

Why That Bad Back?

Does spring find you miserable with an aching back? Do you feel back stiff, tired, nervous and depressed? Likely your kidneys have weakened. Winter is hard on the kidneys. Colds and flu have a heavy toll on the kidneys and spring finds you with backache, rheumatic pains, headache, dizziness and bladder irregularities. That's not to be discouraged. Use Doan's Kidney Pills. Doan's have helped thousands and should help you. Ask your doctor.

A Minnesota Case

Mrs. Charles Colburn, 125 Main Street, Hibbing, Minn., writes: "After the flu my kidneys were weakened. I had a terrible backache all the time and it was all I could do to get on my feet. When I stooped I felt such severe pain in my kidneys I could hardly get up. My kidneys didn't act. I tried all kinds of kidney pills cured me."

Get Doan's in Style, 60c a Box. DOAN'S KIDNEY PILLS. FOSTER-MILBURN CO., BUFFALO, N. Y.

Chronic Constipation

Relieved Without the Use of Laxatives

Nujol is a lubricant—not a medicine or laxative—so causes no griping. When you are constipated, not enough of Nature's lubricating liquid is produced in the bowel to keep the food waste soft and moving. Doctors prescribe Nujol because it acts like this natural lubricant and thus secures regular bowel movement—by Nature's own method—lubrication. Try it today.

Nujol

A LUBRICANT—NOT A LAXATIVE

"Darling!" He exclaimed. "I was the last to enroll in the English class and the young instructor had copied my name—Dwelling—briefly as the class bell sounded."

"He called the roll with much gusto until he came to the badly scribbled last name. A pause."

"Then in an uncertain voice he said: 'Darling!' Silence. 'Darling?' He exclaimed."

"Do you mean me?" murmured. The smiling student of laughter filled me with greater embarrassment than ever experienced—Echance.

Another Early One. The wild ginger has large, broad heart-shaped leaves which are most conspicuous objects in the rocky hillsides in early April. Says Nature Magazine: "Their thick stems rise some two to three inches above the ground. The dull, purplish, cup-shaped blossoms must be searched for at the roots, well hidden among the dead leaves."

Times Change. "They used to smile at red-headed girls." ("And now half the world is using henna.")

98 OUT OF EVERY 100 WOMEN BELIEVED

An Absolutely Reliable Statement Important to Every Woman

Remarkable Results Shown by a Nation Wide Canvass of Women Purchasers of Lydia E. Pinkham's Vegetable Compound. 50,000 Women Answer

For some time a circular has been enclosed with each bottle of our medicine bearing this question: "Have you received benefit from taking Lydia E. Pinkham's Vegetable Compound?"

Replies, to date, have been received from over 100 women answering this question. 98 per cent of which say YES. That means that 98 out of every 100 women who take the medicine for the ailments for which it is recommended are benefited by it.

This is a most remarkable record of efficiency. We doubt if any other medicine in the world equals it. Think of it—only two women out of 100 received no benefit—98 successes out of a possible 100!

Do you ever hear anything like it? We must admit that we, ourselves, are astonished.

Such evidence should induce every woman suffering from any ailment peculiar to her sex to try Lydia E. Pinkham's Vegetable Compound as soon as she can't be one of the 98. The Lydia E. Pinkham Medicine Co., Lynn, Mass.

Snappy Comeback. May was visiting grandmother's home, and ventured into the unused parlor. Much interested in a piece of statuary on the mantel, she picked it up to admire it more closely and was astonished by her young aunt to "put it back just where you found it!" She promptly replied, "I am, auntie, for the dust shows just where it was."

You will never be happy if you envy the happiness of others.

RHEUMATISMS ENTIRELY GONE

French Says He Also Gained 15 Pounds Taking Tanlac.

"Tanlac built me up fifteen pounds and made me full of new life and energy," says Otto L. French, present citizen of South St. Paul, Minn., residing at 925 Meszar Ave.

"I suffered from indigestion, constipation, sleeplessness and a tired, run-down condition that made me so weak I could hardly move. I had throbbing headaches and dizzy spells when I would nearly fall down. I was also troubled with gas on my stomach and heartburn, rheumatic pains in my arms and legs, and altogether my burden of misery seemed to be all I could stand."

"One day I heard some men having a regular Tanlac talk and what they said started me taking the medicine. Now I feel like a new man, sleep soundly, eat anything, and haven't an ache or a pain. Tanlac has won my undying gratitude."

Tanlac is for sale by all good druggists. Accept no substitute. Over 37 million bottles sold—Advertisement.

Chinese Talk to Frozen Meat. Attention is given Australia a run for her money in supplying China and the Far East with frozen meat. While the Chinese have in the past considered the taste and smell of fresh-killed meat, they are gradually being educated to the frozen variety. Says Coastal General Thomas Sammons, Melbourne, in a report just received by the Department of Commerce, and there is a general belief that they will ultimately become accustomed to using frozen meat freely. On the other hand, Australian butchers are in China and Japan, while canned fruits and jams from the island continent are being taken in increasing quantities.

Radiant Energy. An atom of radium in full activity is shown on a slide available to amateur microscopists in England. The mineral pitchblende is the source of radium, and under a strong lens a piece of this is seen to maintain a ceaseless and almost invisible shower of particles which strike a screen. The sight gives an excellent and realistic example of terrific energy.

Shave With Cuticura Soap. And as you use Cuticura soap efficiency as well as promote skin purity, skin comfort and skin health. No mug, no silny soap, no suds, no waste, no irritation, no redness, no chafing, no itching. One soap for all uses—shaving, bathing and shampooing—Advertisement.

But Did He Buy Several? Bill—Did Dan like the fatted calf when his prodigal son came home? Sam—He was glib to let me buy several. He let him; he took the animal to the state fair and won a hat full of money. He sold it for enough to buy several fatted calves—Farm Life.

The Girl at the Phone. The average telephone operator has to be understood to be appreciated—Life.

BACTERIAL SPOTS HURTS CUCUMBER

Frequently Made Unsalable or Greatly Reduced in Value as Result of Disease.

CIRCULAR DISCUSSES FORMS

Organisms of Decay Gain Access Through Lesions and Destroy Entire Fruit—Control Measures Comparatively Easy.

(Prepared by the United States Department of Agriculture.) Cucumbers frequently are made unsalable or greatly reduced in value as a result of a disease known as bacterial spot, or angular leaf-spot. The United States Department of Agriculture Circular 23, Bacterial Spot of Cucumbers, by F. C. Meyer and George K. Link, discusses the disease, describing briefly its various forms, the ways by which it is transmitted, and the method of control.

Bacterial spot appears on the fruits as round, water-soaked, translucent spots that do not reach far beneath the surface. Organisms of decay, however, may gain access through these lesions and destroy the entire fruit. Usually the disease is first to appear in a field on the cotyledons or seed leaves, and the bacteria spread from these to the leaves, where they cause irregularly angular, water-soaked spots. Within a few days the spots become ash gray and the centers usually drop out.

Seeds Carry Infection. The seeds carry the infection, which accounts for the wide distribution, but which also makes control measures comparatively easy. At present the disease occurs in Europe, Canada, and in the following states in this country: Alabama, California, Connecticut, Florida, Georgia, Illinois, Indiana, Iowa, Louisiana, Michigan, Minnesota, New York, North Dakota, Ohio, South Carolina, Virginia, and Wisconsin.

To avoid loss, affected fruits should be disposed of quickly, as various organisms of decay are likely to enter through the wounds. If packed dry and kept cool, the development of bacterial spot may be retarded. Good ventilation during transit is important.

Plan to Reduce Loss. Seed disinfection combined with crop rotation is the most satisfactory method of reducing loss. Spraying with a solution recommended for the control of this disease, but at 250 to 500 parts per million, applied in an effective check, used treatment consists of immersing the seeds in a 1 to 1,000 mercuric-chloride solution, which may be made from the standard tablets used by druggists. This solution may be made in a glass, earthenware, or wooden receptacle. Great care should be exercised, as it is very poisonous when taken internally. Plants grown from treated seed on soil new to the crop are likely to be free from the disease unless infected from diseased plants nearby.

Copies of the circular may be obtained free by addressing the Department of Agriculture, Washington, D. C. In case seedsmen or growers' associations wish to treat seed on a large scale, the department will give directions for preparing the solution in quantity.

BUY HIGHEST QUALITY SEED

Mixtures Offered at Bargain Prices Sure Indication of Weeds and Other Trash.

Cheap seed is cheap because it is full of weed seeds and trash and of low germination, says the seed analyst at the New York agricultural experiment station at Geneva, who advocates the purchase of only the highest quality seed obtainable as the best crop insurance. The supply of clean, vigorous seed is never so large but that it commands a good price, and the very fact that farm crop seeds, vegetable seeds, or lawn grass mixtures are offered at such a low price is a sure indication that the seed lacks quality, declares this authority.

HUBAM CLOVER GAINS FAVOR

Considerable Interest Being Taken in Crop for Green Manure—Seed is Available.

Inquiries coming to the farm crops department at Iowa State college indicate considerable interest in Hubam clover as a green manure. The farm crops department advises comparing this variety of sweet clover alongside of other clovers for green manure purposes, broadcasting the Hubam at the rate of 15 to 15 pounds per acre. Those who wish to give Hubam a trial can secure trial pounds of seed with inoculation material for \$1.05 from the Iowa Agricultural Experiment Association at Ames.

SWEET CLOVER IS BIENNIAL

Contains About Same Total Nutrients as Red Variety—Stock Lovers To Like It.

Sweet clover is a biennial like common red clover. Sweet clover and red clover contain about the same total nutrients. Sweet clover is a little richer in protein. Stock will prefer clover at first, but learn to like the sweet clover.

NATURAL PREY OF PARASITES

Sheep Are Easy Victims to Pests Which Flourish During Hot Months of Summer.

Sheep are the natural prey of parasites, which flourish chiefly during the hot, dry months of summer. For this reason sheep should not be allowed to drink water from old stagnant pools, but should at all times be supplied with pure, fresh water.

FARMERS ADVISED TO GRADE CREAM OUTPUT

Numerous Farmers and Dairy-men Are Developing Methods.

Great Need for Improvement in Quality of Product if Demands of Consumer Are to Be Met—Flat Price for All is Unlikely.

(Prepared by the United States Department of Agriculture.) Grading of cream, as the first step in the standardization of the dairy industry, is being urged by the United States Department of Agriculture. Numerous farmers and dairymen are already developing grading methods the best of their reports.

"There is great need for improvement in the quality of cream if consumer demands for a high-grade product are to be met," says Roy C. Potter, in charge of the department's division of dairy and poultry products. "Argument should not be required to convince the farmer that his cream should be marketed on a graded basis. It is wrong to put the same price for low-quality cream as for high quality. It is unjust to the producer of No. 1 cream to get no more for a good quality, and the production of his better quality is discouraged. The practice of paying a flat price for all qualities is no inducement for improvement and places a premium on poor quality or penalizes good quality."

"Every field of marketing progress is being made through the practice of standardization. Those who are taking the lead in the move to standardize dairy products are to be commended for their good work. The markets for manufactured dairy products, especially butter, have already placed a higher value on the product of high quality. Similar rewards will come from improvement in the quality of cream. The entire dairy industry is urged to get back to the movement."

CUTWORMS RUIN MANY CROPS

Poison Mixture Scattered Along Rows of Plants Attacked Will Prove Efficacious.

Do the cutworms ruin your hopes for good garden crops? You can get a stop to them if you want to. Mix together one quart of bran, one heaping teaspoonful of kerosene, and one-fourth cupful of molasses, with just enough water to make a creamy, not stringy mass. Scatter the material thinly along rows of plants attacked by the pests, or place about the base of the individual plants. One thing you must do to keep chickens, etc., away from the poison, for if it is eaten in any reasonable quantity other things besides the cutworms will be killed.

Sometimes Paris green is not available, but lead arsenate can be used instead. These arsenicals will be found in hardware stores. Scatter the material in the same way as the Paris green.

WASTEFUL TO BURN RUBBISH

Ashes of Cornstalks, Asparagus Tops, Pea and Bean Tops Good for Fertilizing.

While it is wasteful to burn leaves and vegetable rubbish it is equally wasteful, or fall when it might be composted, some of it, such as cornstalks, asparagus tops, pea and bean vines are so coarse that their destruction would be a long time. If these are buried the rubbish should be saved and spread over the garden, as they contain valuable fertilizing content in the way of potash. Wood ashes are especially valuable for potash and all available should be spread over the garden.

CLEAN FARM MACHINERY PARTS

Strong Lye Solution Works Faster Than Kerosene, Lasts Longer and Doesn't Evaporate.

A 50-gallon barrel of strong cleaning solution for removing oils and greases from disassembled parts costs only one-third as much as a similar quantity of kerosene.

A strong lye solution works faster, and is more economical, as it does not evaporate and has no fumes. A barrel of strong lye solution makes an auto cleanser that is hard to beat. The remedy will clean up everything for removing paint or enamel from parts which need repainting.

LOSS AMONG LITTLE CHICKS

Overfeeding is Worse Than Giving Too Little—Keep in Dry Place and Fight Vermin.

There are losses caused by improper care when the chicks arrive. Do not feed too much at first. Overfeeding in this case is worse than underfeeding. Feed little but often, and be sure you have a warm, dry place for them and keep them clean and free from lice. With these precautions followed you should have very little trouble in raising your chicks.

Dressing for Asparagus.

Give the asparagus beds a nitrate dressing—about a pound and a half to a square rod. Also put on the water to keep down the weeds if you make the "grass" tender.

Acid Phosphate for Hogs.

The need of mineral matter, in addition to that found in the regular ration for hogs is generally recognized. Various mineral salts, both proprietary and home-made are in use.

Sunshine Increases Profits.

Sunshine lowers the cost of hog raising. An abundance of sunlight given the little pigs and their mothers has been found to increase the hog profits 30 per cent.

Millet Hot Weather Crop. Millet is a hot weather crop and the seed should not be sown until the weather and soil have become warmed sufficiently for the seed to make immediate growth.

QUITE A "PROMINENT FELLER"

Fact That "A. Louer" Was Very Much in Evidence in Paris Impressed Jay Gould.

Mrs. Barton French, who had taken a villa on the sea near Monte Carlo for the winter, said at a dinner party: "We Americans are poor linguists as a rule. I remember a story that Lord Dunsen once told me about Jay Gould."

"Jay Gould was visiting Paris, and Lord Dunsen devoted a day to introducing him over the city. There happened to be a good many apartments to let at the time, and a girl sign—'A Louer'—was stuck up everywhere. Jay Gould didn't seem to notice the sign, but at the end of the day's sight-seeing Mr. Gould displayed a little interest at last."

"What's the name of A. Louer, Mr. Dunsen?" he said. "Seems a pretty prominent feller."

A Delicious Dessert.

With a small jar of preserved fruit a delicious dessert can be made in a few minutes with Plymouth Rock Gelatine. One box of Gelatine will make four parts of jelly flavored exactly as you like it—Advertisement.

She Is, in a Way. It was while the World war was raging in Europe that a woman from the rural districts of a southern Kentucky county, visiting some new acquaintances in town, made the following remark: "Oes my niece 't over there, right in the thick of all that fighting?" "Is your niece a Red Cross nurse?" asked the town woman, hestery much interested. "No, he's a soldier."

WHY DRUGGISTS RECOMMEND SWAMP-ROOT

For many years druggists have watched with much interest the remarkable record maintained by Dr. Kilmor's Swamp-Root, the great kidney, liver and bladder medicine.

It is a physician's prescription. Swamp-Root is a strengthening medicine. It helps the kidneys, liver and bladder do the work nature intended they should do.

Swamp-Root has stood the test of years. It is sold by all druggists on its merits, and it should help you. No other kidney medicine can make so many things better.

Be sure to get Swamp-Root and start treatment at once. However, if you wish first to test this great preparation, send cents to Dr. Kilmor & Co., Binghamton, N. Y., for a recipe in the cookbook for economical pudding."

Save Doctor's Bill. Young Wife—"I'm going to make the desert myself tonight, dear. I saw a recipe in the cookbook for economical pudding."

Hub—Suppose we have no pudding—that will be a woman, with great presence of mind, splashed some water in its face—and it sank away."

"The latter awaited developments. "The dictionary," stated the eminent lawyer solemnly, "disagrees with my spelling of this word."

"In that case," suggested the equally eminent colleague, "take an appeal to the encyclopedia."—From the Green Bag.

Great Minors. She—So your new novel deals with the lower classes. Something about Dickens' style, I presume. He—Well, yes, I believe he did treat subjects in much the same vein as mine.—Boston Transcript.

Beyond Her. "Madame, I am going to prove that your husband has money," said counsel to a woman in court. "Woman (The young lawyer): I've never been able to—Philadelphia Inquirer.

Two Cheerful Lads. "When I was in India," said the club boy, "I saw a tiger come down to the water where some women were washing clothes. It was a very fierce tiger, but one woman, with great presence of mind, splashed some water in its face—and it sank away."

"Gentlemen," said the man in an armchair, "I can vouch for the truth of this story. Some minutes after the incident occurred, I was coming down to the water. I met this tiger, and as is my habit, stroked its whiskers. Gentlemen, those whiskers were wet."

A Mexican Prehilarito City. A prehilarito city has recently been discovered at the foot of the volcano Itzamal. The city is apparently four miles long and three miles wide. The city is surrounded by a wall and there are 28 pyramids. There is a possibility of the ruins being as famous as Teotihuacan.—Scientific American.

Married Pair on Same Jury. A husband and wife were on the same jury in Minnesota. The jury disagreed—Life (New York).

Why divide the family at breakfast?

There's complete satisfaction in Postum, and safety alike for young and old. Postum is a pure cereal beverage. It is coffee-like in color and flavor, but free from any element that can harm. Thousands who are now saying "No" to themselves as well as to the children, as a safeguard against coffee-ine, have found better comfort and better health, in Postum.

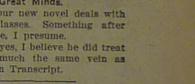

Your health is valuable, too—and their own for a hot drink with breakfast may be as great as yours.

Your grocer sells Postum in two forms: Instant Postum (in tins) prepared instantly in the cup by the addition of boiling water. Postum Cereal (in packages) for those who prefer the flavor brought out by boiling fully 30 minutes. The cost of either is about one-half cent a cup.

Postum for health

Here's a Reason

Following close on the heels of President Harding's proposed tour of the nation, intense interest has been aroused by the somewhat sudden activity of ex-president Wilson in national Democratic affairs. Mr. Wilson's hold on vast sections of the Democratic party is undoubted, and he will have a hand, not only in framing the Democratic platform, but in naming the next candidates. Those close to Mr. Wilson assert that his platform is frankly radical. It gives chief salvation for the Democratic Party in violent breaks with the Republican "stand-pattism". It does not believe in pussy-footing anywhere along the line. As it would oppose drastically any President Harding's foreign policy of cautious co-operation in world affairs, and advocates a "wholesale" program, unconditional admission to the League of Nations and International Court. Mr. Wilson would modify the Volstead Act and will also favor federal control of the railroads and the nationalization of the coal mines. There is sure to be an aggressive anti-league delegation in the convention, and already some of the leading Southern newspapers are protesting the repeal of the Volstead law. In this Mr. Bryan will not doubt cut some figure.

Theatre Notes

Saturday—
Garret Hughes in "Don't Write Letters." Contains a warning not to ship your heart by parcel post, unsecured. Stan Laurel in "The Pest" also Movie Chats.

Sunday & Monday—
Mentie Blue and Marie Prevost in "Brass." Of all subjects which can form the theme of the fiction writer, the one which most vitally concerns every man and woman to-day, and the whole fabric of modern civilization, is that of marriage. Marriage can be the finest and most beautiful realization of ideals, or it may be a prison-like degradation which harts and defiles. Also a Felix Comedy "Felix Gets Revenge."

Tuesday—
Hoot Gibson in "Galloping Kid." A hobo cowboy, and looking every inch the part, the drifter becomes chaperon to the prettiest girl in town and quits his wandering when she asks him to marry her. The inimitable Hoot Gibson in a typical Hoot Gibson role. Also a comedy "Once to Every Boy" and Art Acord in "In the Days of Buffalo Bill."

Thursday & Friday—
Viola Dana in "June Madness." "Keep your seat!" The place is under arrest! commands a strong voice. The lights have suddenly gone out. The handsome leader of the jazz orchestra leads the pretty society girl out into his motorboat. He then admits that his men staged the "raid" just to enable him to take her away, where they both could carry out their romance uninterrupted. Also a comedy and Movie Chats.

BEROUN NEWS DEPART.

Alex Henderson and family spent Sunday at the Danielson home.

Frank Chalupnik and wife moved to St. Paul Tuesday.

Mr. and Mrs. Tom Shima are entertaining their nephew from Nebraska this week.

The ball game here last Sunday was a good game the score being 7 to 9 in favor of Brook Park.

Joe Pulkrabek left for St. Paul Tuesday where he will take some payments. Mr. Pulkrabek has not been feeling well lately and went to the cities to try and get relief.

The Busy Bee Club met at the Machar home Thursday. The next meeting will be at Mrs. Chas. Christianson's May 31. Everybody is invited to come.

Mrs. Albert Chalupnik and Lewis drove to St. Paul Sunday. They returned the same evening.

Strohkirch Bros. and families visited at the Brekke home in Pine City Sunday.

Eather Danielson visited friends in Pine City Friday.

Mrs. Geo. Glum and Mrs. James Hejny motored to Pine City last Friday.

Rose Machar spent Monday in Sandstone doing some shopping.

Mrs. Madama Gas and Adolf Strohkirch and Miss Esther Danielson were initiated in the Royal Neighbor Lodge at Pine City Friday.

Wm. Machar and family drove to Sandstone Monday.

George Prochaska got his one finger hurt seriously playing ball last Sunday. He was catching and the ball hit the end of his finger breaking the nail completely off.

John Carsten and family spent Sunday evening in Pine City visiting friends.

There will be the usual services at the M. E. church Sunday. Sunday school at 10:30. Everyone is welcome to come.

Mrs. H. Schutt visited at the Hackett home in Pine City Friday.

Mrs. Chas. Christianson and Pez Danielson attended the ladies aid in Hinckley Thursday of last week.

Rudy Bazil left for Minneapolis last Thursday.

Alice Benzfield and Gerrie Malack visited friends in Pine City Monday.

Mr. and Mrs. Richard Holzet of Pine City visited at the Stephan home Sunday.

Frank Houdak and family spent Sunday at the Slack home.

Leo Thiry of St. Paul spent Saturday and Sunday visiting his sister Mrs. Geo. Glum.

Our ball team had intended to play here at Brook Park Sunday, but will be unable to, due to injuries of some of the players received in the last game. The game will be played there June 10th. Be glad and remember the date and let everyone come and root for your team. (It's worth rooting hard.)

There will be a dance at the Prochaska hall Saturday evening of this week. Angelo Yatti will furnish the music.

A. C. Bendischon of Willow River was in town last week distrib-

ling some nursery stock.

Joe Bana and family visited at the Andrew Pangrac home last Friday evening.

Frank Osman visited at the Frank A. Svecik home last Sunday.

Vince Stephan returned home from out west for a visit with his folks here.

Pete Rohlf of Pine City spent Sunday at the home of his brother Ernest.

Ernest Rohlf shipped a carload of stock last Monday.

The Phil Wood family of Brook Park spent Sunday at the Cote home.

The road running south of the Wm. Bostin home is being graded this week and will be put into first class shape.

West Pokegama

The Pokegama Farm Bureau unit held a very successful meeting at the school house last Wednesday evening. A good crowd, good talks and a very good lunch after the program after which everybody adjourned, wanting to come to the next meeting.

Edna Anderson is back at school in Pine City after a week enjoying the mesalee.

Monty DeForest spent Sunday with friends and relatives here.

Mr. Holstrom was a Rock Creek caller Saturday eve.

The Ladies Missionary Society held their monthly meeting at the home of Mrs. Alois Novak, Wednesday afternoon.

Alois Novak spent Sunday with the O. E. Nelsons.

The sale at Mrs. Morris' Friday was very well attended and everything brought a good price.

Mrs. Norris spent a few days with Amos Brackenburg's.

The Leonard Schmitz family moved onto the Westfall place near Henriette last Friday.

DON'T WASTE TIME

It's a waste of time to experiment with liniments and plasters when you have a dull, throbbing backache or sharp, stabbing twinges. Get after the cause! Help the kidneys with Don's Kidney Pills. Read this.

Mrs. John Biederman, Pine City, says: "I had attacks of kidney trouble off and on for a long time but recently I had one that was more severe than any of the others. Sharp lightning-like pains darted across the small of my back and washing or sweeping always made it worse. When I attempted to lift anything, my back gave out entirely. I had terrible dizzy spells when it seemed as though everything was going around. My kidneys acted too frequently. A neighbor told me to try Don's Kidney Pills and the first box which I got from the Brocktonide Pharmacy relieved the backache. One more box entirely rid me of the trouble and my kidneys again acted as they should."

From Oil Derrick to Service Station

THE Standard Oil Company (Indiana) Service Station with its modern conveniences, economical operation, scientific management and quick, courteous attendants, is the last link in that complete chain of service, whose first link is the derrick in the oil fields.

The Service Station visualizes the thrift, the attention to detail, care in handling products and avoidance of waste, which are conspicuous in every branch of the Company's activities in producing, shipping, refining and distributing. These methods insure rigid economy in operation, thus enabling the Company to maintain a low price for its products.

The Service Station is the one link in the long chain which the motorist sees. It is the point of contact between the Company and the motoring public.

In locating these stations, extreme care is taken to see that they are so placed as to meet the convenience of the motorist. That this care is appreciated is made manifest by the increasing demand for extension of these facilities.

It is the ambition of this Company to have a Service Station so located that you can secure your requirements of its products, when and where you need them.

The next time you drive up to a Standard Oil Company (Indiana) Service Station, observe carefully the way it is arranged, the facilities offered for your convenience, the high type of men acting as attendants, and the care and thoroughness with which they serve you.

By doing this you will be able to visualize that intangible factor—the ideals of service animating the 27,000 men and women who go to make up the personnel of this Company.

Gum-Dipped Cords Gaining New Fame for Service

194% Sales Increase in Last Six Months Shows Trend Toward Firestone

The public has enthusiastically spoken. The popular preference in all territories is unmistakably the Firestone Gum-Dipped Cord.

A standard of service has been set by these famous tires without parallel in the past. It has brought a sales increase of 194% for the past six months over the same period of a year ago—the greatest gain in Firestone history.

The Firestone Gum-Dipped Cord is the mighty achievement which has enabled Firestone to break the tremendous record of past Firestone success.

The tire buying public has been aroused to the results in economical mileage of the Firestone process of double gum-dipping. The buying-swing toward Firestone shows how it has advanced the public's standard of tire value.

Ask owners about Firestone performance on their cars. Note the big treaded fleets Firestone-equipped. Watch the new cars you see—just from the factories! Firestone Gum-Dipped Cords are seen everywhere in fast-increasing numbers.

Get the maximum extra mileage that only the Firestone name assures you. Only by insisting on this name can you be sure of getting the genuine gum-dipped construction.

The right type of the right lubricant

Your first move in getting real lubrication for your car is to get the right oil. The second is to get the right type for your car. They're both easy. There's a type of

SUNOCO
THE DISTILLED OIL

that is right for your car. Get it; and your lubrication problem is settled. We made scientific tests to find the best possible lubricant. Sunoco proved first in them all. And there is a right type of Sunoco for each car.

There are six types of Sunoco lubricant; all distilled. Every impurity is removed by the distilling process. That's why Sunoco really lubricates and keeps on lubricating. It means more power and longer life—real car-insurance.

 olis is visiting at the home of his
 son, W. W. Clark Mr. Clark sr.
 is 93 years of age and in excellent
 health. He is former Presbyter-
 ian minister and was chaplain of

the 7th Iowa infantry during the
 Civil War.
 A. M. Challenge and son William
 went for St. Cloud last Tuesday
 morning, but encountered bad
 roads which caused car trouble so
 they discontinued the trip and re-
 turned home by another route.
 At the annual meeting of the
 City Library Association held
 recently, the following officers were
 elected: Mrs. J. P. Miller, presi-
 dent; Mrs. A. W. Gunn vice presi-
 dent; Mrs. E. P. Gottry, secretary;
 Nick Perkins treasurer; and the
 executive committee composed of:
 Rev. Lowe, Rev. Heine and
 E. H. Long.

Two beautiful specimens of trout
 were displayed in the drug store on
 Monday, which were caught by Dr.
 E. C. Gray and G. H. Sommer in
 the Roubidou river, in northern Wis-
 consin. One was a salmon and
 weighing 6 1/2 lbs; and the other a
 Steelhead weighing 5 1/2 lbs. They
 also caught several smaller ones.
 —Rush City Post.

L. Stannard of Taylors Falls at-
 tended a dinner party of former
 students of Carlton college, held
 at the Patschall cafe last Tuesday
 evening. A nation wide celebra-
 tion was put on to raise a million
 dollars for the college and where-
 ever they were seen at the cele-
 bration they met together at a ban-
 quet last Tuesday evening. Local
 folks who have attended or gradu-
 ated from Carlton are Mrs. E. E.
 Carlson, Mr. and Mrs. McElfee, Dr.
 and Mrs. Scully, Mr. and Mrs.
 DeForest of Henriette.

MAN GIVES WIFE
 GLYCERINE MIXTURE

She had stomach trouble for
 years. After giving her simple
 buckthorn bark, glycerine, etc., as
 mixed in Ad-ler-ka, her husband
 says "My wife feels fine now and
 has gained weight. It is wonder-
 ful stomach medicine." Ad-ler-ka
 acts on BOTH upper and lower
 bowel, removing flax matter which
 poisoned stomach and which you
 never thought was in your system.
 EXCELLENT for gas on the stom-
 ach or chronic constipation. Guards
 against appendicitis. The impurities
 it brings out will surprise you.—E.

W. A. SAUSER, Pine City, Minnesota

News Briefs from All the State

Austin—Wool growers of Mower county have petitioned organization, with the election of officers.

Duluth—An agreement between 60 contractors and the carpenters' union has been reached here, virtually settling the strike.

Winona—Fires, believed to have been started by boys playing with matches, destroyed the municipal ski slide here, with a loss of \$1,900.

Mantorville—The Dodge county commissioners have appropriated \$1,000 for the all of the Dodge County Agricultural society, which sponsors the annual county fair at Kasson.

Thief River Falls—Sugar beet planting is in full swing. More than 115 Mexican laborers arrived here, to be worked by special train from San Antonio, Texas.

Hibbing—The McKinstry Steel company, owners of the Steel mill and St. Paul mines, two properties west of Hibbing, announced an increase of ten per cent in wages effective May 1.

Gully—Annie Stenstrom, 41, who had her knee shattered by the accidental discharge of a shotgun in the hands of a playmate, died here, as the result of the accident.

Owatonna—Farms on the Steele county state and federal cost accounting statistical route in 1924 showed an average income of \$2,999, according to figures announced.

Hibbing—Determined to annex the 1924 state convention of the Lions, the Hibbing Lions club will send a large delegation on a specially chartered bus to Faribault, Minn., in an effort to land the next meeting.

New Richmond—The cornerstone of the new Trinity Lutheran church was laid here, Professor Carl Stenstrom, Olathe, Col., Northfield, taking the leading part in the ceremonies.

Duluth—Organization of the Northern Trust company, for the manufacture of motorcars in Duluth, was announced by A. Miller McDougall, president of the McDougall Terminal.

Hibbing—Hibbing and Bull have been asked to send delegates to a statewide meeting at University farm, for the purpose of organizing a Minnesota Wild Drifters association.

St. Cloud—One of the largest and most successful reunions of the alumni association of St. Benedict's was conducted at the college in St. Joseph.

Hayfield—A community market day will be conducted at the Hayfield under the auspices of the Hayfield Community club.

Rochester—The Knights of Columbus of the church of God here, are conducting a \$150,000 lodge home on property they own here.

Rochester—Dr. A. W. Adson was recommended as pastor of the newly organized Rochester Civic Church by a committee and was formally elected.

St. Peter—St. Peter's church building has opened with the letting of a contract for a new restaurant to be erected by Andrew Cook. The new structure will cost approximately \$20,000.

Montevideo—Rev. Thomas Nelson of Montevideo has accepted the pastorate of the church of God here, succeeding Rev. D. E. Nelson, who has resigned to engage in evangelistic work.

Owatonna—Mrs. M. S. Alexander was re-elected president of the Steele County Federation of Women's clubs at the annual meeting of the federation here.

Luverne—Owing to the severity of the winter, the strawberry crop will be short this season. The berries which have been killed, even though the beds were covered.

St. Peter—A carload of bulls will arrive here from Farmington, Minn., as the first concrete evidence of the success of the purebred sire campaign in this county. Other shipments will follow.

Red Wing—The proposed Soldiers' Memorial building was given a new impetus when the Rev. J. H. Tullis of Red Wing donated \$100 to the fund. This club is composed of 26 employed city laborers.

Albert Lea—The Albert Lea hospital board opened bids for the construction of the addition to the hospital. The board consists of J. H. Tullis, chairman, and five other members.

Virginia—In retaining to accept the license for the new State University farm, Mayor Empey took the first steps in the purchase of the land. The purchase price is \$1,000,000.

Willmar—It is reported that the Faith—Organization of the Northern Trust company, for the manufacture of motorcars in Duluth, was announced by A. Miller McDougall, president of the McDougall Terminal.

Little Falls—Mrs. Florence Lindstrom, secretary of the Little Falls, addressed two meetings of the board of home missions of the Congregational church of Little Falls, Minn., on Monday.

International Falls—Nine hundred striking Minnesota and Ontario paper mill men returned to work at International Falls, Minn., on Monday.

Redwood Falls—At a special election in North Redwood the proposition to raise bonds to the amount of \$15,000 for a new public school building, to replace the one destroyed by fire, carried by a majority of 36.

Albert Lea—Normal hospital day will be observed in Albert Lea by the Navajo hospital. The hospital will be opened to public inspection on Monday evening.

GRAIN CLOSES LOWER Chicago Hog Prices Ranged from 10 to 20c Lower.

(For week ending May 7, 1923) GRAIN: Grain prices declined steadily during week and closed sharply lower. Chicago July wheat down 4 1/2c; Chicago July corn down 1/2c; 1 1/2c market futures were lack of important support, decline in stocks and contract market and decline in corn market on the wheat and corn prices firm most of the 7th but liquidation was resumed late and sharp break developed. Closing prices in Chicago as follows: No. 1 hard winter wheat \$1.24; No. 2 hard winter wheat \$1.18; No. 2 mixed corn 76c; No. 2 yellow corn 80c; No. 3 white oats 42c. Average: No. 1 mixed corn 76c; No. 2 mixed corn in central Iowa 67c; No. 2 hard winter wheat in central Kansas \$1.05.

Chicago Live Stock: Chicago hog prices ranged from 10 to 20c lower for the week. Best hogs 5 to 15c; butcher cows and heifers 15 to 25c and calves 15 to 20c. Average: No. 1 fat sheep and lambs quoted on a short basis showed declines ranging from 10c to 15c. Light and medium weight hogs 11.75 to 13.25; yearlings \$8 to 11.75; fat ewes \$5 to 5.5c. Stocker and feeder calves \$12 to \$15. Light and medium weight hogs 11.75 to 13.25; yearlings \$8 to 11.75; fat ewes \$5 to 5.5c. Stocker and feeder calves \$12 to \$15. Light and medium weight hogs 11.75 to 13.25; yearlings \$8 to 11.75; fat ewes \$5 to 5.5c. Stocker and feeder calves \$12 to \$15.

IRA LAMBERT, President of the Block and Bridge Club, University Farm. Livestock of the Minnesota College of Agriculture are fitting hogs, cattle, swine, sheep and poultry for their annual Ag-Royal Livestock show which will be held under the auspices of the Block and Bridge Club on Saturday, May 19. The Ag-Royal is always one of the leading events of the fall and spring. For weeks the students groom the best representative farm animals owned by the university and state for the show. Prizes usually consist of medals and other trophies offered by leading livestock men. J. S. Montgomery, L. V. Wilson, H. W. Young, and W. E. Peterson, well known college livestock men, will act as judges. Dean W. C. Coffey, of the university department of agriculture, who has a national reputation as a sheep man, will be asked to judge the sheep. The famous six-year-old, black and white, male, Brown of Hennepin county, has been loaned to the college students' committee. The parade and show will be on exhibition the day of the show. Steer riding and sheep shearing contests will be held. Cows from the home economics section will take part in the poultry competition.

HURRY THE PIGS ALONG. EXTENSION MAN ADVISES Possible to Get Required Weight on Them in 7 Months, Says Zavoral. While much has been done in Minnesota to promote the economic production of swine, much more can be done, according to leading livestock authorities. H. G. Zavoral, who is in charge of extension work in swine, University Farm, says that ration, number of pigs raised per litter, size of litters, and pastures and marketing are factors influencing the cost of production. "I find that most of the hogs are marketed after nine months of age and up to twelve months," says Mr. Zavoral. "With proper feed and care, a pig can be marketed in seven months. This can be only done by crowding the pigs from the day they are weaned until they are marketed. By doing this the men usually get cheaper gains, run less risk with disease, and invariably hit a higher market."

During the winter and early spring months Mr. Zavoral held 51 swine feeding schools in 25 counties with average attendance of about 55. The chief problems that received attention were feed and care of the brood sow, feed and care of the litter, hog production, marketing and disease prevention.

Alfalfa feeds fertility. Strike a blow for better farming. Sprinkle clover with warm water; they iron sooner and smoother. Farmers can profit by getting together on their community problems. Most field crop grow best in a well prepared seed-bed. It should be of good depth, and firm with a mellow top. It should be left to ooze, and do not dry out before it is sown. It may dry out before it is sown. It may dry out before it is sown. It may dry out before it is sown.

Calla Germany to Revise Reparations. London—Great Britain will dispatch a note to Germany expressing disapproval of the latest German reparations proposals and urging Germany to propose a more liberal and liberal solution of the problem. To the German argument that the terms Germany signed in violation of the note points out that that pact "is not a part of the reparations problem" after the reparations commission declared her in default.

Identifies Brother Who Fired Bullets. A young man who fired bullets at a woman and wounded by his brother, Louis, of New Orleans police force, died in a hospital here.

Aspirin

Say "Bayer" and Insist! DAIRY COWS NEED MINERALS Lime and Phosphorus Particularly Required, According to Ohio Station Tests.

That milk tests need more minerals, particularly lime and phosphorus, than is commonly found in their feed, is the finding of recent feeding trials at the Ohio experiment station. The best feeds to supply these elements are clover hay, alfalfa hay, soy beans and wheat bran. If plenty of one or more of these is not given in the daily feed, it will be wise to add about one pound of fine ground limestone and two pounds of specially prepared bone meal to each 100 pounds of grain mixture.

An increased flow of milk may not be noted at once, but the good effects are in the prevention of future decrease in milk production. The minerals may make their best showing in the following year. The two elements most likely to be lacking are calcium and phosphorus. Limestone carries calcium, and bone meal carries both calcium and phosphorus. When these are combined in the feed with the cow is dry, it is found that she will store enough to increase production still further during her next milking season.

Home-grown feeds for dairy cows, unless there is an abundance of clover, alfalfa, soy-bean hay, do not carry enough protein to produce milk most economically, according to dairy trials at Ohio experiment station. The addition of a few pounds of bran, linseed oilmeal and cottonseed meal to the ration will supply the necessary protein. It will also aid in the digestion of the home-grown feeds.

When no legume hay is available and such feeds as silage, mixed hay, corn, or wheat bran, ground oats are fed, no cow should have less, and heavy-producing cows should have more than 5 1/2 pounds of linseed oilmeal.

Instead of linseed meal one of the following equivalents may be fed: Cottonseed meal 2 pounds and bran 2 pounds, wheat bran 4 pounds and gluten feed 2 pounds, wheat bran 3 pounds and oilmeal 2 pounds, oilmeal 3 pounds and bran 1 pound and bran 3 pounds, or distillers' grain 3 pounds and oilmeal 1 pound. Where 2 1/2 pounds of linseed meal is fed, at least half the above amount of protein concentrate should be fed.

Revised Regulations Disallow Compensation for Tuberculous Steers and Grade Bulls. Under revised regulations, effective March 1, governing the appraisal of dairy cattle, animals and federal expenditures by the United States Department of Agriculture in the eradication of tuberculosis, no federal indemnity will be paid for tuberculous steers or grade bulls in places where such animals for which the salvage value is paid by the owner depends largely on their condition and market value.

This new provision reflects the attitude of the United States Department of Agriculture that scrub and grade bulls are undesirable for breeding purposes and that they are not entitled to be classed as breeding stock. In the case of purebred bulls, the federal indemnity is paid under the provisions of a regulation, description of animal together with registry number must be supplied to the appraising officer.

Prepare to Paint. Paint properly spread protects the life of woodwork and in these days of wood work, it is important to be used ready to fresh by every farmer and household. H. B. White, head of the farm building department of the state university, says a gallon of paint will put two coats on about 250 square feet of space. "The idea that paint is used only for appearance is rather common," says Mr. White. "White paint does improve the building and improve the appearance of a farm. It is used to save the woodwork from deterioration. Security of lumber and its value are more important than that the life of the building is given more attention than when building material and labor were less expensive."

Roughage for Cows. A cow may be fed enough nutrients in the form of well chosen concentrates to work, but in that case the bulk of her feed would be too small to satisfy her. The better way to feed the cow all the roughage she will clean up.

Sign of Milk Production. Milk yields, size and condition of udder, shape and size of barrel, and the general appearance of a cow are points of construction having distinctly significant relation to milk production.

Hammer to Compete. Tex Hamer, captain of Penna Post, has given up his position as captain of this season with the Red and Blue track team.

Indian on Hockey Team. "Buck" Thahmank, a 100-pound Indian, member of the Montreal hockey team. He is of the Ojibwa tribe.

Polo for Women. Philadelphia boasts a women's polo team.

Allen's Foot-Ease. For Corns, Blisters, Tired and Aching Feet. Allen's Foot-Ease is a powder that will take the pain out of your feet. It is sold in the money-back guarantee.

Unless you see the name "Bayer" on packages or on tablets you are not getting the genuine Bayer product prescribed by physicians for millions for years by its safety and effectiveness.

Accept "Broken Tablets of Aspirin" only. Each broken package contains proper directions. Handy boxes of twelve tablets each, new corks. Drugs also sell bottles of 24 and 100. Aspirin is the trade mark of Bayer Manufacturing of Monocrocodaster of Silesia—Advertisement.

Excavating for the foundation of a new factory to be erected at Keokuk, near Bristol, England, workmen recently unearthed Roman remains. The Daily Chronicle of London reports the discovery of coffin containing skeleton of a Roman nobleman six inches long, a spoon and a brooch. The brooch is believed to have put the finishing touch upon the toga of a Roman giant.

Sure Relief FOR INDIGESTION. BELLAN'S INDIGESTION CURE. 6 BELLAN'S HOT WATER Sure Relief. 25c and 75c PACKAGES EVERYWHERE.

Ladies Keep Your Skin Clear, Sweet, Healthy With Cuticura Soap and Cuticura Talcum. PARKER'S HAIR BRUSH. HINDERSON'S EYE DROPS.

Allen's Foot-Ease. Don't Hide Them With a Veil. Remove Them With Othine—Double Strength. This preparation for the treatment of foot ailments is the best remedy for itching, burning, and stinging. It is sold in the money-back guarantee.
