Court Gone And Coming

Special Term Held This Week and General Term Coming on November 5

A short special term of court was held at Pine City, Tuesday afternoon when a few motions were argued before the court and several citizenship papers granted but no cases tried.

Those taking out citizen's papers were: Eric J. Youngquist, Pine City, Christian Christiansen, Shafer, Chicago Co., Christopher Nielsen, Chas. H. W. Ranum, Peter Herjansen, Anders B. Nielsen, Martin C. Hansen, Holger Voelmann and Christer Erlanson of Askov; Peter Holten, Sturgeon Lake; John J. Adams and John Postma Sandstone; John Nordander, Emil Larson and William H. Wicker of Hinkley; Jos. E. Good, Finlayson; Per E. Widmark, Rock Creek; Frederick E. Miller, Harold L. Johanson Pine City; Albert T. Schweitzer of George Gray of Rock Creek; and the regular fall term of court will open here with the convening of the grand jury on Nov. 5, to be followed the next day by the convening of the petit jury.

Those drawn for the grand jury and summoned to appear on Nov. 5th, 1919 at one o'clock are: Chas. Anderson Windemere, William Olson, Rock Creek; Al. Kahlbe Pine City; Oscar Rork Hinkley, Frank Stack Pine City; Albert Vork Sandstone, Joseph Chodora, Bremen; J. J. Madden Pine City; John Hinkley, Elmer Johnson Dell Grove, W. P. Hogan Kerick, P. E. Bowers Finlayson, Timothy Birk, Norman, Emil Anderson Rock Creek, Magnus Carlson Sandstone, James Haney Barry, John Sandness, Arlene, John Anderson, Duquette, Frank Soren Royalton, Reed Rypkema Dell Grove, William Sandwick Sandstone, Charles Uperen, Charles Anton Wanasoo Chagwaganata.

Those drawn for the petit jury and summoned to appear on Nov. 6th, 1919 at one o'clock are: A. C. Johnson, Rock Creek; C. J. Aronson Kerick, Charles Pomeroy Hinkley, Axel Berg Royalton, Carl Herjansen Rock Creek, John Carlson Rock Creek, W. H. Gutter Chagwaganata, O. F. Forsyth Norman, Joseph Gunderik Minton Creek, Henry Suker Windemere, Frank Pavek Chagwaganata, Louis Havel Pook Pine City, Thayer Olesen, A. F. McLean Arna, John Plaggenman Sandstone, Alfred Wahlberg Royalton, Peter Christiansen Sandstone, Andrew G. Willner Dell Grove, Gilbert Johnson Kerick, C. A. Shoberg Birch Creek, Adolph Anderson, Charles Hansen Hinkley, Albert Kacer Munch, B. J. Forhman Rock Park, Carl Anderson, Finlayson, Frank Polck Danforth, Fred Wright Pine City, J. P. Westerlund Clover, Sam Doeh Pine Lake, Harry Bates Bruno.

NEW POSTMASTER NEEDED at Cloverton

The following items from the Cloverton Enterprise of last week are illustrative of the progress of affairs at that place on the railway in the eastern part of the county:

"The Civil Service commission announces an examination on Nov. 15 to fill the vacancy occasioned by the resignation of Mrs. P. L. Cohen as post master at this place. Blank applications to take the examination, the remuneration of the work for the last year is announced at \$282.

"The five ton caterpillar tractor purchased for the town and used as a power shovel was taken out by the Engineer. It appears both powerful and easily handled. Our engineer, O. S. Hartz is the man who will get the work out of it."

Miss Evangelyn Frankson who has been visiting at the G. R. Christopher home departed Monday for Minneapolis where she will attend the Minneapolis School of Music.

Rock Creek News

We have on hand a supply of the Minnesota Soldiers Bonus blank so if you have not yet procured yours same may be had here, and we will be glad to give whatever assistance is necessary in completing same, free of charge—Farmers State Bank, Rock Creek, Minn.

The annual meeting of the Great Branch of the American Red Cross, for the election of officers and for the transaction of other business as may be necessary, will be held at the Rock Creek M. E. church on Friday evening, Oct. 24th. Everybody is cordially invited to be present.

Set Clocks Back One Hour, Oct. 23

The night train on the Great Northern between St. Paul and Duluth will leave those two points one hour earlier on the night of Oct. 23 so as to bring them to their destination on the regular schedule the next morning. All clocks throughout the United States will be set back one hour on Oct. 23, so before retiring Saturday night, Oct. 23, set your clocks back one hour, and Sunday morning they will have the correct time.

Beroun News

A dance will be given in Prechas, here, Saturday evening, Oct. 23. Host will be furnished by Angelo Yoti with his new \$3500 concertina.

the operation of the bank until the incorporation of the National is completed when the business will be turned over to it. This will be very soon.

Under the present arrangement John C. Carlson is president, E. F. Allen is president, J. D. Boyle (cashier) and G. N. Turner assistant cashier of the bank.

The bank was organized by Messrs. Hodges and McAllen twenty three years ago, opening its doors for business on Dec. 26, 1896, and has been continuously operated by them since that time. Mr. Hodges has been too long and too closely associated with public and domestic affairs of the county to need any word of commendation from anyone, for his business affairs, like his personal affairs, have always been conservative but absolutely on the square. Mr. McAllen came here just prior to the organization of the bank from Bristol, S. D., where he organized and operated a bank until that time. He also organized the bank at Hinkley, S. D., in which he is still interested. He has been in the banking business continuously for thirty years and has become well recognized in the business all over this region.

New Flour Mill at Willow River

New Flour Mill at Willow River is now ready to start up as soon as the power is turned on. That will be either the last of the present week or Monday next week. Mr. Johnson of the General Light and Power Company is here supervising the installation of the electric power connections and assures us that his part will require only a few days. The mill is equipped with standard modern machinery throughout, and as Mr. Vanley is an experienced millwright it is certainly that the new enterprise will be a success from the start. The people of the county are certainly fortunate in securing this new and much needed industrial plant and should support it as liberally as possible—Willow River Farmer

IMPORTANT ANNOUNCEMENT

United States Railroad Director of Railroads, N. P. Railroad

Saturday evening, October 25th, 10:00, Northern Pacific R. train no. 66, will leave St. Paul and Minneapolis one hour late on account of Daylight Saving Act. Secure information from local agent.

Willow River Will Have New Garage

Work was begun this week on excavating for Nels Nyrd's new garage and machine shop, to be built between the hotel and the bank buildings. The garage will be 45x125 feet, red brick front and red tile walls, and will cost in the neighborhood of \$10,000. The equipment of machinery, and when he gets into his new quarters it is needless to say that we will have a garage that would do credit to town four times the size of Willow River—Willow River Farmer

Early Ohio Variety

Scotch first and second premiums. Grand premiums of the show given by Carl Madson of Askov with his Green Mountains.

Seed plot exhibited by: Geo. Hoff, G. Christiansen, S. H. Millhouse and John Bjerke of Hinkley. This was one of the educational features of the show showing especially the product of 5 potatoes in each man's exhibit. Some yielded five times as much as other equally good looking tubers all grown on the same soil by the same man.

The afternoon session was called to order by President Moshak who organized the Farm Bureau work and the opening of the executive committee. He then called on Mr. Hull of Brook Park who is chairman of the potato improvement work to take charge of the program.

Part of Mr. Hull's remarks were as follows: The potato crop is the most important to you today. The Farm Bureau is organized to help farmers of Minnesota. The Pine County Farm Bureau is organized to help the Farm Bureau members of Pine county, and all of the people of Pine county, because all the people depend on the farmer. They depend on him for their success. If the farmer does not make a success, other industries will fail. The farmer is a necessity. The things the farmer must have are the things the people must have. Potatoes are one of the foremost. We can get along without potatoes or without flour, but they go together.

Today we can see a little of what we have accomplished in Pine county—the improvement of the potato crop. Improvement of the potato crop means better prices for our product. The people will pay more for it, and it does not make so much difference what the price is if they can get just what they want. If the product is satisfactory they are going to pay a premium on it if they can't get it. That is what we are trying to do in Pine county—create a demand for our potatoes, and when we get a demand for our product, then we can raise our own price; until then we have to take what we can get. The show demonstrates the improvement over last year. Great improvement is seen in uniform variety and type. The commandment is: Cooperation is the only way to get what is coming to the farmer. At this point, Mr. Hull called on Mr. Hugh L. Hughes of the new State Department of Agriculture to discuss the marketing problem.

Big Crowd at Potato Show

The Exhibits Were Fine and The Show as a Whole Was a Remarkable One

The Pine county potato show at Hinkley, last Friday, was a fine exhibit and drew an attendance from all parts of the county.

The number and quality of exhibits more than doubled that of last year and the interest taken in potato improvement, standardization and marketing problems more than justified the effort made by the Farm Bureau organization in its potato campaign of the year and in its marketing project—the potato show.

Carl Madson of Askov was pronounced grand champion of the show.

Herewith is given a list of exhibitors and prize winners whose exhibits were studied by over 2000 individuals at the show.

Green Mountain Variety Carl Madson Askov first premium, D. S. Spangler Hinkley second premium, Conrad Svardahl Sandstone third premium, L. Send Pictures and Service Records to

County History

Care of Pine Poker Office, Pine City, Minn.

Pokegama Town News
Mrs. Nick Felten returned last Thursday accompanied by her sister-in-law Mrs. Thomas Felten and daughter of St. Paul.
Chas. Kane and Chas. Jewell have purchased new cars.
William Wood of White Earth, N. D. has leased Mrs. Mary E. Kleber's farm for next year. Mrs. Wood is Mrs. Kleber's daughter.
A Lewis of Henriette recently installed a furnace in the new Pokegama town hall.

Harold Homstrom is home from Spooner, Wis., for a two weeks stay.
The three families of Martins that recently drove through to Indiana with Ford cars arrived safely at their destination.

Work has begun on the Felten to Cinderella road. There is to be \$250 of county money spent on this road.
Mrs. Fred Norstrom left Saturday for Harris. She will visit relatives there returning the last of this week.

Mrs. Peter Felten is very seriously ill at her home.
Mrs. Frank Gardner left last Saturday for the limited to visit over Sunday with her husband and relatives at Minneapolis.

Mrs. and Mrs. S. Fritzen left for their winter home at St. Paul, Monday, after a very busy and successful summer at their Pokegama lake sanatorium.
The Wheeler-Gardner auction is advertised for Tuesday, Oct. 4.

Miss Eva Miller and Lambert Odendahl of this town were united in marriage by Father Leo in the Catholic church at Pine City at 9 o'clock Wednesday morning in the presence of a number of relatives and friends. They were accompanied to the altar by his brother and sister from Carroll, Ia., where he formerly lived. They will make their home on the old Emil Bros farm which he recently purchased, southeast of Beroun.

Pine Town News
Mrs. Brekke returned Monday from a 10-days visit at Minneapolis and Little Falls, Mr. B. driving to Hinckley to meet her.
There will be services in the Milburn Lutheran church at 10:30 a. m., Sunday, Rev. Satterlee of Minneapolis preaching. In the afternoon the ladies aid will be entertained at the Anton Jacobson home.
Ole Herrud finished the concrete foundation, the first of the week for the house he is about to build on his farm on the St. Croix road. He is going right ahead with the superstructure.

Chairman Hinze of the town board last week sold a pure bred Shropshire ram to G. A. Ferguson of Kerrick. This town may become a pure bred stock center if our farmers will it that way.

W. H. Richards has been drilling wells at the Trollin farms in the east part of town the past week.
The Paker was mistaken last week in saying that Dick Ruby of Pine City is a son of J. C. Ruby of this place—he is a nephew. Also he is a brother-in-law instead of cousin of his partner in the dray business, John Karsky.

Chengwatana Town News
George Baker was up from Rochester to spend Saturday and Sunday at the home of his parents, the F. D. Bakers in Meadow Lawn.
Arthur Von Buch returned with him at St. Paul whence he went on to Windom where he will hunt corn, expecting to be gone about Dec. 1. George runs a large lumber yard at Rochester.
Mrs. Fred Miller of Meadow Lawn is expected home today after a month's visit at the home of her sister at Hallam, Neb.

The Farmers club will meet in the Meadow Lawn school house, Saturday evening of next week, Nov. 1, when there will be a rousing debate on the relative value of the horse and the cow, which is expected to produce much fun. Everybody attend—and boost for the booby or horse.

Sheet music, latest popular and standard, at Staacke's the jeweler.
Prochaska's pharmacy, candy headquarters.

Herman Klante has purchased the Herman Gritchie property in town, where he expects to make his future home, having recently sold his 80 acre farm 2 miles northeast of Pine City. Mr. Klante gets possession of the new property now but will not occupy the place until spring.

Good assortment of cigars, fresh and moist by aid of electric cigar moistener.

Canada's Bird Refuges.
It is something for one bird to tell another that Canada has created a series of reserves in the province of Quebec where birds are safe from man-made troubles.

Unlike most bird refuges, Pecca Rock, a picturesque island near Pecca Bay, the east end north cliffs of Bonaventure island, three miles further away; and the northernmost of the Magdalen islands, 125 miles out to sea have been set apart specifically to protect birds whose value to mankind is chiefly their beauty as a part of nature.

There is no attempt to argue, for example, that the raven, the buzzard, or the ravenfall auk should be protected because they "help the farmer"; they are protected simply because they are birds.
No human being may steal an egg from their nests; no weapon dangerous to their waters may be brought within a mile of their island sanctuaries.

Naturally all other birds are equally safe, and the refuges will be a help toward carrying out the purpose of the international treaty for bird protection.

Key
Festivals County Board—Great West! Can't you do something to keep the fire out of this dining room? Please—No, yes, I could see the table in the kitchen.—Bates Evening Transcript.

Pine City Milling Co.

HOW TO AVOID BACKACHE AND NERVOUSNESS

Told by Mrs. Lynch From Own Experience.

Providence, R. I.—"I was all run down in health, was nervous, had backache all the time, and I had called all the time. I was tired and had no ambition for anything. I had taken a number of medicines which did me no good. One day I read about Lydia E. Pinkham's Vegetable Compound and what it had done for women, so I tried it. My nervousness and backache and headache disappeared. I gained in weight and feel fine, so I can honestly recommend Lydia E. Pinkham's Vegetable Compound to any woman who is suffering as I was." Mrs. ADELINA B. LYNCH, 110 Main St., Providence, R. I.

Backache and nervousness are symptoms of nature's warning, which indicate a functional disturbance, or an unhealthy condition which often develops into a more serious ailment. Women in this condition should not continue to drag along without help, but profit by Mrs. Lynch's experience, and try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, for special advice write to Lydia E. Pinkham Med. Co., Lynn, Mass.

Not Excused. Article—Oh! Excuse me, did I step on your foot again? Get it—I couldn't say. I did not know you were off.

"CALIFORNIA FIG SYRUP" IS CHILD'S LAXATIVE

Look at tongue! Remove plaques from stomach, liver and bowels.

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best medicine. It is less laxative or physic for the little stomach, liver and bowels. Children love its delicious fruit taste. Full directions for child's dose on each bottle. Give it without fear. Mother! You must say "California."—Adv.

In Melbourne and Sydney the influenza epidemic is still causing heavy mortality.

Watch That Cold!

Chills and colds tend to throw an extra burden on the kidneys and bowels, that well kidneys normally throw off accumulations. That is why you have been feeling so tired, irritable and half sick since the cold. Don't wait for worse troubles to set in. If you suffer constant chills, headache, clay pits and irregular kidney action, get a box of Dr. Doan's Kidney Pills today. They are helping thousands. Ask your neighbor!

A Minnesota Case

Dr. Doan's Kidney Pills cured a case of kidney trouble in a woman. She writes: "I had a severe case of kidney trouble, especially when I ate much of the rich, greasy food. My kidneys were so sore that I could not get up in the morning. I had a great deal of pain in my back and sides. I tried many remedies, but nothing helped. I then got a box of Dr. Doan's Kidney Pills. I took them as directed and in a few days I felt much better. In a week I was completely cured. I never failed to give my positive relief when I have had used Doan's Pills."—Dr. Doan's Kidney Pills, Buffalo, N. Y.

Headng Her Off. "My husband anticipates my every wish." "Mine seemed to have talent in this direction, too. At least, when I am about to express a wish he heads me off with a proverbial plow."

ASPIRIN FOR COLDS

Name "Bayer" is on Genuine Aspirin—say Bayer

Insist on "Bayer Tablets of Aspirin" in "Bayer" packages, containing pure Aspirin tablets for Colds, Pain, Headache, Neuralgia, Lumbago, and Rheumatism. Name "Bayer" means genuine Aspirin prescribed by physicians for 150 million cases. Handy tin boxes of 12 tablets cost few cents. Aspirin is trademark of Bayer Manufacturing of Monach, Germany. Bayer Manufacturing of Monach, Germany. Bayer Manufacturing of Monach, Germany.

MURINE Night and Morning

Keep Your Eyes Clear and Healthy

FLAX SEEDS

MAKE PROFITABLE SIDE LINE

Success May Be Attained With Little Success by Careful Attention to Many Little Details.

Prepared by the United States Department of Agriculture. Many people keep pigeons successfully as a side issue, although this requires constant oversight and careful attention to details. The growing of flaxseed for the purpose of a small flock, pigeons are a profitable source of income on a small farm, and they are not a nuisance and the loss by shooting and by hawks, and cats are not large. They can be raised successfully on farms where they are slowly confined. Of the squab-raising varieties the Homer is considered the most popular variety. The habit of this bird of re-

turning home if allowed freedom makes it necessary to confine pigeons purchased from other lofts. The Carneau pigeon has recently become popular as a squab producer. This variety is somewhat larger than the Homer and it is stated to be about as profitable as the other varieties of pigeons larger than the Homer are used on a small scale in squab raising, especially in crossing with the Homer and Carneau, to increase the size of squabs. The Rust is one of the largest, but is not as profitable as the Homer.

FLY LAYING EGGS ON WHEAT PLANT

FLY LAYING EGGS ON WHEAT PLANT

These safety dates are only approximate and serve to show in a general way about the time when the fall brood of the fly will have largely disappeared from the wheat belt east of the Mississippi river. As the larger part of the fall brood breeds and is gone within a week, it is possible for a farmer to time the seeding operations so as to avoid the fly.

BIG RETURNS FROM POULTRY

Arizona Farmer Made Profit of Nearly \$300 From Small Flock in Short Space of Time.

Prepared by the United States Department of Agriculture. A net return of nearly \$300 in two and one-half months from a side line on the farm is the record made by a Glendale, Ariz., farmer who is carrying on his operations under the direction of a poultry extension expert of the United States department of agriculture. In connection with his regular farm work he kept a flock of 210 hens, which produced an average of 120 dozen eggs during the four winter months. During February the eggs brought an average of 50 cents a dozen, or approximately \$120, while in March they brought 80 cents a dozen, or approximately \$160. The following month the flock showed a profit of a little over \$100. During the first half of April the gross receipts were \$97.50. In April the chickens were fed on a mixture of corn and wheat, and a demonstration on this farm and wheat, 50 hens from the flock. The culled hens were kept in a separate pen and a week following the demonstration and made practically no return in egg yields. This indicates, the specialist says, that the remaining 160 hens probably made the record with which the entire 210 had been credited.

GET RID OF DISEASE GERMS

Drive Out Fowls, Close House Tightly and Burn Sulphur in It for an Hour—Then Air It.

To rid the house of disease germs and vermin drive out the fowls, close the house tightly and burn sulphur in it until the entire house is full of blue fumes. Let it remain for an hour and then air it thoroughly before the fowls return.

SMALL BACK YARD FOR HENS

Whether They Can Be Kept at Advantage Depends on Whether They Get Proper Care.

The smallest back yard affords an opportunity to keep a few hens. Whether the occupant of the premises can keep those few hens to advantage depends upon whether the proper care and will give them the necessary care, and attention to Lata Hatches.

Prevent Loss of Begg

Do much is now known about wintering bees that it can be said that the loss of colonies in winter is preventable.

Doing Only Half Duty

A garden that produces only one crop and feeds away half of its duty in season does only half of its duty.

Give Celler Good Cleaning

Before starting the winter's supply of potatoes, apples, etc., the cellar should be given a thorough cleaning.

SAFE SEEDING DATES RECOMMENDED FOR SAVING WHEAT CROP FROM HESSIAN FLY

These safety dates are only approximate and serve to show in a general way about the time when the fall brood of the fly will have largely disappeared from the wheat belt east of the Mississippi river. As the larger part of the fall brood breeds and is gone within a week, it is possible for a farmer to time the seeding operations so as to avoid the fly.

WOMEN'S FIGHT

At a theater the other night a picture of life in the navy was flashed on the screen. Two women nudged each other.

"My boy in the navy. I'm so glad I saw this," said one.

"I'm glad I saw it, too," said the other, "especially those scenes where they were."

"That's especially interesting about that?"

"Well, my husband's in the navy, and now that I know what they have to do, believe it'll remind him when he gets home."

GREEN'S AUGUST FLOWER

Stop a minute and think what it means to say that "Green's August Flower has been a household remedy for over the civilized world for more than half a century." No higher praise is possible and no better remedy can be found for constipation, intestinal troubles, torpid liver and the depression that accompanies such disorders. It is most valuable for indigestion or nervous dyspepsia and liver trouble, coming up of food, palpitation of heart, and many other ailments. A few doses of August Flower will relieve you. It is a gentle laxative. Ask your druggist. Sold in all civilized countries.—Adv.

ROTATION CROPS IS EFFECTIVE

Crop rotation is an efficient control during the season of migration, unless new uninfected fields are near by, most of the insects succumb. Rotating the crops decreases the available supply of host plants.

Destruction of volunteer grain plants by plowing, disking, or other tillage operations must begin before the larvae have matured in order to be effective, as volunteers which are not destroyed will serve as a source of infection. Enriching the soil by plowing under the green cover crops and by applying stable manure also aid indirectly in combating the fly because a fertile soil will produce plants that soon attain vigorous healthy growth and are better able to resist diseases than those grown on soil which is hard to rot down sufficiently to withstand the winter. If the wheat is sown late.

Good seed is a prerequisite in securing healthy vigorous growth. Ordinarily the fly is avoided where good seed is sown in a thoroughly prepared soil after the majority of the fall brood has disappeared. It is preferable to sow on ground not covered to what the preceding year. In case of spring wheat, the earlier the grain is sown the less it will suffer from the Hessian fly, but good seed and well prepared, fertile soil are as essential in this case as elsewhere.

EFFICIENT MEANS OF PREPARING SEED BED

Use Disk to Prevent Growth of Grass and Weeds.

Plow Land to Depth of 6 or 7 Inches Where Wheat Follows Other Than Cultivated Crop—Keep Topsoil Well Broken Up.

Prepared by the United States Department of Agriculture. When wheat follows a cultivated crop that is removed sufficiently early, so that the remaining topsoil can usually be prepared for seeding by the use of a disk and ordinary harrow, and should be gone over with the disk to prevent the growth of grass and weeds. A second disk should be harrowed in given just before the grain is sown. A better seed bed can be prepared in this way than by plow and it takes much less time and work. If weeds are plentiful, plowing three or four inches deep may be necessary. Harrowing with an ordinary harrow should follow the plowing. When what follows cotton the stalks should be plowed under as soon as the bolls are all shelled and picked. Plowing in this case should be deep enough to bury the stalks completely, in order to destroy the boll weevil. The land should then be firmed with a roller and the sown wheat with a disk, etc. Disking narrowly is not advisable, as it mearths the buried stalks.

BETTER SWINE AND PROFITS

Farmers Learning to Be More Careful in Selection of Their Breeding Animals.

Prepared by the United States Department of Agriculture. Farmers throughout the country are using improved hog-breeding stock more generally than ever before. The port specialists of the U. S. department of agriculture, as they are learning that the best stock yields the most profits, and the high care in their selection of breeding animals. Farmers, as a rule, seem to be pleased with the results for the hog raiser, and the indications point to a large increase in the number of litters to be farrowed this fall. Stock tending to be farrowed with the early spring litters because of cold weather at farrowing time, and on account of the protein feeds, causing many stockmen to allow their brood sows to get into poor condition, with the result that the litters are small and the piglets are weak. In the main, these farmers have learned that, by providing the best conditions of housing and farrowing conditions as well as ample food of the right nature for their porkers.

GENERAL FARM NOTES

Order clover seed now. Dig potatoes on a dry day. Sprouts, briars, and bushes cut now are not likely to come out again.

As soon as the kernels have fairly hardened it will do to cut corn for grain and fodder.

Many farmers are pooling their interests and purchasing fertilizers to get in carload lots.

There are two ways to run corn. One is to care and the other is to let it run. All you can do both ways.

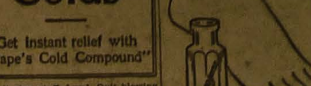

By balancing up the plant food in the soil the amount of labor required for a bushel of any crop is reduced.

The time to cut oats for hay is when the grain is in the milk or dough stage—that is, when the grain is green and the milky substance between the figures.

The silo allows a saving of time and labor in winter feeding. The farmer does not have to wade through snow or mud to haul feed from the fields in stormy weather.

Lift off Corns!

Don't hurt a bit and Pains cost only a few cents.

Don't stay stiff! Quit blisters and aching! A dose of "Paper's Cold Compound" taken every two hours until three doses are taken usually breaks up a cold and ends all griping misery. The very first dose opens your clogged-up nostrils and the air passages of the head stop nose running. It relieves the headache, stiffness, fever, lachrymating, soreness and dizziness. "Paper's Cold Compound" is the quickest, safest relief known and costs only a few cents at drug stores. It gets without assistance. Take five. Contains no opium. Just on Paper's Ad.

WOMEN'S FIGHT

At a theater the other night a picture of life in the navy was flashed on the screen. Two women nudged each other.

"My boy in the navy. I'm so glad I saw this," said one.

"I'm glad I saw it, too," said the other, "especially those scenes where they were."

BITRO-PHOSPHATE IS GOOD FOR THIN NERVOUS PEOPLE

A French scientist has discovered that Bitro-Phosphate is good for thin nervous people. It is a powerful tonic and restorative. It is good for the nervous system, the brain, and the heart. It is good for the blood, the stomach, and the bowels. It is good for the lungs, the liver, and the kidneys. It is good for the spleen, the pancreas, and the gall bladder. It is good for the bladder, the prostate, and the testicles. It is good for the ovaries, the uterus, and the vagina. It is good for the skin, the hair, and the nails. It is good for the eyes, the ears, and the nose. It is good for the throat, the chest, and the stomach. It is good for the back, the neck, and the head. It is good for the feet, the hands, and the fingers. It is good for the whole body.

With your fingers! You can lift 40 lbs. hard core, soft core, or core between the toes, and the hard skin calluses from bottom of feet.

A little bottle of "Tresson's" corns little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!—Adv.

Bad Sickness Caused by Acid-Stomach

Acid stomach is the cause of many of our ailments. It is the cause of indigestion, heartburn, and sour stomach. It is the cause of nervousness, irritability, and depression. It is the cause of headache, dizziness, and vertigo. It is the cause of constipation, flatulence, and bloating. It is the cause of loss of appetite, weakness, and emaciation. It is the cause of all the ailments of the stomach and bowels.

He Was a Specialist. In a confidential letter talk to a group of medical students an eminent physician took up the extremely important matter of correct diagnosis of the stomach.

"The best remedy," he said, "comes of course, to the established specialist. For instance, I charge \$25 for a call at the residence, \$10 for an office consultation."

There was an appreciative and envious silence, and then a voice from the back of the amphitheater, slightly thickened for emphasis:

"Do," it asked, "how much do you charge for passing you on the street?"

Alternative. Highwayman—"Your money or your life." Victim—"You will have to accept something and reservations."

12,000 God Dollars. At the time of the signing of the armistice there were 12,000 God dollars employed in various capacities along the war front.

Requidity. "Did the doctor pay a visit?" "Yes, and the visit paid the doctor." W. N. U., Minneapolis, Mo., 42-1918.

SAFE, GENTLE REMEDY BRINGS SURE RELIEF

For 200 years GOLD MEDAL Haazen Oil has enabled suffering humanity to withstand attacks of kidney, fever, bladder and stomach troubles and all diseases connected with the urinary organs, and to build up and restore to health organs weakened by disease. These most important organs must be watched, because they filter and purify the blood, unless they do their work you are doomed.

Weakness, sleeplessness, nervousness, depression, stomach troubles, pain in the loins and lower extremities, grave rheumatism, sciatica and lumbago all warn you of trouble in the kidneys. GOLD MEDAL Haazen Oil Capsules are the remedy.

Honest Advertising.

THIS is a topic we all hear now-a-days because so many people are inclined to exaggerate. Yet has any physician told you that we claimed unreasonable remedial properties for Fletcher's Castoria? Just ask them. We won't answer it ourselves, we know what the answer will be.

That it has all the virtues to-day that was claimed for it in its early days is to be found in its increased use, the recommendation by prominent physicians, and our assurance that its standard will be maintained.

Imitations are to be found in some stores and only because of the Castoria that Mr. Fletcher created. But it is not the genuine Castoria that Mr. Fletcher honestly advertised, honestly placed before the public and from which he honestly expects to receive his reward.

Children Cry For Fletcher's CASTORIA

Special Care of Baby.

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's mattress in an attempt to regulate the delicate organism of the same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.

A Baby's stomach when in good health is too often disgraced by improper food. Could you for a moment, think, think of giving to your young child anything but a medicine especially prepared for infants and children? Don't be deceived.

Make a mental note of this—It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups.

MOTHERS SHOULD READ THE BOOKLET THAT IS BOUND EVERY BOTTLE OF FLETCHER'S CASTORIA

GENUINE CASTORIA ALWAYS Bears the Signature of

Wm. D. Hoar, N. Y. City.

Farm Auctions

We are booked for the following Farm Auctions for the last part of October

David Nadabaugh, Oct. 25, 3 m. e.
Chas. Anderson, Oct. 27, 7 1-2 m. e. e.
Jos. Yanda, Oct. 30, 6 m. e. e.

These are all bonifide sales and if you are going to need anything in the farm line it will pay you to examine the respective advertisements in this paper, or the bills, for particulars.

We specialize in this class of business and if you contemplate holding a sale we will gladly assist you in arranging it.

Watch this space for later announcements.

The Changing World

NAPOLEON is quoted as having said, "Right is on the side of the heaviest artillery." In other words that might makes right.

This cynical remark was characteristic of the age in which he lived, and expressed the thought which dominated the world for many years after his death.

But a change has come over the world which has turned the whole thought of mankind into more wholesome, constructive channels. Where formerly he who had the power exploited his fellows, today the dominant idea is service and helpfulness.

In business particularly, is this idea apparent.

Today only those business institutions which render to the public a definite, specific service can hope to survive the changed ideals of the world.

The Standard Oil Company (Indiana) is bending every effort to conduct its affairs in such manner as to conform to these modern ideals.

It is the ambition of the Company to broaden the scope and intensify the service it renders the public so as to make every man who buys even a gallon of gasoline feel that he is receiving the greatest possible value for the money he spends.

It is the Company's steadfast purpose to make every product it manufactures of the highest quality possible, thereby keeping its activities in step with the changing world.

Pine City News

Safely razors at Stacks's the jeweler. have already been unloaded, and the old buildings are nearly torn down.

If you are a lover of music let me interest you in a phonograph. —Stacks's the jeweler.

Contractor Robinson, of St. Paul, arrived this week to take charge of the construction for the new Perkins garage. Two carloads of sand. Prescription work promptly and carefully attended at Prochaska's pharmacy. Prices right. adv. 47

Mrs. Francis Tilden has returned to her duties at the Pine City Hardware store after a week's visit at Milwaukee and Chicago.

Eyes tested, glasses fitted, Prochaska's optical parlor. E. Prochaska, graduate registered optometrist. If

Don't fail to attend the dance given at the Aunus school house, Sat. 22, on Friday night, Oct. 24. Music by the Rock Lake orchestra. Violin and guitar strings at Stacks's the jeweler.

Deputy Public Examiner Lyden, of St. Paul, was in town, Monday, examining the county books and found them in very good shape.

Work has been started on the new home for Mayor Scully, which will be 28x36 and is being built on the lot south of the Joe Lones home.

Oscar Elorik is in charge of the carpenter work and John Kalk will handle the cement work. They expect to complete the house before spring. Work is also speeding along on the Louis Volence home, the shingling having already been finished.

W. F. Richards has purchased the dwelling house belonging to the Pine City Sawmill Co., consisting of an 8-room house and three lots adjoining the E. M. Co. power plant.

Mrs. Carl Holmberg was agreeably surprised, Monday evening, by a host of friends who celebrated her birthday with a surprise party. Considerable excitement was caused during the evening by Carl Holmberg, the 13 year old son of Mr. and Mrs. Carl Holmberg, cutting his finger with a knife and fainting. The young lad was not seriously hurt, however.

A. J. Swanson of Dapette was here yesterday on business. He reports many farms sold in his part of the county, the owners largely moving into town, in the county or elsewhere, to reside. Mr. Swanson resided in the West Rock region up about 1918.

A crew of twelve men in charge of Jack Fletcher from Duluth, have been stretching new wire for the Northwestern Telephone Co. on the Grantsburg line, running east from town along the St. Croix road to the St. Croix river and thence to Grantsburg.

Mrs. Emma Fisher left, last Saturday for Stacy where she will spend a week at the home of her son Henry, intending to go from there to St. Paul where she will live during the winter.

It is to be the night of nights out at the Stuck school—West 47—Hallow'en night. The "Hanta's" will vie with one another to show you a good time. Program starts promptly at 8:30 followed by a basket social and dance. Music by the Rock Lake orchestra. Ladies, don't forget your baskets. We don't assure you a good time. Come out!—Clara Johnson, teacher.

J. A. Haberlein of St. Paul last week bought the Jumer building and barber shop and expects to sell the shop and use the building for the coal estate business which he has opened here. Mr. Haberlein is an experienced man in the real estate line. He states that he expects to move his family up from St. Paul in the spring.

The Albert Kopacek disposed of their household goods last Saturday and the following day they left for Olivia, Minn., where their son J. L. will be engaged in business and where they will make their home.

Fred Spearling is back in charge of the south section crew after seven months' operation of the train crew which has completed laying heavier rail from North Branch to White Bear.

Mrs. B. G. Haas and children returned home, Sunday last, from Princeton where she spent a week with her parents after taking treatment in a Minneapolis hospital for some weeks. Friends are all pleased to know of her greatly improved health.

A large crowd attended the dance given by Fred Jordan in the armory last Saturday evening. Dudley's orchestra from St. Paul furnished the music and made quite a hit with the dance fans.

Ray Gottry has been visiting his folks here the past week, having a short furlough from his service at Camp Grant. He expects to be discharged shortly. Mrs. Ray Bent, formerly Miss Ruth Gottry, is leaving for a few days at the home of her parents, here.

Engineer Poes was down from Bruno on business at the coupe house, last Saturday. He has done considerable drainage work over the county and friends will be interested to know that he expects to leave soon to visit relatives in Norway until the latter part of the winter.

The athletic committee of the Development Assn. have completed plans for the skating rink for the use of the village this winter. The rink will be located on the old wood yard site, south of the park, the ice will be flooded three times a week and will be free for the skating. A small building will be erected which will be heated and for the use of the skaters while putting on their skates.

Miss Susan Eberer returned, last Thursday, from a 6-weeks trip dur-

PIPELESS FURNACE

A Practical, Efficient Method of Heating Without Pipes Through Only One Register

What It Does

The CALORIC, the Original Patented Pipeless Furnace, heats your entire home, new or old, three rooms to eighteen, through one register.

The CALORIC heats uniformly and thoroughly. Whether your house be of the bungalow type, with all rooms on one floor, or two or three stories high—all the rooms will be warm and comfortable.

The CALORIC saves from one-third to one-half of your fuel. The same amount of coal, coke or wood which will heat two or three rooms with stoves, will heat the entire house through the CALORIC. Or, if you are now heating your entire house, the CALORIC will do the same work better with one-half to two-thirds as much fuel.

The CALORIC is easily and quickly installed in any house, new or old, and without interfering with your present heating system. Where there is no cellar, a pit can be dug large enough to hold the furnace and the fuel supply.

The CALORIC reduces fire risk, as all the heat comes up through the center of the register, while the cool air is constantly passing down through the outer part of the register, where it comes in contact with the floor.

Over fifty thousand enthusiastic owners from Portland, Maine, to Portland, Oregon, testify that the CALORIC is and does all that is claimed. The CALORIC is also giving splendid results in stores, factories, churches and halls. Can you afford not to investigate!

and How It Does It

The CALORIC is not a pipe furnace with its pipes left off, and neither is it an experiment hastily put together for the purpose of meeting a demand. It is specially designed and built from the ground up to heat buildings more uniformly, economically and satisfactorily than they have ever been heated by other systems.

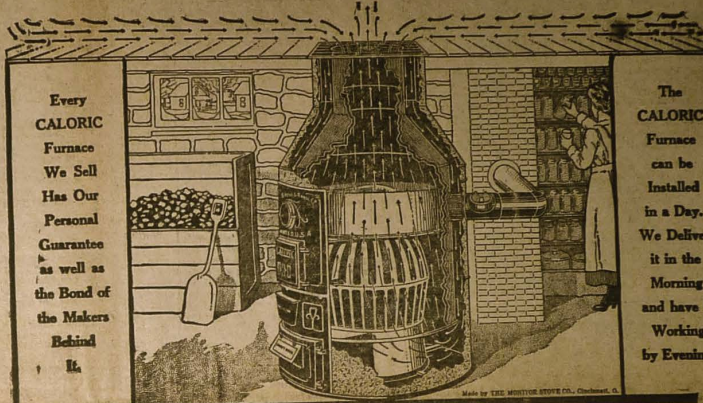

The CALORIC works through Nature's own laws of circulation, by the movement of air currents. Warm air rises naturally. Cold air falls. Warm air and cold air cannot occupy the same space at the same time, say more than cold water and warm water can do so.

In the same volume that the warm air is distributed into the house, an equal amount of cold air is drawn into the furnace, where it is heated, radiated by the vapor from the two gallon water pan, and then recirculated through the register. This process continues as long as the fire is kept burning.

Thus there is created a constant circulation of properly moistened warm air. Just as running water purifies itself, so the circulating warm air, passing constantly through heat of from three hundred to eight hundred degrees, in which no germ can live, is kept pure and healthful.

Now, this is merely an outline of the principles of operation of the CALORIC. A full description is given in an interesting and instructive manner in our CALORIC Catalog. Call at our store, phone or write us for a copy.

The CALORIC is manufactured and guaranteed by The Monitor Stove Co., Cincinnati, Ohio, makers of heating appliances, for 59 years.

Every CALORIC Furnace We Sell Has Our Personal Guarantee as well as the Bond of the Makers Behind It.

The CALORIC Furnace can be Installed in a Day. We Deliver it in the Morning and have it Working by Evening.

FOR SALE BY Pine City Hardware Co.

ing which she visited the national J. A. R. encouragement at Columbus, Ohio, and spent a month with relatives at Warren in northwestern Pennsylvania, it being her first visit there in sixteen years. She has bargained her home property here to Mrs. H. Kemm from south of town who expects to occupy it this fall or in the spring when she gives possession of her farm. Mrs. Sherwin will remain here until spring at least, and her many friends hope, permanently.

Mrs. J. W. Axtell was up from Forest Lake to visit at the Ed Kendall home from Saturday to Tuesday. She stated that she and Mrs. Purcell expect to remain on the farm near Forest Lake until spring at least and added that they would like to return to this locality if they could get suitably located on a small acre tract close to town, as old friends all hope they may.

J. J. Greenly has purchased the old P. W. McAlion sale barn, at the rear of his residence property, at least in connection with his auto livery and rent it to persons desiring stable and storage room.

Ernest Stetiner and Wm. Sparling left, last Friday, for South Dakota to spend the balance of the season hunting corn.

Mrs. Treake returned to her home at Brownston, last Saturday, after a week's visit with her sister, Mrs. Boyle.

Mrs. Howard Polson is spending the week at St. Paul where she is taking medical treatment.

Mrs. Treake was down over Sunday. Polson was down over Sunday. They found the J. H. Hays, formerly of this place and Sandage, settled near Maclester college, where their home is a beautiful place, and they are rendezvous for young folks from this county from nearby cities and from the state U. where Miss and Dean Hays is a student.

"I'll take the cash you take the girl!" That is a queer proposition for a burglar to make in his mad, anyway—since the girl is his guarantia! Come around and see how the Wallace Read in Duluth at the Family theatre, Saturday, matinee and night.

Pine City has a "Burbank the second" in the person of County Treasurer Frank Raffert. He has been doing a lot of experimenting in his garden the past three or four years and is now the proud possessor of one orange tree 4 years old, and one lemon tree 3 years old, and to cap the climax he was exhibiting to admiring friends the other day, a stalk of cotton which he had grown in his garden this year, that compares very favorably with cotton grown in the famous Kentucky cotton fields. The orange tree was in bloom this year but was not old enough to bear fruit, while the lemon tree has also been "bearing" lemons hanging to it now. He says that next year, he intends to sow a bunch of cotton seed.

Mr. and Mrs. Ed Hakes and Miss Hattie Starkweather of Sunrise, were visitors at the J. M. Gray home over Sunday.

J. A. Peterson left, last Saturday, for Chicago where he spent Sunday visiting at the home of his son Elmer, returning home Monday.

Arrangements are all completed for the big band dance to be given in the armory, Saturday evening, Nov. 1st. Dudley's St. Paul orchestra has been hired for this occasion and the dancers are thus assured of first class music. A large crowd is expected, judging from the number of people who have signified their intention of attending. The committee in charge promises something out of the ordinary and a good live time is promised. See the band dance add on another issue of this issue.

W. H. Bastien, instructor of violin, brass instruments and drums urges anyone desiring lessons to start as early as possible as the best season for practice is from September until the warm weather. Arrangements may be made personally or through the mail. Additionally, all service men attending the advantage of ensemble and orchestra experience.

The depot force have been wearing red tags lately and upon examination we find the tag bears the legend "Be Extra Careful". Oct. 31 is Accident Prevention Week. All service men attending throughout the United States are wearing these tags and boosting for accident prevention.

The local post of the American Legion met at the armory, last Monday night, ten new members were initiated. The post is having a big dance for November 15 and arrangements are under way for a big time for this, their first anniversary. All service men intending to join the Legion should do so before November 11 as up to that

The KITCHEN ABSTRACT

Outwits the pretious virus of humors... Appreciate that it is not already a disease.

PIE, THE POPULAR DESERT.

In spite of the fact that pies and pastry have been condemned as indigestible... Lemon and Apple Pie—Add a cupful of butter...

Date Custard Pie—Cook a third of a pound of butter... Prune Pie—Soak three-fourths of a pound of prunes in cold water...

To the work you have to do with a cupful of cream and true. Every day.

FOODS WHICH APPEAL TO A VARIETY OF TASTES.

For those who are fond of coconut the following drop cakes will be enjoyed...

Rice Drop Cakes—Mix two cupfuls of rice... Spoonful of salt and a teaspoonful of baking powder...

Rich Golden French Pudding—Sauté a pint of rich milk... Add one-half cupful of cream...

Chestnut Bavarian Cream—Soak half a package of gelatin in half a cupful of cold water...

Apple Pie—Sauté a pint of rich milk... Add one-half cupful of cream...

Chestnut Bavarian Cream—Soak half a package of gelatin in half a cupful of cold water...

Apple Pie—Sauté a pint of rich milk... Add one-half cupful of cream...

Chestnut Bavarian Cream—Soak half a package of gelatin in half a cupful of cold water...

Apple Pie—Sauté a pint of rich milk... Add one-half cupful of cream...

THE NEW MEXICO: First Electrified Battleship

MADE BY GENERAL ELECTRIC CO.

CAPT. A. L. WILLARD U.S.S. NEW MEXICO

THE New Mexico is the most impressive fighting machine. She was built at the Brooklyn navy yard and launched in the summer of 1917. She is 624 feet long. She weighs (displaces) 32,000 tons. She draws 30 feet of water.

It's not an easy thing nowadays to get permission to examine a battleship from stem to stern and to take photographs of her interior. But representatives of one of the big concerns which are busy in making the New Mexico what she is recently allowed the privilege—which has been exceedingly rare since the beginning of the great war.

Lieut. Com. P. Carroll, chief engineer, turns us over to the chief electricians. We start with the navigating bridge and examine the various pieces of apparatus for transmitting signals from the engine room to the bridge.

The turbo-generator section. There are two turbo-generators consisting of a steam turbine driven motor, a generator, a condenser, a pump, and a fan. This generator is operated by the steam turbine and produces the current we have been seeking.

The electric motor acts as a connecting link between this high-speed turbine and the low-speed motor which drives the propellers. Mechanical energy must revolve at a relatively high speed—2,000 revolutions per minute.

The possibility of grouping the machinery, says an officer, means a greater protection for the apparatus from shell fire, grounding and collision. We might say that this feature, plus the electric control, constitutes one of the essential superlatives of electric drive.

Thus the electrical propulsion equipment of the New Mexico may be briefly summarized as follows: Two steam boilers deliver steam to two turbines. The two turbines operate two propellers. The two generators produce electrical current. The electrical current is led through copper cables to the control station where it is stored in storage batteries which stand ready to keep the electric lights going should the main lighting system fail.

The current which the two turbo-generators produce is used entirely in the actual propulsion of the vessel. The New Mexico must have auxiliary electrical energy with which to operate scores of auxiliary apparatus.

For instance, electric motors operate the 12-inch gun turrets, the gun elevators, the ventilation of the ship, electric fans, telephones, heaters, pumps, refrigerating machinery, wireless apparatus, kitchen appliances, laundry equipment, and to any nothing of the lighting system. Motor-driven machinery also operates the hoist cranes and the hoist rollers. There are also storage batteries which stand ready to keep the electric lights going should the main lighting system fail.

When we do the current come from to operate them? We ask. It comes from six auxiliary turbo-generators and we find two of them just forward and two just aft on the same level as the boiler room from which we have just emerged. It is supplied to the turbo-generator, and the others are similar to it.

Having seen how the ship is propelled, and controlled, we are naturally curious to see the source from which the transmission comes. The answer is in the switchboard located forward in the engine room.

It is a profession, so to speaking, in the engine room, looking up and down. Young Lou makes the conventional remark: "I have a right to think it is that." It is, he explains, who discovers for the first time that the ship is not a mere collection of machinery and boilers.

NAVIGATING BRIDGE WITH ELECTRIC DEVICES

ELECTRIC DRIVER IN LAUNDRY

ELECTRIC DOUGH MIXER

between the bottom of the ship and the main deck.

All the baking is done electrically—coke breaders, while the loaves are baked in electrical ovens. Next we visit the electric laundry with its many ingenious machines electrically driven. Electricity also plays its part in other places such as the crew's library, reading room and recreation quarters; the barber shop; the sick bay, with its up-to-date operating room; Capt. L. Willard's quarters, the officers' wardroom, etc.

The New Mexico has 12 14-inch guns and many of smaller caliber, including a battery of anti-aircraft guns. The larger caliber guns, three in each of four turrets, are operated by electricity. The turrets are revolved and the guns elevated by electric motors. Ammunition hoists run electrically and there are electric gun loaders, while even the big guns are fired by electrical means, but the smaller caliber guns are generally operated by hand.

In examining into the control of these great batteries of destruction, we come to one of the most interesting spots on the ship—the conning tower. Navy regulations designed to withhold important matters of military design, forbid us from obtaining a picture of the conning tower. But it is permissible to describe it briefly.

Up on one of the masts we encounter one of the big "eyes" of the ship—an electrical eye which can see for miles in lanky darkness. The current for the operation of the searchlight comes from one of the turbo-generators heretofore described. In the electrical propulsion of marine vessels opening up an entirely new era of scientific advancement and will the day when the seven seas will be dotted with electric ships? So far as our own navy is concerned, Secretary Daniels expressed the essence of the idea when he said: "The electrical propulsion of marine vessels is not only a matter of engineering, not alone because of the pronounced success in this particular line in the New Mexico, but because of the assurance it gives us of the superiority of our capital ships to those of foreign countries."

"The New Mexico is the first and only dreadnaught of any nation to have electrically operated propelling machinery," continued Secretary Daniels. "On this account she has been an object of surpassing interest to the officers of our own navy and to those of foreign navies as well, and to electrical engineers in general."

The result was satisfactory from every point of view and confirmed the judgment of all who were in any way concerned in its design and adoption. The electrical propulsion of marine vessels is not only a matter of engineering, not alone because of the pronounced success in this particular line in the New Mexico, but because of the assurance it gives us of the superiority of our capital ships to those of foreign countries."

VINCENT NOW A RESERVE AVIATOR

J. G. Vincent, co-designer of the Liberty aircraft engine, has been commissioned by the president a colonel in the officers' reserve corps of the United States army. The appointment is in the aviation section of the signal corps, and specifies a flight rank.

"I am glad to accept this commission because I believe the officers' reserve corps offers the best opportunity that peace time affords the citizen for service to his country," said Colonel Vincent. "It is an effective means of lining up for the government in time of peace the men who by special training are available in time of war."

"Then, I think the corps offers men who are interested in special lines that from their nature are certain to be called upon in war time. The purchase of keeping in touch with the government officials at work along the same lines."

SURGEON GENERAL BLUE ON THE "FLU"

"Flu" cost 500,000 lives in the United States. Will it come back this year? This question, being asked by thousands of scientists and millions of laymen throughout the world, is discussed by Surgeon General Blue of the Public Health Service in an official bulletin in which it is said that the plague probably will reappear, but not in as severe a form as last winter.

General Blue says that evidence points strongly to infected eating and drinking utensils especially in places where food and drink are sold to the public, as being one of the modes of transmission of this disease.

VANDERBILT WOMAN AN ENEMY ALIEN

Countess Lavinia Stoeckley, who formerly was Miss Gladys Vanderbilt, has arrived from Europe with her four children—Cornelius, ten years old; Alice, eight; Claudia, six, and Sylvia, ten months. The countess, who by her marriage, became an Austrian subject and, therefore, technically is an enemy alien, was permitted to come here by special arrangement of the state department. She went to Switzerland last February with her husband, who is still in Germany, and from there to Italy. She was met by her brother, Reginald Vanderbilt, and her sister, Mrs. Harry Payne Whitney. It is her first visit here since the European war started.

"I am glad, oh, so glad, to be back in the United States," she said. "During the war I stayed in Hungary. I really want to discuss the war or what happened to me. All I can say is that the fighting has been most interesting, and I am glad to see the old and the young of my country."
