give us the Farm News for It.

County Corn Show at Pine City
Arrangements are being made for the first county corn show, which will be held at Pine City, early in December. Dates and announced later.

The objects of this show will be to stimulate corn growing as adapted to our soil and climate conditions, for the purpose of furnishing better live stock rations.

Live stock is the backbone of Pine county agriculture—horses and potatoes are our chief sources of income—and well balanced rations, all home grown as far as possible, are the greatest need for increased profits from our live stock.

These topics will be taken up at the corn show with reference to their bearing on good selection and improvement.

Plan to exhibit some of your corn. Let's make this a routine, good show and institute for the advancement of agriculture. All the next year have selected should be carefully dried and cured in a well ventilated shed.

County Potato Show at Hinckley
The second county potato show ever held in Pine county will be held at Hinckley, next week Saturday, October 18. County Agent Cooper started the movement at the request of many farmers who are important enough over the county to have a big show of their own, just as corn has its show.

Some of the best known potato authorities in the northwest will act as judges and recipients of the form of ribbons will be awarded on the following varieties: Green Mainstays (varieties No. 14, white, blue, yellow, and red), Green Mainstay No. 3, purple blonnet, Blue (Duchess), Irish Cobler and Bismarck.

The circulars are being sent to the farmers of the county to stimulate the improvement of their own potato crop and concludes that they will be a hot contest among them to see who can produce the best and most profitable crop.

In the selection of samples, farmers are advised to select the best tubers as they lay in the field, if possible, or in the pits if necessary. Handle them very carefully so as to avoid bruising, bruising and finally send them to one peak, to be exhibited. The form of size and arrangement as does the freedom from disease and bruises.

There will be no charge for admission. If you wish to exhibit, pack it carefully and send them by parcel post or otherwise to the county agent at Hinckley. Exhibits, in connection with the show, must be on the table not later than 10 a. m., October 18, mailed or expressed they will reach Hinckley by noon on Oct. 17.

All the farmers in the county are not in a position to exhibit at the show but it is the intention of The Pine County Farm Bureau that Pine county should afford to exhibit the show, meaning that in being done in the potato line in the county and leaving something to himself from the exhibit and benefits on what the farmer has to do potatoes are and how best to raise them. No farmer in Pine county can know too much about potatoes.

Wine Farmer Believes in Stillage

A well known and very successful Pine county farmer, who told The Pine County Farmer the other day "I believe in stillage because I put in my work until I find that I am wrong. Then I want to show as quickly as possible." And I feel like yelling "amen!" That is always the policy that makes a man contented and happy. King (Patented success). The man who adopts the policy this year and another year next never gets more than the farm or in the White House.

Transport Cattle by Train

W. W. Mead of Hinckley was a visitor at the home of his brother, George B. Mead of Pine City, a couple of weeks ago. He has been attending the P. E. C. Convention at Lake Shoreline at Lake Itasca, where W. W. purchased two cars and five D. cars, all of which were brought to the latter's farm near Pine City, on Friday of last week.

On this occasion, each train was very busy. The evening train to St. Paul was loaded with four loads of cattle, and the morning train to Pine City was loaded with four loads of cattle.

Evening Commencement Defeated

The Pine County Normal school, which was to have its evening commencement on Friday of last week, was defeated by the Pine County Normal school, which was to have its evening commencement on Friday of last week.

The all winter days and the long winter nights are coming and every one will have plenty of time. Let's get busy now in making the department most interesting and worth while.

These topics will be taken up at the corn show with reference to their bearing on good selection and improvement.

"If It Comes From"

(continued from second page)
FARM DEPARTMENT
 had an experience during fire Wednesday, that is an object lesson on the danger in starting fires and the need of watching in dry weather. Some brush was being burned on some land they are clearing south of town when the wind came up and carried sparks into some peat land that had been dried and that on Sept. 2nd at eight o'clock, for was soon here in many places

Strenuous, all-day fighting and hauling of water by team and auto alone saved the meadow. A visit to the place in the evening showed fires again starting up in several places and again in the same brush was being discovered.
Bruno School Board Proceedings
 Report of special meeting called on Sept. 2nd at eight o'clock, for the purpose of electing a trustee for one year.
 The following nominees were voted upon: F. M. Rodenberger, L. M. Darling, John Stafford, Earle Houey.
 Mr. Rodenberger receiving a majority vote was declared elected.
 Evelyn Churchill, clerk.
 Report of regular board meeting of school Dist. 54 held at the school house on Sept. 2nd. All members

present. After Mr. Rodenberger had taken the oath of office, the report of the last meeting was read and approved.
 The following bills were allowed: Power and Lighting Co. \$1.00, Benson-Hanson Lbr. Co. \$4.79, State Bank of Bruno \$12.00, Bert Rose for stationery \$30.
 A bill from Ginn and Co. for books amounting to \$7.99 was laid on the table.
 It was voted unanimously to pay a tax of \$9,110.00 for the coming year.
 It was moved and carried to purchase a typewriter for the use of the Supt. Mr. Lingen and Mr. Cuts were appointed to arrange for purchase of same.
 Moved and carried that Mr. Rose and Mr. Ball act as a committee to find a boarding place in town for children living too far out to be transported.
 Moved to adjourn—Evelyn Churchill, clerk.
 There has been some talk of having a skating rink here this winter and of possibly holding a New Year's carnival. This will sure meet with the approval of the young folks as there are lots of skaters in this community that will enjoy a little outdoor sport of this kind.

You'll Find Me at Home
 Invites Everybody to Come and See What Tanlac Has Done
 "Well, sir, I've spent hundreds of dollars and tried all kinds of medicines and treatments, but Tanlac has brought me more real relief than everything else I've tried in the past thirty years all put together," declared Thomas J. Perry, of the Johnson Service Company, who lives at 680 Thirty-second st., Milwaukee, a few days ago.
 "I guess I've had almost always suffering," he continued, "for thirty years I have hardly ever been free from a dull ache across my back. It got so bad that when I would bend over I couldn't straighten up again without almost fainting from pain, and many times I've been laid up in bed hardly able to turn over. Often I would wake up in the night with this cutting pain across my back and just twist and squirm trying to get in some position that would be easy and in the mornings I would be so crippled up I could hardly dress myself. Towards night I would almost always be seized with awful cramps in my legs and it felt like my muscles were tied in knots. These would last five or ten minutes and then came back later and, I tell you the pain was terrible. The doctors said my kidneys were all out of order, but medicines of all kinds and even rubbing treatments didn't seem to do me any good at all.
 "I was just about disgusted with it all when I began reading about people here getting such wonderful results from Tanlac and decided to give it a trial. That was the wisest thing I ever did, for Tanlac began to help me right from the start. It's the honest truth I've had only one touch of that in my back and one slight cramp in my legs since that day I began taking it. I am improved all over as a result of taking this medicine and if anybody doubts what Tanlac has done for me you'll find me right here at home and you can see for yourself that it's made a new man of me out and so."
 Tanlac is sold in Pine City by E. J. Prochaska.—adv.

 Tanlac is sold in Pine City by E. J. Prochaska.—adv.

No Sugar Shortage
 There is no national sugar shortage imminent in the United States, and in no year since the beginning of the war has there been a country-wide shortage, it is declared by Commerce Monthly, issued in New York. The article continues:
 "A study of the facts shows that what regional shortages did occur were due to maladjustment in distribution. Next year no excess of consumption is likely. Present prospects indicate that the supply will be normal.
 The United States consumes more sugar than any other country, but ranks only fifth in the world's production.
 The United States consumed an annual average of 3,787,000 tons of sugar before the war, but produced over one-fifth of the world's total production. Of this amount we produce only 882,000 tons or 23 per cent.
 "Cuba now leads the world in sugar production. Before the war the British Indian and Cuban sugar crops ranked first and second respectively, the Cuban crop being only third."

Yellowstone Park Grows
 Yellowstone national park is expected to grow 125 square miles larger as soon as the present congress reaches a bill negotiated by the last session. The proposed extension, 30 miles to the south of the established boundary, as described in Popular Mechanics magazine, takes in Jackson Lake and the wonderful mountain scenery about it, part of the famous Jackson's Hole country.
 Besides providing the only variety of scenic beauty now lacking in the park, the addition includes the summer grazing ground of America's last herd of elk, and some of the finest trout-fishing water in the country.
Fish Had Pale Teeth
 A fish weighing five pounds was hooked in the Gair of Mexico, near Indian Rocks, Fla., by A. L. Anderson, an Independence.
 Judge Anderson was invited to go in a boat with H. H. Ingersoll, a well known resident of Indian Rocks. During the day they brought up a specimen of the "well tooth" or burdock fish.
 As the hook was pulled out it brought with it a front plate with four fangs, teeth attached to a gold bridge.
 Later it was learned by the attached fishermen that a few days before a visitor from Glasgow, a scowyer

Encouraging Bolshevism

Everything that falsely encourages unrest also encourages bolshevism.

Misunderstanding of American industrial organization, and of its benefits to mankind, leads to unrest, dissatisfaction, and radicalism.

For example, the Federal Trade Commission tells the public that the large packers had an agreed price for lard substitute (made of cotton-seed oil).

It reproduces letters taken from the files of one of the packers, showing that such agreed price existed.

But it failed to mention that the agreed price was determined at the request of and in co-operation with the Food Administration!

Even the Department of Justice, in its unjust attempt to create prejudice against the packers, has made public these same letters, with no explanation.

How long must this kind of misrepresentation continue? In so far as it is believed, it not only breeds discontent, but results in injustice to our industry.

Let us send you a "Swift Dollar." It will interest you.

A PINE CITY INTERVIEW

The following brief account of an interview with a Pine City woman of Mrs. Helen Tell. Her experience read with keen interest by every citizen:

Mrs. P. Holm says: "I suffered years ago, and its sequel, will be carefully from kidney and bladder complaint some three years ago, it was all run down and miserable, and my back ached and pained so much, I would have to scream. When I had been sitting down, I could hardly get up again. I had dizzy heads, and many times I fainted away because the trouble completely overpowered me. Don't's Kidney Pills soon cured me, and I can't say too much for them." (Statement given September 26, 1918).

Again Frances Dean's
On October 16, 1917, Mrs. Helen Tell said: "I have needed Dean's Kidney Pills only once since I recommended them in 1912. About a year ago I began to feel lame through the small of my back and had those terrible pains again. I used Dean's Kidney Pills, and they cured that at least just the same as they did the one I described in my statement of 1912."

Royalton Town News
Overser J. P. Mattson of the west part of town finished road work, the first of the week, grading the swamp between sections 29 and 30 and graveling the same between 19 and 20, spending thereon \$200 of the money from the county \$100,000 bond issue, at which work he was busy for about 10 days with three or four teams. Members of the Royalton Farmers Club contributed 10 days work of man and team on the job.

The meeting of the Farmers Club at Clint, Oct. 1, was productive of much fun and value too. In the debate as to the relative value of the horse and the cow Mrs. Edward Blum upheld the cause of the cow and Magnus Edholm boosted for the horse in good shape but against terrific odds, which he finally had to acknowledge. The question of whether to husk corn or turn it in with the silage in order to get the best value out of it was discussed, some contending it was of more value to the hogs. Whether anyone was convinced, either way, we do not know but we are reasonably sure that some were not. This is a mighty important question in Pine county however and more will be said regarding it in the Pine Piker this winter. We understand that a play is to be staged at the next meeting of the club. Alex W. Pangerl, son of Mr. and Mrs. Jos. Pangerl, and Miss Mary Youngbauer, daughter of Mrs. Adolph Sommer, were united in marriage in the presence of a number of relatives and friends in the Catholic church at Pine City at 8 o'clock Tuesday morning. They were accompanied to the altar by Miss Frances Pangerl and Wm. Pangerl, sister and brother of the groom, and by Miss Emma Youngbauer, sister of the bride and Bernice Jacobson of Superior. Following the ceremony a wedding breakfast was served at the home of the groom's parents, about 7 miles west of Pine City on the Brunswick road and the afternoon was spent in a happy celebration of the event by the newlyweds and their many friends at the Maple Grove pavilion. Mr. and Mrs. Pangerl will remain at the home of his parents for a time though they expect later to go elsewhere to make their home, possibly to Luverne where Mr. Pangerl has been employed at carpentering. They enjoy the best wishes of many friends throughout this region.

Wm. Gross is suffering a sprained left ankle which resulted from trying to board Otto Pangerl's car while it was in motion, north of Greeley last Sunday evening. Jos. M. Pangerl lost a good share of his threshing crew, a week ago, when Herman Youngbauer, who has been the strong-man on the job all the fall quit to take care of work at home.

The front wheels of Jos. M. Pangerl's big threshing engine went through the small bridge near Wm. Dagner's just over the line into Chicago county, Monday, dropping about 3 1/2 feet. After getting it out, the outfit proceeded to the Danewood region and will work west from there, finishing this week. They have threshed about 125 jobs this fall, covering most of Royalton town and verging just over the east and south lines. Wheat has run 7 to 20 bushels per acre, averaging about 12 bu., oats went 30 to 40 bushels and rye 20 to 30. Wheat went better in the Danewood region, this year, than other parts of the town—doubtless due to their getting local rains when needed. The Pangerl outfit has given even better satisfaction than ever, this year, with its ree separator—and that saving a lot for Joe has always been a popular thresherman in this region.

Andrew Jensen is raising the roof of his barn and otherwise remodeling and adding to it.

A boy was born at the Edwin Swanson home, recently.

Henry Studt has the basement nearly completed for the new home which he will build this fall on his farm, just west of the old house, hoping to have it completed by about Christmas time, we understand. The building will be about 26x30, two stories, fully modern with a full concrete basement and brick veneered—a house in which Henry and his good wife can enjoy to the full the balance of their days, which their friends hope may be many. Herman Studt moved last Thursday to the old John Swenberg place, 2 1/2 miles northwest of Greeley, which he purchased from Leo Wallingote who moved back to Duluth the same day, still owning the place two years, this giving Herman 120 acres as he already had an 80 adjoining.

After Mr. Studt's new house is completed and he moves into it, George will continue to occupy the old one.

The Miles E. Brown place, seven miles west of town, and the E. R. Duxbury place occupied by Oscar Perikson were sold yesterday to Wayne Kover and Alex Dam of Tipton, Ia., who will have possession about March 1. So far as we know neither Mr. Brown's nor Mr. Perikson's plans for the future are settled.

Polkama Town News
Henry Hemple brought his daughter, Ella, home from Pine City, Friday. Miss Hemple has been attending school there, taking up eighth grade work, but had to discontinue her studies on account of poor health and it is probable she will be unable to return to school.

Miss Mae Norstrom of Harris, spent the week end with her folks here.

F. M. Mellegrens of St. Paul visited at the Perikson home over Sunday.

About 300 people attended the football and Merry meeting, last Thursday, record price being paid.

A Masterful Picturization of Harold Bell Wright's Famous American Novel The SHEPHERD of the HILLS

A love romance tremendous in its appeal. Tinged with mystery and whimsical fancy, with all the beauties of the Ozarks for its glorious background.

An Unprecedented Tribute to The Screen

All records in the history of motion pictures have been shattered by the sensational success of

"The Shepard of the Hills"

D. RANDABAUGH, Owner

N. Perkins, Clerk
W. H. Barnick, Auctioneer

The Novak home was the scene of a surprise party, last Saturday evening, for the Martins. A large crowd were in attendance, each family bringing a surprise box to be opened by the Martins on their way to Terrehaute, Ind. They left, Tuesday morning, Miss Isabelle O'Daniel accompanied Miss Ethel Star of Pine town, Friday, visiting at her home until Monday.

American Legion Eldest Officers
The armory was filled Monday evening with a large and enthusiastic crowd of service men, when the Leon Heath Post of the American Legion was called to order. Thirty-eight new members were reported bringing the total membership of the post up to 74. The initiation fee was set at \$1 and the dues at \$1 per year. G. N. Turner Post commander, Dr. Callahan of Polkama lake vice commander, Wm. Challen secretary, H. Allgood of Rock Creek treasurer, and those elected to the executive committee being: Everett Akin Rock Creek, Ray Nelson Brunswick road, Clark Pennington, Axel Holmstrom Polkama, Otto Hoag St. Croix road, Frank Sole Meadow Lawn. The next meeting will be held Monday evening, October 30.

Once a Frame Shanty

—now a beautiful stucco residence
Look at this new and attractive bungalow! You wouldn't believe that it was once an old weather-worn wooden house — beyond the hope of the owner!

It was covered with *Kragstone Stucco*. Now it is one of the most beautiful homes in the community — distinctive, fireproof and permanent.

If your building needs remodeling — if it is constructed of wood, brick or concrete, let us tell you how we can make a BETTER THAN NEW at very small cost!

Bring Your Eggs to the BIG EGG CARNIVAL

We will pay you 1 cent a dozen more than market price.
Here is an extraordinary offer to Hustle The Hen.

We will pay \$1.00 each for 12 eggs \$12.00
We will pay 50c each for 12 eggs \$ 6.00
We will pay 25c each for 12 eggs \$ 3.00

We are going to give some one \$12.00 for a dozen eggs, another \$6.00 for a dozen eggs, and somebody else \$3.00 for a dozen eggs. All this cash money in addition to the regular price of the eggs.

Here is The Plan

Beginning Saturday, October 11th each dozen eggs brought in will be numbered, the first dozen brought in is number 1, and so on down the line.

For every dozen brought in you get a ticket with a number corresponding to each dozen of your eggs. These on the day this sale is finished we will give away in cash \$12.00 for one dozen, \$6.00 for another dozen and \$3.00 for another.

This cash contribution is purely complimentary and doesn't cost you a cent. SO BRING IN YOUR EGGS. We will pay one cent a dozen more than market price, at the same time getting the benefit of our sensational selling out prices.

Don't Forget. We pay 1 cent a dozen more than market price for all eggs brought in during this sale. All eggs taken same as cash.

Look! Here is the globe spread out flat before your eyes. See those stars? Every star shows where a U. S. Navy ship was on September 2nd, 1919. The Navy travels the Seven Seas.

Don't you want to see the World?

ROMANCE is calling to you! Strange and smiling foreign lands are beckoning to you. Shove off and see the world!

Learn to "perley-woo" in gay Paree. See the bull-fights in Panama. See surf-riding on the beach of Waikiki.

Learn the lure that comes with the swish and swirl of the good salt sea. Eat well—free; dress well—free; sleep clean—free; and look 'em all straight in the eye—British, French, Chinese, Japanese, Spaniards, Egyptians, Algerians and all manner of people.

Come! Be a real man of the world. See the world. See it with

the red-blooded, hard-working, hard-playing men of the U. S. Navy.

Pay begins the day you join. On board ship a man is always learning. Trade schools develop skill, industry and business ability. Thirty days care-free holiday each year with full pay. The food is good. First uniform outfit is furnished free. Promotion is unlimited for men of brains. You can enlist for two years—and come out broader, stronger and abler.

Shove off—join the U. S. Navy. If you're between 17 and 25 go to the nearest recruiting station for all the details. If you don't know where it is ask your postmaster.

Shove off! Join the U. S. Navy

Rock Creek News

Mr. and Mrs. Plummer of Foley were guests at the home of her parents the John Behrendts, southwest of town, Tuesday, when the day was spent by a good gathering of relatives and friends in celebrating their marriage at Foley the day previous. She was Miss Lena Behrendt and went to Foley a few months ago to keep house for her brother. The marriage was celebrated at 10 a. m., Monday, in the Catholic church at Foley and many friends of the bride in this region extend their good wishes.

Rev. Mattin, the new pastor of the Elm Baptist church southeast of here and the Baptist church north of Greeley, arrived last Thursday from Iowa, having been delayed for a couple of weeks in his coming. He found his goods, all moved into the parsonage and everything nicely arranged for his coming. First services were held last Sunday.

Clarence Allgood and family arrived from Saco, Me., last week and are visiting at the homes of his brother, Fred, and his aunt, Mrs. Morrow. Later he expects to go to Iowa to hulk corn.

Homer Healey came back from Iowa, Monday, after another car of goods.

A galvanized iron "lean to" is being erected on the south side of the Brecklund garage, south of the bank, by Ed Anderson to house the new fire engine.

Mrs. John Walton and Mrs. Walter Landels of Minneapolis are spending a couple of weeks at the home of the former's sister, Mrs. Alex Tate, expecting to return home Sunday.

Miss Anna Soderlund returned to Minneapolis, last Thursday, after a few days' visit at the Morrow home, being accompanied down by Miss Neta Morrow who returned the following day.

The dance given in Johnson's hall, last Saturday evening, drew a good crowd and gave all the dancers a first rate time.

One of the strangest freak potatoes is being shown at our bank, composed of 3 large and a dozen smaller spuds—all hitched together and weighing 2 lbs. 6 oz.

Ed Anderson has sold kitchen ranges to Andrew Bornhoft, John Shoberg and Mrs. Bloomquist. Have you seen the kind he sells? Read his ad on this page.

The Rock Creek ladies aid will be entertained at the home of Mrs. Israel Erickson, east of town, tomorrow—Friday—afternoon, when we understand officers will be elected for the coming year.

John Nerlund drove over, Tuesday, from Cambridge, whether he moved last spring, to visit old friends for a few hours.

Chris and Andrew Bornhoft left, Monday, for Kerick where they will build on their land and spend the winter—possibly remaining permanently.

A boy was born at the Victor Whitland home, 6 miles southeast of town, Tuesday morning. Kenneth Merritt, 4 years old, climbed 30 feet to the top of the Morrow silo, last week, and dropped through the opening about 5 feet to the silage where he was severely copped up for some time, until he was rescued by the farmer, who had quite a time locating his child.

Wm. Miller disposed of the live stock on his farm, Tuesday, to Mr. Basse, who has purchased them, East from Superior, Ia.

Mr. Miller left at once for Iowa for more land buyers.

Chas. Merritt returned home last Saturday from Superior, Ia., where he went a couple of weeks ago with two carloads of his potatoes on which he netted a tidy sum above our market after paying expenses. J. C. Smith left, Monday for Storey City, Ia., with a car load of potatoes which he will sell there.

The Elmer Bohleens and Lee Skellies were at Lindstrom last week Tuesday to attend the marriage of their sister, Miss Esther Bohleens to Mr. Anderson. They expect to make their home at Floodwood. Mrs. Anderson has many friends in this region who join in best wishes to the newlyweds.

Pine Town News

Ben Bjork has sold his farm and will move to town to live. Eric Sandberg has also sold his place. Mrs. S. O. Brekke left, yesterday, for Minneapolis to spend a couple of days with her daughters after which she goes on to Bertrum to visit other relatives, expecting to be gone about a week.

Aug. Spierling returned, the first of the week, with his threshing outfit from the Rush City and Rock Creek regions and will spend about 10 days finishing up in this region before putting his outfit up for the season. Heaver Bros. have also about finished their season's work and, we understand, will lay up the latter part of this week.

Send what Pine town news you know in to The Pine Piker. All Pine town folks take The Piker. Let's boost for Pine town.

Owing to the removal of gravel from the road side of what is known as the "Hay" road in the west part of town, leaving holes and making it dangerous, Chairman Hines publishes a notice elsewhere in this issue which warns against removing gravel or dirt from any roadways in the town without the permission of the town board. It is a reasonable and right notice.

At the town board meeting, a week ago, Clerk Ottegard was instructed to notify all owners in the town to go over all town machinery in their districts and to report on amount and condition of same to the board, also to haul road machinery and tools in their districts to the town hall before Nov. 15, 1919. Several bills were also passed, amounting to \$734.50.

Read the ads in The Pine Piker, they will surely save you money on what you want to buy.

PUBLIC AUCTION

Having sold my farm, will offer for sale on the place, 4 miles southeast of Pine City and 4 miles northeast of Rock Creek, east of the Pine Grove church, on

THURSDAY, OCTOBER 16

beginning at 10:30 a. m. sharp

Cows

2 black and white, grade Holsteins, coming fresh about Dec 1st; 3 Grade Holsteins, recently fresh; 1 Grade Holsteins, fresh about Jan. 1; 1 red cow, fresh about Feb. 15; 1 Grade Hol-

stein, fresh about May 1; 5 Grade Holstein heifers, 2 1-2 years old, all fresh from Jan 1 to May 1; 2 yearling red heifers, 1 black heifer, 6 months old.

Horses

7 years old, weight about 1400; horse, 12 years old, weight about 1300

12 foot extension table, also of lots other household articles

And man other articles too numerous to mention
FREE LUNCH SERVED AT NOON
Terms: All sums of \$10.00 and under cash. On sums over \$10.00, 1 year time will be given on good bankable paper, with interest at 6 per cent.

U. S. Sub Beats Germany's Best

American Boat Speedier, Has Greater Radius and is More Habitable.

RESULT OF RECENT TESTS

Direct Comparison is Made With Submarine of Latest German Type—Good Accommodation for Officers and Crew.

Washington—Elaborate tests carried on by the navy department, the results of which were announced by Acting Secretary Franklin Roosevelt, show that the latest type of American submarine is superior in speed, every respect to the German U-boat.

The American boat is speedier, has a greater radius of action and is much more habitable than the German boats. Naval officers are of the opinion that the American submarine is the more seaworthy, of the characteristics of the two types the navy department says in an authorized statement:

"Now and interesting light is thrown on the efficiency of the German submarines by recent tests conducted by the navy department in the bay of New York. An opportunity recently developed in this country which permitted a direct comparison between a late design of German submarine and the latest design of American submarine. While details of the comparative tests cannot be given, sufficient information is available to destroy the much advertised superiority of the German submarine.

Given Special Trials. As is well known, the German submarines of the latest design were brought to the United States for use in the Victory loan campaign. Four of these boats came over under their own power, manned by officers and men of the United States navy. The propulsive machinery of the fifth was partially destroyed or removed so that it was necessary to tow the vessel across.

The best of these German boats was turned up for special trials. It was reported ready for these trials a special board was designated to conduct the trials, following the established practice in carrying out contract trials for submarines of the United States navy.

The boats compared were the German submarine U-111, built at the Germania yard, Kiel, Germany (completed in 1918), and S-3, a submarine designed by the navy department, S-3 was built at the Portsmouth yard and was commissioned in 1918.

"These boats both belong to the 900-ton class, U-111 having a surface displacement of 830 tons and S-3 a surface displacement of 854 tons. In the trials the maximum surface speed of the U-111 was 15.8 knots, while the S-3 made 17.4 knots. The submerged speed of the U-111 was 7.5 knots, while S-3 made 12.4—a remarkable difference in favor of S-3. The radius of action of the two boats is also in favor of S-3, despite the fact that fuel that was created by the advent of the German U-boat on American coasts during the war.

U-111 can cruise 8,500 miles at 3 knots, while S-3 can cover 10,000 miles at 11 knots. The submerged cruising radius shows an equal preponderance in favor of S-3. Both boats can carry 12 torpedoes. U-111 mounts two 21-inch guns, one forward and one aft. S-3 mounts one 4-inch gun forward, this practice of one gun on a submarine being standard practice in the United States navy.

American Boat More Habitable. "It is necessary to really live in these vessels to appreciate the radical difference in their habitability, a vital military characteristic, for a submarine is no better than its crew. U-111 is considered to be the last design of its kind completed in the extreme by the installation of many 'gadgets' some of which are of doubtful utility and many of doubtful necessity. Accessibility to key equipment is very difficult; frequently it is necessary

New York Educator, 99, Saws Wood as Daily Task.

New York—Professor Stephen J. Sedgewick, of Calhoun road, Blauvelt, L. I., celebrated his ninety-ninth birthday. For more than half a century he has been a resident of the old town of Newtow. He attributes his excellent health to a love of athletics in his youth.

Mr. Sedgewick was born in Geneva, N. Y., August 30, 1833. When a young man he came to New York City and engaged in teaching. Many years ago he qualified as a land surveyor and accompanied the engineer corps of the Union Pacific railroad when the rails of that road were being laid through the mountains. At present he is working on an elaborate genealogy of the Sedgewick family and illustrating it with wood. One of his daily tasks is sawing wood, and this, together with gardening work, fills up a large part of his time.

to take down three installations to overhaul one. "On the contrary, S-3 is a habitable living proposition, comparatively 'rooms' with reasonable accommodations for officers and crew. Her equipment is accessible and her general habitability is vastly superior to the U-111.

Much has been written of the seaworthiness of the German U-boat. An opportunity to compare the seagoing capabilities of the two vessels occurred during these tests. The general consensus of opinion among the officers conducting the trial is that the S-3 was the more seaworthy vessel. Her decks are drier, her bridge less subject to green seas and her general behavior in a seaway superior.

"Referring to the comparative life

SETS EXAMPLE TO MAIMED

Sergt. Allan M. Nichols, Second Durham light infantry, who lost both eyes and hands and received other terrible injuries when a defective bomb exploded September 4, 1918, has learned to use artificial hands and to operate a specially constructed machine at St. Dunstan's hospital, London.

Solder is carried in wire or strip form through a new soldering iron, the point of which is heated by electricity. It is used by the contractor as required at the point of its use.

Find Child After a Year

New Jersey Wealthy Bachelor is the Victim of Quer Cur. circumstances.

Poughkeepsie, N. Y.—Wilfred Hess, a bachelor and a wealthy contractor of Perth Amboy, N. J., went to Hope farm, near here, and obtained possession of his four-year-old adopted daughter Doris, having discovered her whereabouts after a search that extended over a year.

Mr. Hess adopted the child when she was two years old, but in 2018 he took several war contracts and was compelled to leave home. He turned the child over to the care of a friend who was away. This man's wife died, and as Mr. Hess could not be found, the widow was compelled to give the child to another family.

Prize Pig Delivered to Rooie by Airplane.

Atlanta, Ga.—The cow that jumped over the moon had not much on the 76-pound pig delivered at LaGrange by Lieutenant McMillen and Wolfe, flyers in an airplane from Southern Field, America. The pig is the son of a distinguished pedigree family on the farm of Altes Harris, near Americus, and was awarded a prize to the lucky rookie who drew the right number after ending during July. A part of the arrangement was that the pig was to be delivered by airplane.

LATEST STYLES IN GOWNS AND HATS

From all signs this will be a decisive season in Paris in so far as fashion creation is concerned. The designers seem to have taken on their old accustomed attitude. They have turned their efforts unreservedly to leadership in the world of style.

To add to this in this crucial moment they are arriving from the United States, from South America, and from England hosts of buyers and fashion experts to watch the latest developments. This is almost a new experience. At least it is a revived experience, for through the last five years the most favored of buyers have been allowed to cross the water and only a few of the dressmakers have kept up their work with anything like the vigor.

American women during the war have developed a style all their own. They are dressing now as suits the climate and their life and their pursuits, which are quite different from the French woman's. And one symptom of the change is that they are no longer whether their clients at home will refuse to accept the wonderful things brought over from France. If their

than anything America has ever worn or even dreamed about. You hear it said that the Parisians are wearing their skirts very long, but when you see them with their skirts actually extending just below their knees, so that when their arms are raised the skirt pulls above the knee, you know what a short skirt really is. It is easy on looking and is extremely good material when the figure of the wearer can stand the strain. The skirts are tight, too, but what matters that when their length is what it is? No trouble about taking a good long step in a dress of this character. Then the coats, when it is a suit, reach almost to the bottom of the skirts, leaving, in fact, only about two or three inches of the skirt to be seen. The coats are either strictly tailored or they show a little fullness about the hips. That tells a story of forthcoming fullness of even greater volume.

It is so with the dresses. Always there is a slight gathering of extra material where the hips join the waist. It is the panner that is pleasing us on the broad highway of fashion, as yet it is not large enough nor far enough to be alarming, though there are rumors of hoops about the hips and even about the waists of the skirts.

Sleeves Are Scarce. The sleeves now in vogue can hardly be called sleeves. They actually are just a little strip of material over the top of the shoulder. In most instances that is all, and the Parisians wear them fearfully for morning and afternoon. In the evening there is no sign to be seen of sleeves.

Even the blouses for wear with tailored suits are scantily equipped as to sleeves. They will be quite high at the neck, buttoning up under the chin most uncomfortably on a hot day, and then they will have these little, intricate sleevelets—that is, they are indeed, quite for anything except setting off a good-looking arm.

Well, the tendency is all in the direction of the skirts that are shorter and shorter.

Favorite Color Combination.

Black and white is by all odds the favorite color combination at the French resorts at this time of the year. Black and white stripes, since early spring, have been very good for separate silk dresses and for suits, as well as for topcoats. Now the new woolly fabrics are appearing, and they show these stripes in wide and narrow arrangements.

There is the black gown with the white hat, that is the most effective. This season they are wearing over the white hat, which is most striking, a black, lace veil. This makes the costume even more effective. The veil does not necessarily cover the face—in fact, it rarely does—but its lace pattern is so distributed that the white showing through the black transparent pattern makes a trimming of its own.

DADDY'S EVENING FAIRY TALE

By Mary Graham Donner

TICK-TOCK TWINS.

"Hello twin Tick," and Tick and Tock answered, just as quickly as anything.

"Hello Tick." "They never got tired of talking to each other, Tick and Tock. They were the two clock twins as you may have guessed, but sometimes between their words to each other, sometimes between saying to each other "Tick" and "Tock," they talked.

Of course they would only say a few words at a time and those would be said so very quickly we could not understand them and anyway Tick and Tock only talk for each other.

They just speak to each other all day long, at the time goes on. And they don't stop at night, but as it would be very hard to understand their story without leaving out all the ticks and the tocks we will hear it with those left out.

Really it was like this. "Hello, Tick." "Hello Tock," and the "Hello" would be said so very quickly so no one else could hear it.

"Nice-Tick." "Nice-Tock." "Day-Tock," and so on and on, never forgetting the tick and the tock. "We're such happy twins," said Tick.

"Yes," said Tock, "and we never forsake each other. If one of us can't go, the other won't go on alone.

"Tick Tock."

There is never Tick without Tock following right on behind." "Ah, you're so loyal, Tock," said Tick.

"And so are you," said Tock. "There are many clock twins," said Tick.

"Many" agreed Tock. "Every clock has us," said Tick. "Every one," said Tock. "And if the clock stops, they stop too."

"Of course," said Tock. "One would never go without the other," said Tick. "Of course not," said Tock. "We're each always following the other," said Tock.

"I'm glad," said Tick. "I'm not a boy and you're not a girl. Then when we grow up to go to different schools and one of us would go into business and the other might marry and keep house. Dear me, it's much easier to be a clock twin. We'll never be separated."

"Listen," said Tock. "What?" asked Tick. "Do you hear the children, they are talking like we talk. Did you hear them say, Tick, Tock, Tick, Tock?"

"Yes, now I hear them." "We've just talked awfully politely, and tell them they've guessed our names correctly," said Tock.

"I'll do so," said Tick. So Tick and Tock said after the children, "Tick." "Tock."

They were trying to say those were their correct names, and they said their names over and over again so as to be sure the children heard and also because they could not stop as long as they were wound up!

"Some creatures," said Tick. "I wouldn't like to be wound up, and to keep going on and on and on."

"That's so," said Tock, "but then were the Clock Twins, we're not creatures." "So we like the ways we have, don't we?" said Tick.

"We do," said Tock. "We never raise our voices any loud, and they always are said 'Tick.' We're happy and we're on time for our home in the clock. Tick, Tock, were the Tick-Tock-Twins, Tick, Tock."

LOST IN FOG, BOYS HAVE CLOSE CALL

Nearly Drowned by Tide Off Maine Coast When Fishermen Rescue Them.

Chebeague, Me.—Dense fog nearly cost the lives of two young Chebeague island fishermen, sons of Augustus Dyer and Capt. John Griffin. The boys were out in a Hamilton boat, getting off Half-Way Rock, when they lost their bearings in the fog, and the first they knew their feet grated on a reef and immediately they were plunged into the ocean.

By good luck they gained a footing on the seaward, standing waist deep

Standing Waist Deep in a Rising Tide on the Slippery Growth.

in a rising tide on the slippery growth. The moments passed, each hour long to the anxious boys, who watched the tide rising against them, with every fresh roll of the sea. Miraculously the fog briefly lifted, and far away two fishermen, Elijah Ferris and Frank York, caught a glimpse of the stranded lads and went to their rescue—just in the nick of time.

Dyer and Griffin say they prefer any other perch to seaweed six miles from shore in a Maine fog with an incoming tide.

SHATTERS MORALE OF JAIL

Prisoner is Robbed of \$20 While Awaiting Arrangement in New York Court.

New York—While awaiting arraignment in the court of special sessions in the Bronx, Frank Fatagnone, driver, forty-seven, of 2320 Arthur avenue, the Bronx, was robbed of \$20 in the pen leading to the court room. Fatagnone was charged with failure to support two children who were city charges. The amount involved was \$14. An acquaintance visited him in the prison pen and gave him \$6.

When arraigned Fatagnone pleaded guilty with the idea of making a partial payment as evidence of good faith. When he reached for the money it was gone, and he cried out that he had been robbed in the court room. William Cullen, clerk of the court, quieted him and Justice Daniel P. Murphy, who was presiding, exclaimed: "The morale of the jail has gone to pieces; there are evidently some thieves around here."

Fatagnone was paroled and received time to make the payment for the support of his children.

Lightning wrecks House, but Family Is Unhurt

Hazleton, Pa.—During a severe storm lightning played an odd prank at the home of Leonard and Ferrarri of West Hazleton. A bolt entered the house, ripped off most of the plastering, smashed nearly all of the windows and brought out soot in such quantities from the chimney that it almost smothered the family, but Ferrarri, his wife and six children escaped without a scratch. Their bodies were covered with debris as they were awakened in bed.

SOW TORE BABY TO PIECES

Older Children Received Infant From Animal Too Late to Save Its Life.

Pratt, Ok.—A young boy, five years of age, of an infant brother, five years of age, of Mr. and Mrs. Fred Prebeck of this place, avails to find the three-month-old baby being torn to pieces by a sow.

The children rescued the baby from the sow on the mill after it was so badly torn that it died a few hours later.

Mystery is Cleared.

New York.—The mystery of the good-looking boy who tried to honor a train for Baltimore was cleared up when he is identified. He was one.

Popular Melon Patch.

Oregon.—D. D. Smith's melon patch ought to be profitable. Two thieves who took two melons dropped off. Smith says this is too much for any man. He will return half the money, so questions raised.

Not Ashamed of Profession.

Portland, Ore.—P. D. Binkerson isn't ashamed of his profession. When arrested for speeding, he started the officer by saying he was a bootlegger and "bootlegger" it stands in the light to green ink.

Only Playing Black Keys.

Go-Rent on practicing, Catherine" said "Oh, if you're sure your hands are steady, you can be a pianist. Oh, they're all right," was the answer, "I'm being careful; I'm just playing on the black keys."

Ought to Rejoice.

Medulla—Kind sir, I am proud, less stirring and my wife has left me. Jones—Then what have you to say about this—London Answers.

Farm Auctions

We are booked for the following Farm Auctions for the early part of October

Herman Johnson, Oct. 11, 7 mi. s. e.
 Henry Welter, Oct. 15, 1-1-2 mi. s. w.
 Gust Nelson, Oct. 16, 5 mi. s. e.
 Thos. Huttel, Oct. 17, 5 mi. n. e.
 *David Radabaugh, Oct. 25, 3 mi. e.

These are all bonafide sales and if you are going to need anything in the farm line it will pay you to examine the respective advertisements in this paper, or the bills, for particulars.

We specialize in this class of business and if you contemplate holding a sale we will gladly assist you in arranging it.

Watch this space for later announcements.

Conserving the Nation's Natural Wealth

To take crude oil and separate it, without waste, into a maximum number of useful products is the Standard Oil Company (Indiana) ideal of its duties as a public servant.

By utilizing those fractions of the crude which otherwise would be waste, the Standard Oil Company (Indiana) becomes a conservator of raw materials, thereby adding to the nation's wealth.

At its refineries more than 2000 products are made, each one serving a definitely useful purpose. These cover everything made from crude oil, from petroleum ether and surgical dressings, to paving asphalt and petroleum coke.

By manufacturing so complete a line of related products, the Company is able to minimize the cost of each, and can sell to you the particular item you need at a low price because the other 1999 are carrying their true proportion of manufacturing costs.

By reason of its thorough organization and the achievements of its manufacturing department, the Standard Oil Company (Indiana) has been able to fill its obligations as a public servant by increasing its sphere of usefulness to meet the ever increasing requirements of the public.

Standard Oil Company
 (Indiana)
 910 So. Michigan Ave., Chicago

Pine City News

Ladies and gents pursue and bill books at Prochaska's.
 Not all the circuses are in winter quarters, one is coming to Pine City.

Books, latest fiction, especially for boys and girls at Prochaska's. Earl Gray was down from Virginia to spend Sunday with his folks.

Prescription work promptly and carefully attended at Prochaska's pharmacy. Prices right, advice at Prochaska's pharmacy, candy head-quarters.

If you are a lover of music let me interest you in a phonograph.—Staecke's the jeweler.

Eyes tested, glasses fitted, Prochaska's optical parlor. E. Prochaska, graduate registered optometrist. If electric cigar moment keeps our cigars fresh and moist at Prochaska's.

Mrs. Davis arrived from Lesueur, last Saturday, for a visit at the home of her niece, Mrs. J. J. Scully.

Mrs. Ella of Rush City spent the week end at the home of her daughter, Mrs. Adolph Sommers, west of town.

Spencer Daniels returned home a week ago from Detroit where he spent six weeks studying motor mechanism.

Big Halloween, Pine City Band Assn. dance, November 1st. Watch for further advertising, a surprise in store for you.

Word from Dr. Warwick, the veterinary surgeon who located here from July 1 to Sept. 15 and then moved to Hinckley says that he intends leaving the state the last of this week.

Ben Webber has moved into the Otto Hansen residence which he recently purchased and the "Pasha" residence which he vacated, has been sold to the Thos. Huttels who have already moved in.

After a week's visit at the home of his parents here Mr. and Mrs. Gilbert Erredge left, last Saturday, for Zumbrota where they will make their future home, he having purchased a cafe there.

Evelyn Plamert of Pine City is making a fine recovery after her operation for removal of abscessed gangrenous appendix. She will probably leave the hospital this week.—Braham Journal.

Charlie in his second million dollar picture, "A Dog's Life," the biggest and most expensive picture yet made by the undisputed "king of the screen" at the Family theatre, Saturday, matinee and night.

Mr. and Mrs. Lindahl and two daughters and Mr. and Mrs. Champin and daughter, drove up from Minneapolis in their cars to spend the week end at the home of the farmer's cousin, Carl Holmberg.

John Hazan arrived home, Monday from about three months at Marquette where he has been employed on sewer construction work, expecting to return next Monday to remain until work closes down for the winter.

Mrs. Thos. Henderson left, last Saturday, for the McGrath camp which Mr. Henderson is running east of Rush City and Harris, expecting to be gone until spring. Tom left for there, a couple of weeks earlier.

Marvin Peterson, formerly in Hamilton's barber shop for a long time and well known here, has been spending a couple of days with old friends. He has been out of the army only about five weeks and will go to Lake Mills, Ia., to live.

J. F. Kimer was down from Sturgeon Lake to call on old friends, Monday, reporting his folks all well there. The same day there were also down from Sturgeon, Messrs. Chas. Upgren, Mentzer, Parker, Edwin Lunberg and Clarence Anderson.

At the monthly council meeting, Oct. 1, the following bills were allowed: Eastern Minn. Light and Power Co. Sept. light and power \$189.65, John Biederman Sept. salary \$85, H. J. Buirge electric salary \$21, Mrs. Voss team work \$50 and 145 loads of gravel \$50.75, Adam Biederman repair work and Mide. \$38.25, total \$438.35.

Mrs. B. A. Lawrence returned last Thursday, after a three weeks' absence, from Detroit where he does some Jack and Wm. are employed on the "Record" and where she rented a home, into which the family will move when they leave here next Monday following their auction, advertised in this issue, on Saturday. Dick Lawrence and family will remain here.

C. A. Pierce came over from Brook Park, where he has been for a few months at the home of his niece, Mrs. Kelsey, and hopes to remain at Pine City if he can find a place to stay—else he may go to the Minnesota Soldiers home at Minnehaha. Many old comrades and friends here are pleased to see him so much improved from his stay at the Park, for he is in much better health.

Photographer Nell and family drove to Minneapolis to spend the week end with relatives.

It is estimated by competent authority that there are in the United States alone 18,000,000 fans who attend the moving picture theatres. Charlie Chaplin is the admitted favorite of at least half of this number. The reason for his popularity will be understood by any investigator who visits the Family theatre Saturday when "A Dog's Life," will be shown.

The Pine City Band Assn held its first business meeting, last Friday evening, in the town hall. A good crowd was out and plans were made for band practice, the first one being held Tuesday evening. The enthusiastic over the showing made by the boys and feels sure that they will have a good band in a short time. He will move his family here from Minneapolis, next week, as he has rented the house formerly occupied by Mr. Lawrence's. Don't forget the big band dance Nov. 1st.

PIPELESS CALORIC FURNACE

A Practical, Efficient Method of Heating Without Pipes Through Only One Register

What It Does

The CALORIC, the Original Patented Pipeless Furnace, heats your entire home, new or old, three rooms to eighteen, through one register.

The CALORIC heats uniformly and thoroughly. Whether your house be of the bungalow type, with all rooms on one floor, or three or three stories high—all the rooms will be warm and comfortable.

The CALORIC saves from one-third to one-half of your fuel. The same amount of coal, coke or wood which will heat two or three rooms with stoves, will heat the entire house through the CALORIC. Or, if you are now heating your entire house, two-thirds as much fuel.

The CALORIC is easily and quickly installed in any house, new or old, and without interfering with your present heating system. Where there is no cellar, a pit can be dug large enough to hold the furnace and the fuel supply.

The CALORIC reduces fire risk, as all the heat comes up through the center of the register, while the cool air is constantly passing down through the outer part of the register, where it comes in contact with the door.

Over fifty thousand enthusiastic owners from Portland, Maine, to Portland, Oregon, testify that the CALORIC is and does all and more than we claim. The CALORIC is also giving splendid results in stores, factories, churches and halls. Can you afford not to investigate?

—and How It Does It!

The CALORIC is not a pipe furnace with the pipes let off, and neither is it an experiment put together for the purpose of meeting a demand. It is specially designed and built from the ground up to heat buildings more uniformly, economically and satisfactorily than they have ever been heated by other systems.

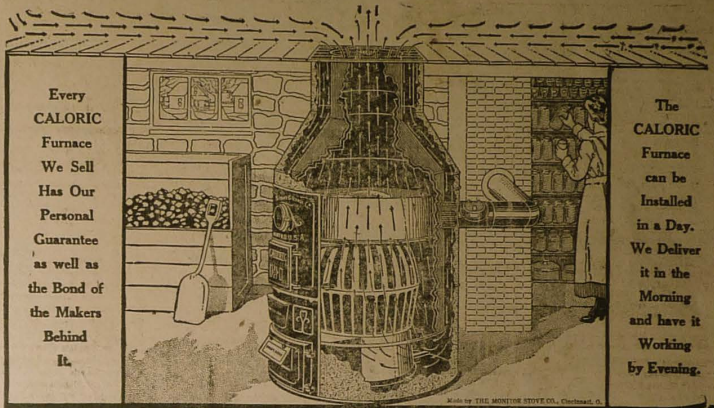

The CALORIC works through Nature's own laws of circulation by the movement of air currents. Warm air rises naturally. Cold air falls. Warm air and cold air cannot occupy the same space at the same time, any more than cold water and warm water can do so.

In the same volume that the warm air is distributed into the house, an equal amount of cold air is drawn into the furnace where it is heated, maintained by the vapor from the two gallon water pan, and then recirculated through the register. This process continues as long as the fire is kept burning.

Thus there is created a constant circulation of properly maintained warm air. Just as running water purifies itself, so this circulating warm air, passing constantly through heat of from three hundred to eight hundred degrees, in which no germ can live, is kept pure and healthful.

Now this is merely an outline of the principles of operation of the CALORIC. A full description is given in an interesting and instructive manner in our CALORIC Catalog. Call at our store, phone or write us for a copy.

The CALORIC is manufactured and guaranteed by The Monitor Stove Co., Cincinnati, Ohio, makers of heating appliances for 99 years.

EXPECT TREATY

Senate Hopes to Make Final Disposition of Pact by That Date.

SHANTUNG WHITE SOON

Closing of Extra Session for Month's Rest Before Treaty is Out of the Way—McCumber Speaks.

Washington, Oct. 6.—With disposition of the peace treaty expected by November 1, congressional leaders are discussing immediate closing of the extraordinary session, which begins Monday, so as to have a month's rest before the regular December session begins.

The amendment relating to Shantung is to be taken up at once with a vote expected in a few days. Amendments by Senators Johnson, California, and Moses, New Hampshire, Republicans, to equalize votes of the United States and Great Britain in the League of Nations are to follow. Leaders hope that by the middle of next week all amendments will be disposed of. Reservations then will be considered.

President Wilson's illness may have an effect on the treaty situation. It is not expected to cause any material delay in considering the pact while the amendments are before the senate, but when reservations are reached the president's illness, if deemed necessary, as Democratic leaders have not had opportunity to discuss with him what reservations would be acceptable.

McCumber Speaks. Debate on other treaty controversies will continue while the Shantung amendment is under consideration. Senator McCumber, Republican, North Dakota, spoke in opposition to the Johnson amendment. Republican leader Lodge and Senator Norcross, Nebraska, are expected to be the principal speakers in support of the Shantung amendment.

Three important bills for enforcing prohibitions, restoring pre-war rate-making authority to the interstate commerce commission, and a bill for hearing and profiting—also in position for final enactment by congress. The prohibition enforcement conference agreement has been reported to the senate. It has been suggested, however, that transmission of the bills to the president is deferred until his condition improves. In this connection, the possibility of veto of the interstate commerce commission rate-making bill is being discussed.

BANK OFFICIALS ARRESTED. President and Cashier of Fargo Institution Charged With Falsifying Exhibiting False Figures to the state banking department for the purpose of deceiving state authorities. Under the condition of the Scandinavian American bank of Fargo, H. J. Hagan, president of the bank, and P. E. Hallderson, cashier, were arrested. The complaint against the officials of the bank, which was closed by the state banking board for falsifying returns, was made by P. E. Hallderson, receiver of the bank.

OPERATORS TO RUN MILLS. Appeal for Men Who Unions Prepare for Siege. Pittsburgh, Pa., Oct. 6.—By the steel strike entered upon its third week, the union workers prepared to "dig in" for a siege while the steel companies arranged to make another attempt to start up idle plants. Through newspaper advertisements and personal appeals the companies are getting out for their efforts to get sufficient men back to start up some of the works that have been suspended.

NORMAL AGAIN IN ARKANSAS. Quiet is Restored Following Negro Uprising Near Helena. Helena, Ark., Oct. 6.—Normal conditions have been declared virtually restored following the negro uprising which resulted in the deaths of 17 persons Tuesday. It was announced tonight from military headquarters at Elaine, located to the southwest of Helena, that troops on duty in the county probably would be returned to Camp Pike Monday.

Garrett Resigns Holland Post. Washington, Oct. 6.—John W. Garrett of Baltimore, former United States American minister to the Netherlands, has forwarded his resignation to President Wilson with the request for its early acceptance.

Yanks Ready for Uprising. Cologne, Germany. American soldiers guard throughout the area occupied by the American army has been doubled, owing to reports of possible uprisings that a general strike and uprising, under the auspices of the Spartacist wing of the German Socialists, is due in a few days. Soldiers with machine guns guard the approaches to all bridges over the Rhine and Moselle, and are stationed at railroad division points and various other places where trouble might break out.

Mine Strike is Called Off. Tonopah, Nev., Oct. 6.—A proclamation announcing the strike, which has enforced idleness in the Tonopah and Divide mines since August 17, has been called off, was issued by Governor Boyce. The settlement was effected through a new arrangement of miners and mill owners under a charter from the American Federation of Labor. The strike was called by alleged members of the Industrial Workers of the World, who were said to have come from Arizona.

MISS FLORENCE KING

IN THREE CENTERS

Indiana Harbor, East Chicago and Gary Under Control of Military Authorities.

GEN. WOOD COMMANDS

Developments in Steel Strike in Chicago District Indicate Trouble Following Riots and Troops Are Called.

Chicago, Oct. 6.—Quiet reigned in the Chicago steel strike area after a day of raids on the homes of strikers in Gary, where regular army troops are in control. Indiana state troops enforced martial law at East Chicago and Indiana Harbor.

Chicago, Oct. 7.—Declaring of martial law at Indiana Harbor and at East Chicago, and the dispatching of Federal troops to East Chicago, no violence had occurred since Saturday, marked developments in the steel strike situation in Chicago district. Acting under authority conferred upon him by Governor Goodrich of Indiana, Adjutant General Smith, in command of a detachment of Indiana state troops on duty in the Indiana strike zone, declared martial law in a section of East Chicago, Indiana, near Indiana Harbor and East Chicago, extending for five miles in either direction from each of them.

The step was taken, General Smith said, "following indications of trouble" and after consultation with the mayors of the two towns. A detachment of approximately 1,000 Federal troops from Fort Sheridan, Ill., under the personal command of Major General Logan Wood, Central Department of the army, took over control of the situation at Gary, Indiana, and East Chicago, Indiana. Wood from Governor Goodrich. Upon arrival of the Federal troops the state militia which have been distributed over the Indiana strike district were withdrawn from Gary and East Chicago. State troops had been sent into the district after rioting at Gary and Indiana Harbor.

PLOT TO WIPE OUT WHITES

Charged by Investigators Into Arkansas Riot Case.

Helena, Ark., Oct. 7.—A statement was made of the riots by F. M. Allen, chief of police at Helena, Ark., which indicated some little change for the better. Again the President was cited as the old man who has been in the woods and perished from exposure. There was another consultation of physicians, and immediate members of the Federal grand jury who were in the White House to be near him. Although recent about details of the Helena riot, which was reported to the extent of its progress upon his system, and that some days might be required to disclose its full effects. Nervous exhaustion of which he is suffering, complicated with his long-standing weakness of the digestive organs and a lingering touch of jaundice, which he has had for some time, the doctor says, have considerably weakened the President's powers of resistance. For a man of his age, however, Mr. Wilson's general physical system is said to be in good condition to withstand the combined attack against his health.

FIUME CRISIS SEEN AT HAND

Definite Agreements Are Possible According to Report. Rome, Oct. 7.—The Popolo Romano declares that the question of Fiume has entered a new stage, in which definite agreements are possible. Although the incident has not yet been closed, it is stated that the confidence among those who are such that confidence may be entertained that Italy soon will be freed from the Fiume situation.

ATTACK ON REDS IMMINENT

Flood and Murders Near Russian Front. U. S. and England. Stockton, Oct. 6.—The Russian of the day for the Russian Northwestern army stated that after some preparation a general offensive against the Bolsheviks would begin, a large number of Russian soldiers were being prepared to leave for the front. The "news," it was stated, "had been driven into the marshy districts where most perish or surrender."

367,500 MEN ARE ON STRIKE

Pittsburgh, Pa., Oct. 6.—Latest figures from union headquarters here, as of October 6, indicate that 367,500 steel workers are on strike, an increase of 10,000 compared with the figures issued shortly after the strike started.

EXPECTED BREAK IS ABSENT

Pittsburgh, Pa., Oct. 7.—A break in the ranks of the steel strikers, hoped for by some of the companies, is established for the third week of the struggle against, but reports came in from different sections of the strike starting up several smaller plants.

Two Killed When Plane Crashes

Middleton, N. Y., Oct. 6.—Major Pittsford Prinsell was killed and Second Lieutenant J. H. Bailey was seriously injured when an airplane in which they were flying crashed to the ground near Middleton, N. Y. Bailey was rescued from here. The officers were stationed at the army aviation field in Indianapolis and they were flying from Indianapolis to Middletown to take part in the trans-continental air race next Wednesday. They were flying a De Havilland "mosquito" machine.

Plana Attack on Dalmatia.

Pluto, Oct. 5.—Gibraltarian D'Annunzio's staff is in the palace besieged in working out military problems. The price of butter has soared for two weeks will now remain ask 72 and 14 cents a pound. The price of flour is 10 cents a pound. The government is making an investigation which it is believed will result in presentation of the "profiteers," said Mr. Milroy. The government began by making a survey of the large stores of flour in Chicago and Missouri warehouses.

BISHOP CHARLES S. BURCH

Imprisoned for Indecent Exposure. Bishop Charles S. Burch was arrested on charges of indecent exposure in a public place. He was released after a short period of confinement.

RAILROADS MADE TO KISS FLAG

'Reds' Rounded Up at Weirton, W. Va., by Authorities and Driven Out of Town. Weirton, W. Va., Oct. 6.—More than 100 men, declared by police authorities to have been members of the Red Guard of Weirton, were rounded up, marched to the public square of Weirton, forced to kneel and kiss the American flag and then were driven out of town by police and deputies.

BELIEVED RED GUARDS

'Aid Quickly Planned But Sentimental in Results Was Outcome of Many 'Treaties Against Steel Plant Employees. Washington, Oct. 6.—Tentative plans to visit the Pittsburgh district late this week were made by the senate committee investigating the steel strike.

WILSON'S ILLNESS

President Wilson's illness is expected to have an effect on the treaty situation. It is not expected to cause any material delay in considering the pact while the amendments are before the senate, but when reservations are reached the president's illness, if deemed necessary, as Democratic leaders have not had opportunity to discuss with him what reservations would be acceptable.

PRESIDENT IMPROVES

Condition Shows Considerable Change for the Better. Illness Is Not Critical, but Physicians Insist Upon Absolute Rest—Patient in Active State.

Washington, Oct. 8.—President Wilson's condition improved and his appetite, the failure of which has been one of the serious setbacks to his recovery, showed a decided change toward normal. Dr. Grayson and the other physicians attending the president are to guard against over-optimism, however, as they believe another setback is possible. They continued Mr. Wilson's confinement to bed and kept official business away from him.

Thomas Kopacek Passes Away
 Thomas Kopacek of this place passed away in the state hospital at St. Peter, last week Wednesday, Oct. 1, from hardening of the arteries at the age of 71 years. The remains were shipped here Friday night and buried in the Catholic cemetery at 10 a. m. Saturday with mass by Father Lew in St. Joseph's church, the services being attended by a large number of relatives and old friends. The pall bearers were Joe Chalupsky, Frank Hufschlager, Wm. Houde, J. B. Kuzel, Joe Kub and Matt Sladky.
 Deceased was an old and highly respected citizen here. He is survived by his widow and Miss Anna and Thos. of this place, Ed of Geneva, Ia., Frank of Mason City, Ia., Jos. of Waterloo, Ia. and Mrs. Mary in Nelson of St. Paul.

Among those from outside present at the funeral, besides all members of the family and their wives and husbands were Martin and Miss Bartacek of Geneva, Ia., and Mr. and Mrs. Louis Prochaska and son of Foley, Minn.

Beroun News
 Miss Emily Zhytovsky is home from Hopkins where she has been employed for the past couple of months.

Word from Mrs. W. H. Gibson at Seattle says that both she and Mr. Gibson are well and enjoying themselves. We understand that he is still employed in the ship yards there.

The old school building in the District, east of town, was auctioned, last Thursday, by Ernest Rohlf, James Kucera being the lucky bidder at \$98. The contractor is now plastering the new building and the district received the right to use the old one until the new one is completed.

Arthur Frost moved, last week, from his father's place, 4 1/2 miles east, to the Kozak place, just south and east of Kozak's hill. Mr. Frost expects to put up new buildings on his own place and move thither himself.

Henry Frost returned, last Friday, from Iowa, having realized very satisfactorily from his potatoes which he took thither—so well, indeed, that he has blossomed out with a new automobile.

Mr. John Blazek is here from North Dakota and Mr. Blazek is expected soon with their car of goods when they will move onto the Emil Broz place which they purchased a couple of months ago.

Ernest Rohlf and wife drove to Cloquet, Sunday. His brother Henry was down from there Monday and Frank Valley and Ed Peltier yesterday, buying farm lands in this region.

Chas. Kucera, who sold his place 2 1/2 miles northwest, is moving to Wisconsin.

Wm. Houde is getting along well with the new Kopacek home and Frank Zavek is rapidly getting his brother Anton's new house ready for occupancy.

John P. Marks and Paul and John Revere, from Renville county, unloaded a car of goods here last week. Mr. Marks is going to the Frank Hora farm 1 mile west where he will take possession on Nov. 1. One of the Revere's will sell on a 40 that he bought just west of Paul Darrow's in Pokegama town and the other has purchased the old Martin place in that locality.

Frank Chalupnik returned home last week from Verdig, Nebr., where he has been assisting his brother since last spring.

Mrs. Phil Schaefer closed her lease of the Comfort hotel, last Saturday, it being necessary for her to return to her home at Hinckley. It is hoped that someone will re-open the place soon.

Manager Falk of the creamery and Mrs. Falk spent Sunday with friends at Duluth.

Gust Neman returned yesterday from a few days' visit at Duluth.

We are expecting a new railway agent about Oct. 15—next Wednesday—when Mrs. Pitney will be relieved by Mr. Fisher who has been holding an operator's position at Hinckley. Mr. Pitney, who was in the signal service in France for 18 months as an operator joined his wife here about 10 days ago.

Chas. Zimmerman has moved the residence he bought from the lumber company to a location northeast of the Methodist church and has rented it to the coming station agent, Mr. Fisher, while he plans on putting up a small residence beside it for himself. Stule Bros. moved his building in one day.

The Beroun farmers' club met at the J. C. Hancock home, northeast of town, last Saturday when there was a large attendance.

At the last meeting of the town board, Wm. and Edward Palkowich were awarded the contract for digging a ditch six feet wide along the line of the newly laid out road from E. A. Poppi's land from the Government road to Mission Creek at \$2 per rod. They were also given the contract for a 4-foot ditch through Kaspar Sima's land at \$1.25 per rod.

At the request of the town board, the creamery is preparing to make some deposit of the overflow from the plant, we understand.

Chengwatana Town News
 A baby boy was born at the Arthur Beho home, 7 miles east of Beroun, last Thursday.

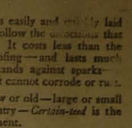

Anton Drimmel is driving a new Chevrolet and Andrew Carlson has purchased a new truck.

A birthday party was given at the Jos. Glant home last evening in honor of Leonard Lyseth's 33rd birthday. The home was filled with friends of the young man and a delightful evening spent with games and socially.

Miss Lillian Hartman left last Tuesday for Rhinelander, Wis., where she will stay at the home of her aunt for the winter.

For every u
 On buildings with broad areas, on soaring sky-scrapers and all kinds of farm buildings, Certain-teed Roofing is giving lasting and complete weather protection.
 On every sort of building it is turning back rain and snow, heat and cold, year after year, with almost no up-keep cost. Different weather cannot affect it.
 Certain-teed Roofing is easily and quickly laid by anyone who will follow the instructions that come with the roll. It costs less than the ordinary kind of roofing—and lasts much longer. It stands sturdy against spafire fire protection. It cannot corrode or rust.
 For your buildings new or old—large or small—in the city or country—Certain-teed is the logical roofing investment.
 Certain-teed is made in rolls, both smooth and rough surfaced (red or green)—also in hand-made red or green asphalt shingles for residences. Certain-teed is extra quality—the name means certainty of quality and satisfaction guaranteed. It will pay you to get Certain-teed—most dealers sell it. Ask for Certain-teed and be sure to get it.
