No. 47

VOL. XXV

Will Have Big Program at Pine County Fair September 10-11-12

Arrangements are practically completed for the big program that will be given at the Pine County Fair, which will be held on Monday, Tuesday and Wednesday, September 10, 11 and 12.

In arranging for the entertainment of Pine County fair patrons this year, the board made an especial effort to provide the fair patrons with an afternoon's program that is out of the ordinary and one that will only cost those attending the fair just the price of admission to the grounds and the small admission to the grandstand, if they desire grandstand seats.

Monday is a day that on Tuesday morning the fair will be officially opened with the first contest in the fair—the Hinkley Tennis Tournament will be one of the features of this year's fair and generous cash prizes will be awarded the winners. The tournament will be under the supervision of August Wickstrom and L. E. Appleby.

Hinkley Baseball Game
Promptly at 1:30 on Tuesday, will start the big afternoon program. This includes four big acts of acrobatic work, wire stunts, tumbling and the funniest comedy act that has ever been put on in this part of the state. Tuesday's program also includes horse racing and a baseball game between Hinkley and Rush City for a purse of \$100. Four hours of entertainment with a rest a half minute. This year's program will be put on in the grandstand with no people to obstruct their view.

One of the big features of the program will be the Sokols Club of Denmark. This is an international Bohemian organization and they will put on a program of athletics and calisthenics which last from an hour to about an hour and a half. About 100 people will take part in this number and they will be assisted by quite a number from the St. Paul club. This is absolutely a new feature and is a whole program in itself.

Flying Circus
On Wednesday afternoon the big feature will be the St. Paul Diaplate Flying Circus. Three big aeroplanes will start flying with loop the loop, dives and all kinds of thrilling stunts by the plane. The 450 number the plane goes up with an engine that works like a wiper, stands upright as the plane loops the loop, lowers a rope ladder and jumps from it by his knees and hangs by his teeth from the lower rung of the ladder. This is a thriller with the nation and the stunts as it put on at the state fair. The aeroplane stunts also include a parachute drop of the acrobat who jumps from the plane when it is two or three thousand feet in the air.

Wednesday's program also includes the Sokols club of Denmark, the four big feature free acts, horse races, baby show and the year's confusion during the judging.

Askov-Sandstone Band
The combined Askov and Sandstone bands will furnish the music

for Wednesday and their orchestra will play for the dance in the evening. The management of the fair will give Pine county a real entertainment with an absolutely clean show. No profanity will be allowed on the ground. When you buy your ticket at the gate it will admit you to the best fair program that has been shown here in recent years.

Farm Club Premiums Doubled
An effort will be made by the management to have the biggest Farmer Club exhibit ever shown here. As an inducement to the club to prepare exhibits the amount of premiums offered other years will be doubled and five prizes will be given instead of three. First premium will be \$50, second \$40, third \$30, fourth \$20 and fifth \$10. Last year the premiums were \$35, \$25 and \$15. Farm Clubs are asked to get in touch with the secretary at once and make reservations for their club.

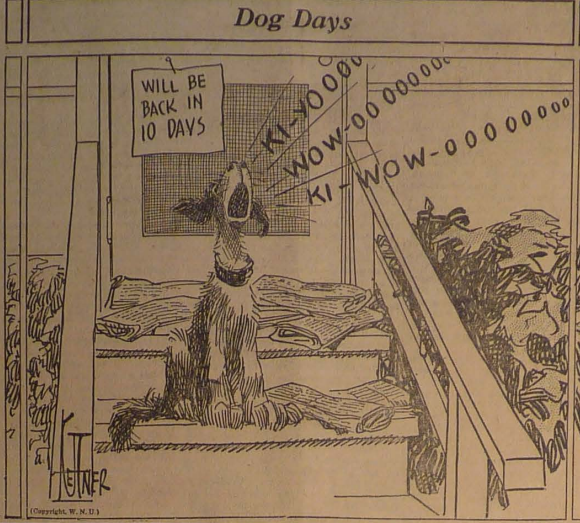

The premium committee is working on the prizes and many of these will be increased this year. The fair will not be crowded with an exhibit there to represent Pine county and will do this without any assistance from the county board this year. Mr. Pofert understands the gathering and arranging of such an exhibit thoroughly through past experience and he will first make so that extra space can be provided.

Horse Races
George Schmidt, Rock Creek will be in charge of the horse races and he is anxious to hear from all those who have entered horses. Additional money has been added for the horse races this year and the management of the fair is anxious to have all entries in these events made as early as possible.

Ford Race
A free-for-all Ford race will be put on Wednesday afternoon after the horse races with the same prize money as last year. Those who expect to take part are asked to notify the secretary as soon as possible.

Card of Thanks
Words fail to express our feeling of thanks to our many friends for the sympathy shown, and the big assistance rendered by their kind donation of money which was presented to us last week by Mr. August Borg on behalf of those who gave so liberally. It is not alone the money which will help us so much in the big expense we have been under during Mrs. Holmes' sickness, but it makes our burden so much lighter in knowing that we have so many kind friends in this community.—Mr. and Mrs. Peter Holmes.

August Borg circulated a subscription list for Mr. and Mrs. Holmes last week and presented them with \$129.46 that was given to help out a little on the heavy expense that resulted during Mrs. Holmes' sickness. The money has been home the past few weeks and is getting along nicely and there is nothing about the subscription until the money was sent to him and takes the above way of expressing the thanks of the family.

Matt Pofert Prepares Exhibit

Pine County is to have another exhibit at the state fair this year. Matt Pofert had charge of the exhibit the past few years and will take an exhibit there to represent Pine county and will do this without any assistance from the county board this year. Mr. Pofert understands the gathering and arranging of such an exhibit thoroughly through past experience and he will first make so that extra space can be provided.

Install Refrigerator Counter

Bever & Neubert, proprietors of the City Meat Market, have installed the latest type refrigerator show case and counter. It is 12 feet in length with ice compartments at each end and has a plate glass front and top.

READ THE ADS

Card of Thanks
We wish to thank our many kind friends and neighbors for their sympathy and assistance at the death and during the illness of our beloved mother, daughter, Mrs. Dahl, and for the many beautiful floral offerings.

New Store at Beroun

Anton Karban will open a new store in Beroun this week in the new building which has just completed, near the Catholic church. The new store building is one story about 40 feet by 50 in size and gives plenty of room for a big stock of merchandise.

Band Concert at Braham

The Pine City Legion Band will give a concert at Braham on Friday evening of next week, August 10th. The band has been playing concerts at the different points of the county and the concert at Braham promises to be one of the best they have given.

Miss Annette Havel and Mrs. Frank Horvath, formerly Miss Helen Havel and her husband, arrived here Monday, for a visit with their parents and friends in Pine City. They expect to return to California in September.

Last Rites for Mrs. Fred Hartz

Mrs. Hartz passed away at the home of her sister, Mrs. Ludwig Johnson last Friday morning, where she has made her home since the death of her husband last spring. She had been in poor health for a number of years and the end was hastened over grief at the sudden death of Mrs. Hartz.

Auto License Law Will Be Enforced

Enforcing the motor vehicle tax laws in this vicinity, H. J. Catter, a special state official assigned to the work, is assisting Sheriff Hultner in the local drive against auto tax shirkers. The special officer will remain until all cars without 1922 licenses are listed. Penalties are being collected and prosecutions are to follow continued noncompliance.

Co. Board Holds Special Meeting

A special meeting of the county board was held last Tuesday afternoon for the purpose of passing the bond issue for trunk road work in Pine county. There was a large gathering present of those who were interested in the matter and a lengthy debate took place that lasted most of the afternoon.

Many Attend Farm Bureau Meet

About four hundred people attended the picnic last Sunday afternoon held in the Andrew Carlson park on Morningdale Farm upper Cross Lake and given under the auspices of the Chenoweth and Pine City Farm Bureau units.

Co. Board Holds Special Meeting

Engineer Forbes of the state highway department was present and Mr. Babcock phoned him late in the day that if the board would issue bonds for No. 1, he would see that No. 23 was put in shape. This was satisfactory to all concerned and the board passed the resolution for the money for permanent improvement of No. 1.

Auto License Law Will Be Enforced

Mr. and Mrs. Wm. Tunell drove down from Chisholm Wednesday and will spend a week or more at the home of her parents, Mr. and Mrs. F. Glasow.

Auto License Law Will Be Enforced

Enforcing the motor vehicle tax laws in this vicinity, H. J. Catter, a special state official assigned to the work, is assisting Sheriff Hultner in the local drive against auto tax shirkers. The special officer will remain until all cars without 1922 licenses are listed. Penalties are being collected and prosecutions are to follow continued noncompliance.

Auto License Law Will Be Enforced

All registered cars on which no new license applications were received by the secretary of state are being carefully checked up, according to the sheriff. Falls to collect the tax, the law provides the amounts are to be deducted from his fee bills by county commissioners. Heavier penalties are now in effect for delays in registrations and notices of transfers, applications being required within three days of sale dates.

Auto License Law Will Be Enforced

The man who can afford to own an automobile should be able to pay the tax on it, especially when it is now in lieu of personal property and all other taxation and the county and there is no excuse now for failure to display the right license plates.

Auto License Law Will Be Enforced

He added that many cases are found where acts of tags are split to serve on two machines, and tags are changed between cars, and these are the courts are imposing extra heavy fines. Regardless of whether it is done on the highway, every motor vehicle owned in Minnesota is subject to the license tax which

Pine County Cow Testing Assn. Record

Special Notice

The Richards Hardware Co.

Is equipped to drill water wells, all sizes, from 2-inch to 12-inch. We guarantee all sizes except the 2-inch and 3-inch. These sizes cannot be completed without screens and according to the highest authorities a screened well can only last a short time. Right in this vicinity last year we drilled drilled seven 5-in. wells to replace 2 and 3-in. screened wells that had only been drilled a short time ago. The village of Pine City had a 10 in. screened well which never was a success until the screen was removed, therefore what can be expected of a 2 or 3-inch well? Absolutely nothing.

WALKING MAY BE LOST ART

American People Seem to Care for Nothing but Wheels as Method of Locomotion.

Recently the Department of Commerce announced that automobile production for May totaled 94,000 pleasure cars and 42,517 trucks. Now there is issued a corrected statement showing that there were manufactured that month a total of 350,150 passenger motors and 42,958 trucks, says the Cleveland Times-Commercial.

Conservative estimates have placed the number of automobiles in use in America at the beginning of 1923 at between 10,000,000 and 11,000,000. That means machines equal to approximately 10 per cent of the population. Using the old basis of five persons to a family, we discover that about half the families in the country can ride in their own automobiles.

Since January 1 there has been produced in the United States a total of approximately 1,500,000 new passenger cars and about 125,000 trucks. The increase has been substantial each month. For instance, in January passenger cars manufactured totaled 233,708, so it will be seen by making comparisons that the industry has shown remarkable activity.

Unless there should be a change in the situation, obviously new passenger cars manufactured this year will reach the record number of about 2,500,000, with 250,000 trucks. Considering these figures with the total cars in use at the beginning of 1923, one need not be an expert mathematician to discover that within another ten years this will literally be a nation on wheels if the present rate of production continues.

These statistics may indicate a sorry day for "hobbies" and the "Old Gray Sleds." But they certainly reflect the general prosperity of the American people.

MUCH LIKE ORDINARY BOY

English Lord as a Youth Succumbed to the Temptations of a Strawberry Patch.

The best of berries figures as a triumphant tempter in the biographies of statesmen. Years ago at Eton there was a spacious garden and the celebrated for the size and flavor of its strawberries, and the proprietor made so many complaints of loss that Mr. Austin Leigh was deputed by the lord master to catch the offenders. He kept watch, and swooped down upon one offender as he emerged from the garden. There was a tussle in a ditch, then the boy broke away, crawled to the middle of the road, sat down, and solemnly addressed Mr. Leigh as "Your best!"

The result was the appearance before the lord master a few hours later of Lord Randolph Churchill, the cannot imagine such an episode in the youth of Mr. Disraeli, but there is a note of Lord Morley's at Biarritz in 1871. There, it did not happen at table, but, suffering from a sort of wild atmosphere the day before.

Thought for the Day.
Some people think they are conservative when they are really ignorant.

SACRIFICE BY SORREL PETE

Rancher on Western Prairie Marries Cranky Cook to Oblige His Old Chum.

In the door of his ranch home on a western prairie, Pete Harker—known as Sorrel Pete—sat litly when his old chum, Mac Tuley, rode up the trail.

"Whoop!" shouted Pete. "Jest look who's here! Haven't set eyes on you since you saved my life back yonder."

"Nay," agreed Mac, "and speaking of that, I'm here right now to reward you for the promise you made then; but I'm most afraid I'm asking too much."

"Sho, I'll bet you sinit, so such thing. What is it? Come, right out with it."

"Well, my wife and I want you to come over and marry our cook."

"Jest listen to that! She awful homely-lookin'!"

"Not so bad!"

"Kin the cook?"

"Fine."

"Well, I'm a bachelor man. I like women folks and good cooks, such as any other lonesome old critter does, but where's the favor I'm doing you?"

"Pete, she's the worst-tempered woman that ever tackled a rolling-pin. My wife don't dare go into the kitchen when the cook's feeting amble, and I wouldn't hanker to, either. And she won't let us discharge her; we've tried, but she says, 'and never goes back on a promise. If an old chum that saved my ornerly life at the risk of his own makes a vrit of me marrying a cranky cook, I'll do it. Come on!'—Ee-chlange."

FREAKS OF THE FISH FAMILY

Flounders and Solea Have Both Eyes on Same Side of the Head.

In flounders and solea the head is unsymmetrically formed, the median being twisted and both eyes being placed on the same side. The body is strongly compressed, and the side possessing the eyes is appressed to all side, whether right or left, is colored, while the eyeside side is white, or very nearly so. It is well known that in the very young flounder the body rests upright in the water. After a little while there is a tendency to turn to the right side, and the lower eye begins its migration to the other side. In the typical genus the movement of the eye is easily followed, so the species reach a larger size than do most fishes before the change takes place. The larva, while vertical, is in all cases transparent.

THURSDAY AUGUST 4, 1928

Not since Populist and Greenback days has the political horizon on the eve of a campaign crowded with confused issues, not even in the days of William J. Bryan's early campaign for the farmer was there not so large a factor as city labor and the "common people" as a whole in the selection of the politicians. Now however, Labor, for the time being, is almost overlooked, or it is taken for granted. The Farmer Labor vote is spoken of, but farm conditions are first. In the letter sent out from both political headquarters the major portion is addressed to farmers, reviewing what the party in question has done for them or exposing how the other party has injured them, with alluring promises of what will be done in the future if they vote the ticket advocated.

The Republican Party temporarily at least has been put on the defense by the election of Farmer Magnus Johnson in Minnesota. The western farmers have, in general, been regarded as the backbone of the Republican Party. The defections here and there have been held not to alter the major premise. Now however, Senator George F. Moses, representative of the administration and chairman of the Republican Senatorial Committee, who was plainly told that he was not wanted in Minnesota, is returning to the capital with a blunt statement that some eight other farm states are liable to follow the example of Minnesota. Mr. Moses says he does not know what is to be done or can be done; others, less frank, are obviously hard put to it to set forth plausible assurance.

Organized labor is seeing its own advantage in the movement of the farmers against the politicians, and for the time is marching with agriculture. Labor organs are full of praise for the farmers, for the "wealth producers on farms and in factories."

New England states are also bad by demonstrated so far as political lines are concerned. Southern states are standing pat while waiting for the show-down, ready to make the best bet possible to protect their rapidly growing industries and business.

Magnus Johnson of Meeker County, the second member of the Farmer-Labor party to be elected to a seat in the United States Senate—the other being his more youthful Minnesota colleague, Hendrick Shipstead—is certain to be one of the most picturesque figures in the Sixty-ninth Congress.

The public career of Senator Johnson started eight years ago when he was elected to the Legislature. He served two terms and was one of the hardest working members, especially with regard to farmer and labor legislation. In 1922 he was Farmer-Labor candidate for Governor against Governor Fubin. He came within less than 15,000 votes of election.

It is claimed that he never wore a dress suit and never will. He campaigned in his shirt sleeves, and when the days were very hot he had a habit of removing collar and tie. He is of medium height, wears gold-rimmed spectacles, looks and acts very much like Teddy Roosevelt. Likes to mix with the people, refers to himself as Magnus and admits that he has the loudest voice of any man in Minnesota. His voice is certain to create a sensation in the Senate. He can be heard two blocks away when speaking in the open, but it is a pleasant voice, and the Swedish dialect adds to its smoothness.

The gravest question confronting the United States to-day is the distress of the farming community. While the farmer is suffering because of the low prices obtained for what he has to sell, the rest of the world suffers from the high

price of farm products. Magnus Johnson, like Shipstead before him, incarnates the farmers' attempted answer to this problem. He represents the protest and the hopes of that great body of producers upon whom rest the prosperity and even the existence of the Nation. He is not to be dismissed flippantly. He is a figure to be treated with respect, because of the convictions and the justifiable revolt which he typifies.

Final returns in the Collier's Weekly straw vote showed, Ford 88,000, Harding 51,000, McAdoo 19,000, Cox 16,000, Johnson 15,000, Smith 14,000, Hughes 13,000, Wood 9,000, La Follette 7,000, Wood 5,000, Borah 4,000, Underwood 3,000, Davis, Louden, Wilson and Ralston with lesser amounts. Leave Harding out. Mr. Ford polled more votes than all others combined. He polled nearly as many as all Republicans combined, including Harding.

Six of the nine years Panama Canal record have been profitable years, but the past year's record of receipts surpasses the best of former years by 50 per cent. The total income from July 22 to July 22 is about \$17,508,000. The total operating expenses are about \$7,000,000, leaving a net profit of \$10,508,000. About one-third of the canal bond issue has been written off. And this too, under government ownership.

Theatre Notes

Friday—Will Rogers in "A Poor Relation." Brownie the "Wonder Dog" in "Why Dogs Leave Home."

Saturday—Alice Joyce in "The Inner Chamber." Larry Seemon in "Solid Concrete." Move Chas.

Sunday and Monday—"Watch Your Step." No city feller could come sneaking into town and start any ruckus, while the community had a constabulary with a badge and a gun and everything. You will roar at this and other funny scenes in Goldwyn's latest and speediest comedy.

Also a Sennett Comedy "Are Waitresses Safe?"

Tuesday—Roy Stewart in "Trimmed in Scarlet." Comedy "Fakers." "In the Days of Buffalo Bill."

Thursday and Friday—Thomas Meighan in "Cappy Ricks." Cast includes Agnes Ayers. A tale of the sea, and the world of ships. And a man who could face a storm, a fight or a glorious love—and see it through.

All hand on deck for a picture freighted with thrills and happiness! Also a Sennett Comedy "International Sheik."

Family Theatre, Hineley, Minn. Saturday—Will Rogers in "A Poor Relation." "Are Waitresses Safe?"

Sunday—Alice Joyce in "Her Lord and Master." Larry Seemon in "Solid Concrete." "In the Days of Buffalo Bill."

MAN GIVES WIFE GLYCERINE MIXTURE She had stomach trouble for years. After giving her simple backdoor bank glycerine, etc., as mixed in Adler-ika, her husband says: "My wife feels fine now and has gained weight. It is wonderful stomach medicine." Adler-ika acts on BOTH upper and lower bowel, removing foul matter which poisoned stomach and which you never thought was in your system. EXCELLENT for gas on the stomach or chronic constipation. Glands it brings out will surprise you.—E. J. Prochaska Pharmacy, Pine City

BUCHAN & GLAEDE

PINE CITY, MINN.

Big City, Minn. June 18th, 1928. Dear Neighbor Bill: Last week when I paid my rent I thought I was buying the flat I live in. That money would have paid the taxes on my old farm for a year. My next flat neighbor's name may be Johnson, I don't know for we don't get acquainted here in the city. Mary and the kids don't like living upstairs and want to go back to the farm again where they can breathe.

I haven't been working very steady because those what they call unions strike so much, don't tell the Carbons but you can't make any money here and let me know if my old '90" has been sold or rented again. I suppose that red heifer you bought so cheap at my sale gives lots of milk now. How much would you take for her now? Take good care of my dog Bill, for I may want him again. Must go to bed now as we have to get up at five o'clock and ride an hour to my work.

Write me about your crops. Your old neighbor, I. M. Sorre.

Former Farmer "buys" a large flat in city!

Church services will be conducted Sunday by Rev. Claude Spicer of North Branch. Sunday school at the usual hour.

Art Kriker had the misfortune of being kicked in the lower jaw by a horse Tuesday morning. His face swelled up quite a little but no bones were broken so is getting some more well.

THIS "FOG-HORN" NOISELESS

Seems an Anomaly, but Explanation Given Should Convince the Most Sceptical.

This is the latest given to a signaling device to prevent collisions at sea. Part of it consists of a strain that by means of high-pressure steam will produce powerful vibrations with the frequency of fourteen or fifteen vibrations a second. It is contended that these waves, although too low for the human ear to hear, have a great penetrating power. When they are interrupted by some object, such as a ship, a cliff or a iceberg, a sharp, a click or a lebanon, such as a special receiving apparatus on the clock of the vessel.

This receiver is fitted with an ingenious apparatus for registering the strength of the reflected vibrations. It may be possible to learn the distance and even the nature of the object that has intercepted the sound waves.

The area is designed to be mounted on the deck at night or in a fog, when the presence of icebergs or of other ships is suspected, it can be turned in various directions to explore the sea ahead of the ship. The apparatus is said to be still in an experimental stage.

FIRST OF LIVING ORGANISMS

Expert Opinion is That Earliest Forms in Lakes Must Have Been of Vegetable Origin.

Interesting studies have been made by Monty and his assistants in life appearing in the Alpine lakes. One of these, the lake of the Seracs, has been created within human memory, and it seems to justify the statement that the first living forms inhabiting lakes are of a vegetable nature.

Only five living species are found in the lake of the Seracs, all of them plants and four of the order of diatoms. In the older lakes of Ong and Tignes, animal forms begin to appear, feeding upon the diatoms. The first two steps in the population of a lake, according to Monty's conclusions, are first, the appearance of diatoms absorbing carbonic acid dissolved in the water, and second, the appearance upon simple animal organisms, such as rotifers, whose nourishment depends upon the pre-existing vegetable forms. Geologists have supposed that the first living forms in the oceans were vegetable.

Notice to Destroy Weeds

Know all persons by these presents this 23rd day of July 1922, notice is hereby given that Mr. Harris L. Curtis, last P. O., Minnetonka Beach Box 224, Minnetonka, owner of land situated in Twp. 39, Range 20, Section 23, County of Pine shall destroy or cause to be destroyed in a manner herein after described and in compliance with Chapter 318 Session Laws of 1922 all those weeds commonly known as Sow Thistle, and Canada Thistle, and now at this time growing, standing or being upon said land. Said weeds shall be destroyed within 7 days from the date of this notice above given in the following manner: After the expiration of this notice they must be cut and burnt. To be held carefully to prevent seeds from scattering. In compliance with the law, Chapter 318, notice is hereby given and copy of this notice mailed to the address of said owner of said land.

J. F. Enderly
Local Weed Inspector
Henry F. Cornelius, Assistant.

Notice has been posted on the land above noted and copy of this notice is mailed to the land owner and another copy to the Commissioner of Agriculture, St. Paul, Minn.

YOUR OPPORTUNITY: The man who was in about 13 years of age or older, preferably married. He has not yet found the line of business he is willing to make his life's work. He is a man of character and stability and ambition and energy. USCO Users Stick

United States Tires are Good Tires

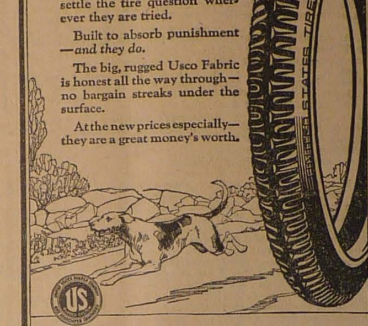

YOU can switch ordinary tire buyers from brand to brand.

But try to switch an Usco user. He knows Usco Fabrics settle the tire question wherever they are tried.

Built to absorb punishment—and they do.

The big, rugged Usco Fabric is honest all the way through—no bargain streaks under the surface.

At the new prices especially—they are a great money's worth.

Hiring a New Office Boy

THE ideal business organization is one where, when a member of the Board of Directors leaves, there is a general advance all along the line; a new office boy is hired and the machine is complete in every detail.

It is toward such an ideal that the Standard Oil Company (Indiana) is striving.

In the selection of employes great care is taken to get young men who may be developed for positions of responsibility and trust. The results of this policy are to be seen by taking a careful check of the higher officers of this Company. Every one of these men has come up through the ranks, many from the lowliest beginning. They have won preferment by unusual fitness, by sheer ability and mastery of the particular work entrusted to their care.

It is this spirit of pure democracy which has made the organization of the Standard Oil Company (Indiana) what it is today—a big, loyal, hard-working group of men and women, bound together by mutual consideration, respect and ambition.

The men in the ranks of the Standard Oil Company (Indiana) have constantly before them the examples of those now directing the Company's activities. They know that there is an open road ahead, and that for the men who show unusual aptitude in any department of the business; unusual ability to vision the future, or to direct the immediate, there are no limitations placed upon advancement. Such men taken from the ranks, will be the directing heads a few years hence.

This spirit, permeating every employe from the top to the bottom, gives the entire organization a pitch of efficiency which enables the Company to render a superior service to 30 million people of the middle west.
