Auto Crashes Through Bridge

A new Dodge Sedan crashed thru the railing and rolled over on the rocks below on the side of the anproach to the Federal highway bridge in Pine City, this afternoon about two o'clock.

The car was driven by Mrs. L. Dahlstrom of Minnespolis and she was acompanied by her three children and Mrs. Elden and Mrs. Urban of the cities. The occupants of the car had a miraculous escape as the only jnimy was a slight scratch received by one of the women on her right clow.

The car was headed south and was just straightening out for the bridge after coming around the curve on the north end of the bridge. The driver stated she was crowded to the side of the road by a car headed north and to avoid hitting them she ran into the guard rail. The car broke through the fence and land-do nits side about 6 or 8 feet be-

These sizes cannot be completed without screens, and according to the highest authorities a screened well can only last a short time. Right in this vicinity last year we drilled seven 5-in wells to replace 2 and 3-inch screened wells that had had only been drilled a short time ago. The Village of Pine City had a 10-in. screened well which never was a success until the screen was removed. Therefore what can be expected of a 2 or 3-inch well? Absolutely nothing.

We are what we eat!

It's a startling fact, yet a simple truth.

This is the reason every one should know that his food is really nourishing—not merely filling.

Grape-Nuts—made from wheat and barley—is one of the few cereal foods that includes the vital mineral salts so necessary for supplying proper nourishment for nerve and bone structure.

In Grape-Nuts, too, is retained the important vitamina of the wheat.

No food has greater fillence in strengthening the same of the same of the way of nourishment.

Grape-Nuts is just as delicious as it is healthful, whether served right from the package as a breakfast cereal with milk or cream, with fresh or stewed fruit, or made into an appetizing recipe. Try the suggestion given below.

About Gasoline Prices

THE Standard Oil Company (Indiana) has announced an immediate reduction in the price of gasoline of 6.6c per gallon applicable throughout the entire territory in which it does business.

It asserts that the retail prices thus made are below the cost of production and distribution.

The Governor of the State of South Dakota, buying distress gasoline below cost of production, and charging against the State no adequate cost of distribution, is selling gasoline to the public in the State of South Dakota at 16c per the Sta

The Standard Oil Company (Indiana), operating on its established policy that the customers who purchase its goods should never be compelled to pay a higher price than that fixed and maintained by any competitor, quality and service being duly considered, has met this price.

Other State Executives and Officers of municipalities, with entire propriety, have suggested that any prices made in South Dakota be made applicable in their States. Competitors in other states and communities over the territory, also buying distress gasoline below cost of production, have also cut the prices hitherto established and maintained, in substantial amounts.

In establishing the above price, the Standard Oil Company (Indiana) is not endeavoring to injure any of its competitors in any way.

It deprecates the stand taken by some of its competitors that the Standard Oil Company (Indiana) is endeavoring, by reason of meeting these cuts in price and these demands for lower prices, to put its competitors out of business.

the Standard Oil Company (Indiana) does not wish to put any competitor out of business because it feels that competitors are necessary to the successful conduct of its business. It will welcome a change of attitude on the part of all parties concerned resulting in a reasonable price for gasoline which will enable not only it but all of its competitors to enjoy a reasonable profit. enjoy a reasonable profit.

It recognizes that the majority of its competitors are fine business men, entitled to the fairest treatment both by the public and by this Company.

The present situation is an exact parallel to one where the butcher, the grocer, the druggist, the dry goods and shoe merchants and every other retailer would be forced to sell at less than the wares cost.

How long would it last? What would a condition like this do to all of us—if it persisted and spread?

We want no monopoly—seek none. We want your trade—but only on the basis of quality and service—not as the result of impossible prices.

We want competition—you want us to have it. It makes the scales of business

These are not idle words. They mean just what they say.
