

United States Senator Magnus Johnson to Speak at County Fair

United States Senator Magnus Johnson has ever received, he has been expected to arrive on the eleven o'clock train and will be met at the station by a reception committee of Minnesota friends.

The fair association is fortunate in securing Mr. Johnson for a date, as he is in great demand and while he has been speaking at a month in the state, he is attracting great many people.

Perhaps no senator in the United States has gained the publicity in such a short time over the state as Minnesota's newly elected senator, Magnus Johnson.

ROADS AND POLITICS IS COSTLY MIXTURE

But Minnesota Escapes Uphelds Blamed for Waste of Highway Funds in Some States

Automobile owners in and around Pine City and everywhere in Minnesota are assured by Charles M. Babcock, state highway commissioner, that the auto taxes they pay are going to the road—not one cent for political purposes.

The statement was prompted by a report from the American Automobile association on behalf of the automobile owners of the country against the waste of the road taxes they pay through frequent reorganizations of highway departments for political and like reasons.

"Economic loss resulting from frequent changes in administration with corresponding changes in legislative apportionment," said H. G. Shirley, chairman of the good roads board of the national association.

The bulletin adds that the good roads board recommends closest cooperation between automobile owners and highway departments, preferably through automobile clubs.

A Few Facts Regarding Coal Prices Mr. Coal Consumer: We believe it is only fair to you and to us for you to understand a few facts regarding the fuel situation here in Pine City.

1-Coal is sold cheaper in Pine City, and for the last five years has been sold cheaper, than in any city between St. Paul and Duluth, without exception.

2-Coal is sold in Pine City on a gross margin of less than ten per cent on cost. Few businesses have ever tried to deal with the public on a fairer basis than this. In fact, they cannot.

3-Any attempt to sell coal at less than the prices we have tried to maintain is an unfair, unlawful attempt to destroy legitimate competition and when this competition is destroyed, you—the public—will pay.

A Few Facts About the Bonds

For the purpose of clearing up the confusion of misunderstanding concerning the proposed paving bond issue by the county, few explanations of the situation may be of service.

The first action of the County Board with respect to the bonds was in the form of two resolutions, one for the issue of \$100,000 of bonds the same or so much thereof as might be necessary to be used on Trunk Route No. 23.

On account of the scarcity of material to hand the county is maintaining Route No. 1 in the south end of the county with view of saving to the county this excessive cost of maintenance.

By their action in opposing the plans of Commissioner Babcock based on sound economic grounds, these interests at Sandstone are placing Pine County in direct conflict with Commissioner Babcock through purely selfish motives and against the real interests of Sandstone.

3. The judges will sit in nearly all departments he exports from the Agricultural College, or exhibits in their lines selected from outside of Pine County.

4. Exhibitors of livestock must inform themselves how livestock will be judged. Stock must be in the ring promptly when called. It is our intention to judge these departments during the morning of the second and third days and thus not interfere with the exercises of the afternoon.

5. Farm products, fruits, flowers, domestic and hand-made goods must be the production of the exhibitor or some member of the family to be entitled to compete for prizes.

6. Exhibitors are entitled to exhibit any number of articles, but no article can be entered in more than one class except where noted. Entries of stock limited to only one in a class.

7. Where there is but one exhibitor competing for a premium, the judges may recommend no prize for a premium, or second or third premium as merit may warrant.

8. Entries for premiums may be made to the superintendent or superintendents of the various departments, either personally or by letter, but all animals or articles for exhibition must be on the premises not later than 6 p.m. the first day of the fair, as judging will begin at 9:00 a.m., September 10th.

9. Awards for premiums will be designated by card or ribbon as follows: First blue, second, red, third white.

10. The managers will provide police protection day and night and take necessary precautions for the protection and preservation of stock and articles on exhibition, but will not be responsible for any loss or damage that may occur.

11. All exhibits in the division of culinary, dairy products, vegetables, flowers, fruits and seeds must be made, grown or produced within the year 1923 and owned by the exhibitor.

12. In accordance with the general practice of more advanced fairs throughout the state, the society will sell to exhibitors at cost or allow them to furnish their own feed.

An exception will be made in the poultry department which will be cared for as noted in the premium list.

All entries MUST BE MADE BEFORE 6 P. M., Monday, September 10th.

The right is reserved to accept or reject any entry offered.

Every animal or article must be entered in the name of the owner.

An entrance fee of \$1.00 will be required from exhibitors, which will entitle the exhibitor to a ticket in any or all divisions from F to L inclusive. \$1.00 exhibit fee required from each separate department.

13. Premiums will not be awarded on articles that are inferior or not considered worthy by the judges, regardless of lot.

14. Premiums not claimed within 60 days after the close of the fair will be considered forfeited to the society.

PREMIUMS WILL BE PAID ON THOSE ANIMALS AND ARTICLES LISTED IN THE PREMIUM LIST AND ON NO OTHER EXHIBITS.

No changes, additions, or alterations will be permitted after the books are placed in the hands of the judges, and all animals entering animals must be sure that the stock is entered in its proper class. It will be the duty of the judges to rule out any animal not corresponding with the premium list.

The Pine County Agricultural Society reserves to its board the final and absolute right to interpret these rules and regulations and settle all questions and differences arising therefrom.

Inquiries as to terms and application for space for collections will be made to the secretary.

LIVESTOCK DEPARTMENT
No exhibition of livestock shall be allowed to make more than one entry in one lot.

Exhibitors of live stock to be received by the Secretary to make exhibits that such live stock has not been exposed to contagious or infectious diseases within the last three months.

5. Sires, dams and groups entered as such must be owned by the individual or firms exhibiting them, but the progeny of animals may be shown simply as proof of their breeding qualities without such ownership. An Association bill may be shown with an association herd or with only one member here.

ANALYZES CROP TRANSPORTATION SITUATION IN N. W.

Car Shortage and Traffic Delays are Guarded Against—Careful Preparation Made, Northern Pacific Vice President Says

Transportation preparedness for handling 1923 crops in the Northwest was analyzed today by J. M. Rapelje, vice president of the Northern Pacific railway, insofar as his company is concerned, in a detailed statement issued to operating employees.

"Our new crop is now beginning to move and it is natural to look around and see just how much we have accomplished in preparing ourselves to handle this crop.

"This year sees the completion of our automatic block signals from the twin cities to Hugo, Soudan. This work started some years ago, has cost the company approximately four million dollars, but it has increased capacity for moving business a most important of all, it makes a railroad a very safe railroad to travel and work on. Incidentally, we cannot help but feel some pride in the fact that our line is the first northwestern line to complete its automatic signaling to the coast.

No Traffic Delays Because of Traffic Defects

"Next, a word about our track. I want to emphasize the fact that we have been spending this year, as you know, much more money than an average year warranted, all with the idea of securing for ourselves a very strong, well ballasted railway for moving this year's business. My recent trip to the coast convinces me that, on the completion of the work now under way, we will have no weak spots that will slow up traffic no cause for complaint this fall or winter.

"Locomotives are an essential item in moving crops. On our locomotives, as with our track and our cars, we have been spending far more money than our income warrants, but at the idea of taking care of the people who depend on us to move what they raise and what they will need to buy during the coming fall and winter. Then also, it sometimes seems uneconomical to purchase a lot of new locomotives when we actually need them for only about three months this fall and that instead we should get along with those we have even if a little delay in traffic resulted. But we have not looked at it this way and consequently are now receiving 40 new modern locomotives which will cost us nearly three and a half million dollars.

"Then, with reference to the condition of the 1389 locomotives we now own. On April 1st we had 21.5 per cent of these engines out of service for repairs. By working gulf forces and by constant crowding of work so that our shops turned out 85 engines in May, our mechanical department have now reduced this to 14.8 per cent, taking account of the new engines we are now receiving. This reduction of 6.7 per cent means providing ourselves with 94 more locomotives than we had followed policy of taking a chance on fewer engines with some little delay to traffic.

Car Shortage Guarded Against

"Finally, a word on cars. We own at present 45,989 cars. Last fall and winter you will recall some serious trouble because a large proportion of our cars were tied up in congestion in the east. For example, in November when we had only 32,290 cars including foreign cars on our line, or about 13,699 short on our ownership. Since November, clearing up of congestions in the east, plus extreme efforts to get our equipment returned, has resulted in our getting on our line 45,500 cars or a return of about 11,000 cars in eight months. But when one of our cars returns it invariably requires more or less repairs, usually more, and the returning cars brought our out of service percentage up to 11.4 per cent on March 1st. Again we look no chance on our patron's suffering by such condition and a great deal of money was spent to

repair these unserviceable cars, when actually we could hardly afford to do so. Our percentage is now down to 8.5 per cent. This reduction of 2.9 per cent means providing our patrons with about 1200 more cars than they otherwise would have had, had we pursued the opposite policy. Then, in addition to this, we have bought and are now receiving 4570 new cars of different kinds which will cost us over eleven million dollars.

"I come now to the purpose of this letter. Our crops will shortly begin to move and we hope our facilities will be taxed to their limit. Then our entire staff must, in a personal way, beg for the co-operation of patrons to load cars to capacity, reduce time of loading and unloading, in addition to making maximum miles per day for every car in transit. At that time, or at any time, in fact, our line officers with above facts in mind are in a position to state convincingly and positively that we as a railway have done everything which money and energy can do to provide our patrons with good safe track and ample cars and locomotives and that we can consistently urge our patrons to do their share."

Dear Neighbor Bill:
 Last week when I paid my rent I thought I was buying the flat I live in. That money would have paid the taxes on my old farm for a year. My next flat neighbor's name may be Johnson, I don't know for we don't get acquainted here in the city. Mary and the kids don't like living upstairs and want to go back to the farm again where they can breathe.

I haven't been working very steady because those what they call unions strike so much, don't tell the Carlsons but you can't make any money here and let me know if my old "809" has been sold or rented again. I suppose that real helper you bought so cheap at my sale gives lots of milk now. How much would you take for her now? Take good care of my dog Bill, for I may want him again. Must go to bed now as we have to get up at five o'clock and ride an hour to my work.

Write me about your crops. Your old neighbor,

Mr. and Mrs. D. W. Scofield returned from South Dakota last week. They spent the summer on their farm there. Mrs. Allan Lindquist came up from Wyoming for a visit with her parents, Mr. and Mrs. Scofield.

The Petschel Garage raised the Dodge Sedan that went through the fence on the approach to the bridge last Thursday and after repairing it here delivered it to the owners in Minneapolis. The car was quite badly damaged but not nearly as bad as would be expected from the drop it took on the rocks.

Miss Evangeline Frankon left for the Twin Cities last Monday and will join her brother Roy at LaCrescent where they will begin a series of recitals before resuming their work at the McFalls School of Music which opens September 10th.

Mr. and Mrs. Sagonen accompanied J. O. Simonson of Barron, Wis., to St. Croix Falls Sunday August 19. Mrs. Sagonen remained to visit her brother Hores Stevenson while Mr. Sagonen went to Barron and then to Westby, Wis., to visit his sister. He also visited Chippewa Falls and Oakland.

E. J. Valley arrived from Alamosa county, Iowa, last Thursday and moved onto the Joe Trenda farm east of town which he has purchased. Mr. Valley will specialize in raising poultry and plans on going into that line on quite an extensive scale.

Art Biedermann covered himself with glory at the Moose Lake-Lindstrom ball game at the latter place last Sunday afternoon when he knocked a home run over the fence, bringing in a man on second with two runs. He also hit the lead with a 3 to 2 score. That made the game look like for the Lake team until Dale Stenman stepped up to bat and drove one out of sight for a home run scoring a man on second which gave the game to Lindstrom. Art had no perfect batting average for the day as he got three safe hits and a walk out of four times at bat.

Miss Melba Wiley entertained a host of young friends at a birthday party at the home of her parents last Tuesday afternoon. The little folks present had a dandy fine time playing games and enjoyed a big birthday feast when the happy birthday was brought to a close in the evening.

Mrs. Jas. Petschel, Alice and Harry drove to Deerswood and Crosby last Thursday where they visited with relatives until the end of the week. Mr. Marie Sisson accompanied them as far as Milaca where she visited until their return, coming home with them Saturday.

S. B. Wells suffered an injury on Wednesday of last week when he was accidentally struck by a hay rack as a wagon was being driven out of the yard. It hit him on the left side and broke one of his ribs. While the injury is very painful he is able to be around all right.

Miss Margaret Manner of Little Falls is visiting with Mrs. Catherine Hawley this week. Miss Manner will teach the fourth grade in the local school this year. Miss Manner leaves for Remount tomorrow where she will teach the junior high school this coming school term.

Marion Lones and family, accompanied by Mr. and Mrs. W. F. Glasow left on a short automobile trip the first of the week and will visit at the home of Mr. Lones' brother in Troy and then go on to Melroy where they will visit at the Arthur Friend home.

Mr. and Mrs. Robt. Clark arrived from Kirksville, Mo., last Monday evening and will visit for a few days at the home of his parents, Mr. and Mrs. W. W. Clark. They made the trip by automobile. Mr. Clark junior has been studying osteopathy the past two or three years and will complete his course this coming winter.

Mr. and Mrs. James Gardner with their daughters Florence and Ruth and son Emmanuel and child Dorothy returned from a ten day auto trip last Tuesday evening. They visited friends and relatives in the southern part of the state and at St. Paul and North Branch and report an excellent time on their trip.

Miss Inger Jensen came up from St. Paul a few days ago. She has spent the summer in the Twin cities.

Maurice Weinberger expects to leave next Sunday for Detroit, Mich., where he will attend the university there this coming term. He has been employed by the Power company here the past couple of months.

J. B. Minar and family were up from New Prague last Saturday and visited with his brothers, Chas. W. Valentine and Edmond. Minar who is farming east of town. Mr. Minar was a resident of this community about 25 years ago and their many friends in this region were glad to see them. They also visited old friends at Beroun while here.

Last Pofert left for the state fair grounds with his exhibit last Monday, so as to have plenty of time to have everything in place for the opening of the fair on Saturday of this week.

Wendell Huber took one of the county trunks and took the exhibit down for Mr. Pofert. The county exhibit department at the state fair this year will be by far the largest they have had.

Quite a crowd attended the picnic meeting of the Pine County Farm Bureau Unit meeting at the A. W. Sommer home last Sunday afternoon. Horse shoe pitchers from Rush City were up and took on the local boys for a little tournament. Forty-eight games were played and the statist captured 41 of the games, the balance being won by the Pine City shoe tossers.

Mr. Erridge is back at his work in the Madden feed store returning from Duland, S. D. last week where he put in a few weeks on his farm there during harvesting. Mr. Erridge reports the loss of lots of cattle in South Dakota, caused by anthrax.

This is an animal disease that is very contagious and very little is known about it. There was an epidemic of anthrax in 1904 which killed thousands of heads but it hasn't been prevalent until this year.

P. F. Stary, who was here from Worthington last Saturday, had his car standing in front of the John DuVal farm north of town in the evening when a car ran into the back of it. Mr. Stary was standing across the road talking to Mr. DuVal. His car was on the extreme right side of the road headed north.

A Ford roadster occupied by two men from Braham came tearing up the road from the south, hit the left side of the Stary car and after fox-trotting across the road came to rest on its side on the west side of the road with the nose pointing toward Pine City. It was a badly wrecked fender, minus a couple of wheels, front ax torn off and windshield frame and other parts caved in. The rear fender on the Stary car was torn off and the wheel scattered around the road.

Accounts of the accident were scratched up a little but received no serious injury. The tall light on the Stary car was burning out. A little too much "fire-water" evidently quered the vision of the approaching driver and all lights looked the same to him.

Mr. and Mrs. Ed Larson and children from Rockford, Ill., and Mrs. Larson's sister, Esther Larson of Chicago, arrived yesterday for a visit at the Eric Sandberg home. Mrs. Larson is a niece of Mrs. Sandberg.

NEXT WASH DAY

Let the

Gainaday Oscillator Show You

(in your own home), a new and better way of washing your clothes. It will cost you nothing. See for yourself that you need a Gainaday Oscillator to banish forever wash day drudgery—to save your time, health and strength.

This Gainaday demonstration is intended to be made under the actual conditions you face each wash day.

We want you to test the machine thoroughly; let your washing include your daintiest pieces, as well as the every-day garments, such as children's underclothing, dresses, rompers, etc.

You'll see how the over, under and through action of air and hot, soapy water in the Gainaday cannot fail to wash the clothes clean. You will like the sturdy reversible wringer which swings in 8 different positions and locks in each one. There are no belts or pulleys about the Oscillator. That means no worries over injuries to the kiddies or yourself. The power from the motor is transmitted through gears—you will never know they are there—they work so efficiently.

After you see the beautiful results with your own clothes—how much time and labor it saves—we know you will want a Gainaday in your home always. Its sturdy construction assures, with proper care, it will last a lifetime. You will be surprised at the low cost of the Gainaday Oscillator—you can buy it out of what it will actually save in a year, and have plenty of time to pay for it.

FORGERS UPSET EXCHANGE

100 Bogus Checks Discovered—Used to Buy Securities.

New York—Postoffice inspectors, police and private detectives joined hands to run down the authors of a widespread plot to upset the stock market by dumping bogus checks and orders to buy, backed by worthless checks running into the millions.

Wall street generally has regarded the scheme to unscrupulous traders, seeking to influence prices for their own ends, although the possibility was not lost that there was no someone disgruntled person might have thrown the monkey wrench into the gears of the New York stock exchange.

HOW A RIP-ROARING RADICAL WAS TAMED

By JOHN OAKWOOD

The best story of the taming of a radical I have ever read is told by A. B. Farquhar in his book "The First Million the Hardest." It throws more light on the meaning of capitalism and the futility of socialism than a library full of books on sociology, economics and politics. Here it is as Farquhar tells it:

"The best antidote for acute economic insanity is ownership of property. My favorite example is Otto Steininger. He was one of my first converts. He insisted that all wealth came from the workers and therefore he should go back to the workers. He was particularly bitter against his landlord and hardly a week went by that he did not announce that he had definitely decided that he would like to shoot the landlord the next time he came around for the rent. Finally I asked him smilingly after one of these outbreaks:

"Boy, Don't Shoot

"Why don't you buy your own house instead of shooting your landlord? Then you would not have to pay any rent. If you do shoot him you may get into trouble."

"He did not think much of the idea apparently but in a day or two he asked me how he could buy a house. I answered: "That house can be bought for \$300. You are getting good wages. I will buy that house for you, take \$4 a week out of your wages and in less than four years you will have it paid for."

"He went off again. The next time he came back it was with his wife. He said: "We are going to buy that house but since we have no children you can take \$10 instead of \$4 a week out of my pay envelope."

"I bought the house and then Otto's chief concern was to get it paid for, which he did in a little more than a year. There was another house next door to him. In a short while after he had paid for his first house, he sidled up to me and said:

"I can buy that house next door for a thousand dollars. Now that I have no rent to pay we are getting along good. What would you think about me buying that?"

"He bought that house and joined the hated landlord class. Some years later when it was reported that a band of strikers were advancing to shut all the factories, Otto rushed into my office at the head of an excited group of men from the shop yelling:

"Get us a lot of shotgun and we'll keep those fellows out of here! Those fools expect a man to work and save and then walk to town and take what he has got without paying for it!"

"And that," Farquhar concludes, "I think, is always the way to develop a conservative."

False Teeth Choke

Man Falling in River

Pittsburgh, Pa.—Charles E. Logan, marine engineer on the government steambot Swan, was taken to death by his false teeth when he fell into the Monongahela river.

It had been thought Logan was drowned when he fell into the water while hurrying back to his boat from a visit to his fourteen-year-old daughter. He had dreamed the child had been drowned and hurried home to learn the dream was false.

Grave Digger Finds 55 Snakes.

Strattonville, Pa.—A nest of 55 garter snakes was dug up here by Frank Freeman and Anthony Hartzel. While they were digging a grave in the Methodist cemetery. This grave digger was down about four feet when the writhing mass of reptiles was unearthed.

Gets \$1,000 to Repay \$51 Loan Made in 1912

Hornell, N. Y.—Edward Congdon, Erie train dispatcher, has received a draft for \$1,000 in payment of a loan of \$51 in 1912. Congdon and John Griffin of Omaha had been friends in Japan. They met later in San Francisco, where Griffin, who was broke, Congdon bought him a ticket to Omaha and gave him money besides, Griffin promised to repay. Congdon got a letter from an Omaha lawyer saying \$1,000 had been deposited to his credit by Griffin.

POULTRY GROWERS WILL BE MONEYS AHEAD

Poultry growers will be moneys ahead if they will cull all the losers in the flock this fall and keep over winter only those hens that actually lay their board. It is not yet too late to do this work.

At the Head of Everything.

At the head of all the sciences and arts, at the head of civilization and progress, stands—not in competition, science that kills, not commerce, the art that accumulated wealth—but agriculture, the mother of all industry, and the maintainer of human life—far, far, far.

How to Hang Old Glory.

When the flag is hung on a wall or against a building, the blue field should be to the left of an observer. If the flag has no background—hanging in the street or out in the open—the field should be to the right of the staff.

Of Indian Origin.

Our word for that malevolent animal we call a skunk is an abbreviation of the Indian word *segunik*. In England the animal is known as a polecat.

Where Man Is

WHEREVER, in the ten Middle Western states, you find men, there you will find the Standard Oil Company (Indiana) ready and anxious to serve.

This is literally true, whether it be in a hamlet of a dozen homes in Western Kansas, or in the heart of Chicago, St. Louis, Minneapolis or Detroit.

This condition stems from the fundamental policy of this Company—Service.

Service as interpreted by the Standard Oil Company (Indiana) means that wherever a man may be he must have petroleum products available for his use when he wants them and in quantities to suit his needs.

To this end this Company maintains a system of distribution that has no superior in the world. It is far-reaching, dependable, convenient and operates with machine-like precision.

It is composed of thousands of tank cars; bulk and storage depots located strategically to guard against possible transportation interruptions; service stations every few blocks in the cities; through garages and filling stations by the thousands; and fleets of motor trucks to insure prompt deliveries even to the remote corners.

The above sketches the pysical equipment which only takes on its true character as an agent of service when you consider the spirit of the organization back of it all.

The Standard Oil Company (Indiana) is made up of 27,000 loyal, earnest, hard-working employees, managed by a Board of Directors of ten men.

Every individual in the organization—from the Chairman of the Board of Directors to the boy who is just starting—has a pride in the size, efficiency and reputation of the Standard Oil Company (Indiana).

Every individual realizes and is animated by the firm conviction that the continued success of this Company lies in rendering to the public a cheerful, comprehensive, enduring service.

It is a well-grounded principle of the Standard Oil Company (Indiana) that by rendering the utmost of service to the thirty million people of the Middle West that good-will and profits follow—as sure as night follows day.

PAIR EXCHANGES

Mrs. Adolph Strobel, of San Francisco, whose sociological knowledge is being widely utilized by the government, said in a recent interview:

"It often happens that the most questionable couples are in some strange way the most united ones."

"A woman with a notoriously brutal husband was being commiserated with one day by a neighbor."

"I feel for you all the more," the neighbor wound up complacently, "because your husband is so indulgent."

"Yes," said the other woman. "It's pretty generally agreed that he indulges too much."

HISTORY MADE IN PAPER FACTORY

French Revolution Said to Have Had Its Inception in Institution of the Revellions. History records that it was at a wall paper factory that the famous Royal Manufactory of Revellion, that the French revolution broke out on April 30, 1789.

Included among the first wall paper makers in America was Joseph Bunsell, of Boston, who traveled in France in 1824, and also ten years later. He left an interesting diary of the industry. Bunsell visited the paper works in Angers and in his diary wrote that Zaber had succeeded in 1829 in making the first paper in continuous rolls at a paper factory in Angers, France. A few years later he took back from Manchester, England, the first wall paper printing machine in all wall papers were made printed in design that were mostly hand.
